CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

CERTAIN CONVENTIONS

All references to “India” in this Draft Red Herring Prospectus are to the Republic of India and its territories and possession and all references herein to the “Government”, “Indian Government”, “GoI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable.

All references in the Draft Red Herring Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America.

In this Draft Red Herring Prospectus, the terms “we”, “us”, “our”, the “Our Company”, “the Company”, “Technocrats Plasma Systems Limited” and “TPSL” and, unless the context otherwise indicates or implies, refers to Technocrats Plasma Systems Limited. In this Draft Red Herring Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “Ten Lac / Lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crores”.

Unless stated otherwise, all references to page numbers in this Draft Red Herring Prospectus are to the page numbers of this Draft Red Herring Prospectus. Unless otherwise specified, any time mentioned in this Draft Red Herring Prospectus is in IST.

FINANCIAL DATA

Unless stated otherwise, throughout this Draft Red Herring Prospectus, all figures have been expressed in Rupees and in Lakhs. Unless stated otherwise, the financial data in the Draft Red Herring Prospectus is derived from our financial statements prepared and Restated Financial Statements, for the period ended June 30, 2025 and Financial Years ended March 31, 2025, 2024, and 2023 in accordance with Indian Accounting Standards, the Companies Act and SEBI ICDR Regulations, 2018 included under Section titled “*Restated Financial Statements*” beginning on page 291 of this Draft Red Herring Prospectus. Our financial year commences on April 1 of every year and ends on March 31st of every next year.

There are significant differences between Indian GAAP, Ind AS, the International Financial Reporting Standards (“IFRS”) and the Generally Accepted Accounting Principles in the United States of America (“U.S. GAAP”). Accordingly, the degree to which the Ind AS financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practice. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Business Overview*”, “*Management Discussion and Analysis of Financial Conditions and Results of Operations*” and elsewhere in the Draft Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s Restated Financial Information prepared in accordance with the applicable provisions of the Companies Act, Ind AS and restated in accordance with SEBI ICDR Regulations, as stated in the report of our Peer Review Auditor, set out in section titled “*Restated Financial Information*” beginning on page 291 of this Draft Red Herring Prospectus.

For additional definitions used in this Draft Red Herring Prospectus, see the section “*Definitions and Abbreviations*” on page 1 of this Draft Red Herring Prospectus. In the section titled “*Provisions of the Articles of Association of the Company*”, on page 412 of this Draft Red Herring Prospectus, of the Draft Red Herring Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

CURRENCY AND UNITS OF PRESENTATION

All references to:

“Rupees” or “INR” or “Rs.” Or “₹” are to Indian Rupee, the official currency of the Republic of India; and “USD” or “US\$” are to United States Dollar, the official currency of the United States.

Our Company has presented certain numerical information in this Draft Red Herring Prospectus in “Lakhs” units. One Lakh represents 1,00,000. In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures derived from our Financial Statements in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places.

EXCHANGE RATES

This Draft Red Herring Prospectus may contain conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Indian Rupee and other foreign currencies:

Currency	As on June 30, 2025	Financial Year Ended		
		March 31, 2025	March 31, 2024	March 31, 2023
1 USD*	85.54	85.58	83.37	82.22

** If the RBI reference rate is not available on a particular date due to a public holiday or any other reason, the exchange rate of the previous available working day has been disclosed. Note: Exchange rate is rounded off to two decimal places.*

All figures are rounded off to two decimal places.

Time

All references to time in this Draft Red Herring Prospectus are to Indian Standard Time (IST). Unless stated otherwise, or the context requires otherwise, all references to a “year” in this Draft Red Herring Prospectus are to a calendar year.

INDUSTRY & MARKET DATA

Unless stated otherwise, industry and market data and forecast used throughout the Draft Red Herring Prospectus was obtained from internal Company reports, data, websites, Industry publications report as well as Government Publications. Industry publication data and website data generally state that the information contained therein has been obtained from sources believed to be reliable, but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe industry and market data used in the Draft Red Herring Prospectus is reliable, it has not been independently verified by us or the BRLM or any of their affiliates or advisors. Similarly, internal Company reports and data, while believed by us to be reliable, have not been verified by any independent source. There are no standard data gathering methodologies in the industry in which we conduct our business, methodologies, and assumptions may vary widely among different market and industry sources.

The extent to which industry and market data set forth in this Draft Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources. The data used in these sources may have been reclassified by us for the purposes of presentation. Accordingly, no investment decision should be made solely on the basis of such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those disclosed in chapter titled “**Risk Factors**” beginning from page 36.

In accordance with the SEBI ICDR Regulations, the section titled “**Basis for Issue Price**” on page 147. of the Draft Red Herring Prospectus includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the BRLM, have independently verified such information.

FORWARD – LOOKING STATEMENTS

All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute forward-looking statements. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements. These forward-looking statements include statements with respect to our business strategy, our revenue and profitability, our projects and other matters discussed in this Draft Red Herring Prospectus regarding matters that are not historical facts. Investors can generally identify forward-looking statements by the use of terminology such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “may”, “will”, “will continue”, “will pursue”, “contemplate”, “future”, “goal”, “propose”, “will likely result”, “will seek to” or other words or phrases of similar import. All forward looking statements (whether made by us or any third party) are predictions and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Further, the actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to our Sector in India where we have our businesses and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and overseas which have an impact on our business activities or investments, the monetary and fiscal policies of India and other jurisdictions in which we operate, inflation, deflation, unanticipated volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and / or acts of violence. Other Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

1. Our ability to successfully implement our strategy, our growth and expansion, technological changes.
2. Failure to attract, retain and manage the transition of our management team and other skilled & unskilled employees;
3. Our ability to protect our intellectual property rights and not infringing intellectual property rights of other parties;
4. Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
5. Inability to successfully obtain registrations in a timely manner or at all;
6. General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
7. Our ability to effectively manage a variety of business, legal, regulatory, economic, social and political risks associated with our operations;
8. Recession in the market;
9. Changes in laws and regulations relating to the industries in which we operate;
10. Our ability to meet our capital expenditure requirements;
11. Failure to adapt to the changing technology in our industry of operation may adversely affect our business and financial condition;
12. Failure to obtain any approvals, licenses, registrations and permits in a timely manner;
13. Changes in political and social conditions in India or in countries that we may enter, the monetary and interest rate policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
14. Occurrence of natural disasters or calamities affecting the areas in which we have operations;
15. The performance of the financial markets in India and globally;
16. Any adverse outcome in the legal proceedings in which we are involved;
17. Our ability to expand our geographical area of operation;
18. Concentration of ownership among our Promoters;
19. Our ability to win new contracts through competitive bidding;
20. Long lead time for project completion and receipt of revenue;

For further discussion of factors that could cause our actual results to differ, see the Section titled “**Risk Factors**”; “**Business Overview**” and “**Management Discussion and Analysis of Financial Conditions and Results of Operations**” beginning on page 36, 208 and 299 respectively of the Draft Red Herring Prospectus. By their nature, certain market risk disclosures are only estimating and could be materially different from what actually occurs in the future.

As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward looking statements reflects views as of the date of the Draft Red Herring Prospectus and not a guarantee of future performance. By their nature, certain market risk disclosures are only estimates and could be materially different from what occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company / our Directors nor the Book Running Lead Manager, nor any of its affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the Book Running Lead Manager will ensure that investors in India are informed of material developments until the listing and trading permission is granted by the Stock Exchange(s).

SECTION II – SUMMARY OF THE ISSUE DOCUMENT

This section is a general summary of the terms of the Issue, certain disclosures included in this Draft Red Herring Prospectus and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Draft Red Herring Prospectus or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Draft Red Herring Prospectus, including the sections titled “Risk Factors”, “Industry Overview”, “Business Overview”, “Capital Structure”, “Issue Details in Brief”, “Restated Financial Statements”, “Objects of the Issue” “Promoters and Promoter Group”, “Management Discussion and Analysis of Financial Conditions and Results of Operations”, “Outstanding Litigation and Material Developments” and “Issue Procedure” on pages 36, 164, 208, 100,80, 291, 134, 283, 299,321 and 370, respectively.

SUMMARY OF PRIMARY BUSINESS OF THE COMPANY

Our Company, Technocrats Plasma Systems Limited, was incorporated as a private limited company on November 01, 1994 at Mumbai, Maharashtra and was subsequently converted into a public limited company on September 25, 2025. Our Registered office is situated at Gala No. 6, 7, 8, 105, 106, 107, 108, Nirav-2, Goan Devi Industrial Estate, Sativali, Vasai East, Dist. Palghar – 401 208, Maharashtra, India. We design, manufacture, and supply plastic packaging solutions for domestic and international markets. We are an engineering-led manufacturer of plasma cutting machines, welding equipment and customised automation systems for metal fabrication and related industries in India. Our products are used by customers in various sectors including automotive, construction, shipbuilding, heavy engineering and general manufacturing.

Our product portfolio includes manual and CNC-controlled plate and pipe cutting systems for different material thicknesses and profiles, welding equipment for MIG, TIG, ARC, SAW and laser processes, and automation solutions for cutting and welding lines. Our activities cover understanding customer requirements, preparing system configurations, detailed engineering, fabrication and assembly of equipment, testing, and supply of machines and systems. In addition to supplying equipment, we provide technical consultancy on process selection and layout, site engineering support and digital and cloud-based fabrication support services. We also support customers through installation and commissioning assistance, operator familiarisation, after-sales service and supply of spares and consumables over the life of the equipment.

Since our incorporation, we have been engaged in introducing plasma cutting machines and inverter-based technology machines manufactured in India and in implementing CNC plasma cutting and welding automation systems for metal fabrication applications. We have developed CNC metal plate profile cutting systems and CNC metal pipe profile cutting machines for applications involving complex shapes and joint preparations, as well as a 1000-ampere plasma power source for cutting higher-thickness metal plates. Building on these platforms, our current product development is focused on laser cutting and welding solutions and on enhancing the automation readiness of our systems, so that customers can adopt higher levels of process control and integration in line with their fabrication requirements.

We categorise our offerings into the following product and service verticals:

Category	Sub-Category / Segment	Description / Insights
By Equipment Type	CNC Cutting Systems (Gantry, Miniature, Pipe Profile, Customized)	Advanced computer-controlled machines ensuring high-speed, high-precision cutting of plates, pipes, and structural profiles; essential for process optimization and repeatability in fabrication setups.
	Plasma Cutting Machines (CNC, Manual, Portable, Automation-Integrated)	Utilizes plasma arc technology for efficient and accurate cutting of conductive metals; available in stationary CNC tables or portable, semi-automatic variants to suit varying production scales.
	Gas Cutting Machines (Semi-Automatic, Portable, Shape-Cutting)	Oxy-fuel-based systems designed for thick-section steel and heavy fabrication; extensively used in shipbuilding, infrastructure, and process industry applications.
	Laser Metal Cutting Systems (Fiber, CO ₂ , CNC-Integrated)	High-precision, non-contact cutting systems enabling clean edges, minimal material distortion, and high repeatability; widely used for sheet metal, intricate profiles, and automated fabrication environments.

	Combined Fiber Laser + Plasma + Oxy-Fuel Cutting Systems (Integrated Platform)	Integrated CNC thermal cutting systems combining fiber laser, plasma, and oxy-fuel cutting heads on a common platform, enabling processing from thin sheets to ultra-thick plates without inter-asset changeover and supporting rule-based selection of cutting processes based on application requirements.
	Welding Machines (MMA, TIG, MIG/MAG CO ₂ , Submerged Arc)	Covers diode-based, thyristor-based, and inverter-driven power sources for manual and automated welding operations; adaptable across fabrication intensities and industry quality standards.
	Plasma Welding Systems (Micro Plasma, Automated, SPM-Integrated)	Precision welding systems for thin materials, pipes, and tanks, minimizing heat distortion and ensuring weld integrity; widely used in process equipment and pressure vessel manufacturing.
	Laser Welding Equipment (Fiber Laser, Robotic, Automation-Integrated)	Advanced welding solutions delivering deep penetration, narrow heat-affected zones, and high-speed operation; suited for precision assemblies, automotive components, and high-quality fabrication requirements.
	Automation & Robotic Systems (Tank Welding, H-Beam, Penstock, Rail Wagons, Tube Bends)	Automated and programmable setups integrating manipulation, seam tracking, and synchronized control; includes girth welders, longitudinal and transverse systems, and custom SPMs for complex fabrication.
	Self-Powered Next-Generation Machines	Compact, energy-efficient hybrid systems combining cutting and welding capabilities; ideal for mobile, on-site fabrication in remote or large-scale projects.
	Consumables & Accessories	Torches, electrodes, nozzles, oscillators, and related components ensuring operational continuity, reduced downtime, and consistent process quality.
By End-User Industry	Automotive & Auto Components	Automated and precise cutting and welding systems for lightweight materials and productivity improvement.
	Infrastructure & Construction	Structural steel fabrication for bridges, buildings, and urban development; focused on throughput and durability.
	Heavy Engineering & Shipbuilding	Large-format fabrication requiring integrated cutting and welding solutions for pipes and plates.
	Process Equipment & Manufacturing	Precision-driven production emphasizing configurability, process control, and strict quality compliance.
	Other Industrial Sectors	Includes consumer goods, electrical equipment, agricultural machinery, and maintenance operations using modular and portable systems.
By Geography	Western India	Strong base across Maharashtra, Gujarat, and Goa with concentration in fabrication and heavy engineering.
	Southern India	Expanding ecosystems in Chennai, Bengaluru, and Hyderabad with high demand from automotive and machinery clusters.
	Northern India	Significant manufacturing and infrastructure activity in Delhi NCR, Haryana, Punjab, and Rajasthan.
	Eastern & Central India	Emerging industrial centres driven by infrastructure expansion and manufacturing growth.
	Global / Export Markets	Market presence across South Asia, the Middle East, Africa, and Southeast Asia, reflecting growing export demand.
By Project Type	Large-Scale Production	Continuous, high-volume manufacturing typical in automotive sub-assemblies and structural steel fabrication.
	Customized / Prototype Work	Low-volume, high-precision production for aerospace, defense, and specialized machinery applications.
	Maintenance & Repair	Portable and service-oriented cutting and welding systems supporting field maintenance and equipment refurbishment.

Manufacturing Industry” dated December, 2025 prepared and issued by Infomerics Analytics and Research Private Limited)

For further details, please refer to the section titled “**Business Overview**” beginning on Page 208 of this Draft Red Herring Prospectus.

SUMMARY OF INDUSTRY IN WHICH THE COMPANY IS OPERATING

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry forms a specialized sub-segment of India’s Capital Goods sector, under the broader Engineered Goods domain, and is classified under Special-Purpose Machinery (NIC 28299). This industry designs, engineers, and manufactures precision equipment used in metal cutting, joining, forming, and fabrication, serving as a foundational enabler of India’s industrial production, engineering exports, and infrastructure expansion.

The segment encompasses a comprehensive range of systems, including CNC plasma and gas profile cutting machines, pipe and plate profiling equipment, arc and plasma welding power sources, automation-based robotic welding systems, and special-purpose machinery (SPMs). Complementary offerings such as cutting torches, welding electrodes, nozzles, and consumables ensure operational reliability, accuracy, and continuity in production.

Within the Capital Goods value chain, these products contribute directly to engineering-intensive sectors such as structural steel fabrication, heavy machinery, shipbuilding, automotive components, process equipment manufacturing, and general fabrication industries. The industry’s evolution is marked by increasing automation, the adoption of inverter-based digital controls, and integration of CNC and robotic technologies—driving India’s transition toward intelligent and standardized manufacturing systems.

The equipment is engineered for operational resilience—withstanding fluctuating power quality, high ambient temperatures, dust exposure, and prolonged duty cycles—while adhering to domestic and international safety and quality benchmarks. This ensures consistent cutting precision, superior weld integrity, and enhanced operator safety.

Catering to both high-volume fabrication and customized prototyping or maintenance operations, the segment emphasizes energy efficiency, durability, and environmental robustness. By integrating CNC plasma cutting, welding automation, and metal fabrication solutions, this industry not only fortifies India’s Capital Goods manufacturing base but also enhances its global competitiveness in engineered products.

SECTION III - RISK FACTORS

Any investment in equity securities involves a high degree of risk. Investors should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a more complete understanding, Investor should read this section together with Sections titled, “Business Overview”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page no. 208 and 299 respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus.

Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Red Herring Prospectus, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of Investor’s investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. Investors should not invest in this Issue unless they are prepared to accept the risk of losing all or part of Investor’s investment, and Investors should consult their tax, financial and legal advisors about the consequences to the Investor of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Restated Financial Statements prepared in accordance with Indian GAAP, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some risks may not be material individually but may be material when considered collectively.*
- 2. Some risks may have material impact qualitatively instead of quantitatively.*
- 3. Some risks may not be material at present but may have a material impact in the future.*

INTERNAL RISK FACTORS

- Substantial portion of our revenue from operations is from our top 10 customers (which accounted for 93.27%, 83.89%, 55.70% and 61.68% of our total revenue from operations for the period ended June 30, 2025, and Fiscal Year ended March 31, 2025, March 31, 2024 and March 31, 2023). Loss of any such customers or reduction in business or demand from such customers will have a significant adverse impact on our business and results of operation.**

We derive a significant portion of our revenue from sale of products from our top 10 customers. The table below sets forth our revenue from our top 5 customers and our top 10 customers as a percentage of our revenue from operations for the period / year indicated:

(₹ in Thousands unless stated otherwise)

Period	Revenue from operations	Revenue contribution of our top 10 customers	% of Revenue from Operations	Revenue contribution of our top 5 customers	% of Revenue from Operations

Loss of all or a substantial portion of sales to any of our top 10 customers for any reason, including, due to limitation to meet any change in quality specification, change in technology, disputes with customers, adverse change in the business and financial condition of such customers, including due to possible bankruptcy or liquidation or other financial hardship, merger or decline in their sales, reduced or delayed customer requirements, plant shutdowns, labour strikes or other work stoppages affecting production by such

customers, and/or, continued reduction of prices to these customers or any adverse changes to the government policies, could have an adverse impact on our business, results of operations, financial condition and cash flow. Although we have not faced any significant loss of customers for the period ended June 30, 2025, and Fiscal Year ended March 31, 2025, March 31, 2024 and March 31, 2023, there can be no assurance that we will not lose all or a portion of our business generated by the customers. We may continue to remain dependent upon our key customers for a substantial portion of our revenues. Further, the deterioration of the financial condition or business prospects of these customers could reduce their requirement of our products and result in a significant decrease in the revenues we derive from these customers. In the event of our failure to retain one or more of our key customers, it will have an adverse effect on our financial performance and result of operations.

Although there have been no material instances of default or termination by our key customers in the period ended on June 30, 2025 and past three financial years ended on March 31, 2025, March 31, 2024, and March 31, 2023, there can be no assurance that similar stability will continue in the future. Any such event could adversely affect our revenue visibility and long-term business sustainability.

- 2. *We are dependent upon few suppliers for the material requirements of our business. Further, we do not have definitive agreements or fixed terms of trade with most of our suppliers. Failure to successfully leverage our relationships with existing suppliers or to identify new suppliers could adversely affect our business operations.***

While we have maintained a long-term relationship with many of our suppliers and we have been able to negotiate favorable credit terms from them due to increased order sizes and timely payments, we cannot assure you that we shall be able to maintain such favourable credit terms in future. In this regard, for the period ended June 30, 2025 and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023, our top 10 suppliers contributed around 98.89%, 93.12%, 43.63% and 30.45% respectively of our purchases. We are, to a major extent, dependent on external suppliers for our raw material requirements; we do not have any long-term supply agreements or commitments in relation to the same used in our business process. Although we have long term relationship with our suppliers, we do not have a formal written agreement with any of them. We get longer credit periods based on our relationship with the suppliers established over a period of time primarily because of continuity of orders placed with them, size of the order and timely payments made to suppliers.

Further, we are also exposed to fluctuations in the prices of raw materials used. Thus, we may be unable to control the factors affecting the price at which we procure our raw material. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Particularly, we face the risk of our products becoming unaffordable if pass on the increase in the cost of production to our customers through a corresponding increase in the price of our products in order to maintain our margins. Upward fluctuation of price of raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial conditions and results of operations.

- 3. *Any disruptions to the supply, or increases in the pricing, of the raw materials and finished products that we procure, may adversely affect the supply and pricing of our products and, in turn, adversely affect our business, cash flows, financial condition and results of operations.***

Raw materials price volatility caused by various factors such as the quality and availability of supply, consumer demand, changes in government programs and regulatory sanctions. Our suppliers may be unable to provide us with a sufficient quantity of our raw materials at a suitable price for us to meet the demand for our products. The prices and supply levels of raw materials are dependent on factors, which are not in our control such as general economic conditions, competition, production levels and transportation costs.

Any increase in raw material prices may affect our procurement of raw materials and will result in corresponding increases in our product costs, while the increase in the selling price of the finished products may not be in proportionate to the increase in raw material price. Such change in pricing may adversely affect our sales, cash flow and our overall profitability.

Our Company's cost of raw material consumed 93.27%, 89.97%, 38.19% and 30.65% of our revenues from operation for the period ended June 30, 2025, and in Fiscal 2025, Fiscal 2024 and Fiscal 2023, respectively. If we are unable to manage these costs or increase the prices of our products to offset these increased costs, our margins, cash flows and our profitability may be adversely affected.

We currently do not have and do not intend to enter into long term contracts with any of the raw material suppliers since we typically place orders with them in advance on the basis of our anticipated requirements. The absence of long term contracts at fixed prices exposes us to volatility in the prices of raw materials that we require and we may be unable to pass these costs onto our consumers and which could negatively affect the overall profitability and financial performance of our business.

Although there have not been any instances in the last 3 financial years and the current financial period where we have faced a shortage of raw materials, we cannot assure you that we will always be able to meet our raw material requirements at prices acceptable to us, or at all, or that we will be able to pass on any increase in the cost of raw materials to our customers. Any inability on our part to procure sufficient quantities of raw materials, on commercially acceptable terms, may lead to a decline in our sales volumes and profit margins and adversely affect our results of operations.

4. Our revenues are significantly dependent on certain geographical regions, and any adverse developments in these regions could adversely impact our business, financial condition and results of operations.

We derive a substantial portion of our revenue from customers located in two States, namely Maharashtra and Gujarat. For the period ended on June 30, 2025 and, Fiscals 2025, 2024 and 2023 accounted for 93.27%, 83.89%, 55.70% and 61.68% of our revenue from operations, respectively, was generated from customers situated in these States. The table sets forth below revenue earned by our Company by offering services in various states as a percentage of our revenue from operations during the period indicated:

As certified by the Peer Reviewed Auditor, M/s Bhasin Hota & Co, Chartered Accountants pursuant to their certificate dated December 30, 2025.

In addition to the above, a small portion of our revenue is derived from exports. During the period ended on June 30, 2025, and, Fiscals 2025, 2024 and 2023, Nil, 0.55%, 0.60% and 0.21% of our revenue from operations was attributable to exports, primarily to Cameroon and Uganda.

The concentration of our revenue in two States (Maharashtra and Gujarat) exposes us to risks arising from adverse economic, social, political, regulatory or infrastructural developments in these regions. Our business may be adversely affected if we are unable to diversify geographically or reduce such concentration risk. Any significant disruption in these regions arising from civil unrest, natural calamities, severe weather conditions, changes in laws and policies, labour issues or other unforeseen circumstances may materially impact our operations, increase costs, delay execution of orders, and reduce revenues. In such instances, we may be required to halt operations or incur additional costs, adversely affecting our business, financial condition and cash flows.

Moreover, this concentration also exposes us to (i) vulnerability to changes in the political, legal and regulatory environment of such States; (ii) the perception that we are a regional company, which may limit our ability to compete for larger or more complex projects at a national level; and (iii) restrictions on our ability to implement strategies to cluster projects across wider geographies.

Although we do generate revenue outside of our core states (Maharashtra and Gujarat), it is currently limited. As we seek to expand into other markets, we may face competition not only from national brands but also from entrenched local players with stronger relationships with authorities, financiers, and customers, and with deeper knowledge of local regulations and practices. Our experience in our current markets may not translate directly to other states, and we may not achieve comparable performance outside our existing geographies.

Although we have not faced any material adverse impact from such concentration in the past, we cannot assure you that adverse developments in these regions will not occur in the future. Any such events could materially and adversely affect our business prospects, financial condition and results of operations.

- Our success is dependent on our relationship with our customers, and we do not, generally enter into long term purchase contracts. This exposes us to risk emanating from the inability to retain our established customers as our clients.***

We derive a significant portion of our revenue from repeat orders placed by our existing customers. However, our business model does not typically involve long-term purchase agreements or binding commitments from customers. Consequently, our ability to maintain revenue stability depends on sustaining strong relationships and continued patronage from these customers. Any deterioration in these relationships—whether due to competitive pricing, technological advancements by competitors, changes in customer preferences, or adverse economic conditions—could result in reduced order volumes or complete loss of business from such customers.

The absence of long-term contracts increases our exposure to market volatility and customer attrition risk. Customers may choose to source similar products from alternative suppliers offering better pricing, shorter delivery timelines, or advanced technology solutions. Additionally, factors such as delays in order execution, quality issues, or inability to meet evolving specifications could adversely impact customer satisfaction and loyalty. If we fail to retain our key customers or secure new customers on favorable terms, our revenue, profitability, and overall financial performance may be materially and adversely affected.

6. *If we are unable to effectively manage or expand our sales and service network or pursue our growth strategy, our business prospects, financial condition, and results of operations may be adversely affected.*

As of the date of this Draft Red Herring Prospectus, our sales and distribution network comprises a combination of direct sales teams, authorized distributors, channel partners, and dealers strategically located across various industrial regions of India. We also maintain service teams that provide installation, commissioning, operator training, maintenance, and after-sales technical support for our plasma cutting machines, welding systems, and automation solutions. The strength and efficiency of our sales and service infrastructure are integral to maintaining customer satisfaction, ensuring repeat business, and supporting our overall business expansion.

Our growth strategy involves strengthening our presence in existing markets, expanding into new geographies, enhancing our distribution network, and improving service responsiveness to cater to the growing demand in the fabrication, metalworking, and allied industrial sectors. However, the success of this strategy depends on our ability to attract, train, and retain skilled technical and sales personnel; maintain strong relationships with channel partners; ensure efficient supply chain coordination; and adapt to varying regional business practices, taxation systems, and regulatory requirements.

Expansion into new markets may expose us to risks arising from unfamiliar business environments, differences in customer preferences, higher distribution costs, varying levels of industrial activity, and regional economic fluctuations. Establishing new service points or recruiting qualified personnel in these regions could involve significant upfront investments with uncertain returns. Furthermore, our dependence on third-party distributors and service partners exposes us to risks related to inconsistent customer experiences, delayed remittances, limited control over pricing or brand representation, and potential conflicts of interest if such partners also represent competitors' products.

Additionally, our ability to maintain efficient after-sales support is critical to our reputation and competitiveness in this industry, where downtime and equipment reliability are key considerations for customers. Any failure to provide timely technical service or spare parts support could negatively impact customer trust and reduce future business opportunities.

We cannot assure you that our expansion initiatives will generate the anticipated level of demand, profitability, or market share growth. If we are unable to effectively manage our existing sales and service network, retain key personnel, or successfully execute our expansion strategy, we may face stagnation in revenue growth and a decline in market competitiveness. Any of these factors, individually or collectively, could materially and adversely affect our business operations, financial condition, and long-term growth prospects.

7. *We require certain approvals, licenses and permits for our operations, and failure to obtain or renew them in a timely manner may adversely affect our business.*

Our business operations require various approvals, licenses, registrations and permissions under applicable laws, rules and regulations issued by the Government of India, State Governments and other regulatory authorities. These include, among others, consents to operate under environmental laws and factory licenses. For details of such approvals and those applied for, see “Government and Other Approvals” on page 327. Many of these approvals are valid for a limited period and are subject to periodic renewal, while some approvals are still in the process of being updated following our conversion from a private limited company to a public limited company.

The approvals we hold are subject to conditions, and additional approvals may be required in the future as our business expands. We cannot assure you that the necessary approvals will be granted or renewed in a timely manner, or at all. Any failure to obtain or renew approvals, or to comply with the prescribed conditions, may result in suspension or cancellation of such approvals, thereby restricting our ability to carry on certain business activities. This could materially and adversely affect our business, results of operations, cash flows and financial condition.

While we have not experienced any material adverse impact from failure to obtain or renew approvals, or suspension or cancellation of licenses, in the last three fiscals, there can be no assurance that such events will not occur in the future.

8. *Our manufacturing operations are concentrated in Maharashtra, exposing us to regional and local risks. Any significant disruption in this region could materially and adversely affect our manufacturing operations, business, financial condition, results of operations and cash flows.*

As of the date of this Draft Red Herring Prospectus, our Company operates through manufacturing facilities located in Gala No. 6, 7, 8, 105, 106, 107, 108, Nirav-2 Industrial Estate, Sativali, Vasai East, Dist. Palghar – 401208, Maharashtra, India and Yatharth Industrial Estate, Gala no. 1& 2, Opposite Nova Industrial Estate, Father wadi, Gokhiware, Vasai East, Palghar- 401208, Maharashtra, India. Our present geographic concentration makes our operations susceptible to risks arising from local and regional factors. These include civil unrest, adverse social, economic or political events, labour issues, changes in state or local government policies, adverse weather conditions, natural disasters, regional conflicts, epidemics, or other unforeseen circumstances in Maharashtra. While we have not encountered any material disruptions in the last three fiscals, there can be no assurance that such events will not occur in the future. Any significant disruption in this region could materially and adversely affect our manufacturing operations, business, financial condition, results of operations and cash flows.

Further, factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in Maharashtra region, and our experience in the Maharashtra region may not be applicable to other markets. In addition, as we enter new markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with suppliers, dealers, relevant government authorities, or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside Maharashtra market may adversely affect our business prospects, financial conditions and results of operations.

9. *Our Statutory Auditor have included certain qualifications in the Annexure to the Auditor’s Report for financial statements pertaining to F.Y. 2022-23*

Our Statutory Auditor have included certain qualifications in the Basis for Qualified Opinion section of the Auditor's Report on the financial statements for the financial year ended March 31, 2023. The details of such qualification are set out below:

- i. The Statutory Auditor have drawn attention to the financial statements for the financial year ended, wherein certain trade receivables, trade payables, advances to suppliers, loans and advances given and loans and advances taken are subject to confirmation of balances and reconciliation with the respective parties and returns. The impact of such non-confirmation and non-reconciliation, if any, on the financial statements could not be ascertained.
- ii. The Statutory Auditor have further observed that the Company has not maintained proper records and reconciliation of inventory, including raw materials and semi-finished goods. In the absence of such records, the valuation and quantitative details of raw materials and semi-finished goods held by the Company as at March 31, 2023 have been taken based on representations made by the management. Consequently, in the absence of confirmations and reconciliation, the impact, if any, on the financial statements could not be ascertained.

Steps taken by the Company to address the above qualifications

The Company has taken and is in the process of taking the following corrective measures to address the qualifications observed by the Statutory Auditor:

(a) Balance Confirmations and Reconciliation:

The Company has initiated the process of obtaining balance confirmations for trade receivables, trade payables, loans and advances. The Company is also strengthening its reconciliation processes and internal controls to ensure timely confirmations and accurate reporting in subsequent financial periods.

(b) Inventory Records and Controls:

The Company has commenced the implementation of enhanced inventory management systems to maintain proper quantitative records and periodic reconciliation of raw materials and semi-finished goods. The management is also enhancing internal control mechanisms and documentation practices to ensure accurate inventory valuation and reporting in subsequent audits.

10. *Exposure to technological obsolescence in a rapidly evolving manufacturing and fabrication landscape. Continued exposure to such risks of technological obsolescence could materially and adversely impact our competitive positioning, revenue growth, and long-term sustainability.*

Our business operates in a highly dynamic and technology-driven environment, with rapid advancements in CNC control systems, high-precision laser cutting, welding technologies, and industrial automation. Continuous innovation is critical to maintaining competitiveness across our product offerings, including manual and CNC-controlled plate and pipe cutting machines, advanced welding equipment for MIG, TIG, ARC, SAW, and laser applications, as well as customized automation systems supported by cloud-based fabrication platforms and technical consultancy.

If we are unable to keep pace with emerging technologies - such as AI-integrated CNC platforms, next-generation fiber laser systems, IoT-enabled welding solutions, or advanced robotic automation - our products may become outdated or less attractive compared to competitor offerings. This technological lag could lead to diminished customer interest, loss of market share, reduced pricing power, and pressure on margins.

Additionally, failure to anticipate or respond to industry shifts such as increased demand for smart manufacturing, energy-efficient solutions, or digital integration could limit our ability to meet evolving

customer expectations. The high capital and R&D investment required to innovate may also strain resources, particularly if product development does not yield expected market adoption.

Continued exposure to such risks of technological obsolescence could materially and adversely impact our competitive positioning, revenue growth, and long-term sustainability.

11. We have certain outstanding litigation against our Company, Directors and Promoters an adverse outcome of which may adversely affect our business, reputation and results of operations.

A summary of outstanding matters set out below includes details of civil proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving us, Directors, Promoters and Group Entity/ Company, as at the date of this Draft Red Herring Prospectus.

* For KMPs and SMPs only the criminal litigation and Statutory or Regulatory Proceedings have been provided/disclosed in line with SEBI ICDR Regulations, 2018, as amended from time to time.

Notes:

The amounts claimed in these proceedings have been disclosed to the extent. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities.

We cannot assure that any of the outstanding litigation matters will be settled in our favour or that no additional liabilities will arise out of these proceedings. In addition to the above, we could also be adversely affected by complaints, claims or legal actions brought by persons, including before consumer forums or

sector-specific or other regulatory authorities in the ordinary course of business or otherwise, in relation to our business operations, our intellectual property, our branding or marketing efforts or campaigns or our policies. We may also be subject to legal action by our employees and/or former employees in relation to alleged grievances, such as termination of employment. We cannot assure that such complaints, claims or requests for information will not result in investigations, enquiries or legal actions by any regulatory authority or third persons against us.

12. *There have been certain instances of delays in payment of certain statutory dues by us. Any further delays in payment of statutory dues may attract financial penalties from the respective government authorities and in turn may have a material adverse impact on our financial condition and cash flows.*

Our Company is engaged in the business of manufacturing and supplying plasma cutting machines, welding equipment, and automation systems to customers across fabrication, metalworking, and allied industrial sectors. Accordingly, we are subject to various statutory levies and compliances under Goods and Services Tax (GST), Income Tax, and other applicable fiscal laws. In addition, we are required to comply with labour and employee welfare laws, including timely deposit of contributions under Provident Fund (PF), Employees' State Insurance (ESI) and other applicable regulations.

During the previous Financial Years, we have had instances of delays in filing of GSTR1/ GSTR3B with respect to GST and EPF, ESI contributions, which have all been paid as on the date of this Draft Red Herring Prospectus. Any demand or penalty raised by the concerned GST / EPF/ESI or any other statutory authority for such late filings may affect the financial position of the company. The Company has now implemented strict monitoring and improved processes to ensure timely filing of returns and timely statutory payments in the future. The table below sets forth the details of the statutory dues paid by us in relation to our employees for the periods indicated:

These delays were primarily due to the administrative and technical errors. We have since taken steps such as channeling more resources towards improving our administrative systems and training our staff to rectify such delays. However, there can be no assurance that such delays may not arise in the future. This may lead to financial penalties from respective government authorities. While we have been required to make payment of

finest/ penalties for delays in payment of such statutory dues, wherever applicable, these have not been material in nature. However, we cannot assure you that we will not be subject to such penalties and fines in the future which may have a material adverse impact on our financial condition and cash flows.

13. There have been instances of delays in filings of certain forms which were required to be filed as per the reporting requirements as well as discrepancies in the forms submitted to the Registrar of Companies (ROC) in accordance with the Companies Act, 2013.

In the past, there have been certain instances of delays in filing statutory forms which have been subsequently filed by payment of an additional fee as specified by ROC. The details of such forms have been provided below:

Certain statutory forms and filings made by the Company in the past do not have readily traceable dates of filing due to legacy record-keeping practices and the non-availability of corresponding challans and supporting documents. While the Company has undertaken reasonable efforts to identify and verify such filings based on available records and confirmations, the absence of challans evidencing the exact dates of filing may result in regulatory observations, inquiries or actions by the relevant statutory authorities. Any such observations or actions may require the Company to undertake corrective measures, incur additional costs or could adversely affect its reputation, business operations, financial condition and results of operations.

No show cause notice in respect to the above has been received by our Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays in relation to its reporting

requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a material effect on our results of operations and financial position.

While the Company has appointed Company secretary and compliance officer to ensure timely compliance in the future, any recurrence of such delays could result in additional penalties and may also impact our ability to undertake certain corporate actions that require Registrar of Companies (ROC) clearance. There can be no assurance that any such delays or associated penalties will not occur in the future.

14. Certain discrepancies have been observed in the statutory filings made by our Company with the Registrar of Companies, which may affect the accuracy of our corporate records and expose us to potential regulatory or compliance actions.

Upon review of the statutory records and filings available on the MCA portal and upon conducting a physical search at the office of the ROC, our Company has identified certain discrepancies and inconsistencies in the forms and documents filed with the ROC. Such discrepancies primarily relate to clerical errors, variations or mismatches in particulars such as shareholding details, paid-up capital, filing dates, or other statutory information when compared with our internal records.

Instances of filings made with improper details:

There is a discrepancy between the date of resignation of Ms. Vandana Sharma, currently the Chief Financial Officer of the Company, as recorded in the internal records and board resolution (effective July 25, 2025) and the date mentioned in e-form DIR-12 filed with the Registrar of Companies (July 17, 2025).

There is also a discrepancy between the particulars set out in e-form PAS-3 filed on March 30, 2022 in relation to the allotment of 55,000 equity shares and the corresponding shareholders' resolution dated March 20, 2022 and Board resolution dated March 30, 2022, which treat the transaction as a preferential allotment under Section 62(1)(c) (supported by a valuation report dated October 05, 2021), and the particulars set out in e-form PAS-3 filed on April 5, 2022 in relation to the allotment of 6,230 equity shares and the corresponding shareholders' resolution dated April 04, 2025 and Board resolution dated April 08, 2025, which also treat the transaction as a preferential allotment under Section 62(1)(c) (supported by a valuation report dated December 20, 2024), whereas the e-form has been filed under Section 62(3) as a conversion of loan into equity shares. Any adverse finding by the Registrar of Companies or other regulatory authorities in relation to these discrepancies may require rectification, payment of additional fees or penalties, and could adversely affect our corporate compliance record and reputation.

Also, there was a discrepancy in relation to statutory filing where we have filed adjudication application for regularisation of the discrepancy. The details of the application is provided below:

While these were voluntarily reported and corrective steps have been taken, there is no assurance regarding the timing or outcome of the proceedings. Any adverse order, penalty, or requirement to undertake additional corrective actions could affect our reputation, involve management time and costs, and may have a bearing on our results of operations and financial condition.

We take our regulatory obligations seriously and are committed to full compliance with all applicable laws, rules, and regulations. The filing errors in the past were unintentional and arose from a lack of professional advice at the relevant time. Going forward, our Company will implement the following additional measures: (1) Training and Development: we will ensure that our Company Secretary undergoes regular training programs conducted by the Institute of Company Secretaries of India ("ICSI") to strengthen understanding and execution of regulatory requirements; and (2) Periodic Audits: we will conduct periodic internal audits of our regulatory filings to ensure that all compliances are met accurately and in a timely manner.

15. We are dependent on our Promoters and Directors, our other key managerial personnel, senior management personnel and employees (including qualified and skilled personnel with technical expertise) for the continued success of our business through their continuing services and strategic guidance and support and if we are unable to recruit and retain such personnel, our business, results of operations, financial condition and cash flows may be adversely affected.

We benefit from our relationship with our individual Promoters and our success depends upon the continuing services of our Promoters and executive Directors who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. In particular, our Chairman and Managing Director, Key Managerial Personnel and our Senior Management Personnel are critical to the overall management of our Company. Their inputs and experience are also valuable for our business, our work culture and the strategic direction taken by our Company. In addition, our Senior Management and Key Managerial Personnel have significant experience in manufacturing, procurement, marketing and, finance and accounting, and has contributed to the growth of our business. For further details, see "Our Management" on page 258. Further, our business depends upon them for its successful execution.

Our future performance would depend on the continued service of our Promoters, Directors, Senior Management, Key Managerial Personnel and qualified scientists, engineers and other research and development personnel, and the loss of any senior employee and the inability to find an adequate replacement may impair our relationship with key customers and our level of technical expertise, which may adversely affect our business, cash flows, financial condition, results of operations and prospects.

While there has been no instance in the last three Fiscals where the resignation of any Senior Management or Key Managerial Personnel had an adverse impact on our business, results of operations, cash flows or financial conditions, we cannot assure you that such instances will not arise in the future. As on date, our Company does not have a business succession policy in place, and there can be no assurance that we will be able to effectively formulate or implement appropriate succession plans in the future. Any loss of members of our senior management team or key personnel could significantly delay or prevent the achievement of our business objectives, affect our succession planning and could harm our business and customer relationships.

Our future success, amongst other factors, will depend upon our ability to continue to attract, train and retain engineers and experienced experts, and there are a limited number of persons with the requisite knowledge of our industry and relevant experience. The market for qualified professionals is competitive and we may not continue to be successful in our efforts to attract and retain qualified people. The specialised skills we require in our industry are difficult and time-consuming to acquire and, as a result, are in short supply. Our inability to hire, train and

retain a sufficient number of qualified personnel could delay our ability to bring new products to the market and impair the success of our operations. This could have an adverse effect on our business, financial conditions, cash flows and results of operations. We may need to increase compensation and other benefits in order to attract and retain personnel in the future, which may adversely affect our business, financial conditions, cash flows and results of operations.

The table below sets forth our employee attrition rate (calculated as total employees who left the organization in the relevant period divided by average number of employees (average of opening and closing headcounts of employees for the relevant year) during Fiscal 2025, 2024 and 2023 and stub period ended on June 30, 2025:

Particulars	Stub Period	Financial Years		
	June 30, 2025	2024-25	2023-24	2022-23
Employee attrition rate (%)	9.09%	60.00%	27.91%	48.78%

Year-on-year employee numbers are provided below:

Particulars	Period	Financial years		
	June 30, 2025	2024-25	2023-24	2022-23
Number at beginning of FY	29	21	22	19
Addition:	11	23	5	13
Resignation:	3	15	6	10
Number at closing of FY	37	29	21	22

Our inability to hire, train and retain a sufficient number of qualified employees could impair the success of our operations. This could have an adverse effect on our business, financial conditions, cash flows and results of operations. Our success also depends, in part, on key vendors and customers relationships forged by our senior management.

16. The restated financial statements have been provided by peer reviewed chartered accountants who is not statutory auditor of our Company.

The restated financial statements of our Company for the period ended June 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023 have been furnished by M/s. Bhasin Hota & Co, Chartered Accountants, a peer-reviewed firm of chartered accountants, which is not the statutory auditor of our Company.

Our statutory auditor, M/s. Piyush Kothari & Associates, Chartered Accountants, is also a peer-reviewed firm. However, the restated financial statements have been prepared and certified by M/s. Bhasin Hota & Co., Chartered Accountants, in accordance with applicable regulatory requirements and SEBI ICDR Regulations, which permit the restated financial statements included in this Draft Red Herring Prospectus to be certified by a peer-reviewed chartered accountant other than the statutory auditor.

17. Our business is dependent on the growth and performance of the fabrication, metalworking, and allied industrial sectors, and any slowdown or adverse developments in these industries may adversely affect our business, financial condition, and results of operations.

Our business performance and growth are significantly dependent on the fabrication, metalworking, and allied industrial sectors, as demand for our plasma cutting machines, welding equipment, and automation solutions is closely linked to capital expenditure and capacity expansion in these industries. Any slowdown or adverse development in these sectors may directly affect our revenue, profitability, and overall growth prospects.

While the fabrication and metalworking industries in India have experienced steady growth in recent years—supported by infrastructure development, industrial modernization, and government initiatives such as “Make in India”—these sectors remain highly sensitive to macroeconomic conditions, raw material price fluctuations,

regulatory changes, and investment sentiment. A prolonged slowdown in capital expenditure by end-use industries such as construction, infrastructure, shipbuilding, automotive, or heavy engineering could lead to reduced demand for our products and services.

Further, technological advancements and changing customer preferences toward automated and high-precision solutions, such as robotic welding and advanced laser cutting systems, present both opportunities and challenges. Our ability to benefit from such trends will depend on our capacity to innovate, invest in R&D, and compete effectively with both domestic and international players. If we are unable to adapt to these changes or if competition intensifies, our business, financial condition, and results of operations may be materially and adversely affected.

Our competitiveness depends on multiple factors, including product quality, customization, pricing, timely delivery, technological capabilities, after-sales service, and customer relationships. Some competitors may offer products at lower prices, better absorb cost increases, or provide more integrated solutions. Multinational players introducing advanced technologies or products could further intensify competition and reduce demand for our offerings.

If we fail to respond effectively to competitive pressures by enhancing our product portfolio, optimizing costs, maintaining quality, and strengthening customer relationships, our market share may decline, and pricing pressures, reduced margins, longer receivable cycles, or loss of customers may result. Any such developments could materially and adversely impact our business, financial condition, results of operations, and cash flows.

18. Sustaining our historical growth rates may be challenging, and any inability to effectively manage expansion could adversely impact our business and financial performance.

Our Company has witnessed significant growth in recent years. Our revenue from operations increased from ₹ 44,559 thousands in Fiscal 2023 to ₹ 60,623 thousands in Fiscal 2024, ₹ 4,93,568 thousands in Fiscal 2025, and ₹ 3,06,824 thousands in period ended on June 30, 2025, representing a Compound Annual Growth Rate (CAGR) of approximately 122.91% over the past three financial years. Our profit for the year, calculated on the basis of our Restated Financial Information, increased from ₹ 15,099 thousands in Fiscal 2023 to ₹ 35,543 thousands in Fiscal 2025 at a CAGR of 33.03%. This growth has been driven primarily by increasing demand for our plasma cutting machines, welding equipment, CNC automation systems, and allied fabrication solutions across diverse sectors such as fabrication, metalworking, infrastructure, automotive, heavy machinery, and engineering industries.

Sustaining such growth will require continued investments in manufacturing infrastructure, technology upgradation, skilled workforce, distribution networks, and working capital. Expansion in the scale and complexity of operations may strain our management capabilities, internal control systems, and operational efficiency, potentially resulting in higher costs, process inefficiencies, or delays in order execution.

Further, the market for fabrication and metalworking equipment in India is highly competitive and rapidly evolving, with increasing participation from both domestic and international players. Our ability to maintain historical growth trends will depend on several factors, including consistent product innovation, maintaining superior quality and reliability standards, expanding our dealer and service network, ensuring timely delivery, and sustaining long-term customer relationships.

If we are unable to manage growth efficiently, adapt to technological advancements, respond to competitive pressures, or maintain profitability at anticipated levels, our business operations, financial condition, and results of operations could be materially and adversely affected.

19. We face intense competition from international players with larger R&D budgets, which may adversely affect our market share, pricing, and growth prospects.

The machine tools – metal-cutting and welding equipment manufacturing industry in which we operate is highly competitive, with significant presence of both domestic manufacturers and international OEMs. The competition in this industry is shaped by continuous technological innovation, operational excellence, regulatory compliance, strategic market presence, and adaptation to complex operating environments. Equipment is engineered to withstand Indian conditions (power variability, heat, dust, operator variability) and meet global standards crucial for international markets.

Globally, the machine tools market is projected to grow from around USD 99.92 billion in 2024 to approximately USD 167.82 billion by 2034, and India's machine tools market from about USD 1.64 billion to USD 3.57 billion over the same period, implying robust growth and attracting new and established players to the segment. Within this, the Indian market is expected to grow faster, at a CAGR of 8.2%, rising from USD 1.62 billion to USD 3.57 billion over the same period. Within India, the metal-cutting segment is forecast to increase from USD 0.50 billion to USD 0.95 billion at a CAGR of 6.6%, while welding equipment is expected to grow from USD 0.68 billion to USD 1.25 billion at a CAGR of 6.3%.

(Source: Industry Report dated December 2025 by Infomerics Analytics and Research Private Limited)

In this environment, we compete not only with Indian companies but also with large global players with superior financial resources, deeper R&D capabilities, advanced technologies (including laser cutting, robotics, automation and Industry 4.0/IoT-enabled systems), wider export experience and established brands. Many of these competitors are able to introduce technologically advanced and digitally integrated products more rapidly, offer comprehensive automation solutions, provide more aggressive pricing or credit terms, and maintain broader sales and service networks across India and export markets.

Our relatively smaller scale, more limited R&D budget and narrower product portfolio may constrain our ability to (i) match the pace of innovation in high-precision and automation-oriented equipment, (ii) invest continuously in new technologies and product development, and (iii) expand distribution and after-sales support at the same speed as larger competitors. If we are unable to respond effectively to competitive pressures – whether on technology, pricing, delivery, quality, customisation, automation, or service – we may lose existing customers, be unable to win new business or be forced to reduce prices or increase spending on R&D, sales and service, which could adversely affect our market share, margins, business prospects, financial condition and results of operations.

20. Our dependence on electronic components and semiconductors, which are subject to global shortages and volatility, may adversely affect our manufacturing operations and delivery schedules.

A significant portion of our product portfolio, particularly CNC plasma cutting machines, automation solutions, and advanced welding systems, relies on electronic components, printed circuit boards, semiconductors, and control systems. These components are sourced from third-party suppliers, some of which are dependent on global supply chains that are vulnerable to shortages, extended lead times, and price fluctuations.

In recent years, the global electronics and semiconductor industry has faced disruptions due to supply-demand imbalances, geopolitical tensions, and pandemic-related constraints. Any recurrence or continuation of such shortages may impact our ability to procure critical components at competitive prices or within required timelines. As a result, we may face production delays, increased procurement costs, or the need to redesign systems to accommodate alternate components, which could affect product performance, reliability, and customer satisfaction.

Given the specialized nature of these components, our ability to source them from alternative suppliers at short notice is limited. Moreover, any increase in prices of electronic parts may not be fully transferable to customers due to competitive market conditions, thereby exerting further pressure on our margins.

Although we have not experienced any material disruptions to date, there can be no assurance that such risks will not materialize in the future. Any sustained shortage, delay, or cost escalation in electronic components and

semiconductors could materially and adversely affect our business operations, financial condition, and results of operations.

21. Any defect or quality issue in our products may adversely impact our reputation, customer trust, and financial performance.

Our business success depends on the reliability, durability, and performance of our plasma cutting machines, welding equipment, and automation solutions. Customers in the fabrication and metalworking industries rely on our products for precision, consistency, and efficiency in critical operations. Any defect, malfunction, or performance issue in our products — whether due to design flaws, material defects, or manufacturing lapses — could result in customer dissatisfaction, product returns, warranty claims, or reputational damage.

Given that many of our solutions are used in high-intensity industrial environments, even a minor defect can cause operational downtime for customers, which may in turn amplify the negative impact on our reputation and credibility.

Furthermore, defects in safety-related aspects of welding and cutting equipment could expose us to liability claims, regulatory scrutiny, or additional compliance obligations. Although we maintain strict quality control measures, testing protocols, and after-sales service to ensure product reliability, there can be no assurance that quality issues will not arise in the future. Any failure to consistently meet customer expectations on product quality and reliability may erode trust in our brand, adversely affect customer loyalty, and impact repeat business. Such instances could materially and adversely affect our business operations, financial condition, and results of operations.

22. Given the long production cycles and specialized nature of our products, effective inventory management is crucial to avoid overstocking or stockouts, and any failure may adversely impact our business, financial condition, and results of operations.

Our plasma cutting machines, welding equipment, and automation solutions are highly engineered products that require precision manufacturing, testing, and assembly. Due to the specialized nature of these products, as well as the procurement cycle for certain raw materials and electronic components, production and delivery timelines can be extended. This makes effective inventory management critical to ensuring uninterrupted supply to customers while maintaining financial discipline.

Inefficient inventory management could expose us to two significant risks. Overstocking ties up working capital in finished goods and raw materials, increases storage and warehousing costs, and exposes us to risks of obsolescence in fast-evolving technologies. Conversely, stockouts of raw materials, consumables, or spares could lead to delays in fulfilling customer orders, disruption in project execution, and loss of customer confidence. For industrial customers, delays in equipment supply or unavailability of critical spares could directly affect their operations, resulting in reputational damage to our Company.

While we utilize planning and monitoring systems to manage our production schedules and inventory levels, there can be no assurance that such measures will always prove effective. Factors such as inaccurate demand forecasting, sudden order surges, supply chain disruptions, or delays in vendor deliveries could result in mismatches between demand and available inventory.

Any failure to optimize our inventory levels in line with market demand and production requirements could result in operational inefficiencies, increased costs, financial strain, and erosion of customer trust, thereby materially and adversely affecting our business operations and results of operations.

23. Any cybersecurity breach or IT system failure could adversely impact our operations, reputation, and financial performance.

Our business operations rely increasingly on information technology (IT) systems for design, production support, supply chain management, customer relationship management, and financial reporting. These systems may be vulnerable to disruptions, failures, or unauthorized access arising from events that are beyond our control, including but not limited to human error, natural disasters, power outages, sabotage, malware, phishing, ransomware, hacking, cyber-attacks, or lapses by third-party service providers.

A cybersecurity breach or IT system failure could compromise sensitive business information, including proprietary designs, technical specifications, pricing data, and customer records. Any such incident may result in significant data loss, theft of intellectual property, or disclosure of customer or supplier information, which could expose us to legal liability, remediation costs, regulatory penalties, and reputational harm. In addition, prolonged system disruptions could impair order processing, delay deliveries, and disrupt internal operations, leading to customer dissatisfaction and possible loss of contracts.

Our Company has not experienced any material cybersecurity breach to date. However, we currently do not maintain a business interruption insurance policy, and our existing safeguards may not be sufficient to prevent or mitigate future attacks. The growing sophistication of cyber threats increases the likelihood that our systems may be compromised despite preventive measures.

Failure to strengthen our cybersecurity framework, conduct regular system audits, and comply with evolving data protection regulations could materially and adversely affect our operations, financial condition, and brand reputation.

24. We rely on third-party service providers for warehousing operations in Mumbai and any disruption, inefficiency, or service lapse at these facilities may adversely impact our supply chain, operations, and financial performance.

We have engaged third-party vendors to manage our warehouse facilities located in 309, Tapo Commercial Centre, Ram Mandir Road, Goregaon 400 105, West Mumbai and 304, Tapo Commercial Centre, Ram Mandir Road, Goregaon 400 105, West Mumbai. These service providers are responsible for inventory handling, storage, and dispatch operations at their respective locations. As these facilities are operated independently without our direct daily supervision, we are exposed to risks such as inventory mismanagement, service delays, and operational inefficiencies. Any lapse in fulfilling service obligations, such as delays in inwarding or dispatch, improper handling of goods, or non-compliance with contractual standards, could disrupt our supply chain, delay customer deliveries, and result in loss of revenue and goodwill.

25. Our ability to incur and service indebtedness depends on our financial condition and cash flows, and any increase in our indebtedness may adversely affect our business, financial condition and results of operations.

Our ability to borrow funds and the terms on which we may obtain such borrowings are dependent on several factors, including our financial condition, stability of cash flows, prevailing market conditions, economic and political conditions in the markets in which we operate, and our ability to service existing debt obligations. As at June 30, 2025, our total outstanding indebtedness aggregated to ₹ 1,10,447 thousands.

Any increase in our indebtedness in the future may result in substantial debt servicing obligations. Such indebtedness could, among other things:

- (i) increase our vulnerability to adverse economic, industry-specific and competitive developments;

- (ii) limit our flexibility in planning for, or responding to, changes in our business operations or industry conditions;
- (iii) adversely affect our credit profile and borrowing capacity;
- (iv) restrict our ability to raise additional borrowings on favourable terms or at all; and
- (v) result in higher interest and finance costs, thereby adversely impacting our profitability.

Further, any inability to service our debt obligations in a timely manner, or any deterioration in our financial performance, could have an adverse effect on our cash flows, liquidity and financial condition. For further details regarding our indebtedness, please refer to the section titled “Financial Indebtedness” on page 295 of this Draft Red Herring Prospectus.

26. *Under-utilization of our manufacturing capacities and an inability to effectively utilize our expanded manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance*

Our manufacturing operations involve fixed costs, including depreciation, employee costs, utilities and maintenance expenses. As a result, the efficient utilisation of our installed manufacturing capacity is critical to achieving optimal operating margins and profitability. Any under-utilisation of our manufacturing capacity may lead to higher per-unit production costs, lower absorption of fixed costs and reduced operating leverage, which could adversely affect our business, financial condition and results of operations.

Our installed manufacturing capacity and utilisation for the periods indicated are set forth below:

Particulars	For the period ended June 30, 2025	For the period ended March 2025	For the period ended March 2024	For the period ended March 2023
Installed Capacity (in no.)	70.88	70.88	70.88	70.88
Average Production	8.38	41.38	11.38	8.38
Capacity Utilization (%)	^47.27	58.38	16.05	11.82

[^]based on annualised

As certified by Chartered Engineer, Garg and Associates by way of their certificate dated December 28, 2025.

Our ability to effectively utilise our manufacturing capacity depends on several factors, including demand for our products, timely availability of raw materials and components, efficient production planning, supply chain stability and competitive market conditions. Any slowdown in demand, loss of key customers, supply chain disruptions, pricing pressures or adverse market conditions could result in continued or increased under-utilisation of our manufacturing capacity.

Further, we may incur additional capital expenditure to expand or upgrade our manufacturing facilities in the future. If we are unable to generate sufficient demand or efficiently ramp up production to utilise such expanded capacity, our returns on capital employed may be adversely affected. Under-utilisation of manufacturing capacity may also constrain our ability to achieve economies of scale, adversely impact cash flows and materially affect our future financial performance.

27. *Our business requires substantial working capital, and any inadequacy or disruption in availability of working capital may adversely affect our operations, financial condition and results of operations.*

Our manufacturing operations are working capital intensive and require significant funds to finance procurement of raw materials, maintain work-in-progress inventory and support our day-to-day operational requirements. The nature of our business requires us to maintain adequate levels of working capital to ensure uninterrupted production and timely execution of customer orders.

Our working capital requirements are influenced by several factors, including procurement cycles for raw materials, production schedules, inventory holding periods, credit terms extended to customers, timing of receivables collections and payment obligations to suppliers. Any mismatch between cash inflows and outflows may adversely impact our liquidity position and working capital cycle.

In the event of inadequate working capital availability, we may be required to curtail or suspend our manufacturing operations, delay procurement of raw materials, defer execution of customer orders or rely on additional borrowings. Any increase in working capital borrowings may result in higher finance costs, which could adversely affect our profitability and financial condition. Consequently, our inability to maintain an optimal level of working capital may have a material adverse effect on our business, results of operations and cash flows.

The working capital requirements of our Company are set forth below:

(In thousand)				
Particulars	For the period ended June 30, 2025	For the period ended March 2025	For the period ended March 2024	For the period ended March 2023
Current Assets

Total Current Liabilities (II)	3,48,039	1,20,631	30,272	34,269
Working Capital	2,23,059	1,86,390	58,578	50,687

28. *We have certain amount of outstanding debts, which requires significant cash flows to service and are subject to certain conditions and restrictions in terms of our financing arrangements, which restricts our ability to conduct our business and operations in the manner we desire. Any failure to comply with financial and other restrictive covenants imposed on us under our financing agreements may affect our operational flexibility, business, results of operations and prospects.*

Our Company has availed various credit facilities from banks and financial institutions to finance our working capital requirements and capital expenditure. As of June 30, 2025, our total outstanding borrowings comprised (a) long-term secured borrowings of ₹ 46,929 thousands, (b) short-term secured borrowings of ₹ 47,140 thousands, and (c) unsecured borrowings of ₹ 16,378 thousands. Servicing these borrowings requires us to generate sufficient cash flows to meet our repayment and interest obligations on a timely basis.

A portion of our cash flows is utilized towards debt servicing, which reduces funds available for working capital, capital expenditure, technology upgrades, and general corporate purposes. Any increase in our borrowing levels or finance costs may further constrain liquidity and adversely affect profitability.

Our financing agreements contain restrictive and financial covenants, including conditions relating to changes in shareholding or management, restrictions on additional borrowings, creation of further security, investments, mergers or amalgamations, maintenance of prescribed financial ratios (such as current ratio, EBITDA margin, debt-to-net-worth ratio and debt-to-EBITDA ratio), and use of proceeds from the Issue. These covenants are intended to safeguard lenders' interests but may limit our operational and financial flexibility. Non-compliance with such covenants could result in an event of default, which may trigger accelerated repayment obligations, enforcement of security interests, or restrictions on the use of funds.

Our borrowings are generally secured by way of charges on our movable and immovable properties, current assets, and personal guarantees provided by our promoters and directors. In the event of default or breach of terms, lenders may enforce their security, restrict usage of our charged assets, or debit amounts directly from our bank accounts. This could significantly impair our ability to continue operations at affected facilities or finance ongoing projects.

Further, fluctuations in interest rates, particularly where borrowings are linked to floating rates, may increase our finance costs and impact our profitability. Additionally, the existence of encumbrances on a substantial portion of our assets may limit our ability to raise further financing or use such assets freely for business purposes.

While we have not experienced any instances of default, covenant breach, or restructuring of borrowings in the past three financial years, there can be no assurance that such situations will not arise in the future. Any failure to meet our repayment obligations, breach of covenants, or inability to obtain requisite waivers or consents from lenders in a timely manner could materially and adversely affect our business, financial condition, results of operations, and cash flows.

For further details of our loans, please refer to the chapter titled “*Financial Indebtedness*” beginning on page no. 295 of this Draft Red Herring Prospectus.

29. Loans availed by our Company has been secured on personal guarantees of our Promoters. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our Promoters.

Loans availed by our Company are secured, inter alia, by personal guarantees provided by our Promoters, Mr. Arun Kumar and Mrs. Vandana Sharma, in respect of a significant portion of our existing borrowings from banks. Our Promoters may continue to provide such personal guarantees and other security in relation to our borrowings even after the listing of our Equity Shares.

In the event of any default under our loan agreements, the personal guarantees provided by our Promoters may be invoked by the lenders. Any such invocation could adversely affect the net worth, reputation and financial standing of our Promoters. Further, invocation of such guarantees may result in certain constraints or impediments in decision-making at the promoter level, which could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects, and may also adversely impact our reputation.

Additionally, in the event such personal guarantees are withdrawn, invoked or required to be replaced, we may not be able to procure alternative guarantees or security acceptable to the lenders on commercially reasonable terms or at all. In such circumstances, we may be required to repay the outstanding amounts under

the relevant credit facilities or seek alternative sources of funding, which may adversely affect our liquidity position, cash flows and financial condition.

For further details regarding the loans availed by our Company and related security, please refer to the section titled “Financial Indebtedness” on page 295 of this Draft Red Herring Prospectus.

30. Currency fluctuations between the Indian Rupee and foreign currencies like the Euro, USD or Chinese Yuan pose a financial risk by increasing the cost of imported products, creating uncertainty in pricing and margins, and potentially eroding profitability if not effectively managed.

Although the majority of our raw material and component requirements are sourced domestically, in the past we have undertaken certain imports, such as in FY 2022–23, when imported components constituted a small portion of our total purchases. In the event we import raw materials, components, or specialized parts in the future, our business will be exposed to foreign exchange risks arising from fluctuations in the value of the Indian Rupee against currencies such as the US Dollar, Euro, or Chinese Yuan.

Depreciation of the Indian Rupee could increase procurement costs, compress margins, and adversely affect our profitability if we are unable to pass on such increases to customers. Currency fluctuations also create uncertainty in pricing strategies and financial forecasting, which may make it more challenging to manage costs and maintain consistent margins.

While we have not experienced any material adverse impact due to foreign exchange fluctuations in the past, and imports have historically been limited, there can be no assurance that future currency volatility will not materially affect our financial performance, particularly if our dependence on imported components increases.

31. Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.

We maintain insurance coverage related to our facilities and other contents. However, we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our business.

Even if we make a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, results of operations, financial condition and cash flows.

32. Trade receivables form a major part of our current assets and net worth. Failure to manage our trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.

Trade receivables form a significant part of our Company’s current assets and net worth. As of June 30, 2025, our trade receivables aggregated to ₹ 3,60,466 thousands. Our business involves extending credit to customers in the ordinary course of operations, which exposes us to the risk of delays or defaults in payments

by our customers. We cannot assure that our Company will be able to effectively manage or recover its trade receivables in a timely manner in the future.

Any failure to manage our trade receivables may result in delayed collections, creation of bad debts and/or write-offs, which could adversely affect our liquidity and cash flows. A deterioration in our trade receivable position may lead to a liquidity mismatch and may require us to rely on additional working capital borrowings. Any increase in such borrowings may result in higher finance costs, thereby adversely impacting our profitability and financial condition.

Further, delays or defaults in payments by our customers may restrict our ability to procure raw materials, meet our operating expenses and discharge our payment obligations as and when due. Any such constraints on working capital availability may adversely affect our operations, growth plans and overall business performance.

33. Our manufacturing operations involve inherent risks, and any accident, disruption or failure in our facilities may adversely affect our business, financial condition, results of operations and prospects

Our manufacturing processes involve complex activities that may pose risks to the safety of our employees and the integrity of our facilities. Despite implementation of safety measures and maintenance of insurance coverage, accidents may still occur at our manufacturing facilities. Such accidents may result in injury to employees, damage to property or equipment, environmental harm, delays in manufacturing or delivery, or even suspension of operations. In addition, accidents or operational disruptions could expose us to regulatory actions, third-party claims, or litigation, the outcome of which is uncertain and may involve significant costs and liabilities. A significant disruption at our facilities could adversely impact our production schedules, increase costs, reduce sales, and impair our ability to meet customer demand. Further, such events may require substantial capital expenditure for restoration or compliance, or result in negative publicity, all of which could adversely affect our profitability, business, financial condition, results of operations and prospects.

34. We have not taken any steps to order the new machinery/equipment required for the Existing Premises. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the equipment / machineries in a timely manner, or at all, the same may result in time and cost over-runs.

Our Company intends to utilize a portion i.e. amount of ₹ 87,856 thousands out of the Net proceeds for the purchase of new machinery/equipment required for the Existing Premises.

While we have obtained quotations from various vendors for capital expenditure to support our expanding operations, we have not placed any firm orders with them. For details, please refer to the '**Objects of the Issue**' beginning on page 134 of this Draft Red Herring Prospectus. These quotations are valid for a certain period and may be subject to revisions, as well as other commercial and technical factors. We cannot assure you that we will be able to undertake such capital expenditure at the costs associated with these quotations or that there will not be cost escalations beyond the contingencies proposed to be funded out of the Net Proceeds. Furthermore, the actual amount and timing of our future capital requirements may differ from our estimates due to unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, engineering design changes, or technological changes. If we are unable to set up a new manufacturing facility within our estimated time frames, we may be unable to expand our business. There can be no assurance that we will complete any Proposed Facility or upgrade in a timely manner.

35. Our net cash flows have been negative in some years in the past. Any negative cash flow in the future may affect our liquidity and financial condition.

We have experienced negative net cash flows from certain activities in the past. Our net cash flows from operating activities were negative for the year ended March 31, 2025 and for the period ended March 31, 2023. Further, our net cash flows from investing activities were negative for the period ended June 30, 2025, for the year ended March 31, 2025 and for the year ended March 31, 2023. In addition, our net cash flows from financing activities were negative for the year ended March 31, 2024.

The negative net cash flows from operating activities for the year ended March 31, 2025, were primarily attributable to changes in working capital adjusted for working capital movements and income tax payments.

The negative net cash flows from operating activities for the year ended March 31, 2023 were primarily attributable to changes in working capital and income tax payments.

The negative net cash flows from investing activities for the period ended June 30, 2025 were primarily on the purchase of fixed assets and capital work-in-progress, and minor increase in non-current assets.

The negative net cash flows from investing activities for the year ended March 31, 2025 were primarily due to capital expenditure, addition of intangible assets, and increase in non-current assets, partially offset by dividend received.

The negative net cash flows from investing activities for the year ended March 31, 2023 were primarily for capital expenditure and increase in non-current assets including fixed deposits and security deposits.

The negative net cash flows from financing activities for the year ended March 31, 2024 were primarily due to repayment of long-term borrowings and interest paid, partially offset by increase in long-term provisions.

There can be no assurance that we will not experience negative cash flows in the future. Any such negative cash flows may adversely affect our liquidity, financial condition and results of operations.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial year and which could affect our business and growth:

<i>(₹ in Thousands)</i>				
Particulars	For the period ended June 30, 2025	For the period ended March 2025	For the period ended March 2024	For the period ended March 2023
Net cash flow from Operating activities	27,508	(67,434)	20,832	(11,627)
Net cash from investing activities	(3,350)	(1,761)	154	(1,803)
Net cash from financing activities	10,192	68,751	(19,138)	11,851

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

- 36. We intend to utilize a portion of the Net Proceeds for funding our capital expenditure requirements. We have shortlisted vendors and obtained quotations from them, however, we are yet to place orders or enter into definitive agreements with the vendors in relation to such capital expenditure requirements.**

We propose to utilize a portion of the Net Proceeds towards funding capital expenditure requirements for the purchase and installation of new machinery/equipment at the Existing Premises. As of the date of this Draft Red Herring Prospectus, we have not entered into any binding agreements or placed firm purchase orders with respect to such machinery/equipment.

While we have obtained indicative quotations and proposals from various vendors, such quotations are subject to revision due to changes in commercial terms, technical specifications, availability of equipment, foreign exchange fluctuations, licensing terms, customization requirements and other factors. Accordingly, we cannot assure that the capital expenditure will be incurred at the estimated costs or within the anticipated timelines, or that there will not be any cost escalations.

Further, the implementation of new machinery/equipment at the Existing Premises may involve integration with existing systems, employee training, customization and vendor support. Any delays in procurement, installation, commissioning or implementation, or any inability of vendors to supply or implement the machinery in a timely manner, may result in time and cost overruns. Such delays or overruns could adversely affect our operations, productivity, efficiency and financial condition.

Additionally, the actual amount and timing of utilization of the Net Proceeds may differ from our estimates due to unforeseen delays, changes in technology, regulatory requirements, supply chain disruptions or other commercial considerations. Any variation in the utilization of the Net Proceeds shall be subject to applicable statutory and regulatory requirements, including obtaining prior shareholders' approval, where required. Any failure to effectively utilize the Net Proceeds for the intended objects may adversely impact our business, results of operations and cash flows.

37. We depend on third-party transportation providers for the supply and delivery of our products, and any disruption could adversely affect our business.

Our business relies on third-party transportation providers for the timely and secure delivery of raw materials, components, and finished products. We primarily transport finished products by road to distributors, dealers, and end customers. Since we do not operate our own logistics fleet, we are dependent on external transporters and logistics partners to ensure uninterrupted supply.

Any disruption in transportation, whether due to strikes, shortages of vehicles, rising fuel costs, accidents, natural calamities, or regulatory restrictions, may cause delays in the supply of raw materials or the delivery of finished products. In addition, there is a risk of damage or loss of goods in transit, which may lead to increased costs, delays, or strained customer relationships. While we have in the past claimed insurance for certain transit damages, such compensation may not always be adequate to cover the loss or the reputational impact of delayed or damaged deliveries.

Further, any increase in freight and logistics costs, if not absorbed by us or passed on to our customers, could adversely affect our margins, demand for our products, and overall business performance. A failure to maintain efficient, reliable, and cost-effective transportation and distribution arrangements could materially and adversely impact our operations, financial condition, and results of operations.

38. Any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.

We propose to utilize the Net Proceeds for raising funds for Purchase and installation of plant and machinery for manufacturing of plasma cutting machines, welding equipment and customised automation systems at the Existing Premises, Funding towards long term working capital requirements; and general corporate purposes. At this

juncture, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 27 of the Companies Act, 2013 and other applicable laws, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations.

Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders of our Company may prevent the Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity.

In light of these factors, we may not be able to vary the objects of the Issuer to use any unutilized proceeds of the Issuer, if any, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business and results of operations. For further details of the proposed objects of the Issue, please refer to the chapter titled "*Objects of the Issue*" beginning on page no. 134 of this Draft Red Herring Prospectus.

39. Misconduct or errors by manpower engaged by us could expose us to business risks or losses that could affect our business prospects, results of operations and financial condition.

Misconduct or errors by manpower engaged by us could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our business. Such misconduct includes breach of security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. These errors or misconduct may give rise to litigation and claims for damages, which could be time-consuming. These claims may also result in negative publicity and affect our business. While there have been no such instances in the past, there can be no assurance that there will not be such instances in the future. Any claims and proceedings for alleged negligence as well as regulatory actions may in turn materially and consequently, affect our business, financial condition, results of operations and prospects.

40. Our Directors do not have any prior experience of being a director in any other listed company in India and this may present certain potential challenges for our Company and in the event of any material non-compliance where our Directors are held liable and responsible, we may have to appoint new directors.

Our current Board comprises 5 directors which includes one Chairman and Managing Director and one Executive Director, one Non-Executive Director and two Independent Directors and none of our Directors are currently a director in any other listed company in India. While our Board members have relevant experience in their respective fields, not having any significant experience of being a director in any other listed company in India may present certain potential challenges for our Company. In the event of any material non-compliance where our Directors are held liable and responsible, we may have to appoint new directors or replace our current Directors,

which could be time consuming and may involve additional costs for our Company. For further details, see “*Our Management*” on page 258 of this Draft Red Herring Prospectus.

41. If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.

Our Company is engaged in the manufacturing of CNC-controlled and manual cutting machines (including plasma, oxyfuel and laser cutting systems), integrated automation systems for cutting and welding, and the provision of related services such as installation, commissioning, upgrades and supply of spares. Our operations involve design and engineering, procurement of critical bought-out components and consumables (including electrical and electronic assemblies, CNC/controllers, drives, motors, rails, torches/nozzles, gases and allied parts), fabrication and machining, assembly and wiring, software/controls integration, testing and performance validation, packing, dispatch, on-site installation and commissioning, and after-sales service and warranty support. Given the nature of our products and services, we are subject to a wide range of operational and regulatory requirements, including those relating to product quality and reliability, calibration and traceability of measuring instruments, maintenance of production and inspection records, storage and movement of high-value inventory, vendor and subcontractor management, safe handling of gases and electrical systems, workplace health and safety, environmental compliances, and other statutory requirements applicable to manufacturing and service operations.

Our ability to manufacture and deliver machines and automation solutions that meet customer specifications, performance parameters and delivery timelines, and to prepare accurate and timely financial statements and disclosures, depends on the adequacy and effective operation of our internal controls over financial reporting and our broader internal control and compliance framework. These controls include, among others, controls relating to vendor onboarding and qualification, purchase approvals and pricing controls, inward inspection and acceptance of bought-out items, inventory recording, ageing and physical verification, production planning and shop-floor controls, bill of materials and job-costing controls, quality checks and documentation (including test reports and inspection protocols), handling of rework, rejection and warranty claims, controls over dispatch, installation and commissioning documentation, revenue recognition and service billing controls, segregation of duties, user access and change controls over IT systems and design/programming files, and monitoring of statutory compliances and periodic filings.

Following the issue and listing of our Equity Shares, our reporting and compliance obligations and public disclosure requirements will increase and we will be required to further strengthen our internal control environment, documentation, monitoring and remediation mechanisms. If we are unable to establish and maintain effective internal controls and compliance systems, or if such controls are not designed or operating effectively, we may face errors or delays in financial reporting, weaknesses in internal controls, instances of fraud or misappropriation, operational inefficiencies, procurement and supply chain disruptions, production and quality issues, higher rework and scrap, increased warranty and service costs, delays in installation and commissioning, customer disputes and claims, non-compliance with applicable laws (including safety and environmental requirements), regulatory actions, penalties and litigation, diversion of management time and resources, and loss of confidence among investors, customers, lenders and other stakeholders. Any of these events could have a material adverse effect on our business, financial condition, results of operations, cash flows and reputation.

42. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, business operations and financial condition.

As on the date of this Draft Red Herring Prospectus, we have not made any alternate arrangements for meeting our capital requirements for Objects of the Issue. We meet our capital requirements through, owned funds, debt and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in

future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Net Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “*Objects of the Issue*” beginning on page no. 134 of this Draft Red Herring Prospectus.

43. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.*

We intend to use Net Proceeds from the Issue towards (a) capital expenditure of our Company towards Purchase and installation of new machinery/equipment at the Existing Premises, (b) Funding towards long term working capital requirements; (c) General Corporate Purposes. For details of the objects of the Issue, see ‘*Objects of the Issue*’ beginning on page 134. The funding requirement and deployment of the Net Proceeds mentioned as a part of the Objects of the Issue are based on current circumstances of our business, prevailing market conditions, and are subject to changes. The estimates for the proposed expenditure are based on several variables, a significant variation in any one or a combination of which could have an adverse effect. Furthermore, the deployment of funds has not been appraised by any bank or financial institution.

We operate in a highly competitive and dynamic industry and we may have to revise our funding requirements and deployment from time to time on account of various factors beyond our control, such as availability of material, inflation, employment levels, demographic trends, changing customer preferences, increasing regulations or changes in government policies, our Board’s analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our business, results of operations, financial condition and access to capital such as credit availability and interest rate levels.

Our Company, in accordance with the policies established by the Board from time to time, will have flexibility to deploy the Net Proceeds. Furthermore, pending utilization of Net Proceeds towards the Objects of the Issue, our Company will have the flexibility to deploy the Net Proceeds and to deposit the Net Proceeds temporarily in deposits with one or more scheduled commercial banks included in Second Schedule of Reserve Bank of India Act, 1939, as may be approved by our Board. Accordingly, prospective investors in the Offer will need to rely upon our management’s judgment with respect to the use of Net Proceeds and there can be no assurance that we will earn significant interest income on, or that we will not suffer unanticipated diminution in the value of, such temporary deposits. Furthermore, various risks and uncertainties, such as economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital and including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business.

44. *Our Promoters hold Equity Shares in our Company and are therefore interested in the Company’s performance in addition to their remuneration and reimbursement of expenses.*

Our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information on the interest of our Promoters of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see “*Our Management*” and “*Our Promoters and Promoter Group*” on page no. 258 and 283 respectively of this Draft Red Herring Prospectus.

45. Our Promoters have given personal guarantees in relation to certain debt facilities provided to our Company by our lenders. In the event of default on the debt obligations, the personal guarantees may be invoked thereby adversely affecting our Promoters ability to manage the affairs of our Company and consequently this may impact our business, prospects, financial condition and results of operations.

Some of the debt facilities provided to our Company by our lenders stipulate that the facility shall be secured by a personal guarantee of our Promoters. In the event of default on the debt obligations, the personal guarantees may be invoked thereby adversely affecting our Promoters ability to manage the affairs of our Company and consequently this may impact our business, prospects, financial condition and results of operations. Further, in an event our Promoters withdraw or terminate their guarantee/s or security, the lender for such facilities may ask for alternate guarantee/s or securities or for repayment of amounts outstanding under such facilities or even terminate such facilities. We may not be successful in procuring guarantee/s or collateral securities satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled “Financial Indebtedness” beginning on page no. 295 of this Draft Red Herring Prospectus.

46. The future operating results are difficult to predict and may fluctuate or adversely vary from the past performance.

The Company’s operating results may fluctuate or adversely vary from past performances in the future due to a number of factors, many of which are beyond the Company’s control. The results of operations during any financial year or from period to period may differ from one another or from the expected results operation. Its business, results of operations and financial condition may be adversely affected by, inter alia, a decrease in the growth and demand for the products offered by us. Due to various reasons including the above, the future performance may fluctuate or adversely vary from our past performances and may not be predictable. For further details of our operating results, section titled “Financial Information” beginning on page no. 291 of this Draft Red Herring Prospectus.

47. We have not independently verified certain data in this Draft Red Herring Prospectus.

We have relied on the report of an independent third party for purposes of inclusion of such information in this Draft Red Herring Prospectus, details of the report is as follow:

Sr. No.	Name of the Organization	Report
1.	Infomerics Analytics and Research Private Limited	Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry

The above-mentioned report is subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified the industry related data contained in this Draft Red Herring Prospectus and although we believe the sources mentioned to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that are included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

48. We have certain contingent liabilities that have been disclosed in our financial statements, which if they materialize, may adversely affect our results of operations, cash flows and financial condition.

As at June 30, 2025, March 31, 2025, March 31, 2024, and March 31, 2023, our contingent liabilities that have been disclosed in our Restated Financial Information, were as follows:

(₹ in Thousands)

Particulars	As at June 30, 2025	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
Contingent Liability				
Bank Guarantees	2,957	2,957	4,435	5,429
Claims Against the company not acknowledged as debt	52,619	52,619	52,619	52,169
Commitments-	Nil	Nil	Nil	Nil

Notes:

1. Claims against the Company not acknowledged as debt primarily represent claims and demands raised by various parties, which have not been accepted by the Company. The Company has disputed such claims and, based on legal advice and management assessment, no provision has been considered necessary at this stage. The outcome of these matters is uncertain and is dependent upon the final adjudication by the respective judicial or quasi-judicial authorities.
2. Bank Guarantees have been issued by the Company in the ordinary course of business in favor of various authorities and counterparties. These guarantees may be invoked in the event of non-performance of contractual obligations, which could result in an outflow of resources.

49. We have entered into and may enter into related party transactions in the future also.

We have entered into and may in the ordinary course of our business continue to enter into transactions with related parties that include certain of our Promoters, Directors, Promoter Group Entities. For further details in relation to our related party transactions, see “*Related Party Transactions*” in the chapter “*Summary of Issue Document*” beginning on page no. 24 of the Draft Red Herring Prospectus. While our company confirms that we have entered into such transactions on an arm’s length basis and are in compliance with the applicable provisions of Companies Act, 2013 and other applicable law, there is no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. There can be no assurance that such transactions will not have an adverse effect on our business, prospects, results of operations and financial condition. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

50. The average cost of acquisition of Equity Shares by our Promoters could be lower than the Issue Price.

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price decided by the Company in consultation with the Book Running Lead Managers. The details of the average cost of acquisition of Equity Shares held by our Promoters as at the date of the Draft Red Herring Prospectus is set out below:

Sr. No.	Name of the Promoter	Equity shareholding as on the date of this Draft Red Herring Prospectus	Average cost of Acquisition per Equity Share (in ₹) *
1.	Mr. Arun Kumar	75,91,430	5.91

2.	Ms. Vandana Sharma	36,08,570	7.75

** As certified by Statutory Auditor of our Company i.e., M/s Piyush Kothari & Associates., Chartered Accountants by way of their certificate dated December 30, 2025.*

For details regarding weighted average cost of acquisition of Equity Shares by our Promoters in our Company, please refer chapter title “Capital Structure” on page 100.

51. We have not paid any dividends in the last three Financial Years. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

Our ability to generate returns for shareholders is dependent on a host of factors that impact our business and financial condition. Our Company has not paid any dividend on its Equity Shares during the last three Financial Years. The amount of future dividend payments, if any, will depend upon a number of factors, such as our future earnings, financial condition, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions, capital expenditures and cost of indebtedness.

In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing agreements our Company may enter into. Even in years in which we may have profits, we may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. There can therefore be no assurance that we will be able to pay dividends in the future. For further details, see section “Dividend Policy” on page no. 290 of this Draft Red Herring Prospectus.

52. Our Promoters’ shareholding before and after the completion of the Issue, is substantial which will allow them to influence the outcome of matters submitted for approval of our shareholders.

As on the date of this Draft Red Herring Prospectus, our Promoters hold 86.96% of the issued and outstanding paid-up share capital of our Company (shareholding by public shareholders is negligible). Following the completion of the Issue, our Promoters and Promoter Group will continue to hold together [●] % of our post-Issue Equity Share capital. As a result, they will have the ability to influence matters requiring shareholders’ approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders’ meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any other business decisions. We cannot assure that our Promoters and Promoter Group will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business. For further details regarding our shareholding, please refer to the chapter titled “Capital Structure” beginning on page no. 100 of this Draft Red Herring Prospectus.

53. Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Issue, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and the Investors may be unable to resell their Equity Shares at or above the Offer Price or at all.

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Issue. Listing of the Equity Shares does not guarantee that a market for our Equity Shares will develop or, if developed, the market will have liquidity for the Equity Shares. There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after

this Issue could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Draft Red Herring Prospectus.

Further, the Issue Price of our Equity Shares shall be determined through the Book Building process. This price is based on numerous factors, including those stated under chapter titled “Basis for issue Price” beginning on page no. 147 of this Draft Red Herring Prospectus and may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchange. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Offer Price. We cannot assure that the Investors will be able to sell their Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

A decrease in the market price of our Equity Shares could cause the Investors to lose some or all of their investment.

54. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of the Investors’ Equity Shares at a premium to the market price or would otherwise be beneficial to them. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in our ‘control’. Under the takeover regulations in India, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the Indian takeover regulations.

55. The requirements of being a listed company may strain our resources and distract management.

Though our Promoters have vast experience of the Business, they do not have the experience of managing a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur additional legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI Listing Regulations, 2015 which would require us to file audited annual and unaudited semi-annual and limited review reports with respect to our business and financial condition. If we delay making such filings, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant

resources and management oversight will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

56. We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares.

For raising additional funds, we may issue further equity in the capital markets. Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. Any fresh issue of shares or convertible securities would dilute existing holders' shareholding, and such issuance may not be done at terms and conditions, which are favourable to the existing shareholders of our Company. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

57. We may raise additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure.

Our growth is dependent on having a balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions. We may need to raise additional capital from time to time, depending on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financing could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

58. Our Directors and Promoters may enter into ventures which are in businesses similar to ours.

The interests of our directors or Promoters may not align with the interests of our other Shareholders due to their involvement in other ventures which are in businesses similar to ours or that may compete with our business or may benefit from preferential treatments when doing business with our Company. Our Directors, or Promoters, as applicable, may, for business considerations or otherwise, in transactions with other ventures where they have interest, cause our Company to take actions, or refrain from taking actions, in order to benefit themselves instead of our Company's interests or the interests of its other Shareholders and which may be harmful to our Company's interests or the interests of our other Shareholders, which may materially adversely impact our business, financial condition, results of operations and cash flows.

As a result, conflicts of interest may arise when we sell our solutions to such Promoter Group at lower prices, or give it any other form of preferential treatment. There can be no assurance that our Promoters or any company controlled by our Promoters will not enter into businesses similar to ours or compete with our existing business

or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations, cash flows and financial condition.

59. The sister of our Promoter, Arun Kumar, and sister-in-law of our Promoter Ms. Vandana Sharma who is deemed to be part of the Promoter Group under the SEBI ICDR Regulations, has not provided her consent to be identified as a member of the Promoter Group and has not furnished any information in respect of herself or her related entities. Consequently, we cannot assure you that the disclosures relating to such members of our Promoter Group are complete or up to date.

Our Company had requested Geeta Singh ("GS"), sister of our Promoter, Arun Kumar and sister-in-law of our Promoter Mrs. Vandana Sharma who is deemed to be part of the Promoter Group under the SEBI ICDR Regulations, to provide certain information, confirmations, and undertakings in respect of herself and any entities in which she may have an interest, as members of the Promoter Group (collectively, the "GS Promoter Group"), in connection with the Issue. However, GS has not responded to our communications or provided any such information. Accordingly, our Company filed an application dated November 14, 2025 with SEBI seeking exemption under Regulation 300(1)(c) of the SEBI ICDR Regulations from classifying and disclosing the GS Promoter Group as "Promoter Group" in this Draft Red Herring Prospectus; and providing information, confirmations, and undertakings with respect to the GS Promoter Group, as required under Regulation 2(1)(pp)(iv) of the SEBI ICDR Regulations.

Subsequently, on December 04, 2025, the Company received an email from SEBI seeking additional information in relation to the Promoter Group for which the exemption was sought. The Company has submitted its response to the said query vide email dated December 20, 2025.

Since our Company has been unable to obtain relevant information from, or in relation to, the GS Promoter Group member, the disclosures included herein are based solely on publicly available information accessible from the websites of Watchout Investors, CIBIL, BSE Limited, and the National Stock Exchange of India Limited, in the section titled "Promoters and Promoter Group" on page 283. Accordingly, such disclosures may be incomplete or not up to date in the context of the requirements under the SEBI ICDR Regulations. For further details, see "Summary of the Issue Document – Exemption from complying with any provisions of securities laws, if any, granted by SEBI" on page 35.

60. If we are unable to obtain, protect or use our intellectual property rights, our business may be adversely affected.

We rely on our intellectual property for the success of our business which includes one domain name, and one trademark. For further details please refer the chapter "*Business Overview*" on page no 208 of this Draft Red Herring Prospectus. Our domain name may expire, and we cannot assure you that we will be able to renew it after expiry. While we intend to defend against any threats to our intellectual property, we cannot assure you that our intellectual property rights can be adequately protected in a timely manner. We rely on protections available under Indian law, which may not be adequate to prevent unauthorized use of our intellectual property by third parties. Furthermore, the application of laws governing intellectual property rights in India is uncertain and evolving and could expose us to substantial risks and costs. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations, financial conditions, cash flows and future prospects.

Further, while we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights which may force us to alter our offerings. If such claims are raised against us in the future, they could result in costly litigation, divert management's attention and resources, subject us to significant liabilities and require us to enter into

potentially expensive royalty or licensing agreements or to cease use of certain of our brands, can result in significant damages being awarded and injunctions that could prevent us from offering our products. In addition, there is no assurance that steps taken by us to protect our intellectual property rights will be adequate to stop infringement by others, including imitation and misappropriation of our brand. Any of the foregoing could have an adverse effect on our business, results of operations, financial conditions, cash flows and future prospects.

Although, there have been no material events relating to this risk factor as of the date of this Draft Red Herring Prospectus, there can be no assure that such events may not occur in the future.

61. One of our Promoter Group Entity operate in similar or related lines of business, which may result in potential conflicts, overlap in offerings, or stakeholder confusion.

One of our Promoter Group Entities is engaged in business activities that are similar or related to our operations. This overlap may create potential conflicts of interest and competitive risks. Such situations could arise in various forms, including:

Overlap in Product and Service Offerings: If both entities cater to similar customer segments or offer comparable products, it may lead to market confusion and dilute our brand positioning.

Preferential Treatment and Resource Allocation: Our Promoters, who have influence over both entities, may face situations where decisions benefiting one entity could adversely impact the other. This includes allocation of resources, pricing strategies, or prioritization of business opportunities.

Sharing of Confidential Information: There is a risk that proprietary information, trade secrets, or strategic plans may be inadvertently or deliberately shared between entities, affecting our competitive advantage.

Regulatory and Governance Risks: SEBI ICDR Regulations and the Companies Act, 2013 require disclosure and arm's length dealings in related-party transactions. Any non-compliance or perceived lack of transparency could result in regulatory scrutiny, penalties, or reputational harm.

While we intend to mitigate these risks through appropriate disclosures, adherence to arm's length principles, and strengthening internal governance, we cannot assure you that such measures will fully eliminate the possibility of conflicts or adverse impact. Any such event could materially and adversely affect our business, financial condition, results of operations, and prospects.

EXTERNAL RISK FACTORS

62. Our major revenue of operation is from India, we are subject to economic, political and market conditions in India, many of which are beyond our control.

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. We are incorporated in India, and most of our business and all our personnel are located in India. Consequently, our business, results of operations, financial condition and cash flows will be affected by a number of macroeconomic and demographic factors in India which are beyond our control. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

the macroeconomic climate, including any increase in Indian interest rates or inflation;

any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;

any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;

prevailing income conditions among Indian consumers and Indian corporates volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;

changes in India's tax, trade, fiscal or monetary policies;

political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;

occurrence of natural or man-made disasters (such as hurricanes, typhoons, floods, earthquakes, tsunamis and fires) which may cause us to suspend our operations;

civil unrest, acts of violence, terrorist attacks, regional conflicts or situations or war may adversely affect the Indian markets as well as result in a loss of business confidence in Indian companies;

epidemics, pandemics or any other public health concerns in India or in countries in the region or globally, including in India's various neighbouring countries;

In particular, our total income and profitability are correlated to consumer discretionary spending in India, which is influenced by general economic conditions, salaries, employment levels and consumer confidence. Recessionary economic cycles, a protracted economic slowdown, a worsening economy, increased unemployment, rising interest rates or other industry-wide cost pressures could also affect consumer behavior and spending for consumer products and lead to a decline in our total income and profitability. While our results may not necessarily track India's economic growth figures, the Indian economy's performance affects the environment in which we operate. Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, financial condition, cash flows and the price of the Equity Shares.

63. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Europe and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. For example, the full-scale military invasion of Russia into Ukraine and the subsequent sanctions placed on Russia by various countries has substantially affected the economic stability of the world and such volatility could impact our Company's growth. In addition, the market price of oil has risen sharply since the commencement of hostilities in Ukraine, which may have an inflationary effect in India and other countries. A prolonged war or a protracted period of hostilities in the Ukraine may lead to global economic disturbances.

In addition, the USA is one of India's major trading partners and any possible slowdown in the American economy could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they

may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition, results of operation, and cash flows. These developments or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition, results of operations, and cash flows, and reduce the price of the Equity Shares.

64. Any adverse revision to India's debt rating by a domestic or international rating agency could adversely affect our business.

India's sovereign debt rating could be adversely affected due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of the Equity Shares.

65. Investors may be subject to taxes arising out of capital gains on the sale of our Equity Shares.

Under current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("STT") is levied on and collected by an Indian stock exchange on which equity shares are sold. Any capital gain exceeding ₹ [•] lakh, realized on the sale of equity shares held for more than 12 months immediately preceding the date of transfer, which are sold using any platform other than on a recognized stock exchange and on which no STT has been paid, are subject to long-term capital gains tax at the rate of 12.5 % in India.

The Finance Act, 2020, has, among others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, that such dividends not be exempt in the hands of the shareholders, both resident as well as non-resident, and that such dividends are likely to be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

66. Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer holders of its Equity Shares pre-emptive rights to subscribe and pay for a proportionate number of Equity Shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution. However, if the laws of the jurisdiction that Investor is in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the Investor will be unable to exercise such pre-emptive rights unless the Company makes such a filing. To the extent that the Investor is unable to exercise pre-emptive rights granted in respect of the Equity Shares, the Investor may suffer future dilution of his ownership position and Investor's proportional interests in our Company would be reduced.

67. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other exceptions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If a transfer of shares, which are sought to be transferred, is not in compliance with such requirements and fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Rules, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares a land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or conditions or at all. For further information, see "*Restrictions on Foreign Ownership of Indian Securities*" on page 410.

68. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights, including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholders of a corporation in another jurisdiction.

69. QIBs and NIBs are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Individual Bidders are not permitted to withdraw their Bids after the Bid/ Issue Closing date.

Pursuant to the SEBI ICDR Regulations, QIBs and NIBs are required to pay the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Bidders can revise or withdraw their Bids at any time during the Bid/ Issue Period and until the Bid/ Issue Closing Date, but not thereafter. While our Company is required to complete all necessary formalities for listing and commencement of trading of our Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment pursuant to the Issue, within such period as may be prescribed under applicable law, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, financial condition and results of operations may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of our Equity Shares even if such events occur, and such events limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Issue or cause the trading price of our Equity Shares to decline on listing. QIBs and NIBs will therefore not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or otherwise, between the dates of submission of their Bids and Allotment.

70. *Our business and activities may be further regulated by the Competition Act and any adverse application or interpretation of the Competition Act could materially and adversely affect our business, financial condition and results of operations.*

The Competition Act seeks to prevent business practices that have or are likely to have an appreciable adverse effect on competition in India and has established the Competition Commission of India (the “CCI”). Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which has or is likely to have an appreciable adverse effect on competition is void and attracts substantial penalties. Any agreement among competitors which, directly or indirectly, determines purchase or sale prices, results in bid rigging or collusive bidding, limits or controls the production, supply or distribution of goods and services, or shares the market or source of production or providing of services by way of allocation of geographical area or type of goods or services or number of customers in the relevant market or in any other similar way, is presumed to have an appreciable adverse effect on competition and shall be void. Further, the Competition Act prohibits the abuse of a dominant position by any enterprise. If it is proven that a breach of the Competition Act committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be guilty of the breach himself and may be punished as an individual. If we, or any of our employees are penalized under the Competition Act, our business may be adversely affected. Further, the Competition Act also regulates combinations and requires approval of the CCI for effecting any acquisition of shares, voting rights, assets or control or mergers or amalgamations above the prescribed asset and turnover-based thresholds.

71. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. Please refer to “*Key Industry Regulations*” on page no. 239 of this Draft Red Herring Prospectus for details of the laws currently applicable to us.

There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Our Company will comply with relevant regulations as and when applicable. However, any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

GST has been implemented with effect from July 01, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge being collected by the central and state governments. The GST has led to increased tax incidence and administrative compliance. Any future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

Further, the General Anti Avoidance Rules (“GAAR”) provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18 onwards and the same may get triggered once transactions are undertaken to avoid tax. The consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

72. Companies in India are required to prepare financial statements under the new Indian Accounting Standards. In addition, all income-tax assesseees in India will be required to follow the Income Computation and Disclosure Standards.

The Ministry of Corporate Affairs (“MCA”), Government of India, had through notification dated February 16, 2015 issued the Indian Accounting Standards Rules, 2015 (“Ind AS”) which came into effect from April 1, 2015 and are applicable to companies which fulfill certain conditions. Further, there can be no assurance that the adoption of Ind AS will not affect our reported results of operations or financial condition.

Further, the Ministry of Finance, Government of India had issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards (“ICDS”), thereby creating a new framework for computation of taxable income. The ICDS have been applicable from the assessment year 2017-2018. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that were followed under general accounting standards, including Indian GAAP and Ind AS. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

73. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.

Our financial statements are prepared and presented in conformity with Indian GAAP (Ind AS). No attempt has been made to reconcile any of the information given in this document to any other principles or to base it on any other standards. Indian GAAP differs in certain significant respects from IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar.

74. There may be an adverse impact on our business, results of operations and financial condition due to implementation of the Labour Codes and other changes in labour laws

The Government of India has implemented four consolidated labour law codes, namely the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively, the “**Labour Codes**”), with effect from November 21, 2025 (“**Notification**”), thereby rationalising and replacing various existing central labour laws. These Labour Codes introduce a revised framework in respect of, inter alia, wages, social security, industrial relations, working conditions, health and safety, contract labour, fixed-term employment, lay-off, retrenchment and closure. Pursuant to the Notification and enforcement of the Labour Codes, our Company will be required to review and, where necessary, modify its human resource policies, employment contracts, wage and salary structures, leave and overtime policies, social security and retirement benefit schemes, practices relating to engagement of contract labour and third-party service providers, and our internal systems and controls for statutory compliances including, among others, provident fund, gratuity, leave encashment and related benefits, and may require us to recognise

additional provisions and liabilities in our financial statements. Any such increase in employee costs, or any additional provisioning requirements arising from the implementation of the Labour Codes, could adversely affect our profitability, cash flows and overall financial condition.

Further, the Labour Codes and the rules, notifications and guidelines issued thereunder are new and may give rise to interpretational issues, practical challenges in implementation and differences in approach across jurisdictions and authorities, including on matters such as classification of workmen, treatment of fixed-term and contract employees, thresholds for applicability, standing orders, working hours, overtime and conditions for lay-off, retrenchment and closure. We may also be required to re-evaluate our current arrangements with contract labour and outsourced service providers in light of the new regime, which could increase our compliance and monitoring burden and, in some cases, our costs.

There can be no assurance that our interpretation of, and ongoing compliance with, the Labour Codes and the related state and central rules will not be questioned by the relevant authorities or challenged by employees, workers, contract staff, unions or associations. Any actual or alleged non-compliance, delay or deficiency in implementation including in relation to maintenance of records, payment and deposit of contributions and benefits, obtaining registrations or approvals, or updating our internal policies and systems could result in demands for back-wages or benefits, imposition of interest, penalties and damages, directions to make additional payments or contributions, and could lead to inspections, prosecutions, disputes, work stoppages or industrial unrest.

Further, we may be required to create additional provisions or, if so mandated, restate our financial statements for any periods presented in this Draft Red Herring Prospectus on account of the impact of the Labour Codes, including any changes in actuarial valuations of employee benefits arising from the revised “wages” definition or other requirements. Any such provisions, liabilities, restatements or increased expenses, if material, could adversely affect our reported results of operations, net worth and key financial ratios. We cannot assure you that the impact of the implementation of the Labour Codes and any further amendments or clarifications to labour laws will not have an adverse effect on our business, results of operations, financial condition and cash flows.

75. A significant change in the Government of India’s economic liberalization and deregulation policies could adversely affect our business and the price of our Equity Shares.

The Government of India has traditionally exercised, and continues to exercise, a dominant influence over many aspects of the economy. Unfavourable government policies including those relating to the internet and e-commerce, consumer protection and data-privacy, could adversely affect business and economic conditions in India, and could also affect our ability to implement our strategy and our future financial performance. Since 1991, successive governments, including coalition governments, have pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector and encouraging the development of the Indian financial sector.

However, the members of the Government of India and the composition of the coalition in power are subject to change. As a result, it is difficult to predict the economic policies that will be pursued by the Government of India. For example, there may be an increasing number of laws and regulations pertaining to the internet and e-commerce, which may relate to liability for information retrieved from or transmitted over the internet or mobile networks, user privacy, content restrictions and the quality of services and products sold or provided through the internet. The rate of economic liberalization could change and specific laws and policies affecting the financial services industry, foreign investment, currency exchange and other matters affecting investment in our securities could change as well. Any significant change in India’s economic liberalization and deregulation policies could adversely affect business and economic conditions in India generally and our business in particular.

76. Fluctuation in the exchange rate of the Rupee and other currencies could have an adverse effect on the value of our Equity Shares, independent of our operating results.

Subject to requisite approvals, on listing, our Equity Shares will be quoted in Rupees on the Stock Exchange. Any dividends, if declared, in respect of our Equity Shares will be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to such investors. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the net proceeds received by shareholders.

The exchange rate of the Rupee has changed substantially in the last two decades and could fluctuate substantially in the future, which may have a material adverse effect on the value of the Equity Shares and returns from the Equity Shares, independent of our operating results.

77. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

BOOK BUILDING PROCESS

Book Building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the Book Running Lead Managers in accordance with the Book Building Process and advertised in all editions of [●] (a widely circulated English daily national newspaper), all editions of [●] (a widely circulated Hindi national daily newspaper) (Marathi being the regional language of Maharashtra, where our Registered Office is located), each with wide circulation at least two working days prior to the Bid/Issue Opening Date and shall be made available to the Stock Exchange for the purpose of uploading on its website. The Issue Price shall be determined by our Company in consultation with the Book Running Lead Managers in accordance with the Book Building Process after the Bid/Issue Closing Date.

Principal parties involved in the Book Building Process are:

- Our Company;
- The Book Running Lead Managers, in this case being **RarEver Financial Advisors Private Limited**.
- The Syndicate Member(s) who are intermediaries registered with SEBI / registered as brokers with BSE/National Stock Exchange of India Limited and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the Book Running Lead Managers;
- The Registrar to the Issue, in this case being **Maashitla Securities Private Limited**;
- The Escrow Collection Banks/ Bankers to the Issue and
- The Designated Intermediaries and Sponsor bank

The SEBI ICDR Regulations have permitted the Issue of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

The Issue is being made through the Book Building Process wherein 50% of the Net Issue shall be available for allocation on a proportionate basis to QIBs, provided that our Company may in consultation with the BRLMs allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations (the “**Anchor Investor Portion**”) out of which 33.33% of the Anchor Investor Portion, shall be reserved, for domestic Mutual Funds and 6.67% for Life Insurance Companies and Pension Funds (aggregating to 40%) , subject to valid Bids being received from them at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. In the event of under-subscription in Life Insurance Companies and Pension Funds portion the same may be allocated to domestic Mutual Funds. In case of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (other than the Anchor Investor Portion) (“**Net QIB Portion**”). 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders in the following manner: (a) one third of the portion available to Non-Institutional Investors shall be reserved for Applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs; (b) two third of the portion available to Non-Institutional Investors shall be reserved for applicants with Application size of more than ₹10 lakhs; and (c) any unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of Non-Institutional Investors, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Issue Price.

All potential Bidders may participate in the Issue through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Issue. Under-subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLMs and the Designated Stock Exchange.

All Bidders, other than Anchor Investors are mandatorily required to use the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs or, in the case of UPI Bidders, by using the UPI Mechanism. Anchor Investors are not permitted to participate in the Issue through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIB and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Anchor Investors are not allowed to revise and withdraw their Bids after the Anchor Investor Bidding Date. Individual Bidders can revise their Bids (upward revision) during the Bid/Issue Period until the Bid/Issue Closing Date.

Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for Individual Investors’ Portion where allotment to each Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Individual Investors’ Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under subscription, if any, in any category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Managers and the Stock Exchange. However, under – subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI ICDR Regulations, all the investors applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention is invited to the chapter titled “*Issue Procedure*” beginning on page 370 of the Draft Red Herring Prospectus.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “**Issue Procedure**” on page 370 of this Draft Red Herring Prospectus.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Quantity	Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company in consultation with the BRLMs, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “**Issue Procedure**” on page 370 of this Draft Red Herring Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

Credit of Equity Shares to Demat accounts of Allottees	On or before [●]
Commencement of trading of the Equity Shares on the Stock Exchange	On or before [●]

[^]1. Our Company may, in consultation with the Book Running Lead Managers, consider participation by Anchor Investors in accordance with the SEBI ICDR Regulations. The Anchor Investor Bid/Issue Period shall be one Working Day prior to the Bid/ Issue Opening Date.

2. Our Company in consultation with the Book Running Lead Manager, consider closing the Bid/Offer Period for QIBs one Working Day prior to the Bid/Offer Closing Date in accordance with the SEBI (ICDR) Regulations.

3. The UPI mandate end time and date shall be at 5:00 p.m. on Bid/Offer Closing Day.

** In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding two Working Days from the Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. For the avoidance of doubt, the provisions of the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs to the extent applicable.*

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Managers. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 3 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/ Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023 has reduced the time taken for listing of specified securities after the closure of public Issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days); 'T' being Issue closing date. Our Company shall follow the timelines provided under the aforementioned circular.

Bid Cum Application Forms and any revisions to the same will be accepted only between 10.00 a.m. to 5.00 p.m. (IST) during the Issue Period (except for the Bid/Issue Closing Date). On the Bid/ Issue Closing Date, the Bid Cum Application Forms will be accepted only between 10.00 a.m. to 4.00 p.m. (IST) for Individual and Non-Individual Bidders.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/ Issue Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Issue Closing Date and, in any case, not later than 4.00 p.m. (IST) on the Bid/ Issue Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Issue Closing Date, as is typically experienced in public Issue, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLMs are liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their applications (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Individual Applicants can revise (upwards modification) their Bid Cum Application Forms prior to the Bid/ Issue Closing Date. Allocation to Individual Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLMs, reserves the right not to proceed with the Issue at any time before the Bid/Issue Opening Date without assigning any reason thereof.

If our Company withdraws the Issue any time after the Issue Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Issue Closing Date, providing reasons for not proceeding with the Issue shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre-Issue and price band advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLMs, through the Registrar

to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraws the Issue after the Bid/Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is subject to obtaining the final listing and trading approval of the Stock Exchange with respect to the Equity Shares issued through the Prospectus, which our Company will apply for only after Allotment.

UNDERWRITING AGREEMENT

This Issue is 100% underwritten. The Underwriting agreement has been entered on [●]. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters are several and are subject to certain conditions specified therein. The Underwriters have indicated their intention to underwrite the following number of specified securities being issued through this Issue:

Details of the Underwriter	No. of Shares Underwritten	Amount Underwritten	% of total Issue size underwritten
[●]	[●]	[●]	[●]

**Includes [●] Equity shares for cash of the Market Maker Reservation Portion which are to be subscribed by the Market Maker in its own account in order to claim compliance with the requirements of Regulation 261 of the SEBI ICDR Regulations, as amended.*

As per Regulation 260(2) & (3) of SEBI ICDR Regulations, the Book Running Lead Managers have agreed to underwrite to a minimum extent of 15% of the Issue out of its own account. In the opinion of the Board of Directors (based on certificates given by the Underwriters), the resources of the above- mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The above-mentioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange.

SEBI Registration No.:	[●]

Our Company and the Book Running Lead Managers, have entered into an agreement dated [●] with [●], a Market Maker registered with SME Platform of BSE in order to fulfill the obligations of Market Making.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI ICDR Regulations, and its amendments from time to time and the circulars issued by BSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the exchange in advance for each and every blackout period when the quotes are not being issued by the Market Maker.

2. The minimum depth of the quote shall be ₹ 1,00,000. However, the investors with holdings of value less than ₹ 1,00,000 shall be allowed to offer their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
3. The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and SME Platform of BSE from time to time.
4. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25% of Issue Size (Including the [●] Equity Shares ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above [●] Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of market maker in our Company reduce to 24% of Issue Size, the market maker will resume providing 2-way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE may intimate the same to SEBI after due verification.
6. The Market Maker may also be present in the opening call auction, but there is no obligation on him to do so.
7. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
8. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
9. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on SME Platform of BSE and Market Maker will remain present as per the guidelines mentioned under BSE and SEBI circulars.
10. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems or any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange to decide controllable and uncontrollable reasons would be final.
11. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
12. The Market Maker shall have the right to terminate the said arrangement by giving three months-notice or on mutually acceptable terms to the Book Running Lead Managers, who shall then be responsible to appoint a replacement Market Maker.

In case of termination of the above mentioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Managers to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI ICDR Regulations. Further the Company and the Book Running Lead Managers reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time.

13. **Risk containment measures and monitoring for Market Maker:** SME Platform of BSE will have all margins which are applicable on the BSE viz., Mark-to-Market, Value-At- Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.
14. **Punitive Action in case of default by Market Maker:** SME Platform of BSE will monitor the obligations on a real-time basis and punitive action will be initiated for any exceptions and/or non- compliances. Penalties / fines may be imposed by the Exchange on the Market Maker in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (issuing two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

15. **Price Band and Spreads:** SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 Crores, the applicable price bands for the first day shall be:

- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in the TFT segment for the first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

The following spread will be applicable on the SME Platform:

Sr. No.	Market Price Slab (in ₹)	Proposed Spread (in % of Sale Price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Markets Makers during market making process has been made applicable, based on the Issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to ₹ 20 Crores	25%	24%
₹ 20 Crores to ₹ 50 Crores	20%	19%
₹ 50 Crores to ₹ 80 Crores	15%	14%
Above ₹ 80 Crores	12%	11%

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

On the first day of listing, there will be a pre-open session (call auction) and thereafter trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the Company will be placed in SPOS and will remain in Trade for Trade settlement for 10 days from the date of listing of Equity Shares on the Stock Exchange.

In terms of Regulation 237 of the SEBI ICDR Regulations, 2018, we confirm that the Minimum Promoters' Contribution of [●] % of the Post Issue Capital of our Company as mentioned above does not consist of ineligible securities and are hence eligible. Details provided below:

Reg. No	Promoter's Minimum Contribution Conditions	Eligibility Status of Equity Shares forming part of Promoter's Contribution
237 (1)(a)(i)	Specified securities acquired during the preceding three years, if they are acquired for consideration other than cash and revaluation of assets or capitalization of intangible assets is involved in such transaction.	The Minimum Promoter's contribution does not consist of such Equity Shares which have been acquired for consideration other than cash and revaluation of assets or capitalization of intangible assets.
237 (1)(a)(ii)	Specified securities acquired during the preceding three years, resulting from a bonus issue by utilization of revaluation reserves or unrealized profits of the issue or from bonus issue against Equity Shares which are ineligible for minimum promoter's contribution.	The minimum Promoter's contribution does not consist of such Equity Shares.
237 (1)(b)	Specified securities acquired by the promoter's and alternative investment funds or foreign venture capital investors or scheduled commercial banks or public financial institutions or insurance companies registered with Insurance Regulatory and Development Authority of India, during the preceding one year at a price lower than the price at which specified securities are being offered to the public in the initial public offer.	The minimum Promoter's contribution does not consist of such Equity Shares.
237 (1)(c)	Specified securities allotted to the promoter and alternative investment funds during the preceding one year at a price less than the issue price, against funds brought in by them during that period, in case of an issue formed by conversion of one or more partnership firms or limited liability partnerships, where the partners of the erstwhile partnership firms or limited liability partnerships are the promoter of the issue and there is no change in the management.	The minimum Promoter's contribution does not consist of Equity Shares allotted to alternative investment funds.
237 (1)(d)	Specified securities pledged with any creditor.	Our Promoter's has not Pledged any shares with any creditors. Accordingly, the minimum Promoter's contribution does not consist of such Equity Shares.

21. Details of Promoters' Contribution Locked-in for One Year and Two Years

In terms of Regulation 238(b) of the SEBI ICDR Regulations, 2018, fifty percent of promoters' holding in excess of minimum promoters' contribution shall be locked in for a period of two years from the date of allotment in the initial public offer; and remaining fifty percent of promoters' holding in excess of minimum promoters' contribution shall be locked in for a period of one year from the date of allotment in the initial public offer.

22. Lock in of Equity Shares held by Persons other than the Promoters:

In terms of Regulation 239 of the SEBI ICDR Regulations, 2018, in addition to the Minimum Promoters contribution as per regulation 238(a) and 238(b) of the SEBI ICDR Regulations, 2018, the entire pre-issue equity share capital held by persons other

than the promoters shall be locked in for a period of one year from the date of allotment of Equity Shares in this Issue. In terms of Regulation 241 of the SEBI ICDR Regulations, 2018, the Equity Shares which are subject to lock-in shall carry inscription 'non-transferable' along with the duration of specified non-transferable period mentioned in the face of the security certificate. The shares which are in dematerialized form, if any, shall be locked-in by the respective depositories. The details of lock-in of the Equity Shares shall also be provided to the Designated Stock Exchange before the listing of the Equity Shares.

23. Lock-in of the Equity Shares to be Allotted, if any, to the Anchor Investors

Fifty percent of the Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 90 days from the date of Allotment and the remaining Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

24. Inscription or recording of non-transferability:

In terms of Regulation 241 of the SEBI ICDR Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription "Non-Transferable" and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock-in is recorded by the Depository.

25. Pledge of Locked in Equity Shares:

In terms of Regulation 242 of the SEBI ICDR Regulations, 2018, the Equity Shares held by our Promoters and locked in may be pledged as a collateral security for a loan granted by a scheduled commercial bank or public financial institution or a systemically important non-banking finance company or housing finance company, subject to following:

- In case of Minimum Promoters' Contribution, the loan has been granted to the issuer company or its subsidiary (ies) for the purpose of financing one or more of the Objects of the Issue and pledge of equity shares is one of the terms of sanction of the loan.
- In case of Equity Shares held by the Promoters in excess of Minimum Promoters' contribution, the pledge of equity shares is one of the terms of sanction of the loan.

However, lock in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock in period stipulated has expired.

26. Transferability of Locked in Equity Shares:

In terms of Regulation 243 of the SEBI ICDR Regulations, 2018 and subject to provisions of Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 as applicable:

- The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI ICDR Regulations, 2018 may be transferred to another Promoters or any person of the Promoters' Group or to a new promoter (s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.
- The equity shares held by persons other than Promoters and locked in as per Regulation 239 of the SEBI ICDR Regulations, 2018 may be transferred to any other person (including Promoters and Promoters' Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

27. Our Company, our Directors and the Book Running Lead Managers to this Issue have not entered into any buy-back or similar arrangements with any person for purchase of our Equity Shares issued by our Company.

28. As on date of the Draft Red Herring Prospectus, there are no Partly Paid-up Shares and all the Equity Shares of our Company are fully paid up. Further, since the entire money in respect of the Issue is being called on application, all the successful applicants will be issued fully paid-up equity shares.

29. Neither the Book Running Lead Managers, nor their associates hold any Equity Shares of our Company as on the date of the Draft Red Herring Prospectus.
30. Prior to this Initial Public Offer, our Company has not made any public issue or right issue to the public at large.
31. There are no safety net arrangements for this public Issue.
32. As on the date of filing of the Draft Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other financial instruments into our Equity Shares.
33. As per RBI regulations, OCBs are not allowed to participate in this Issue.
34. Our Company has not raised any bridge loan against the proceeds of this Issue. However, depending on business requirements, we may consider raising bridge financing facilities, pending receipt of the Net Proceeds.
35. There are no Equity Shares against which depository receipts have been issued.
36. As on date of the Draft Red Herring Prospectus, other than the Equity Shares, there is no other class of securities issued by our Company.
37. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law. Our Company shall comply with disclosure and accounting norms as may be specified by SEBI from time to time.
38. An Applicant cannot make an application for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
39. Since present Issue is a Book Built Issue, the allocation in the net Issue to the public category in terms of Regulation 253(1) of the SEBI ICDR Regulations, 2018 shall be made as follows:
- not less than thirty-five per cent to the Individual Investors;
 - not less than fifteen per cent to Non-Institutional Investors;
 - not more than fifty per cent to Qualified Institutional Buyers, five per cent of which shall be allocated to mutual funds
40. Provided that the unsubscribed portion in either of the categories specified in clauses (a) or (b) may be allocated to applicants in any other category.
- Provided further that in addition to five per cent allocation available in terms of clause (c), mutual funds shall be eligible for allocation under the balance available for qualified institutional buyers.
41. An over-subscription to the extent of 10% (ten percent) of the Issue can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Issue. Consequently, the actual allotment may go up by a maximum of 10% (ten percent) of the Issue, as a result of which, the post Issue paid up capital after the Issue would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoter and subject to locking shall be suitably increased; so as to ensure that [●]% of the post Issue paid-up capital is locked in.
42. There will not be any further issuance of specified securities whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of filing of this offer document until the Equity Shares have been listed on the Stock Exchanges or all application monies have been refunded or unblocked on account of non-listing, under-subscription
43. Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under Basis of Allotment in the chapter titled "Issue Procedure" beginning on page 370 of this Draft Red herring Prospectus. In case of over-subscription in

all categories the allocation in the Issue shall be as per the requirements of Regulation 253 (2) of SEBI ICDR Regulations, as amended from time to time.

44. No incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise shall be offered by any person connected with the distribution of the Issue to any person for making an application in the Initial Public Offer, except for fees or commission for services rendered in relation to the Issue.
45. Our Promoters and the members of our Promoters' Group will not participate in this Issue.
46. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoters' Group between the date of filing the Draft Red Herring Prospectus and the Issue Closing Date shall be reported to the Stock Exchanges within twenty-four hours of such transaction.
47. None of our shareholders as on the date of this Draft Red Herring Prospectus are directly or indirectly related to the Book Running Lead Manager or their associates as defined under SEBI Merchant Bankers Regulations.
48. Neither the BRLMs nor any associates of the BRLMs (except Mutual Funds sponsored by entities which are associates of the BRLMs or insurance companies promoted by entities which are associates of the BRLMs or AIFs sponsored by entities which are associates of the BRLMs or FPIs other than individuals, corporate bodies and family offices which are associates of the BRLMs or pension funds sponsored by entities which are associates of the BRLMs) shall apply in the Issue under the Anchor Investor Portion.
49. The Book Running Lead Managers and their respective associates (as defined under the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992) do not hold any Equity Shares of our Company. The Book Running Lead Managers and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking.

Proposed Schedule of Implementation and Deployment of Net Proceeds

We intend to deploy the Net Proceeds towards the Objects as disclosed in the table below in accordance with the business needs of our Company. However, the actual deployment of funds will depend on a number of factors, including the timing of completion of the Issue, market conditions, our Board's analysis of economic trends and business requirements, ability to identify and consummate proposed investments and acquisitions, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital. Depending upon such factors, we may have to reduce or extend the deployment period for the stated Objects at the discretion of our management and in accordance with applicable laws. For further details, see '**Risk Factor** – Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.' on page 65 of the Draft Red Herring Prospectus.

As certified by Peer Reviewed Auditor of our Company i.e., M/s. Bhasin Hota & Co., Chartered Accountants by way of their certificate dated December 30, 2025.

[#]The amount utilized for general corporate purposes shall not exceed 15% of the Gross Proceeds or ₹ 10 crore whichever is lower.

The fund requirements, deployment of funds, and intended use of the Net Proceeds as described in this Draft Red Herring Prospectus are based on our current business plan, valid quotations obtained from various third-party vendors, management estimates, market conditions, and other external commercial and technical factors. However, these fund requirements and deployment plans have not been appraised by BRLM, any bank, financial institution, or independent agency. For further details, see '**Risk Factor** – Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net

Proceeds' on page 65 of the Draft Red Herring Prospectus. We may need to revise our funding requirements and deployment due to various factors such as our financial and market conditions, business and growth strategies, ability to identify and implement inorganic growth initiatives (including investments and acquisitions), competitive landscape, general factors affecting our results of operations, financial condition, access to capital, and other external factors such as changes in the business environment, regulatory climate, and interest or exchange rate fluctuations. These factors, which may not be within our management's control, might necessitate rescheduling the proposed utilization of the Net Proceeds and changing the allocation of funds from its planned allocation, subject to compliance with applicable laws.

Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue. To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Objects, per the estimated scheduled of deployment specified above, our Company shall deploy the Net Proceeds in subsequent financial year towards the aforementioned Objects.

Moreover, if the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 15% of the aggregate of the gross proceeds of the Issue or ₹ 1,000.00 lakhs, whichever is lower, in accordance with Regulation 230(2) of the SEBI ICDR Regulations. In case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilizing our internal accruals and seeking debt lenders. In furtherance, that such alternate arrangements would be available to fund any such shortfalls.

All quotations mentioned in this section are valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendor would be engaged to eventually supply the equipment at the same costs. We are yet to place orders for the capital expenditure towards purchase of machinery. Further, for risk arising out of the Objects, see ***“Risk Factor – We have not taken any steps to order the new machinery/equipment required for the Existing Premises. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the equipment / machineries in a timely manner, or at all, the same may result in time and cost over-runs.”*** on page 60 of this Draft Red Herring Prospectus. This includes part financing the cost of establishing the Proposed Project which may be subject to the risk of unanticipated delays in implementation, cost overruns and other risks and uncertainties.

There can be no assurance that we would be able to procure equipment at the estimated costs. If we engage someone other than the vendors from whom we have obtained quotations or if the quotations obtained expire, such vendor's estimates and actual costs for the services may differ from the current estimates. Some of the quotations do not include cost of freight, insurance, goods and services tax (wherever applicable) and other applicable taxes as these can be determined only at the time of placing of orders. Such additional costs shall be funded from the Net Proceeds allocated towards general corporate purposes or through contingencies, if required. In case of an increase in the estimated costs, such additional costs shall be incurred from our internal accruals.

Means of finance

The entire fund requirements for the Objects are proposed to be met from the Net Proceeds of the Issue. Accordingly, in terms of Regulation 230(1)(e) and Paragraph 9(C)(1) of Part A of Schedule VI of the SEBI ICDR Regulations, the Company is not required to make firm arrangements of finance through verifiable means for at least 75% of the stated means of finance, in addition to the Net Proceeds.

Subject to applicable laws, in the event of any shortfall in the Net Proceeds or any increase in the actual utilization of funds earmarked for the Objects, the Company may explore alternative funding options, including utilization of internal accruals and/or availing additional debt from existing and/or other lenders.

Any funds deployed towards the Objects after the date of filing of this Draft Red Herring Prospectus and prior to the receipt of the Net Proceeds shall be temporarily funded by the Company from its internal accruals, which shall be treated as short-term funding. Such temporary funding arrangements shall be reimbursed to the Company from the Net Proceeds upon receipt thereof, in accordance with applicable laws.

Details of Utilisation of Net Proceeds

The details of utilization of the Net Proceeds are set forth below:

1. Purchase and installation of plant and machinery for manufacturing of plasma cutting machines, welding equipment and customised automation systems at the Existing Premises;

Our Company proposes to utilise ₹87,856 thousand from the Net Proceeds towards the purchase and installation of plant and machinery for the manufacturing of plasma cutting machines, welding equipment and customised automation systems at our existing manufacturing facility located at Vasai. The proposed capital expenditure is expected to augment our existing production capacity and improve operational efficiencies.

The installation of additional machinery will enable us to scale up manufacturing volumes, reduce dependence on external vendors for certain precision components and support the execution of higher-value and customised orders. Further, in-house production of critical components and tooling is expected to result in cost efficiencies and improved operating margins. Consequently, the proposed investment is expected to strengthen our manufacturing capabilities, enhance our revenue potential from the existing facility and contribute positively to the profitability of the Company, thereby benefiting our shareholders.

The detailed list of plant and machinery to be acquired by our Company is provided below:

Notes:

- The Company has received quotations from certain vendors for the proposed purchase of Plant & Machinery. These quotations, however, do not specify a validity period. However, we have not entered into any definitive agreements with any of the vendor and there can be no assurance that the same vendor would be engaged to eventually supply the Plant & Machineries or at the same costs. If there is any increase in the costs, the additional costs shall be paid by our Company from its internal accruals see “**Risk Factor** – “We have not taken any steps to order the new machinery/equipment required for the Existing Premises. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the equipment / machineries in a timely manner, or at all, the same may result in time and cost over-runs.” on page no. 60 of this Draft Red Herring Prospectus.
- The Plant & Machinery models and quantity to be purchased are based on the present estimates of our management. The Management shall have the flexibility to revise such estimates (including but not limited to change of vendor or any modification/ addition/ deletion) at the time of actual placement of the order. In such case, the Management can utilize the surplus of proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other machinery and equipments, as required. Furthermore, if any surplus from the proceeds remains after meeting the total cost of machineries and equipment’s for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 15% of the amount being raised by the issuer or Rs.10 crores, whichever is less.

- c. We are not acquiring any second-hand machinery.
- d. The Company has received quotations from certain vendors for the proposed purchase of Plant & Machinery. These quotations do not specify any validity period. Consequently, the actual costs at the time of purchase may differ from the estimates due to factors such as changes in machinery prices, freight, installation charges, packaging and forwarding, taxes, or exchange rate fluctuations. Any such additional costs will be funded from the Company's internal accruals.

Other confirmations relating to the Existing Premises:

Any escalation in the cost of plant and machineries to be purchased, will be met from Internal Accruals of our Company.

Our Promoters, Directors and Key Managerial Personnel do not have any interest in the proposed acquisition of plant & machineries, or in the entities from whom we have obtained quotation in relation to such activities.

Implementation Schedule

Our Company proposes to deploy the entire Net Proceeds towards the purchase of plant & machineries in the Financial Year 2026-27. In the event that the estimated utilization of the Net Proceeds in a Financial Year 2026-27 is not completely met, the same shall be utilized, in part or full, in the next Financial Year or a subsequent period towards the Objects.

The proposed Schedule of Implementation for setting up of a new manufacturing unit is as follows:

Activity	Estimated Days
Placement of Order	Within 1 month from the receipt of Net Proceeds and necessary regulatory approvals
Delivery	6 months from the date of order placement
Installation	3 months from delivery
Completion and Operational	2 months from installation

Note: The above timelines for implementation are as planned and are indicative. They are subject to change based on the funding timeline from the Net Proceeds

Funding towards long term working capital requirements;

We propose to utilise ₹ 4,40,672 thousand from the Net Proceeds to fund the long term working capital requirements of our Company in Fiscal 2027 and Fiscal 2028. We have significant long term working capital requirements and we fund a majority of our long term working capital requirements in the ordinary course of business from our existing equity, internal accruals and financing facilities from various banks, financial institutions and non-banking financial companies. For further information, see "Financial Indebtedness" and "Restated Financial Information" on pages 295 and 291, respectively. Further, the funding of the incremental long-term working capital requirements of our Company will help to a consequent increase in our profitability and in achieving the proposed targets as per our business plan.

As certified by Peer Reviewed Auditor of our Company i.e., M/s. Bhasin Hota & Co., Chartered Accountants by way of their certificate dated December 30, 2025.

Key assumptions for working capital projections made by our Company:

Sr. No.	Particulars	Assumptions
Current Assets		
	Inventories	The Company's inventory holding days reduced sharply from 1,167 days in Fiscal 2023 to 152 days in Fiscal 2025, reflecting sustained improvements in production planning, rationalisation of legacy inventory and closer alignment of procurement with confirmed customer orders. This trend evidences enhanced working capital discipline and operational efficiency.

Sr. No.	Particulars	Assumptions
		From Fiscal 2026 onwards, inventory holding is projected at 110 days, representing a normalised operating cycle commensurate with the Company's manufacturing model and anticipated scale of operations. The Company is engaged in the manufacture of plasma cutting machines, welding equipment and customised automation systems, which involve multiple sequential stages including fabrication, assembly, system integration, testing, calibration and on-site commissioning. These processes inherently require the holding of raw materials, specialised components and work-in-progress over extended periods as compared to standardised manufacturing businesses. The projected increase in inventory levels is primarily attributable to higher production volumes in line with expected growth in revenues, increased execution of customised and automation-led projects, and the need to maintain optimal levels of work-in-progress to ensure timely delivery. In addition, the Company maintains buffer inventory of critical and imported components such as CNC controllers, motion control systems, power sources and electronic assemblies to mitigate risks relating to raw material price volatility, supply chain disruptions and extended lead times. Accordingly, the projected inventory holding period reflects operational necessity, supports uninterrupted production and execution of orders, and is consistent with the Company's historical trends post-rationalisation and the anticipated scale of operations.
	Trade receivables	Trade receivable days declined materially from 281 days in Fiscal 2023 to 110 days in Fiscal 2025, reflecting a structural improvement in the Company's credit appraisal, billing discipline and collection mechanisms. This improvement was driven by tighter customer credit evaluation, increased use of advance payments, closer monitoring of receivables and improved alignment of invoicing with project milestones. From Fiscal 2026 onwards, trade receivable days are projected at 110 days, representing a stable and normalised credit cycle aligned with the Company's evolving customer mix and business model. The projected receivable levels are driven by growth in revenues and expansion of the customer base, particularly institutional and industrial customers, where credit terms are contractually agreed and are typically longer than those extended to smaller customers. Further, a higher proportion of customised automation projects involves milestone-based billing, where invoicing and collections are linked to stages such as design approval, dispatch, installation and commissioning. For automation solutions, final acceptance and payment are often received post on-site commissioning, resulting in relatively longer receivable cycles compared to standard machine sales. The Company undertakes periodic credit evaluation of customers, monitors receivable ageing on an ongoing basis and follows up systematically on outstanding balances. Accordingly, the projected trade receivable holding period is considered

Sr. No.	Particulars	Assumptions
		reasonable, achievable and aligned with the Company's operational requirements and historical experience.
	Short Term Loans and Advances and Other Current Assets	Short-term loans and advances and other current assets primarily comprises of Advances paid to suppliers, prepaid expenses and Receivable from Financial Institution on account of TDS on Interest. It has been maintained in line with the projected business activity for the Fiscal 2027 and Fiscal 2028.
Current Liabilities		
	Trade Payables	Trade payable days declined from 256 days in Fiscal 2023 to 72 days in Fiscal 2025, reflecting a significant improvement in liquidity and a conscious shift towards timely settlement of vendor obligations. This reduction also indicates rationalisation of extended credit arrangements that existed in earlier periods.
		From Fiscal 2026 onwards, trade payable days are projected at 65 days, representing a normalised and sustainable vendor credit cycle aligned with standard commercial terms negotiated in the ordinary course of business.
		The projected trade payable levels correspond to higher procurement volumes driven by increased manufacturing activity. Credit terms negotiated with suppliers of steel, fabricated parts, electrical and electronic components, CNC controllers, motion control systems and power sources typically range between 45 to 75 days. The Company follows a balanced vendor management approach, optimising agreed credit periods while ensuring continuity of supply and pricing stability.
		The Company does not rely on extended or irregular credit arrangements and settles dues within agreed timelines. Accordingly, the projected trade payable holding period is supported by historical experience and is considered reasonable in the context of the Company's operating cycle.
	Short Term Provisions	Short term provision majorly comprises of provision for tax, statutory dues and salary payables. It has been maintained in line with the projected business activity for the Fiscal 2027 and Fiscal 2028.
	Other Current Liabilities	Other current liabilities majorly comprise of advances from customers and other liabilities such as statutory dues. It has been maintained in line with the projected business activity for the Fiscal 2027 and Fiscal 2028.

As certified by Peer Reviewed Auditor of our Company i.e., M/s. Bhasin Hota & Co., Chartered Accountants by way of their certificate dated December 30, 2025.

Our Company proposes to utilize ₹ 2,00,000 thousand and ₹ 2,40,672 thousand out of the Net Proceeds in Fiscal 2027 and Fiscal 2028 (till December 2027), respectively, towards our long term working capital requirements. The balance portion of our Company's long term working capital requirement will be arranged from existing equity, internal accruals and borrowings from banks.

General corporate purposes

Our Company intends to deploy the balance Net Proceeds aggregating to ₹ [●] Lakhs for General Corporate Purposes, subject to such utilization not exceeding 15% of the amount being raised by the issuer or ₹ 1,000 lakhs, whichever is less, in compliance with the SEBI ICDR Regulations, as decided by our board, we have flexibility in applying the remaining proceeds after meeting issue expenses for general corporate purpose including but not restricted to, meeting capital expenditure, operating expenses,

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals or permitted borrowings.

Appraisal by Appraising Fund

None of the Objects have been appraised by any bank or financial institution or any other independent third party organization. The funding requirements of our Company and the deployment of the proceeds of the Issue are currently based on available management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including but not limited to variations in interest rate structures, changes in our financial condition and current commercial conditions of our business and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

Bridge Financing Facilities

As on the date of this Draft Red Herring Prospectus, we have not raised any bridge loans, which are proposed to be repaid from the Net Proceeds. However, we may draw down such amounts, as may be required, from an overdraft arrangement/cash credit facility with our lenders, to finance additional working capital needs until the completion of the Issue.

Monitoring Utilization of Funds

Our Company shall appoint the Monitoring Agency in accordance with Regulation 262 of the SEBI ICDR Regulations prior to the filing of the Red Herring Prospectus with RoC. Our Audit Committee and the Monitoring Agency will monitor the utilisation of the Gross Proceeds, and the Monitoring Agency shall submit the report required under Regulation 262(2) of the SEBI ICDR Regulations, on a quarterly basis, until such time as the Gross Proceeds have been utilized in full. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay.

Our Company will disclose and continue to disclose the utilisation of the Gross Proceeds, including interim use under a separate head in our balance sheet for such financial years as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable law, clearly specifying the purposes for which the Gross Proceeds have been utilized, until the time any part of the Fresh Issue proceeds remains unutilized. Our Company will also, in its balance sheet for the applicable financial years, provide details, if any, in relation to all such Gross Proceeds that have not been utilized, if any, of such currently unutilized Gross Proceeds. Further, our Company, on a quarterly basis, shall include the deployment of Gross Proceeds under various heads, as applicable, in the notes to our financial results. Such heads will include an item-by-item description for all the expense heads and sub-heads disclosed under each of the Objects of the Issue, as set out in this Draft Red Herring Prospectus.

Pursuant to Regulation 32(3) and Part C of Schedule II of the SEBI LODR Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Gross Proceeds. The Audit Committee shall make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than those stated in the Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Gross Proceeds remain unutilized. Such disclosure shall be made only until such time that all the Gross Proceeds have been utilized in full. The statement shall be certified by the Statutory Auditors, and such certification shall be provided to the Monitoring Agency. Furthermore, in accordance with Regulation 32(1)

of the SEBI LODR Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Fresh Issue from the Objects; and (ii) details of category wise variations in the actual utilisation of the proceeds of the Fresh Issue from the Objects.

Interim use of Net Proceeds

Pending utilization of the Net Proceeds for the purposes described above, our Company will deposit the Net Proceeds only with scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as amended, as may be approved by our Board. In accordance with Section 27 of the Companies Act, 2013 and other applicable laws, our company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets.

Variation in Objects

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013, our Company shall not vary the objects of the Issue without our Company being authorized to do so by the Shareholders by way of a special resolution through a postal ballot. Further, pursuant to Regulation 32 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, our Company shall on half yearly basis disclose to the Audit Committee the applications of the proceeds of the Issue. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution ("Postal Ballot Notice") shall specify the prescribed details as required under the Companies Act. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in Hindi, the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters will be required to provide an exit opportunity to such shareholders who do not agree to the above stated proposal, at a price as may be prescribed by SEBI, in this regard.

Other Confirmations

No part of the Net Proceeds will be paid by our Company as consideration to our Promoter, Promoter Group, our Directors, our Key Management Personnel or our Group Company. Except in the normal course of business and in compliance with applicable law, there are no existing or anticipated transactions in relation to utilisation of Net Proceeds with our Promoters, Promoter Group, our Directors, Senior Management Personnel, our Key Management Personnel. Further, pursuant to the issue, the Net Proceeds received by our Company shall only be utilised for objects identified by our Company and for general corporate purposes and none of our Promoter, Promoter Group, our Directors, Senior Management Personnel, our Key Management Personnel of our Company, as applicable, shall receive a part of or whole Net Proceeds directly or indirectly.

BASIS FOR ISSUE PRICE

The Price Band, Floor Price and Issue Price will be determined by our Company, in compliance with the SEBI ICDR Regulations, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of the quantitative and qualitative factors described below. The price band/floor price/offer price has been determined by the issuer in consultation with the book running lead manager, on the basis of book-building. The face value of the Equity Shares is ₹10 and Issue Price is ₹ [•] per Equity Shares and is [•] times of the face value. Annexure-A

ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS

The information provided below sets out the possible special tax benefits available to the Company and the Equity Shareholder under the Income Tax Act 1961 (read with the rules, circulars and notifications issued in connection thereto), as amended by the Finance Act, 2025 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL TAX BENEFITS TO THE COMPANY UNDER THE INCOME TAX ACT, 1961 (THE “ACT”)

Deduction in respect of employment of new employees:

In the past, company has not claimed any deduction under section 80JJAA of the Act considering there was no sufficient taxable income. However, in accordance with and subject to the conditions specified under Section 80JJAA of the Act, a company is entitled to a deduction of an amount equal to 30% of additional employee cost incurred in the course of business in a financial year, for 3 consecutive assessment years including the assessment year relevant to the financial year in which such additional employment cost is incurred.

Additional employee cost means the total emoluments paid or payable to additional employees employed in the financial year. The deduction under Section 80JJAA would continue to be available to the company even where the company opts for the lower effective tax rate of 25.168% as per the provisions of Section 115BAA of the Act (as discussed above).

The company should be eligible to claim this deduction in case it incurs additional employee cost within the meaning of Explanation (i) to sub-Section (2) of Section 80JJAA of the Act and satisfies the conditions as mentioned in the said Section

Lower corporate tax rate under section 115BAA of the Act

Section 115BAA has been inserted in the Act w.e.f. 1 April 2020 (A.Y. 2020-21). Section 115BAA of the Act grants an option to a domestic company to be governed by the section from a particular assessment year. If a company opts for section 115BAA of the Act, it can pay corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and education cess of 4%). Section 115BAA of the Act further provides that domestic companies availing the said option will not be required to pay Minimum Alternate Tax (‘MAT’) on their ‘book profits’ under section 115JB of the Act

However, such a company will no longer be eligible to avail specified exemptions /incentives/deductions under the Act and will also need to comply with the other conditions specified in section 115BAA of the 175 Act. Further, it shall not be allowed to claim set-off of any brought forward loss arising to it on account of additional depreciation and other specified incentives.

The Company has opted to apply section 115BAA of the Act for Financial Year 2024-25

B. SPECIAL TAX BENEFITS TO THE SHAREHOLDERS UNDER THE INCOME TAX ACT, 1961 (THE “ACT”)

There is no possible special direct tax benefit available to the shareholders of Company for investing in the shares of the Company. However, such shareholders shall be liable to concessional tax rates on certain incomes under the extant provisions of the Act. Further, it may be noted that these are general tax benefits available to equity shareholders, other shareholders holding any other type of instrument are not covered below.

- Section 112A of the Act provides for concessional rate of tax on transfer of equity shares with effect from April 1, 2019 (i.e. Assessment Year 2019-20) subject to conditions. Any income, exceeding INR 1,25,000 arising from the transfer of a long-term capital asset (i.e. capital asset held for the period of 12 months or more) being an Equity Share in an Indian company or a unit of an equity-oriented fund wherein Securities Transaction Tax (‘STT’) is paid on both acquisition and transfer, income tax

is charged at a rate of 10% without giving effect to indexation if the transfer takes place before 23 July, 2024. For transfers which take place after 23 July, 2024, the rate of tax is increased from 10% to 12.5% without giving effect to indexation

- Section 111A of the Act provides for concessional rate of tax @ 15% in respect of short-term capital gains (provided the short-term capital gains exceed the basic threshold limit of exemption, where applicable) arising from the transfer of a short-term capital asset (i.e. capital asset held for the period of less than 12 months) being an Equity Share in a company or a unit of an equity-oriented fund wherein STT is paid on both acquisition and transfer provided the transfer takes place before 23 July, 2024. For transfers which take place after 23 July, 2024, the rate of tax is increased from 15% to 20%.
- Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. Further, as per the provisions of Section 80M of the Act, in the case of domestic corporate shareholders, dividend received by a corporate shareholder from the Company shall be eligible for deduction while computing the total income of the corporate shareholder for the relevant year. The amount of such deduction would be restricted to the amount of dividend distributed by the corporate shareholder to its shareholders on or before one month prior to due date of filing of its Income-tax return for the relevant year. Furthermore, in the case of shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of individuals, whether incorporated or not and every artificial judicial person, surcharge would be restricted to 15% irrespective of the amount of dividend. Further, if the shareholder is a tax resident of foreign country with which India has a Double taxation Avoidance Agreement ('DTAA'), it may claim benefit of applicable rate as stated in the DTAA, if more beneficial over rate in Act.

Notes:

1. We M/s. Piyush Kothari & Associates, have not considered the general tax benefits available to the Company, or shareholders of the Company.
2. The above is as per the Tax Laws as on date.
3. The above Statement of possible special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all the existing and potential tax consequences of the purchase, ownership and disposal of Equity Shares.
4. This Statement does not discuss any tax consequences in any country outside India of an investment in the Equity Shares. The subscribers of the Equity Shares in the country other than India are urged to consult their own professional advisers regarding possible income –tax consequences that apply to them because it is subject to relevant Double Taxation Avoidance Agreement ('DTAA'), if any, between India and the country in which the non-resident has fiscal domicile.

1. Global Economic Outlook

The global output is expected to grow by 3.2% in CY 2025, down from 3.3% in CY 2024, and moderating to 3.1% in CY 2026. This deceleration reflects a combination of lingering trade tensions, policy uncertainties, and region-specific structural challenges.

Global inflation is expected to ease, with headline inflation forecast at 4.2% in CY 2025 and 3.7% in CY 2026, supported by tighter monetary policies in advanced economies, improving labour market conditions, and the gradual resolution of supply-side disruptions. Global trade growth is set to moderate to 3.6% in CY 2025 and further to 2.3% in CY 2026, reflecting the impact of elevated trade barriers and geopolitical instability.

1.1 GDP Growth across Major Regions

GDP growth across major global regions—including Europe, Latin America & the Caribbean, Middle East & Central Asia, and Sub-Saharan Africa—continues to display varied trajectories. While some regions are stabilizing post-pandemic, others remain challenged by structural and cyclical issues. The global outlook presents a mixed scenario, with emerging economies continuing to outperform advanced economies.

Source-IMF World Economic Outlook October 2025 update

In Emerging and Developing Asia, growth is projected to moderate from 5.3% in CY 2024 to 5.2% in CY 2025, before slightly declining to 4.7% in CY 2026. India is expected to grow at 6.6% in CY 2025, supported by resilient rural consumption and sustained infrastructure investments, up from 6.5% in CY2024. In contrast, China's growth is anticipated to decelerate to 4.8% in CY2025, amid persistent real estate concerns and subdued domestic demand.

Sub-Saharan Africa is projected to grow at 4.1% in CY 2025, maintaining the same pace as CY 2024, with growth expected to accelerate slightly to 4.4% in CY 2026. This gradual improvement is being supported by better weather conditions and more efficient supply chain operations.

In the Middle East and Central Asia, the economy is forecasted to expand at 3.5% in CY 2025, up from 2.6% in CY 2024, and further strengthen to 3.8% in CY 2026, driven by stabilization in oil production and ongoing economic reforms.

For Latin America and the Caribbean, modest growth of 2.4% is forecast for CY 2025, unchanged from 2.4% in CY2024, with a slight moderation to 2.3% in CY2026, reflecting stable yet subdued economic momentum supported by stronger macroeconomic management across key economies.

Emerging and Developing Europe remains subdued, with growth estimated at 1.8% in CY 2025, down from 3.5% in CY 2024, expected to rise modestly to 2.2% in CY 2026. The region continues to face structural manufacturing challenges, particularly in major economies like Germany.

India and Top 4 Global Economies GDP Growth Forecast

Note: P = Projections, Source: IMF World Economic Outlook October 2025 update

Overall, while global growth is expected to remain steady at 3.2% in CY 2025, regional disparities persist, influenced by a combination of domestic challenges, external geopolitical tensions, and fluctuating commodity prices.

F – Forecast, Source – IMF World Economic Outlook October 2025

Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market and developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.)

Advanced Economies are projected to slow, with GDP growth at 1.6% in CY 2025 and CY 2026. The United States is expected to expand by 2.0% in CY 2025 and 2.1% in CY 2026, supported by resilient consumer spending despite fiscal and trade pressures. The Euro Area faces subdued growth at 1.2% in CY 2025, with Germany at 0.2% and France at 0.7%, amid lingering trade

disruptions and domestic challenges. Japan's growth is forecast at 1.1% in CY 2025, reflecting weak domestic demand, while the United Kingdom is projected to grow at 1.3%.

Emerging Markets and Developing Economies are expected to maintain moderate expansion, with GDP growth of 4.2% in CY 2025 and 4.0% in CY 2026. China's growth is projected at 4.8% in CY 2025, slightly higher than previously expected, constrained by real estate sector weakness and soft consumer demand. India is projected to grow at 6.6% in CY 2025 and 6.2% in CY 2026, driven by robust rural consumption, infrastructure investment, favourable demographics, and digitalisation. Other key economies, including Brazil (2.4%) and Russia (0.6%) in CY 2025, are expected to grow more slowly amid structural and geopolitical challenges.

Global commodity prices are anticipated to remain volatile. Oil prices are projected to decline by 12.9% in CY 2025, following a 1.8% decline in CY 2024, before recovering moderately in CY 2026. Non-fuel commodities are expected to increase by 7.4% in CY 2025, driven by agricultural and industrial demand.

Overall, the global economic outlook indicates slowing growth, easing inflation, and continued uncertainty due to geopolitical tensions and trade fragmentation. Nevertheless, India stands out as a relative growth leader among major economies, supported by macroeconomic stability, demographic advantages, and continued investment-led expansion.

India's Macroeconomic Scenario

2.1 Gross Domestic Product (GDP)

India's real GDP has shown a glittering growth at 8.2% in the second quarter (Q2) of FY26 compared to the growth rate of 5.6% during Q2 of FY25, whereas nominal GDP has witnessed a growth rate of 8.7% in Q2 of FY 2025-26.

In its latest Economic Outlook, the OECD noted that India remains one of the fastest-growing major economies, supported by strong investment activity and resilient services. OECD highlighted that India's GDP is projected to grow by 6.7% in fiscal year 2025-26, 6.2% in 2026-27 and 6.4% in 2027-28. Despite some likely impact of the US tariff on Indian exports, private consumption will be supported by rising real incomes as inflation remains soft and low consumption/indirect taxes (GST). Going forward, investment will be sustained by declining borrowing costs and strong public capital expenditure. Current low headline inflation is projected to gradually converge towards the 4% target. Notably, India's Headline Inflation drops to 0.25 % in October 2025.

India's Economic Growth Momentum Remains Strong - Surpassed USD 4 Trillion.

In June 2025, India became the fourth-largest economy in the world and retained its position as the fastest-growing major economy. The country is projected to become the world's third largest economy by 2030, with an estimated GDP of USD 7.3 trillion.

Source: PIB, Press Release - India Becoming an Economic Powerhouse posted on June 16, 2025

India achieved a significant milestone by overtaking Japan to become the *third most powerful nation in the Asia-Pacific region*, as per the Asia Power Index 2024. India's overall score rose to 39.1, reflecting a 2.8-point increase from the previous year, driven by growing influence across economic, military, and diplomatic dimensions.

Source: PIB, Press Release - India becomes 3rd Most Powerful Nation in Asia, Surpasses Japan in Asia Power Index posted on September 24, 2024

Key factors behind India's rise include its strong economic performance, expanding and youthful workforce, and increasing strategic engagement across the region. India's Economic Capability improved significantly, supported by its position as the world's third-largest economy in terms of purchasing power parity (PPP). Additionally, a notable increase in its Future Resources score highlights the demographic advantage that is expected to sustain its growth trajectory in the coming years.

2.2 Gross Value Added (GVA)

Real GVA in Q2 of FY 2025-26 is estimated at ₹44.77 lakh crore, against ₹41.41 lakh crore in Q2 of FY 2024-25, registering a growth rate of 8.1%. Nominal GVA in Q2 of FY 2025-26 is estimated at ₹77.69 lakh crore, against ₹71.45 lakh crore in Q2 of FY 2024-25, showing a growth rate of 8.7%.

Real GDP has been estimated to grow by 8.2% in Q2 of FY 2025-26 against the growth rate of 5.6% during Q2 of FY 2024-25. Nominal GDP has witnessed a growth rate of 8.7% in Q2 of FY 2025-26.

The Secondary (8.1%) and Tertiary Sector (9.2%) has boosted the Real GDP growth rate in Q2 of FY 2025-26 to rise above 8.0%.

Manufacturing (9.1%) and Construction (7.2%) in the Secondary Sector, has registered above 7.0% growth rate at Constant Prices in this quarter.

Financial, Real Estate & Professional Services (10.2%) in the Tertiary Sector has sustained a substantial growth rate at Constant Prices in Q2 of FY 2025-26.

Agriculture and Allied (3.5%) and Electricity, Gas, Water Supply and Other Utility Services Sector (4.4%) has seen moderated Real growth rate during Q2 of FY 2025- 26.

Real Private Final Consumption Expenditure (PFCE) has reported 7.9% growth rate during Q2 of FY 2025-26 as compared to the 6.4% growth rate in the corresponding period of previous financial year.

Major Highlights:

- Real GDP has been estimated to grow by 8.2% in Q2 of FY 2025-26 against the growth rate of 5.6% during Q2 of 2024-25.
- Nominal GDP has witnessed a growth rate of 8.7% in Q2 of FY 2025-26.

2.3 Consumer Price Index (CPI)

CPI is at its lowest level

Year-on-year (YOY) inflation rate based on All India Consumer Price Index (CPI) for the month of October 2025 over October 2024 is 0.25% (Provisional). There is decrease of 119 basis points in headline inflation of October 2025 in comparison to September 2025. It is the lowest year-on-year inflation of the current CPI series.

Source: MOSPI, GOI

The decline in headline inflation and food inflation during the month of October 2025 is mainly attributed to full month's impact of decline in GST, favorable base effect and to drop in inflation of Oils and fats, Vegetables, Fruits, Egg, Footwear, Cereals and products, Transport and Communication etc.

2.4 India Per Capita GDP Forecast

Per capita GDP growth for India is estimated at 9.19 % CAGR between CY2025-CY2030. Increased individual incomes are expected to create additional discretionary spending, which may be beneficial for the sector.

2.5 Index of Industrial Production (IIP) Growth Trends:

As per the Index of Industrial Production (IIP), the industrial sector grew by 4.0% in FY 2025, moderating from 5.9% in FY 2024 and 5.2% in FY 2023. This deceleration in overall IIP growth in FY 2025 reflects a softening of industrial momentum amidst global headwinds and tighter financial conditions.

Among key components:

- **Manufacturing** (which holds a 77.6% weight in IIP) registered a slower growth of 3.9% in FY 2025, compared to 5.5% in FY 2024 and 4.7% in FY 2023.
- **Mining growth** also moderated sharply to 2.9% in FY 2025 from 7.5% in FY 2024 and 5.8% in FY 2023.
- **Electricity growth** remained relatively stable at 5.1% in FY 2025, slightly down from 7.1% in FY 2024 and significantly lower than 8.9% in FY 2023.

This slowdown indicates tightening domestic demand and spillover effects from a weaker global industrial cycle.

Latest IIP data in Oct'25 remains a tad low amid less activity during festival times

The Index of Industrial Production (IIP) slows a tad at 0.4% during Oct'25 due to less working days available amid festivals. The growth rates of the three sectors, Mining, Manufacturing and Electricity for the month of October 2025 are (-) 1.8 percent, 1.8 percent and (-) 6.9 percent respectively. Lower demand in October 2025 and subsequent decline in electricity generation was driven by extended rainfall season and comfortable ambient temperature across multiple States/UTs.

Use-Based Classification Trends:

Source: Ministry of Statistics & Programme Implementation (MOSPI)

According to the use-based classification:

- Capital Goods segment growth slowed to 5.5% in FY 2025, down from a high of 13.1% in FY 2023 and 6.3% in FY 2024, indicating a reduction in investment momentum.
- Primary Goods also witnessed slower growth at 3.9%, compared to 6.1% in FY 2024 and 7.5% in FY 2023.
- Intermediate Goods rebounded modestly to 4.1% in FY 2025, up from 3.8% in FY 2023, although still lower than 5.3% in FY 2024.
- Infrastructure/Construction Goods slowed to 6.6% in FY 2025 from 9.7% in FY 2024 and 8.4% in FY 2023, pointing to softening construction and infrastructure activity.
- Consumer Durables grew significantly by 7.9%, rebounding from 3.6% in FY 2024 and 0.6% in FY 2023, indicating improved demand in consumer electronics and appliances.
- In contrast, Consumer Non-Durables contracted by 1.6% in FY 2025, reversing the 4.1% growth in FY 2024, likely reflecting subdued rural and essential goods demand.
- The divergence in growth across segments suggests an uneven industrial recovery in FY 2025. While certain consumer categories have rebounded, investment-related and primary sectors remain under pressure.

The latest growth rates of IIP as per Use-based classification in October 2025 over October 2024 are (-)0.6 percent in Primary goods, 2.4 percent in Capital goods, 0.9 percent in Intermediate goods, 7.1 percent in Infrastructure/ Construction Goods, (-) 0.5 percent in Consumer durables and (-)4.4 percent in Consumer non-durables. Based on use-based classification, top three positive contributors to the growth of IIP for the month of October 2025 are Infrastructure/ construction goods, Intermediate goods and Capital goods.

2.6 Overview on Key Demographic Parameters

2.6.1 Population growth and Urbanization

India's economic trajectory and consumption dynamics are closely tied to its demographic shifts. According to the World Bank, India's population expanded from approximately 0.75 billion in 1984 to 1.45 billion in 2024, consolidating its position as the world's most populous nation. This growth underlines the emergence of a vast labour force and consumer base, essential for driving sustained economic progress.

A key demographic indicator—the age dependency ratio—has witnessed a steady decline over the last four decades. From a high of 76.54% in 1984, it reduced to 71.77% in 1994, 62.88% in 2004, and 53.24% in 2014, before reaching a low of 46.56% in 2024. This downward trend signifies that for every 100 working-age individuals, there are now fewer than 47 dependents, compared to over 76 dependents in the mid-1980s. Such a shift reflects a growing share of the working-age population, unlocking India's demographic dividend—a critical driver of productivity, savings, and investment.

Together, the rising total population and declining dependency ratio provide a dual advantage: a larger workforce capable of supporting economic activity and a lower demographic burden, which allows for higher disposable incomes and consumption growth. These demographic fundamentals form a strong backbone for India's long-term economic and private consumption expansion.

Urbanization Trend in India

Source: World Bank Database

Urbanization, too, is transforming India's socio-economic fabric. The urban population rose from 424.96 million in 2014 (32.38% of total population) to 522.93 million in 2023 (36.36%), and further to approximately 534.91 million in 2024 (36.87%), according to World Bank estimates. This rapid growth in urban areas underscores the need for sustainable urban planning, investment in infrastructure, and development of smart cities to accommodate and benefit from the shifting population dynamics.

2.6.2 Labour Force in India

India's labour force has experienced significant growth over the past decade. In 2010, the total labour force was approximately 467.56 million. By 2024, this number had increased to 607.69 million, reflecting a Compound Annual Growth Rate (CAGR) of 1.89% over the 14-year period.

This upward trend underscores the expanding working-age population and the country's ongoing economic development. However, it also highlights the need for effective employment policies to ensure that the growing labour force is adequately absorbed into productive sectors.

The labour force participation rate (LFPR) has also seen fluctuations, influenced by various socio-economic factors. As of 2024, the LFPR stood at 45.1%, indicating the percentage of the working-age population that is either employed or actively seeking employment.

These statistics emphasize the importance of implementing strategies that not only create employment opportunities but also enhance the quality and inclusivity of jobs across different sectors of the economy.

2.6.3 Breakdown of Employment by Sector

According to the Periodic Labour Force Survey (PLFS) 2023–24, the employment distribution across various sectors exhibits distinct gender-based patterns. A significant portion of male workers are engaged in agriculture, followed by notable participation in construction, manufacturing, and trade-related activities. In contrast, female workers are predominantly employed in agriculture, with considerable involvement in manufacturing and other services sectors. While female representation in trade and construction is lower compared to males, Additionally, a substantial proportion of employed women are self-employed, often contributing as unpaid helpers in household enterprises or operating small businesses, indicating a reliance on informal employment avenues.

2.6.4 Disposable Income and Consumer Spending

Gross National Disposable Income (GNDI) represents the total income available to a nation's residents for consumption and saving after accounting for income transfers with the rest of the world. In FY24, Per capita GNDI grew by 10.9%, followed by a moderate growth of 8.6% in FY25. This steady increase indicates that households and businesses had more income at their disposal, which is critical for supporting both consumption and savings—key components of economic resilience and expansion.

The rise in GNDI has translated into higher consumer spending, as reflected in the growth of Private Final Consumption Expenditure (PFCE), which measures the total value of goods and services consumed by households. Per Capita PFCE grew by 8.7% in FY24 and further accelerated to 10.9% in FY25, highlighting strong consumer confidence and robust domestic demand.

2.7 Union Budget FY25-26 Highlights

The Union Budget FY 2025–26, presented by Finance Minister Nirmala Sitharaman, introduces a comprehensive set of measures aimed at stimulating economic growth, enhancing infrastructure, and fostering inclusive development. With a focus on sectors such as agriculture, MSMEs, infrastructure, innovation, and exports, the budget seeks to create a conducive environment for sustained economic expansion.

- Capital Expenditure and Infrastructure Development

The government has earmarked a substantial ₹11.21 lakh crore (3.1% of GDP) for capital expenditure in FY 2025–26. This allocation is directed towards infrastructure projects, including rural development, manufacturing, and skill-building initiatives. Notably, the Urban Challenge Fund has been established with a corpus of ₹1 lakh crore, aimed at financing 25% of the cost of bankable urban infrastructure projects, thereby promoting sustainable urban development.

- Support for MSMEs

Recognizing the pivotal role of Micro, Small, and Medium Enterprises (MSMEs) in India's economic landscape, the budget introduces several measures to bolster this sector. The Credit Guarantee cover has been enhanced to ₹10 crore, unlocking ₹1.5 lakh crore in additional funding for MSMEs over the next five years. Additionally, the establishment of a Fund of Funds with a ₹10,000 crore corpus aims to provide equity support to startups and potential MSMEs, focusing on high-growth sectors such as electronics and renewable energy.

- Tax Reforms and Disposable Income

To stimulate consumption and investment, the budget introduces significant tax reforms. The tax-free income threshold has been raised to ₹12 lakh, and the new tax regime offers reduced rates for higher income brackets. These changes are expected to increase disposable income, thereby encouraging higher savings and investment among the middle class.

- Focus on Agriculture and Exports

The budget prioritizes agriculture as a key engine of development, with increased allocations for agricultural credit and initiatives aimed at enhancing productivity. Furthermore, measures to promote exports include the reduction of customs duties on select goods and the introduction of policies to facilitate easier market access for Indian products.

- Urban Development Initiatives

A significant increase in the budget allocation for the Ministry of Housing and Urban Affairs to ₹96,777 crore reflects the government's commitment to urban development. Key initiatives include the establishment of the Urban Challenge Fund, enhanced loans under the PM SVANidhi scheme, and substantial provisions for the Pradhan Mantri Awas Yojana and Urban Rejuvenation Mission, all aimed at improving urban infrastructure and living standards.

The Union Budget FY 2025–26 presents a balanced approach to economic growth by addressing immediate consumption needs and laying the foundation for long-term sustainability. Through targeted investments in infrastructure, support for MSMEs, tax reforms, and sector-specific initiatives, the budget aims to foster an inclusive and resilient economy. These measures are expected to create new opportunities for financial institutions, as the growing demand for investment products will provide avenues for expansion and innovation in the financial services sector.

2.8 Concluding Remarks about Macroeconomic Scenario

FED has softened the benchmark interest rate by 25bps to the range of 3.50%-3.75% as expected by majority of the market in Dec'25. The RBI has also reduced its policy rate, namely repo rate by 25 bps to bring it down from 5.50 to 5.25 bps, amid robust Q2FY26, 8.2% real GDP growth and lowest retail inflation at 0.25 in India. A Fed rate cut is expected to channelise FII inflows to India and help in easing the ongoing pressure on INR. In fact, the Real Effective Exchange Rate (REER) for which INR was thought to have been overvalued previously, has softened in recent periods, thus INR is moving in the right direction to correct its fundamentals though possibly at a slight stretch as RBI is struggling a lot to maintain the “volatility in the INR movement” as the Governor tried to clarify the market. Nonetheless, many other emerging market economies (EMs) are also facing pressure on their currencies. Notably, Central Banks (CBs) of many countries have accumulated their gold holdings amid this turbulent time, after the “Trump Tariff” factor and geopolitical tensions have injected heightened uncertainties in the global economy.

IMF recently reclassified India's "de facto" exchange rate regime as a "crawl-like arrangement", two years after branding it "stabilised", indicating that RBI is allowing a measured flexibility, a managed float, where RBI primarily intervene to check excessive volatility in the INR and/or to manage the liquidity situation. India's strategic position as a manufacturing hub is further strengthened by government initiatives, a skilled labour force, and a dynamic startup ecosystem, all of which bolster the country's economic outlook. The ongoing reforms and focus on innovation are enabling India to seize emerging opportunities, making it a growing player in the global manufacturing landscape. In addition, several high-frequency growth indicators—such as the Purchasing Managers' Index (PMI), E-way bills, bank credit, toll collections, and GST collections—have shown a positive trajectory in FY25. These factors are expected to further support the investment cycle and strengthen India's economic resilience in the coming years.

3. Industry Definition and Scope

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry forms a specialized sub-segment of India's Capital Goods sector, under the broader Engineered Goods domain, and is classified under Special-Purpose Machinery (NIC 28299). This industry designs, engineers, and manufactures precision equipment used in metal cutting, joining, forming, and fabrication, serving as a foundational enabler of India's industrial production, engineering exports, and infrastructure expansion.

The segment encompasses a comprehensive range of systems, including CNC plasma and gas profile cutting machines, pipe and plate profiling equipment, arc and plasma welding power sources, automation-based robotic welding systems, and special-purpose machinery (SPMs). Complementary offerings such as cutting torches, welding electrodes, nozzles, and consumables ensure operational reliability, accuracy, and continuity in production.

Within the Capital Goods value chain, these products contribute directly to engineering-intensive sectors such as structural steel fabrication, heavy machinery, shipbuilding, automotive components, process equipment manufacturing, and general fabrication industries. The industry's evolution is marked by increasing automation, the adoption of inverter-based digital controls, and integration of CNC and robotic technologies—driving India's transition toward intelligent and standardized manufacturing systems.

The equipment is engineered for operational resilience—withstanding fluctuating power quality, high ambient temperatures, dust exposure, and prolonged duty cycles—while adhering to domestic and international safety and quality benchmarks. This ensures consistent cutting precision, superior weld integrity, and enhanced operator safety.

Catering to both high-volume fabrication and customized prototyping or maintenance operations, the segment emphasizes energy efficiency, durability, and environmental robustness. By integrating CNC plasma cutting, welding automation, and metal fabrication solutions, this industry not only fortifies India's Capital Goods manufacturing base but also enhances its global competitiveness in engineered products.

4. Market Segmentation

The machine tools industry, specifically within metal-cutting and welding equipment manufacturing, is characterized by a well-defined segmentation structure that aids in demand analysis, capacity planning, and targeted product development across diverse user sectors.

Category	Sub-Category / Segment	Description / Insights
By Equipment Type	CNC Cutting Systems (Gantry, Miniature, Pipe Profile, Customized)	Advanced computer-controlled machines ensuring high-speed, high-precision cutting of plates, pipes, and structural profiles; essential for process optimization and repeatability in fabrication setups.
	Plasma Cutting Machines (CNC, Manual, Portable, Automation-Integrated)	Utilizes plasma arc technology for efficient and accurate cutting of conductive metals; available in stationary CNC tables or portable, semi-automatic variants to suit varying production scales.

	Gas Cutting Machines (Semi-Automatic, Portable, Shape-Cutting)	Oxy-fuel-based systems designed for thick-section steel and heavy fabrication; extensively used in shipbuilding, infrastructure, and process industry applications.
	Laser Metal Cutting Systems (Fiber, CO ₂ , CNC-Integrated)	High-precision, non-contact cutting systems enabling clean edges, minimal material distortion, and high repeatability; widely used for sheet metal, intricate profiles, and automated fabrication environments.
	Combined Fiber Laser + Plasma + Oxy-Fuel Cutting Systems (Integrated Platform)	Integrated CNC thermal cutting systems combining fiber laser, plasma, and oxy-fuel cutting heads on a common platform, enabling processing from thin sheets to ultra-thick plates without inter-asset changeover and supporting rule-based selection of cutting processes based on application requirements.
	Welding Machines (MMA, TIG, MIG/MAG CO ₂ , Submerged Arc)	Covers diode-based, thyristor-based, and inverter-driven power sources for manual and automated welding operations; adaptable across fabrication intensities and industry quality standards.
	Plasma Welding Systems (Micro Plasma, Automated, SPM-Integrated)	Precision welding systems for thin materials, pipes, and tanks, minimizing heat distortion and ensuring weld integrity; widely used in process equipment and pressure vessel manufacturing.
	Laser Welding Equipment (Fiber Laser, Robotic, Automation-Integrated)	Advanced welding solutions delivering deep penetration, narrow heat-affected zones, and high-speed operation; suited for precision assemblies, automotive components, and high-quality fabrication requirements.
	Automation & Robotic Systems (Tank Welding, H-Beam, Penstock, Rail Wagons, Tube Bends)	Automated and programmable setups integrating manipulation, seam tracking, and synchronized control; includes girth welders, longitudinal and transverse systems, and custom SPMs for complex fabrication.
	Self-Powered Next-Generation Machines	Compact, energy-efficient hybrid systems combining cutting and welding capabilities; ideal for mobile, on-site fabrication in remote or large-scale projects.
	Consumables & Accessories	Torches, electrodes, nozzles, oscillators, and related components ensuring operational continuity, reduced downtime, and consistent process quality.
By End-User Industry	Automotive & Auto Components	Automated and precise cutting and welding systems for lightweight materials and productivity improvement.
	Infrastructure & Construction	Structural steel fabrication for bridges, buildings, and urban development; focused on throughput and durability.
	Heavy Engineering & Shipbuilding	Large-format fabrication requiring integrated cutting and welding solutions for pipes and plates.

	Process Equipment & Manufacturing	Precision-driven production emphasizing configurability, process control, and strict quality compliance.
	Other Industrial Sectors	Includes consumer goods, electrical equipment, agricultural machinery, and maintenance operations using modular and portable systems.
By Geography	Western India	Strong base across Maharashtra, Gujarat, and Goa with concentration in fabrication and heavy engineering.
	Southern India	Expanding ecosystems in Chennai, Bengaluru, and Hyderabad with high demand from automotive and machinery clusters.
	Northern India	Significant manufacturing and infrastructure activity in Delhi NCR, Haryana, Punjab, and Rajasthan.
	Eastern & Central India	Emerging industrial centres driven by infrastructure expansion and manufacturing growth.
	Global / Export Markets	Market presence across South Asia, the Middle East, Africa, and Southeast Asia, reflecting growing export demand.
By Project Type	Large-Scale Production	Continuous, high-volume manufacturing typical in automotive sub-assemblies and structural steel fabrication.
	Customized / Prototype Work	Low-volume, high-precision production for aerospace, defense, and specialized machinery applications.
	Maintenance & Repair	Portable and service-oriented cutting and welding systems supporting field maintenance and equipment refurbishment.

5. Global and Indian Industry Outlook

The machine tools industry consists of metal-cutting equipment and welding systems used for precision manufacturing, operating through a value chain that includes raw materials and components, machine production, structured OEM and distributor networks, and end-use across automotive, engineering, fabrication, and general industrial applications. The product scope covers CNC and conventional metal-cutting machines—turning, milling, drilling, laser, plasma, waterjet, and EDM—along with welding technologies such as arc, MIG/MAG, TIG, laser, and automated systems. The industry is classified under NAICS 333517 (Machine Tool Manufacturing), SIC 3541 (Metal Cutting Machine Tools), and NIC 28299 (Other Special-Purpose Machinery), establishing a defined framework for assessing global and Indian market size and related import–export dynamics.

Impact of Raw Material and Component Price Fluctuations

In addition to its diversified product scope and end-use applications, the machine tools industry is sensitive to fluctuations in prices of key raw materials and components. Steel and cast-iron form a significant part of machine frames, fabricated structures, and critical assemblies, and volatility in global steel prices can directly impact manufacturing costs. In periods of elevated input prices, manufacturers may experience margin pressure, particularly where pricing revisions are constrained by competitive intensity, fixed-price contracts, or customer sensitivity to capital expenditure costs.

Further, the industry depends on electronic components such as CNC controllers, servo motors, drives, sensors, and power electronics, which are influenced by global supply–demand cycles, currency movements, and geopolitical factors. Disruptions

or price increases in such components may result in cost escalation, production delays, and increased working capital requirements. While industry participants may adopt mitigation measures such as supplier diversification, selective inventory buffering, and calibrated price pass-through mechanisms, there can be no assurance that increases in input costs will be fully absorbed or passed on to customers in a timely manner.

5.1. Global Machine Tools Industry

The global machine tools market is estimated to grow from USD 99.92 billion in 2024 to approximately USD 167.82 billion by 2034, registering a compound annual growth rate (CAGR) of roughly 5.32% over the forecast period. Growth is supported by steady replacement cycles in mature markets, higher capital expenditure and automation in emerging manufacturing hubs, and broader adoption of Industry 4.0 systems.

Source: Infomerics Analytics & Research

The transition toward digitally enabled, software-integrated machines is raising average unit values through enhanced controls, connectivity and data-driven productivity improvements.

The industry continues to benefit from supply-chain realignments that encourage regionalised production and localized machining capabilities. Increasing demand for precision components across automotive, aerospace, electronics and capital goods further reinforces the long-term growth outlook for advanced machine-tool technologies.

Regional Analysis

Asia-Pacific: The Asia-Pacific region commands the largest global share by both value and volume. China dominates installed base capacity, with Japan and Korea specializing in high-accuracy, high-value equipment. India and Southeast Asia exhibit the fastest incremental growth, underpinned by ongoing capacity expansions and localization incentives.

Europe: Characterized by high unit-value sales centered in advanced technology segments—such as aerospace, medical devices, and luxury automotive. Growth remains steady and predominantly substitution-driven, with high rates of equipment replacement.

North America: Growth is fueled by strategic reshoring, upgrades in defense and aerospace manufacturing, and increased adoption of flexible automation for high-mix production environments.

Latin America: The market is fragmented and cyclical, closely tracking commodity price movements and infrastructure investments. Penetration of advanced machine tools remains below global averages, with sporadic growth.

Middle East & Africa: Market expansion is linked to large industrial projects and diversification strategies among energy-exporting nations. While Industry 4.0 adoption lags, select strategic projects can trigger pockets of advanced demand.

5.2. Indian Machine Tools Industry

The Indian machine tools sector is entering a high-growth phase supported by sustained industrial expansion and the increasing adoption of advanced manufacturing technologies. The industry, estimated at approximately USD 1.64 billion in 2024, is projected to scale up to around USD 3.57 billion by 2034, implying a healthy CAGR of 8.2% (IBEF). Demand is being reinforced by capex revival across automotive, precision engineering, capital goods, railways, defence, and the rapidly scaling EV and component ecosystems.

Source: IBEF, Infomerics Analytics & Research

A transition is underway from legacy machinery to CNC, automated, and digitally integrated systems, reflecting rising quality benchmarks, higher throughput requirements, and the spread of Industry 4.0 solutions into both OEMs and MSMEs. This shift is being further supported by stronger domestic supply chains, indigenisation initiatives, and policy-driven incentives such as PLI schemes, duty rationalisation on machinery, and large public-sector investments in infrastructure and manufacturing capacity. These developments are enabling a steady movement toward precision-oriented, technology-intensive production, strengthening India's position in the global machining value chain. As industries pursue tighter tolerances and greater efficiency, the machine tools segment is evolving into a pivotal backbone for India's broader industrial and export competitiveness.

Regional Analysis:

- **Western and Southern Clusters:** Gujarat, Maharashtra, Tamil Nadu and Karnataka remain the core demand centres, supported by strong automotive, engineering and electronics ecosystems.
- **Northern Region:** Haryana, Punjab and Uttar Pradesh are witnessing increasing demand from auto-components, farm equipment and general engineering, supported by new industrial corridors and vendor-base expansion.
- **Emerging Tier-2/3 Locations:** Smaller industrial towns across central and northern India are upgrading conventional machinery through CNC conversions and sensor-based monitoring systems, though adoption varies with financing availability and technical capability.

Trade, Production and Consumption Trends:

Source: IMTMA Note: *PE: Provisional Estimates

The Indian machine tools market continues to strengthen, with production rising from USD 1.57 billion in 2022–23 to an estimated USD 1.74 billion in 2024–25 (PE), while consumption expanded from USD 3.12 billion to USD 3.80 billion during the same period, reflecting increased industrial automation and demand for precision machining. This persistent production–consumption gap is largely bridged through imports, which are projected to reach USD 2.23 billion in 2024–25 (PE), while exports remain relatively limited. The broader industry outlook, aligning with IBEF’s high-growth projections, reinforces these trends: total consumption stood at USD 3.30 billion in 2023–24 against domestic production of USD 1.64 billion. The resulting gap—primarily filled through imports; highlights the sector’s ongoing reliance on overseas high-precision equipment, while there is a modest export surplus of around USD 0.20 billion.

Top Importers and Exporters of Indian Machine Tools:

Country /Region	Export Value (USD \$ Millions)	Share (%)	Country /Region	Import Value (USD \$ Millions)	Share (%)
 UAE	4.51	23.08%	 China	83.54	35.81%
 U S A	2.14	10.95%	 Germany	27.00	11.57%
 China	2.01	10.29%	 Japan	22.99	9.85%
 Saudi Arabia	1.41	7.22%	 Thailand	18.54	7.95%
 Germany	0.93	4.76%	 Hong Kong	13.03	5.59%

Source: MEIDB, Infomerics Analytics & Research

India’s machine tool trade structure shows a clear asymmetry between its import and export bases. Imports are heavily concentrated, with China accounting for 35.81% of total value (USD 83.54 million), followed by Germany and Japan, reflecting

dependence on advanced, high-precision systems sourced from mature technology centres. Exports, in contrast, are more dispersed and comparatively modest, led by the UAE at 23.08% (USD 4.51 million), with the USA and China forming the next major destinations. The overall pattern highlights sustained import-dependence for high-specification equipment alongside a broad but limited export footprint across key global industrial markets.

5.2 Metal Cutting Machine Market Landscape

Metal cutting technologies encompass plasma cutting machines, CNC plate- and pipe-cutting systems, laser cutting machines and integrated automation platforms that enable high-precision fabrication. These systems form a critical layer of advanced manufacturing, delivering accuracy, repeatability and throughput required across automotive, engineering, rail, defence, construction equipment and wider industrial applications.

The global metal-cutting machine market is projected to increase from USD 66.98 billion in 2024 to USD 114.07 billion in 2034, at a 5.47% CAGR. Growth continues to be anchored in rising automation intensity, precision manufacturing requirements, and wider adoption of CNC-enabled cutting solutions across major production economies.

Source: Infomerics Analytics & Research

India’s metal-cutting machine market is expected to expand from USD 0.50 billion in 2024 to USD 0.95 billion in 2034, recording a 6.61% CAGR. Growth is driven by capacity additions in fabrication clusters, increased adoption of CNC and digital cutting systems, and higher precision requirements in automotive, engineering, and capital goods manufacturing. The sector is witnessing a gradual shift from conventional cutting platforms toward CNC plasma, laser and hybrid systems as industrial users upgrade throughput, accuracy, and automation levels.

Across both global and domestic markets, the segment continues to evolve toward digitally integrated, energy-efficient, and high-precision cutting solutions. Differentiation increasingly arises from process automation, accuracy, and system reliability, with advanced laser and multi-axis systems representing the technologically intensive tier, while plasma and mid-range CNC systems reflect broader adoption in volume-oriented fabrication.

5.2.1. Laser-Metal Cutting Market Landscape

The global laser metal-cutting equipment market is expected to expand from USD 5.47 billion in 2024E to USD 11.16 billion by 2034P, reflecting a 7.39% CAGR. Growth is supported by rising precision-fabrication requirements, automation-led manufacturing upgrades, and increasing deployment of high-speed cutting systems across automotive, electronics, capital goods,

and engineered components. The move toward thin-gauge materials, complex geometries, and higher dimensional accuracy continues to strengthen the preference for fiber-laser cutting over mechanical and conventional thermal alternatives.

Source: Infomerics Analytics & Research

In India, demand is being driven by policy-led industrial expansion, including PLI schemes in electronics, automotive components, and advanced manufacturing. Tier-1 and Tier-2 suppliers are adopting laser cutting for EV assemblies, chassis structures, electronic housings, appliance enclosures, and customised sheet-metal fabrication. Benefits such as higher throughput, improved edge quality, reduced finishing, and better material utilization are accelerating the transition from conventional cutting systems.

Modernization among MSMEs and investment in automated fabrication lines are broadening adoption across job shops and mid-sized manufacturers. Usage is increasing in engineering equipment, white goods, metal furniture, infrastructure components, and export-oriented fabrication. Growing domestic integration of CNC controls, motion systems, and optical subsystems is enhancing ecosystem capability and gradually supporting import substitution in critical laser-cutting technologies.

5.3 Welding Equipment Market Landscape:

Welding equipment comprises welding machines, laser welding systems and automation platforms used across multiple welding technologies, including MIG, TIG, arc, plasma and laser welding. These systems support structural fabrication, component joining and high-volume production requirements in automotive, engineering, construction, shipbuilding, petrochemicals, heavy machinery and broader industrial applications.

The global welding equipment market is estimated to expand from USD 20.37 billion in 2024 to USD 34.13 billion in 2034, reflecting a 5.30% CAGR. Market growth is supported by increasing welding intensity in infrastructure, industrial manufacturing and engineered products, alongside wider adoption of automated and high-precision welding systems across major production economies.

Source: Infomerics Analytics & Research

India's welding equipment market is projected to increase from USD 0.68 billion in 2024 to USD 1.25 billion in 2034, at a 6.30% CAGR. Growth is driven by capacity additions in infrastructure, transport equipment, automotive, capital goods and industrial fabrication, as end users adopt higher-throughput and precision-oriented welding systems in line with expanding project and manufacturing requirements.

The welding equipment segment is witnessing a gradual shift toward higher-accuracy and automation-enabled platforms, supported by requirements for consistency, productivity and quality in industrial fabrication. Advancements in welding processes and equipment design are broadening applicability across sectors and strengthening performance in complex and large-scale manufacturing environments.

5.3.1 Laser-Welding Equipment Market Landscape

The global laser-welding equipment market is expected to expand steadily, increasing from USD 3.37 billion in 2024E to USD 6.12 billion by 2034P, implying a 6.15% CAGR. Growth is supported by rising precision-manufacturing needs, automation-led productivity requirements, and long-term industrial capex cycles. Laser-welding systems are gaining wider application across automotive, electronics, capital goods, engineered components, and advanced material processing due to their accuracy, thermal efficiency, and suitability for high-volume operations.

Source: Infomerics Analytics & Research

In India, demand is being accelerated by policy-driven industrial expansion. Production-Linked Incentive (PLI) schemes across electronics, automotive components, EVs, and specialty materials are prompting Tier-1 and Tier-2 suppliers to adopt high-precision welding technologies. The shift toward lighter materials, complex geometries, and standardized component platforms is further supporting the transition from conventional arc and resistance welding to laser-based solutions.

Industry modernization, particularly within MSMEs, is also strengthening adoption. Use cases are increasing in automotive assemblies, battery enclosures, electronic housings, white goods, and engineered structures, where laser welding enables narrow heat-affected zones, strong joint integrity, and reduced finishing requirements. Domestic integration of CNC controls, optics, and motion systems, along with ongoing import substitution, is gradually enhancing the local ecosystem.

6. Market Dynamics

6.1 Key Growth Drivers

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry is positioned for sustained growth, underpinned by increasing industrialization, infrastructure expansion, and adoption of advanced manufacturing technologies. Demand is shaped by both structural enablers and market-specific drivers, encompassing domestic fabrication needs, global export opportunities, and technological evolution toward automation and process efficiency.

Detailed Commentary on Key Growth Drivers

Technological Innovation and Automation Integration

The segment is experiencing rapid adoption of advanced technologies, including inverter-based welding power sources, robotic welding systems, CNC plasma cutting machines, laser cutting, and integrated automation cells. These innovations increase precision, reduce cycle times, and enhance operational reliability. Integration of Industry 4.0 technologies, such as IoT-enabled real-time monitoring, AI-based predictive maintenance, and digital process controls, allows manufacturers to optimize throughput and minimize downtime. Over the medium term, equipment with automation and digital capabilities is expected to capture higher market share as fabrication units seek efficiency gains and reduced dependence on operator skill variability.

Rapid Infrastructure and Industrial Expansion

Growth in urbanization, construction projects, and industrial corridors across India and emerging economies continues to drive demand for welding and cutting machinery. Structural steel fabrication for buildings, bridges, transportation infrastructure, and heavy machinery manufacturing represents a sustained volume-driven market. Concurrently, expansion in automotive, shipbuilding, and process equipment industries fuels demand for high precision cutting and welding equipment. The domestic and global market outlook is shaped by capital investments, industrial diversification, and the replacement of aging equipment.

Adoption of Lightweight and High-Strength Materials

Automotive, aerospace, and energy sectors increasingly employ advanced alloys and composites to meet fuel efficiency, safety, and performance standards. These materials require specialized welding and cutting solutions capable of maintaining dimensional accuracy, reducing thermal distortion, and optimizing joint integrity. Demand for CNC plasma cutting, robotic welding, and precise arc welding systems is consequently rising, positioning technologically sophisticated equipment as a preferred choice among end-users focused on quality and productivity.

Policy Support and Make in India Initiatives

Government programs such as Make in India, defense modernization, and domestic industrial capacity-building schemes support localized manufacturing and equipment adoption. Regulatory focus on industrial safety, quality standards, and environmental compliance further reinforces demand for welding and fabrication machinery that aligns with domestic certifications and international norms. Over the medium term, policy-driven procurement in public infrastructure, defense, and industrial sectors is expected to maintain high industry growth momentum.

Skilled Labor Shortage Driving Automation

Shortages of qualified welders and fabricators, both in India and globally, create pressure for automation adoption. Semi-automatic and fully automated welding and cutting solutions allow companies to maintain consistent quality and productivity while mitigating the risk of operator errors. User-friendly interfaces, guided workflows, and process automation reduce dependency on operator skill levels, enabling faster deployment and scalability across fabrication facilities. This

trend also supports a shift toward solutions offering integrated cutting and welding operations, enhancing overall shop-floor efficiency.

Expansion of Aftermarket Services and Consumables

The growing installed base of welding and cutting equipment generates recurring demand for consumables—plasma torches, welding electrodes, nozzles—and services such as maintenance, retrofits, and upgrades. Manufacturers emphasizing durability, operational reliability, and robust service networks can strengthen customer retention and revenue streams. Integration of consumable supply and service capabilities within vendor offerings enhances total cost of ownership (TCO) propositions, particularly for high-throughput industrial clients.

6.2 Market Restraints

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry faces several structural, operational, and regulatory challenges that may moderate growth, profitability, and adoption timelines. These constraints span financial intensity, industry fragmentation, workforce availability, and compliance requirements.

Market Restraints and Impact Assessment

(All values represent directional impact based on industry estimates and qualitative analysis)

Restraint	Impact		
	1–2 Years	3–4 Years	5–7 Years
High Capital Investment and Upfront Costs	High	Medium	Medium
Fragmented Industry Structure and Standardization Gaps	Medium	High	High
Skilled Labor Shortages and Training Gaps	Medium	High	High
Regulatory Compliance and Environmental Challenges	High	High	Medium

Source: Infomerics Analytics and Research

Detailed Restraint Commentary

High Capital Investment and Upfront Costs

Advanced machinery—including CNC cutting systems, plasma and gas profile machines, integrated automation cells, and robotic welders—requires significant upfront investment. Small and medium enterprises (SMEs) may find these costs prohibitive, constraining near-term adoption and slowing overall market expansion.

Fragmented Industry Structure and Standardization Gaps

The fabrication industry, particularly in India, is highly fragmented with numerous small-scale operators using older or semi-manual equipment. This results in variability in product quality, pricing, and process efficiency, limiting the widespread adoption of modern welding and cutting technologies and compliance with international standards.

Skilled Labor Shortages and Training Gaps

Despite increasing automation, operating, maintaining, and optimizing sophisticated machinery demands skilled personnel. Shortages of trained welders, operators, and service engineers, both domestically and globally, restrict operational efficiency, productivity, and uptime.

Regulatory Compliance and Environmental Challenges

Evolving industrial safety, energy efficiency, and environmental standards impose additional costs on manufacturers and end-users. Compliance requirements, including safe handling of equipment, emissions control, and energy-efficient operation, can delay technology upgrades, replacement cycles, and expansion, especially among smaller or resource-constrained enterprises.

7. Government Initiatives and Policy Support

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry benefits from a comprehensive framework of domestic and international government initiatives and policy measures designed to promote technological advancement, manufacturing capacity expansion, export competitiveness, and workforce skill development. These policies underpin the growth of plasma cutting machines, CNC gas and plasma profile cutting machines, pipe profiling equipment, arc welding power sources, integrated automation cells, and related consumables across domestic and global markets.

Domestic Initiatives

Make in India & Atmanirbhar Bharat

Encourage the development of domestic manufacturing capacity, reduce import dependency, and drive innovation in capital goods production, including welding and fabrication machinery. The initiatives support ease of doing business, attract foreign direct investment (FDI), and facilitate adoption of modern factory setups.

Industry Impact: Strengthens domestic production capabilities, reduces reliance on imports, and drives adoption of advanced machinery in metal fabrication sectors.

Quantitative Insight: India's capital goods production increased from INR 2.29 lakh crore in 2014–15 to INR 4.29 lakh crore in 2023–24 ([Ministry of Heavy Industries, 2025]).

Production Linked Incentive (PLI) Scheme for Capital Goods

Provides financial incentives to encourage technology upgrades, capacity expansion, and export promotion, supporting CNC automation, robotic welding, and digital manufacturing technologies.

Industry Impact: Accelerates investment in high-precision machinery, facilitates modernization of existing production facilities, and enhances global competitiveness.

Quantitative Insight: Since launch, the PLI scheme has attracted investments exceeding INR 1.03 lakh crore, generating production worth INR 8.61 lakh crore and creating over 678,000 direct and indirect jobs ([Department of Heavy Industry, 2025]).

Industry 4.0 & SAMARTH Udyog Bharat 4.0

Promotes adoption of IoT, AI, machine learning, and digital manufacturing technologies, enabling smart factory adoption and improved operational efficiency.

Industry Impact: Drives automation and digital integration in welding and cutting equipment production, improving precision, efficiency, and process reliability.

Quantitative Insight: Phase II of the capital goods scheme includes the establishment of 10 additional Industry 4.0 Centres of Excellence ([Ministry of Heavy Industry, 2025]).

Skill Development Mission

Government-backed training programs, apprenticeships, and certifications enhance workforce competence for operating advanced machinery in welding and fabrication.

Industry Impact: Mitigates skilled labor shortages, increases operational efficiency, and supports safe use of sophisticated machinery.

Quantitative Insight: Over 8,000 personnel have been trained across India and abroad in welding and fitting since program inception ([CSIR-IIP, 2025]).

Export Promotion Capital Goods (EPCG) Scheme

Enables import of capital goods at reduced or zero customs duty, contingent on fulfilling export obligations.

Industry Impact: Encourages adoption of state-of-the-art machinery, reduces cost barriers, and improves competitiveness of domestic manufacturers in global markets.

Quantitative Insight: EPCG obligations typically require exporters to fulfill export commitments six times the duty saved over six years ([DGFT, 2025]).

Anti-Dumping Duties and Trade Safeguards

Imposition of anti-dumping duties on certain imports, such as Chinese industrial laser machines, protects domestic capital goods manufacturers, including welding and cutting equipment producers.

Industry Impact: Strengthens domestic market stability, encourages local production, and safeguards investment in high-value machinery ([Ministry of Finance, 2024]).

International Regulatory Support and Compliance

European Union Machinery Regulations (EU 2023/1230)

Mandates safety, performance, cybersecurity, and AI standards, effective January 2027, ensuring market access in Europe.

Industry Impact: Indian exporters must ensure machinery conforms to EU standards to access high-value European markets. The regulations also drive adoption of advanced technology, including IoT-enabled and AI-integrated systems ([Official Journal of the EU, 2023]).

United States OSHA Welding & Cutting Standards

Sets enforceable occupational safety requirements for welding, cutting, and brazing operations.

Industry Impact: Compliance enables safe operation, adherence to U.S. regulations, and market entry in North America, supporting export expansion and risk mitigation ([OSHA, 2025]).

China Export Incentives & Manufacturing Tax Benefits

Offer export rebates, VAT refunds, duty exemptions, and export financing to Chinese manufacturers, increasing global competition.

Industry Impact: Intensifies global competition, compelling Indian manufacturers to innovate, optimize costs, and adopt advanced technologies to remain competitive ([China Ministry of Commerce, 2024]).

Global Free Trade Agreements (FTAs) & Regional Trade Blocs

Initiatives such as ASEAN-India FTA, India-MERCOSUR BIT, and other regional agreements lower tariffs and trade barriers, supporting export growth across the Middle East, Africa, Southeast Asia, and Latin America.

Industry Impact: Expands market access, facilitates international trade, and drives adoption of advanced machinery in new geographies ([Ministry of Commerce & Industry, India; WTO]).

Collectively, these domestic and international policies create a robust and supportive ecosystem for the welding, cutting, and fabrication machinery industry. They foster technological growth, enhance workforce skills, enable global market penetration, and sustain overall sector expansion.

8. Technology & Digital Transformation

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry is increasingly integrating advanced manufacturing and digital technologies to enhance operational precision, efficiency, and global competitiveness. These transformations encompass smart factory adoption, automation innovations, AI-driven quality assurance, digital simulation, energy efficiency, and digital compliance, enabling manufacturers to meet evolving domestic and international requirements.

Industry 4.0 and Smart Factory Adoption

Integration of IoT, AI, machine learning, and cloud-based solutions enables interconnected manufacturing ecosystems with real-time production monitoring, predictive maintenance, and process optimization.

Industry Impact: Facilitates adoption of advanced manufacturing processes, improves production planning and efficiency, and prepares the workforce for high-technology operations.

Advanced Automation and Robotics

Automated robotic welding, plasma cutting, and material handling systems enhance throughput, consistency, and workplace safety. Collaborative robots (cobots) allow SMEs to deploy flexible and cost-effective automation solutions.

Industry Impact: Reduces process variability, increases operational efficiency, and enables scalable, high-quality production for domestic and export markets.

Artificial Intelligence and Machine Vision for Quality Assurance

AI-powered inspection systems and machine vision technologies detect weld defects and monitor critical process parameters in near real-time, minimizing waste, rework, and machine downtime.

Industry Impact: Strengthens quality assurance, ensures compliance with domestic and global standards, and improves product reliability and competitiveness.

Digital Twins and Welding Simulation Technologies

Digital twin technologies create virtual replicas of welding and cutting processes, allowing pre-production simulation and parameter optimization. Augmented reality-based welding simulators enable safe, repeatable operator training.

Industry Impact: Enhances operational efficiency, reduces trial-and-error costs, accelerates workforce competency, and optimizes production setups.

Sustainability and Energy-Efficient Technologies

Adoption of energy-efficient welding equipment, low-carbon manufacturing practices, and waste-minimizing process optimization aligns industry operations with global sustainability standards. Integration of renewable energy solutions and eco-friendly automation further supports compliance.

Industry Impact: Lowers operational costs, reduces environmental footprint, and ensures alignment with tightening environmental regulations globally.

Digital Compliance Platforms and Export-Ready Certification

Manufacturers leverage digital platforms to manage regulatory certifications, including CE, ISO 9001, and EU Machinery Regulations, streamlining compliance workflows and maintaining transparent documentation.

Industry Impact: Facilitates smooth export operations, strengthens market access, and ensures adherence to international quality and safety standards.

9. PESTLE Analysis of the Industry

A comprehensive PESTLE (Political, Economic, Social, Technological, Legal, and Environmental) analysis evaluates the external macro-environmental factors Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry. These dimensions collectively shape demand outlook, policy direction, investment flows, and competitive positioning in both domestic and international markets.

Factor	Description	Impact on the Industry
Political	Government programs like Make in India, Atmanirbhar Bharat, and PLI schemes promote domestic capital goods manufacturing. SAMARTH Udyog Bharat 4.0 and Centres of Excellence facilitate Industry 4.0 adoption. Export promotion schemes, anti-dumping duties, and trade safeguards protect domestic manufacturers. Geopolitical trade policies and international regulatory frameworks (EU Machinery Regulations, US OSHA standards) influence market access and compliance.	Provides long-term order visibility and investment confidence. Encourages capacity expansion, modernization, and localization. Mitigates import dependency and trade-related risks. Supports global market access and competitiveness.
Economic	GDP growth, industrial expansion, and infrastructure projects drive demand for metal fabrication equipment. Investment in automotive, shipbuilding, heavy machinery, and structural steel sectors fuels capital goods consumption. Currency volatility, inflation, and raw material price fluctuations (steel, copper, aluminum) affect production costs. Export potential exists in the Middle East, Africa, Southeast Asia, and Latin America.	Expands domestic and export market opportunities. Requires financial resilience to manage raw material cost volatility. Favors capacity scaling, modernization, and cost optimization for international competitiveness.
Social	Workforce skill diversity, labor availability, and training initiatives (Skill India, PMKVY) influence adoption of advanced machinery. Growing emphasis on occupational safety and ESG standards raises demand for ergonomic and compliant equipment. Industrialization, urbanization, and organized manufacturing growth increase demand for metal fabrication solutions.	Supports adoption of automation and smart factory technologies. Enhances workforce productivity, safety, and operational efficiency. Encourages socially responsible and compliant manufacturing practices.

Techno-logical	Adoption of Industry 4.0 technologies, IoT, AI, machine learning, digital twins, and robotics enhances productivity, process reliability, and predictive maintenance. Advanced welding and cutting automation, including collaborative robots, improve consistency and throughput. AI-driven quality control and machine vision systems optimize process accuracy and reduce rework. Digitization of compliance, simulation, and training improves operational efficiency.	Improves product quality, operational efficiency, and global competitiveness. Enables entry into high-value automated and export-ready segments. Creates barriers for non-digitized players.
Legal	Compliance with domestic labor, industrial safety, and environmental regulations is mandatory. International standards such as CE, ISO 9001, EU Machinery Regulations, and US OSHA welding and cutting standards govern export readiness. Intellectual property rights protect proprietary manufacturing processes and machinery designs.	Ensures standardized production and legal compliance. Reduces regulatory and litigation risks. Strengthens credibility and facilitates international market penetration.
Environ-mental	Increasing focus on ESG, energy efficiency, and low-carbon manufacturing practices. Equipment designed for minimal waste, renewable energy integration, and optimized energy consumption. Compliance with global sustainability standards and circular economy principles (e.g., recycling consumables, minimizing scrap).	Encourages adoption of sustainable, energy-efficient, and low-emission machinery. Reduces operational costs and environmental footprint. Positions manufacturers favourably for financing, tenders, and global market acceptance

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry operates within a dynamic macro-environment shaped by government policy, economic growth, workforce factors, technological advances, regulatory frameworks, and sustainability imperatives. The sector benefits from supportive political and economic initiatives while facing challenges from raw material price volatility, global competition, and compliance obligations. Technological adoption, workforce skill development, and sustainable practices remain key drivers of competitiveness and long-term growth for both domestic and international markets.

10. Competitive Landscape

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing industry supports key metal fabrication industries such as structural steel, process equipment, shipbuilding, heavy machinery, automotive, and general engineering. The competition in this industry is shaped by continuous technological innovation, operational excellence, regulatory compliance, strategic market presence, and adaptation to complex operating environments. Equipment is engineered to withstand Indian conditions (power variability, heat, dust, operator variability) and meet global standards crucial for international markets.

10.1 Key Factors Shaping Competition

Technological Innovation and Product Differentiation:

The segment relies heavily on advanced technologies to differentiate products. Cutting-edge inverter-based power sources, CNC and PLC automation, robotic welding cells, and AI-driven quality monitoring systems enhance performance and operational reliability. Emphasis on equipment robustness and adaptability ensures dependable operation under challenging Indian conditions, while supporting competitiveness in export markets. Innovation in consumables, including long-life electrodes and precision nozzles, further influences user preference and operational efficiency.

Operational and Supply Chain Efficiency

Strong vendor and supplier networks guarantee consistent availability of critical raw materials such as specialty steels and electronic components. A combination of local sourcing and global procurement strategies helps reduce lead times and mitigates currency exposure. Modular and lean manufacturing approaches optimize cost structures and allow flexible production, ensuring responsiveness to fluctuating demand.

Compliance and Certification Strength

Compliance with certifications such as CE, ISO 9001, EU Machinery Regulations, and OSHA standards is essential for export readiness and regulatory approvals. Firms maintaining comprehensive compliance programs benefit from faster regulatory clearance, enhanced market reputation, and stronger customer trust. Additionally, environmental certifications and adherence to sustainability standards are increasingly influencing procurement decisions among institutional buyers.

Customer-Centric Solutions and Aftermarket Services

Companies offering tailored customization for complex fabrication requirements foster deep client relationships, particularly in defense, aerospace, and automotive sectors. Robust aftermarket networks—including spare parts supply, maintenance contracts, and technical training—support recurring revenue streams and enhance customer loyalty. Digital customer support, including remote diagnostics and predictive maintenance, is emerging as a key differentiator.

Pricing, Government Incentives, and Market Reach

Competitive pricing, optimized through cost management, government incentives (Make in India, PLI, EPCG), and economies of scale, strengthens market share. Expanding dealership and distribution networks enhances reach to tier 2 and tier 3 cities and export geographies across the Middle East, Southeast Asia, Africa, and Latin America. Strategic pricing aligned to quality and service excellence enables firms to compete effectively across both premium and value segments.

Brand Equity and Market Reputation

Established brand presence and proven project track records foster customer trust and facilitate entry into new domestic and international markets. Participation in industry forums, exhibitions, and quality benchmarking programs further reinforces brand prestige and supports customer acquisition.

10.2 Competitive Strategies

Vertical Integration and Value Chain Control

Leading players in the segment maintain end-to-end capabilities encompassing R&D, engineering, component manufacturing, assembly, and aftersales support. This integration ensures superior quality control, faster delivery timelines, and enhanced time-to-market advantages. Robust internal testing and certification laboratories accelerate product innovation and ensure compliance with domestic and international standards.

Global Strategic Alliances and Joint Ventures

Partnerships with global OEMs, technology innovators, and automation providers enable access to advanced technologies in AI, robotics, and material science. Joint ventures facilitate technology transfer, localization of manufacturing, and enhanced export capabilities, while promoting the development of sector-specific solutions for high-precision applications in aerospace, defense, energy, and renewable industries.

Digital Transformation and Industry 4.0 Adoption

Companies are increasingly adopting IoT-enabled manufacturing, digital twins, predictive analytics, and cloud-based production monitoring to improve factory flexibility, operational efficiency, and downtime reduction. AI-driven supply chain management and ERP integration optimize inventory, resource utilization, and real-time decision-making. Digitization also strengthens customer support through data-driven diagnostics and predictive maintenance.

Sustainability and Green Manufacturing Focus

Implementation of energy-efficient processes, low-emission equipment, waste recycling, and sustainability-linked financing enhances regulatory compliance and corporate responsibility profiles. These practices support environmentally conscious manufacturing and align with evolving global ESG standards.

Research, Development, and Workforce Skill Enhancement

Continuous investment in R&D emphasizes new welding technologies, energy-efficient processes, and equipment miniaturization. Workforce development programs, including certified training, virtual and augmented reality simulators, and apprenticeships, improve operational proficiency, reduce rework, and ensure optimal machine utilization.

10.3 Barriers to Entry

Capital and Technological Expertise

Establishing advanced manufacturing capabilities necessitates substantial upfront investment in factory infrastructure, R&D, and certification processes. The development of sophisticated inverter-based power sources, CNC and robotic automation, and AI-driven quality monitoring requires domain-specific engineering expertise. These high technical barriers restrict new entrants primarily to financially strong and technologically capable firms.

Regulatory and Certification Challenges

Compliance with international and domestic standards such as CE, ISO 9001, EU Machinery Regulations, and OSHA are mandatory prerequisites for market access, especially for exports. Obtaining these certifications demands well-organized documentation, ongoing compliance efforts, and extensive testing resources. Environmental and sustainability certifications are increasingly important, adding to the compliance complexity and operational costs.

Supply Chain Dependence and Customer Loyalty

Incumbents benefit from long-term agreements with specialty steel, electronic component, and automation hardware suppliers, ensuring supply stability and cost advantages. Furthermore, existing players maintain strong relationships with customers through comprehensive service networks, training, and aftermarket support, creating deep loyalty and recurring revenue streams. For newcomers, securing reliable supplier partnerships and achieving customer trust, especially in sectors like aerospace, defense, and renewables requiring high precision, is a significant challenge.

Digital and Operational Maturity

Increasing adoption of Industry 4.0 technologies, including IoT integration, predictive maintenance, and digital manufacturing systems, is becoming a baseline requirement for competitiveness. Firms lacking digital infrastructure face difficulties scaling operations, meeting quality benchmarks, and maintaining compliance with global standards.

Market Scale and Financial Resources

Meeting the variable demand cycles in India and simultaneously competing in the export market necessitates robust financial health and operational scale. Limited access to capital or scale constrains smaller or less-established firms from competing effectively, leading to prolonged gestation periods before market penetration.

Institutional and Policy-Related Barriers

Multiple-tier regulatory approvals and bureaucratic complexities, including environmental clearances, labour laws, and land acquisition, pose significant hurdles. Delays in approvals can stall market entry or project execution, particularly for foreign or new investors unfamiliar with local administrative processes.

10.4 Consolidation Trend

Mergers, Acquisitions, and Portfolio Expansion

Leading players are pursuing mergers and acquisitions of regional, niche, and technologically specialized manufacturers to diversify product portfolios, enhance manufacturing capacities, and expand geographic presence. This inorganic growth enables faster access to advanced technologies such as AI-based process control, robotics, and energy-efficient systems. Acquiring firms with established local networks strengthens distribution channels and responsiveness to both domestic and international demand.

Strategic Alliances Enhancing Innovation Capacity

Joint ventures and strategic partnerships with global OEMs, automation providers, and material science innovators are facilitating technology transfer and co-development of sector-specific solutions for aerospace, defense, renewable energy, and high-precision automotive applications. These alliances improve innovation velocity and support faster entry into regulated global markets.

Economies of Scale and Risk Diversification

Consolidation allows firms to achieve economies of scale across procurement, production, logistics, and marketing. Larger entities leverage supplier negotiations for cost efficiency and enhanced price competitiveness. Broader client and geographic diversification mitigate concentration risks and enhances resilience against cyclical demand fluctuations or regional disruptions.

Specialization and Market Segmentation

With increasing commoditization in base welding and cutting equipment, firms are emphasizing specialization in high-precision, customized systems for demanding sectors such as aerospace fabrication, defense manufacturing, and renewable infrastructure. This technological specialization mitigates pricing pressure and strengthens entry barriers for competitors.

Financial Strength and Investor Confidence

Consolidated companies exhibit stronger balance sheets, higher liquidity, and improved credit profiles, enabling sustained R&D investment, capacity expansion, and compliance adherence. Enhanced financial stability attracts institutional investors and supports participation in large-scale government and export projects requiring significant guarantees.

Digital and Operational Integration

Industry consolidation accelerates integration of digital transformation initiatives across facilities, promoting uniform adoption of Industry 4.0 systems, predictive maintenance, and data analytics frameworks. Standardized digital operations improve efficiency, reduce downtime, and enhance service consistency, offering a competitive edge in executing complex, high-volume projects on time and within cost.

The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry operates in a complex and competitive environment shaped by continuous technological innovation, operational efficiency, and stringent regulatory compliance. Firms differentiate through advanced inverter technologies, automation, and AI-driven quality systems while optimizing supply chains and cost structures. Strong certification credentials and customer-focused services, including aftermarket support and digital engagement, are critical for sustaining client relationships across aerospace, defence, and automotive sectors. Strategic vertical integration and global partnerships accelerate innovation, market expansion, and operational flexibility. High capital intensity, specialized technical expertise, rigorous certification norms, and established supply networks create significant entry barriers, maintaining market discipline and limiting new entrants. Ongoing consolidation enables leading players to achieve scale economies, risk diversification, and specialization in high-value applications. The evolving landscape demands sustained investment in technology, compliance, and customer-centric models to capture growth opportunities and reinforce market leadership domestically and globally.

10.5 Key Industry Players

Global Players:

Lincoln Electric Holdings, Inc. (USA)

Founded in 1895, Lincoln Electric Holdings, Inc. is a globally recognized leader specializing in the manufacture and distribution of arc welding equipment, consumables, and automation systems. The company distinguishes itself through advanced inverter-based power technology, robotic welding solutions, and state-of-the-art digital process control systems. With operations spanning over 160 countries, Lincoln Electric demonstrates robust operational excellence, a consistent commitment to R&D, and adherence to sustainability standards. These factors collectively reinforce its status as a financially sound and technologically advanced market participant.

Miller Electric (USA)

Miller Electric, a wholly owned subsidiary of Illinois Tool Works (ITW), offers a diverse portfolio of welding equipment including TIG, MIG, and submerged arc welding technologies, complemented by integrated automation and robotic systems. With a strong focus on precision engineering and reliable performance, Miller serves critical sectors such as aerospace, shipbuilding, and heavy machinery. The company's strategic emphasis on continuous technological enhancement and rigorous quality assurance underpins its compliance with global manufacturing standards.

ESAB Corporation (Sweden/Global)

ESAB Corporation is a leading multinational provider of comprehensive welding and cutting solutions, encompassing consumables, equipment, gas control systems, and automation technologies. The company prioritizes operational productivity, compliance with safety and environmental regulations, and the promotion of sustainable fabrication practices. ESAB's proactive innovation agenda and global regulatory alignment enable it to effectively cater to diverse industrial sectors including construction, automotive, and energy.

Fronius International GmbH (Austria)

Fronius International GmbH specializes in the development of inverter-based welding systems alongside battery charging and photovoltaic electronic technologies. The entity is noted for its commitment to energy efficiency and sustainable manufacturing, meeting increasing demands from environmentally conscious sectors such as automotive and renewable energy. Fronius combines durable product design with comprehensive compliance, thereby establishing a distinctive competitive advantage in international welding markets.

EWM Hightec Welding GmbH (Germany)

EWM Hightec Welding GmbH is recognized for its high-performance arc welding power sources that incorporate sophisticated digital integration. The company's product portfolio emphasizes durability, energy efficiency, and strict conformance with international certifications. EWM supports Industry 4.0 manufacturing paradigms and caters to high-precision fabrication sectors including aerospace and heavy engineering, providing advanced welding solutions that meet rigorous technical and regulatory standards.

Domestic Players:

Ador Welding Limited

Ador Welding Limited, the flagship company of the Ador Group, is among India's largest publicly listed welding equipment and consumables manufacturers. Founded in 1951 (formerly Advani-Oerlikon), it serves infrastructure, shipbuilding, automotive, and oil & gas sectors. With six advanced manufacturing units in India and presence in over 15 countries, it emphasizes innovation, quality management, and integrated aftersales support to maintain a competitive domestic and international stance.

ESAB India Limited

A wholly owned subsidiary of ESAB Corporation, ESAB India Limited manufactures welding and cutting equipment, consumables, and automation solutions for construction, automotive, and heavy engineering sectors. Combining global technological expertise with local manufacturing, the company ensures compliance with domestic and international standards, underpinned by strong distribution and client servicing capabilities.

Jyoti CNC Automation Ltd.

Jyoti CNC Automation Ltd. is a leading Indian manufacturer specializing in CNC machine tools, automated welding systems, and precision cutting technologies. Catering primarily to automotive, aerospace, and heavy engineering industries, Jyoti is recognized for its advanced R&D capabilities, technological integration, and customization expertise, enabling it to address complex fabrication challenges effectively.

Cruxweld Industrial Equipment Limited

Cruxweld Industrial Equipment Limited designs and produces welding, cutting, and resistance welding machinery tailored to Indian operational challenges such as voltage variability and high dust conditions. Recognized for reliability and aftersales services, it caters to varied industrial clusters and supports India's localized manufacturing efforts.

Comparative Analysis of Key Indian Players:

The table below provides a comparative overview of leading The Machine Tools — Metal-Cutting and Welding Equipment Manufacturing Industry, including Technocrats Plasma Systems Ltd. 10.6 Company Positioning – Technocrats Plasma Systems Limited

Technocrats Plasma Systems Limited (the “Company”), headquartered in Maharashtra, India, with its primary manufacturing facilities located at Vasai East, Mumbai, is engaged in the design, manufacture, supply, installation and commissioning of cutting and welding equipment. Incorporated in 1994, the Company has over three decades of operating experience in the metal cutting and welding solutions segment and serves government bodies, public sector undertakings and private sector enterprises across India, with a growing presence in select international markets.

The Company’s product portfolio comprises plasma cutting machines, CNC gas and plasma profile cutting machines, CNC pipe profile cutting systems, fibre laser cutting machines, laser welding systems, and conventional as well as inverter-based welding equipment, including MMA/TIG, MIG/MAG and submerged arc welding systems. These machines are used for precision plate cutting, profile cutting, pipe cutting, laser-based high-accuracy cutting, and welding applications across ferrous and non-ferrous metals such as carbon steel, stainless steel and alloy steels.

The Company offers a combined Fibre Laser + Plasma + Oxy-Fuel cutting system that integrates multiple cutting technologies on a single platform, positioning it among a limited number of manufacturers globally with such capabilities. This integrated solution enables customers to address a wide range of material thicknesses and fabrication requirements using a single machine configuration.

The Company undertakes customization, supply, installation, testing and commissioning of its machines and executes turnkey cutting and welding solution projects directly linked to the deployment of its manufactured equipment. The scope of activities includes system layout planning, cutting table and power source integration, on-site commissioning, lifecycle support services, operator training, spares supply, and retrofit and upgrade support for installed equipment as part of its post-sales service offerings.

The Company’s equipment is engineered to operate under Indian industrial conditions, including voltage fluctuations, dust exposure and high-duty operating cycles. Its in-house manufacturing capabilities, supported by standardized production processes and ERP-enabled systems, enable quality control, customization and timely execution across a range of machine specifications and capacities.

The Company’s machines are deployed across multiple end-use industries. In the automotive and auto component sector, demand for precision cutting and welding equipment is linked to vehicle production and the expansion of component manufacturing, supported by

localisation and electrification trends. In infrastructure and construction, fabricated structural steel is integral to bridges, highways, metro systems and industrial facilities, with public and private capital expenditure supporting sustained fabrication activity. The oil and gas sector utilises cutting and welding solutions for pipeline networks, refinery units and pressure vessels, where precision and quality requirements are critical. In the power segment, fabrication of boiler components and auxiliary structures drives demand for high accuracy cutting and welding. The railways sector relies on such equipment for wagon and coach fabrication as part of ongoing fleet augmentation and modernization programs. In heavy engineering, including machinery,

defence and industrial equipment, bespoke fabrication requirements underpin continued use of integrated cutting and welding systems.

These end-use sectors are supported by broader economic and policy initiatives in India. Continued focus on infrastructure development through national highways, industrial corridors and urban transport projects underpins structural steel demand, while manufacturing growth driven by initiatives such as “Atmanirbhar Bharat” (Self-Reliant India) and Production Linked Incentive (PLI) schemes supports fabrication activity across automotive, rail and heavy engineering segments. Together, these macro-economic and sectoral trends support rising demand for precision cutting and welding equipment in domestic fabrication ecosystems.

The Company maintains a nationwide distribution and service network comprising distributors and dealers to support installation, preventive maintenance, spares, training, limited retrofit services and after-sales support. Internationally, the Company is expanding its presence through distributor partnerships, participation in industry exhibitions and localized service support in select markets including the Middle East, Africa and Europe.

The Company aligns its manufacturing operations with the Government of India’s “Atmanirbhar Bharat” (Self-Reliant India) initiative and complies with applicable quality and safety standards, including ISO 9001:2015 certification for the design and manufacture of plasma, laser and welding systems. Its integrated business model—covering manufacturing, supply, lifecycle services (including limited retrofit support), and execution of plasma, laser and oxy-fuel cutting and welding solutions—positions the Company as an established domestic manufacturer serving fabrication-driven industrial sectors.

Financial Performance Analysis- Technocrats Plasma Systems Limited

The financial performance analysis of Technocrats Plasma Systems Limited is based on the audited financial statements for FY 2023, FY 2024, and FY 2025. This assessment provides a detailed overview of the Company’s operational and financial trends over the three-year period, reflecting its scale of operations, profitability, liquidity, and capital structure.

The financial performance of Technocrats Plasma Systems Limited over FY 2023 to FY 2025 reflects a period of sharp scale-up in operations, improvement in profitability, and a strengthening of the capital structure, based on audited financial statements provided by the Company.

Total Operating Income increased from INR 445.59 lakhs in FY 2023 to INR 606.23 lakhs in FY 2024, followed by a significant expansion to INR 4,935.68 lakhs in FY 2025. Total Income mirrored this trend, rising from INR 448.05 lakhs in FY 2023 to INR 635.39 lakhs in FY 2024, and further to INR 4,944.17 lakhs in FY 2025, indicating a substantial increase in business scale during FY 2025.

Operating performance strengthened over the period, with EBITDA increasing from INR 83.87 lakhs in FY 2023 to INR 134.17 lakhs in FY 2024, and further to INR 882.72 lakhs in FY 2025. The EBITDA margin improved from 18.82% in FY 2023 to 22.13% in FY 2024, before moderating to 17.88% in FY 2025, reflecting the impact of scale expansion and cost structure during the growth phase.

Profit After Tax (PAT) increased from INR 9.53 lakhs in FY 2023 to INR 155.99 lakhs in FY 2024, and further to INR 653.58 lakhs in FY 2025. The PAT margin improved from 2.13% in FY 2023 to 24.55% in FY 2024, and stood at 13.22% in FY 2025, indicating sustained profitability despite margin normalization in FY 2025.

On the balance sheet, Tangible Net Worth increased from INR 33.33 lakhs in FY 2023 to INR 114.21 lakhs in FY 2024, and further to INR 933.26 lakhs in FY 2025, reflecting retained earnings and capital strengthening. Total Debt remained broadly stable between FY 2023 and FY 2024 at INR 670.80 lakhs and INR 666.09 lakhs, respectively, before increasing to INR 1,023.86 lakhs in FY 2025 to support expanded operations. Consequently, the Debt-Equity Ratio improved significantly from 20.12 times in FY 2023 to 5.83 times in FY 2024, and further to 1.10 times in FY 2025, indicating a substantially deleveraged capital structure.

Liquidity remained comfortable, with the Current Ratio improving from 1.50 times in FY 2023 to 1.76 times in FY 2024, and further to 2.14 times in FY 2025. Return on Capital Employed (ROCE) moderated from 19.84% in FY 2023 to 16.15% in FY 2024, before increasing sharply to 62.85% in FY 2025, driven by higher operating profits. Return on Net Worth (RONW)

increased from 57.20% in FY 2023 to 211.44% in FY 2024, and remained elevated at 124.79% in FY 2025, reflecting strong profitability relative to equity base.

Overall, the financial performance over FY 2023–FY 2025 demonstrates a marked expansion in revenue, improvement in absolute profitability, strengthening liquidity, and a significant improvement in leverage metrics, reflecting the Company’s transition to a larger operational scale and a more balanced financial structure.

Peer Benchmarking – Financial performance analysis

The following table presents a comparison of key financial indicators of Technocrats Plasma Systems Limited, Ador Welding Limited, ESAB India Limited, and Jyoti CNC Automation Limited.

Figures are in INR lakhs (Except for Ratios and percentages).

Source: Company filings and publicly available financial data

The financial position of Technocrats Plasma Systems Limited, when compared with Ador Welding Limited, ESAB India Limited, and Jyoti CNC Automation Limited, reflects a significantly smaller scale of operations, while demonstrating competitive profitability metrics, comfortable liquidity, and efficient capital utilization relative to certain peers.

The peer comparison highlights a pronounced variation in operating scale. Technocrats reported Total Operating Income of INR 4,935.68 lakhs, which is substantially lower than Ador Welding Limited at INR 112,268.00 lakhs, ESAB India Limited at INR 137,347.00 lakhs, and Jyoti CNC Automation Limited at INR 181,770.00 lakhs. This indicates that Technocrats operates at an earlier stage of scale compared to these well-established and significantly larger peers.

Despite its relatively modest scale, Technocrats exhibits strong operating performance. The Company reported an EBITDA margin of 17.88%, which is higher than Ador Welding Limited's margin of 9.08% and broadly comparable to ESAB India Limited's margin of 17.80%, though lower than Jyoti CNC Automation Limited's margin of 27.00%. Similarly, the PAT margin of 13.22% compares favorably with Ador Welding Limited at 5.26% and ESAB India Limited at 12.70%, while remaining below Jyoti CNC Automation Limited's 17.25%. This indicates effective cost management and profitability despite lower revenue volumes.

Liquidity indicators for Technocrats remain comfortable. The Company reported a Current Ratio of 2.14 times, which is broadly in line with Jyoti CNC Automation Limited at 2.15 times, lower than Ador Welding Limited at 2.64 times, and higher than ESAB India Limited at 1.76 times. Tangible Net Worth stood at INR 933.26 lakhs, significantly lower than the net worth levels of Ador Welding Limited (INR 49,698.00 lakhs), ESAB India Limited (INR 34,726.00 lakhs), and Jyoti CNC Automation Limited (INR 165,457.00 lakhs), reflecting Technocrats' smaller operational base and comparatively limited capital scale.

The leverage profile of Technocrats is relatively higher than peers in proportional terms. Total debt stood at INR 1,023.86 lakhs, translating into a Debt-Equity Ratio of 1.10 times, compared to 0.08 times for Ador Welding Limited, 0.19 times for ESAB India Limited, and 0.30 times for Jyoti CNC Automation Limited. While leverage is elevated relative to peers, it should be assessed in the context of the Company's smaller equity base and ongoing expansion phase.

Return ratios represent a key area of relative strength for Technocrats. The Company reported a Return on Capital Employed of 62.85%, which is higher than Ador Welding Limited at 31.15% and Jyoti CNC Automation Limited at 41.34%, though lower than ESAB India Limited at 110.63%. Return on Net Worth stood at 124.79%, exceeding Ador Welding Limited at 24.17% and Jyoti CNC Automation Limited at 38.20%, and higher than ESAB India Limited at 101.03%, reflecting strong earnings generation relative to equity.

Overall, while Technocrats Plasma Systems Limited operates at a significantly smaller scale compared to Ador Welding Limited, ESAB India Limited, and Jyoti CNC Automation Limited, it demonstrates competitive operating and net margins, comfortable liquidity, and strong return ratios. The financial profile reflects a growth-stage company with efficient capital utilization and improving scale, while peers benefit from larger operations, stronger balance sheet depth, and established market presence.

10.7 SWOT Analysis of Technocrats Plasma Systems Limited

Strengths	Weaknesses
Established Operational Track Record: Over three decades of experience since 1994, serving institutional clients across government, PSUs, and private sectors, fostering deep industry insight and enduring client trust. Indigenous Design and Technological Innovation: Indigenously developed core technologies with in-house R&D supporting CNC plasma cutters, automated welding, energy-efficient systems, and digital integration. Comprehensive and Customizable Product Portfolio: Wide range of plasma cutting machines, welding equipment (including laser solutions), and automation-ready systems. Products are adaptable with CNC integration and special modifications across sectors like	High Capital & R&D Intensity: Significant investment requirements in technology and compliance infrastructure exert financial pressure especially during market downturns. Supply Chain Dependency: Reliance on specialty steel and electronic components exposes the company to potential supply disruptions and price volatility. Scalability Challenges: Managing operational scale-up while maintaining quality, service excellence, and efficiency remains complex. Limited Global Brand Recognition: Despite exports, international brand visibility outside core markets is moderate compared to multinational competitors.

automotive, infrastructure, oil & gas, and heavy engineering. Robust Service Network and Lifecycle Support: Nationwide technician deployment, preventive maintenance, spare parts availability, remote diagnostics, and predictive maintenance ensure operational reliability, customer satisfaction, and long-term client retention. Cost-Efficient, Scalable Operations with Strategic Alliances and Certifications: Vertically integrated manufacturing and strong vendor/global partnerships enable scalable, cost-effective operations. Compliance with ISO, CE, and sustainability standards supports market credibility and adoption of Industry 4.0 capabilities, including automation and AI-driven solutions.	
Opportunities	Threats
Expanding Markets: Accelerating demand from infrastructure development, renewable energy projects, and precision manufacturing opens expansive growth avenues both domestically and internationally. Industry 4.0 Adoption: Leveraging IoT, AI, and predictive analytics can enhance operational efficiencies, enable product differentiation, and introduce new service models. Customization for High-Value Sectors: Specialized solutions addressing aerospace, defense, automotive, and oil & gas sectors offer higher margins and foster deeper client ties. Government Initiatives: Make in India, PLI, and export promotion schemes provide cost advantages and facilitate capacity expansion. Sustainability Trends: Developing energy-efficient, low-emission equipment aligns with increasing ESG mandates and customer preferences.	Competitive Intensity: Larger global and domestic players may adopt aggressive pricing or technological innovations that threaten margins and market share. Regulatory & Trade Barriers: Evolving import-export policies, tariffs, and certification requirements risk market access delays and elevated compliance costs. Technological Disruption: Emerging fabrication methods like laser cutting and additive manufacturing may reduce demand for traditional plasma and arc welding solutions. Macroeconomic Volatility: Currency fluctuations, geopolitical tensions, and global economic slowdowns could disrupt supply chains and investment flows.

Geographic Expansion: Untapped regions such as Africa, Latin America, and Southeast Asia present sizable market opportunities.	

11. Future Outlook

The global and Indian machine tools industry, encompassing metal-cutting and welding equipment, is poised for sustained growth over the next decade. The global market is projected to expand at a CAGR of approximately 5.3%, from USD 99.9 billion in 2024 to USD 167.8 billion by 2034. The Indian market is expected to grow faster, at a CAGR of 8.2%, rising from USD 1.62 billion to USD 3.57 billion over the same period. Within India, the metal-cutting segment is forecast to increase from USD 0.50 billion to USD 0.95 billion at a CAGR of 6.6%, while welding equipment is expected to grow from USD 0.68 billion to USD 1.25 billion at a CAGR of 6.3%.

Accelerating industrialization and infrastructure expansion, widespread adoption of Industry 4.0 technologies (IoT, AI, machine learning), rising automation and robotics in welding and cutting operations, and increasing demand for high-precision, energy-efficient, and digitally integrated systems. Policy support under initiatives such as Make in India, Production Linked Incentives (PLI), and digital skill development programs further reinforce the sector's structural growth potential.

Technological advances—including AI-driven quality assurance, digital twins, welding simulation, and digital compliance tools—are enhancing operational efficiency, product quality, and global competitiveness. Sustainability considerations are also shaping equipment design, with energy-efficient, environmentally compliant solutions aligning with growing ESG mandates.

The industry faces challenges including high capital investment requirements, a fragmented domestic structure with many small-scale operators, skilled labour shortages, and evolving regulatory and environmental compliance pressures. Targeted government support through training, export promotion, anti-dumping measures, and regulatory harmonization is expected to mitigate these constraints over time.

Regionally, Indian demand remains concentrated in Western and Southern industrial hubs, while Northern and Tier-2/3 centres are emerging as growth areas. The domestic manufacturing ecosystem is gradually upgrading in sophistication, strengthening local supply chains, and reducing reliance on imports for mid-range equipment, even as high-specification imports remain essential.

Overall, the market is favourable, driven by robust domestic and global demand, technological innovation, and digital transformation. The metal-cutting and welding equipment industry is positioned as a critical enabler of India's industrial modernization, infrastructure development, and its evolution as a global manufacturing hub.

OVERVIEW

We are an engineering-led manufacturer of plasma cutting machines, welding equipment and customised automation systems for metal fabrication and related industries in India. Our products are used by customers in various sectors including automotive, construction, shipbuilding, heavy engineering and general manufacturing.

Our product portfolio includes manual and CNC-controlled plate and pipe cutting systems for different material thicknesses and profiles, welding equipment for MIG, TIG, ARC, SAW and laser processes, and automation solutions for cutting and welding lines. Our activities cover understanding customer requirements, preparing system configurations, detailed engineering, fabrication and assembly of equipment, testing, and supply of machines and systems. In addition to supplying equipment, we provide technical consultancy on process selection and layout, site engineering support and digital and cloud-based fabrication support services. We also support customers through installation and commissioning assistance, operator familiarisation, after-sales service and supply of spares and consumables over the life of the equipment.

Since our incorporation, we have been engaged in introducing plasma cutting machines and inverter-based technology machines manufactured in India and in implementing CNC plasma cutting and welding automation systems for metal fabrication applications. We have developed CNC metal plate profile cutting systems and CNC metal pipe profile cutting machines for applications involving complex shapes and joint preparations, as well as a 1000-ampere plasma power source for cutting higher-thickness metal plates. Building on these platforms, our current product development is focused on laser cutting and welding solutions and on enhancing the automation readiness of our systems, so that customers can adopt higher levels of process control and integration in line with their fabrication requirements.

We categorise our offerings into the following product and service verticals:

1. **Machines (without automation)** - Standalone plasma cutting and welding machines operated directly by the user. Includes manual plasma cutters (inverter, thyristor/diode, Hybrid Technology) and MMA, MIG/MAG, TIG and SAW welding power sources for workshop and field use.
2. **Machines (with automation)** - CNC and automated cutting and welding systems. Includes CNC plate and pipe profile cutters (plasma/oxyfuel), laser cutting and welding systems, and welding automation / combined cutting–welding cells.
3. **Customisation and Retrofit** - Tailored configurations and upgrades for new and existing machines. Includes custom tables and fixtures, control and drive retrofits, power source upgrades and process add-ons.
4. **Services** - Lifecycle support for supplied equipment. Includes installation and commissioning, preventive maintenance and AMC, training, and spares and retrofit support.

The product/service wise revenue bifurcation for the Period ending June 30, 2025 and Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023 are as follows:

We operate with defined quality and safety practices and align our design and manufacturing methods with applicable domestic and international standards. Our research and development efforts are directed towards improvements in energy consumption, cutting and welding accuracy, operator safety and the use of robotic and laser-based cutting and welding applications.

We sell and support our products through authorised dealers and channel partners for local sales, installation and first-level support, backed by regional service associates for maintenance, spares and on-site assistance. These field networks are centrally coordinated from our corporate office, enabling timely deliveries, faster service response and coverage of key Tier I and Tier II industrial clusters.

We operate 2 manufacturing facilities at Vasai, Maharashtra with an aggregate built-up area of 20,000 square feet. Our factories are equipped with CNC and conventional plate cutting machines, machining centres, welding and fabrication bays, paint and surface preparation areas, and electrical and control panel assembly lines, where we build and assemble our cutting, welding and automation equipment. Within these facilities we also carry out tests and benchmarking of our machines and systems before dispatch.

Our quality framework is built around workmanship and materials aligned with applicable Indian industrial standards, supported by defined checks on incoming materials, in-process work and finished assemblies. Our supplier quality assurance programme includes qualification and periodic review of key vendors, with multi-sourcing adopted in critical categories to reduce dependency on individual suppliers.

As on the date of this Draft Red Herring Prospectus, we partner with more than 2,500 clients across India, and abroad. Our order pipeline is anchored by repeat customers across heavy fabrication and engineering, automotive, infrastructure and construction equipment, shipbuilding and marine industries, defence, nuclear energy and oil & gas sectors, providing visibility on near-term and medium-term execution. Our customer base spans India and select export markets, which reduces reliance on any single end-market or region. Our export revenue was 0.55% and the top ten customers accounted for 83.89% of revenue in FY 2024-25.

Our Company is promoted by Mr. Arun Kumar (Chairman and Managing Director), who has extensive experience in plasma and laser technology, including research and innovation for projects undertaken for the Government of India and Mrs. Vandana Sharma (Chief Financial Officer), who has significant experience in corporate management including human resources, finance & accounts, procurement, and statutory compliance. Collectively, our Promoters have over 50 years of experience and remain actively involved in providing strategic direction and oversight, as well as day-to-day execution, across our operations, finance and compliance functions. Our Company was incorporated as a private limited company on November 01, 1994, Technocrat

Plasma Systems Private Limited, and was converted into a public limited company on October 29, 2025 with the name Technocrats Plasma Systems Limited (the “Company” or “TPSL”).

Major Milestones achieved by our Company since incorporation:

The Board is supported by a management team with relevant industry experience; our key managerial personnel (KMP) and senior management personnel (SMP) together have an aggregate of over 50 years in various industries and provide continuity across engineering, manufacturing, projects, quality, and service. For further details of the Directors, KMPs and SMPs, refer to the chapter “*Our Management*” on page 258 of this Draft Red Herring Prospectus.

FINANCIAL KPIs

The financial performance of the Company for the Period ending June 30, 2025 and Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023 as per Restated Financial Statement are as follows:

Notes:

1. Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Statements.
2. Cost of goods sold is calculated as Cost of Material Consumed + Changes in inventories of Finished Goods + Other Direct Expense. Cost of goods sold as % of revenue from operations means Cost of goods sold divided by Revenue from Operations.
3. EBITDA is calculated as Profit before tax + Depreciation + Finance Cost - Other Income.
4. EBITDA Margin is calculated as EBITDA divided by Revenue from Operations.
5. EBIT is calculated as Profit before tax + Finance Cost - Other Income.
6. PAT Margin is calculated as PAT for the period/year divided by Total Income.
7. Return on Capital Employed is ratio of EBIT and Capital Employed.
8. Net worth/ Shareholder's equity means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account.
9. Capital Employed is calculated as Net worth + Long Term Borrowings + Short Term Borrowings.
10. Return on Equity is ratio of Profit after Tax and Average Shareholder's equity
11. Debt to Equity Ratio is ratio of Total Debt and Total Shareholder's equity

OPERATIONAL KPIs MONITORED BY OUR COMPANY

STRENGTHS

1. Experience across industries, installed base and diversified customer base

Our Company has been active in plasma cutting and welding since 1990. Over this period, we have supplied machines and systems to customers in heavy fabrication and engineering, automotive and component manufacturing, infrastructure and construction equipment, shipbuilding and marine industries, steel plants and metal service centres, process plants, and defence and railways-related applications. Our customer base includes both larger enterprises and MSMEs that use our equipment in different types of workshops and production lines.

By working across these sectors, we encounter Complex profile for plate, and pipe cutting for structural and process applications, and welding for components used in vehicles, construction equipment, steel handling, ship structures and process equipment. Each application has different requirements in terms of thickness, material grade, edge quality, dimensional tolerance and cycle time. Our machines operate under varied duty cycles, environmental conditions, operator skill levels and layouts, which gives continuous feedback on performance, maintenance needs and process settings.

Over time, this has built an internal base of practical data and reference cases. When we receive new enquiries, we are often able to relate them to prior projects in similar industries, estimate suitable configurations, anticipate installation or operational issues and propose options for capacity planning and future upgrades, including movement from manual or semi-automatic processes to CNC-based plasma or laser cutting systems.

2. Indigenous design and in-house fabrication with cost and schedule control

We develop our products through in-house research and development and engineering. Our teams handle mechanical, electrical and control design for plasma cutting machines, welding equipment and automation systems, which helps us retain design know-how within the Company and maintain confidentiality.

We carry out fabrication, assembly and testing for our machines in-house. This allows us to operate under a single quality system, maintain traceability over materials and processes and link design decisions directly to production and testing outcomes. Close coordination between engineering and manufacturing supports design changes and introduction of new variants. At the same

time, we use external vendors for selected components and sub-assemblies where outsourcing is appropriate, working with them to our specifications and integrating their parts into our machines.

For operational purposes, we view the difference between in-house fabrication and outsourcing along dimensions such as know-how, cost, design change cycles, quality records, scheduling and exposure to supply disruptions. In-house fabrication supports retention of design know-how, direct cost control, faster design changes, a single quality and traceability system, internal control over scheduling and lower reliance on vendors. Outsourcing, by contrast, involves sharing design know-how with vendors, incurring vendor mark-up and transport cost, design changes that follow vendor cycles, quality data split across parties, schedules dependent on vendor slots and higher exposure to vendor-specific constraints. These factors are reflected in our planning and capacity decisions.

We benchmark our systems against global technology standards and use selected high-performance components, including control systems, from reputed global vendors where this supports performance and maintainability.

3. Product and solution range with customisation and lifecycle service

We offer a range of plasma cutting machines, welding equipment and customised automation solutions serving heavy fabrication and engineering, infrastructure and construction equipment, automobile and ancillary manufacturing, shipbuilding and marine industries, steel plants and metal service centres, and defence and railways. Our customers include both large enterprises and MSMEs that use our equipment in organised production lines as well as stand-alone fabrication shops.

Our cutting systems portfolio covers manual and CNC-compatible systems for plates and pipes designed for different thicknesses and geometries. Our welding portfolio includes equipment for MIG, TIG, ARC, SAW and laser welding. On the services side, we provide installation support, commissioning assistance, operator familiarisation and technical guidance on process set-up.

Customisation and solution engineering are central to how we address customer requirements. We use our engineering capabilities to adapt machines to specific applications instead of treating them only as catalogue items. We adjust table sizes, thickness ranges, motion systems, control features and fixture designs to suit the customer’s part mix, floor space, utility availability and throughput needs. This includes designing fixtures, planning motion sequences, configuring CNC controls and, where relevant, integrating laser-based cutting and welding into the system.

We follow a structured process: understanding the customer's parts, materials and production targets; studying drawings; discussing production volumes and constraints; and then developing layouts and configurations that fit within the available space and process flow. After design and build, we support installation, tuning and operator familiarisation so that the system operates as intended in the customer's environment. This allows us to participate at the planning stage and position our machines as part of a wider solution. It also creates scope for incremental automation, as customers may start with a manual or semi-automatic configuration and later add automation, fixtures and additional controls using our platforms.

Our dealer and service network across India supports lifecycle service. Local contact points provide after-sales and technical support for installation, maintenance, breakdowns, spares and basic technical guidance. Feedback from the network on equipment performance, recurring issues and site-specific conditions is passed back to our engineering and quality teams for review and potential design or process changes. The combination of internal service capability and the network is intended to support the equipment lifecycle from installation through routine maintenance and eventual upgrades or replacements.

The following table indicates the regional location of dealers and service locations:

4. Operations, quality assurance and employee training

Our operational structure combines in-house manufacturing with a vendor base for components and sub-assemblies. In-house processes cover key steps in fabrication, assembly and testing, while vendors supply specific items that require specialised manufacturing or are more efficient to procure externally. This structure supports cost control by allowing us to focus internal resources on processes central to performance and quality and source other elements from the market based on our specifications. It also supports scaling, as we can plan capacity within our own facilities and across the vendor base as order volumes change.

We apply quality assurance through in-process inspections, performance testing of final equipment and component testing for electrical, thermal and mechanical reliability. We use inspection checklists and documentation and maintain traceability of serial numbers and servicing history so that we can track performance over time and identify patterns that may require design or process adjustments. Quality protocols are aligned with applicable Indian industrial standards and guided by feedback from field performance and service data.

We apply quality checks across the production lifecycle, from raw-material intake and in-process checks to assembly verification and site handover. Incoming materials are verified to specification; fabrication steps are recorded within our quality system; pressure tests and functional checks are conducted before dispatch; and site commissioning follows defined checklists and handover protocols.

To support this operational and quality framework, we conduct regular training programmes for employees across departments. Technical and process training is provided to operators, engineers and technicians on machine assembly and wiring, operating

and troubleshooting plasma and gas cutting systems, using our inhouse developed parts such as torch heads, controllers, PLC's and CNC drives and conducting machine testing, alignment and calibration. Quality control and inspection teams are trained on checking raw materials, in-process parts and finished machines, measuring tolerance, fitment and electrical safety and using structured inspection documentation.

Staff in Stores, Purchase, Production and Accounts are trained on the use of ERP for material movements, inventory, order tracking, job card monitoring and production planning, so that data is maintained in a consistent and timely manner. We also run health, safety and compliance training, covering use of personal protective equipment, fire safety, emergency procedures and safe handling of machinery and gases. Sales and project teams receive soft skills and communication training focused on customer communication, coordination with service and installation teams, time management and team collaboration. Engineers are sent to customer sites in India and abroad for installation and commissioning, which gives them exposure to site handling, machine integration, client interaction and reporting.

6. Experienced leadership and technical teams

Our Promoters have an aggregate of over 50 years of industry experience and are involved in both strategy and day-to-day execution. They are supported by a management team, including key managerial personnel and senior management personnel, covering engineering, fabrication, projects, quality, automation and services.

As a technology-focused Company, our ratio of technical staff to total employees is 71%, 69% and 68% in FY 2025, FY 2024 and FY 2023, respectively). We run a regular review cadence for project schedules, procurement status, fabrication load, logistics and site readiness, with stage-gate checkpoints and tracked actions. Work is standardised through a central library of drawings, process flow diagrams, piping and instrumentation diagrams, bills of material, method statements and commissioning checklists, which helps teams move from design to fabrication to site using common references and reduces rework. Resource allocation is scheduled across projects to align with customer shutdown periods and site-specific priorities.

We maintain a strong focus on capability building as our Company grows, investing in structured training and development programs for employees. This emphasis on skill enhancement, combined with engaged leadership and sound governance, ensures timely decision-making, consistent execution, and reliable project handovers.

STRATEGIES

Expansion of product portfolio into high-end and automated solutions

We plan to broaden our product portfolio by introducing higher-end plasma cutting systems, CNC-integrated models and automation-ready welding solutions, Laser welding and Laser cutting solutions. The objective is to address demand from customers who are moving towards higher precision, tighter process control and greater automation in cutting and welding operations, particularly in automotive, infrastructure and fabrication sectors. Our product development roadmap includes upgrading selected existing platforms to CNC-integrated variants, developing automation-ready versions of plasma cutting and welding systems that can be interfaced with handling, robotic or line controls, and standardising options for higher-thickness and higher-duty applications where customers are shifting to more automated processes. We have started aligning engineering and development efforts with these directions and are gradually increasing the share of high-end and automation-ready solutions within our product mix.

Strengthening domestic market presence and dealer network

We intend to strengthen our position in the Indian market by expanding the number and coverage of authorised dealers, service centres and technical representatives. Our focus includes emerging industrial zones and Tier II and Tier III cities where fabrication and manufacturing activity is increasing and access to local support is a key decision factor for customers. We are now identifying priority clusters in states and regions with a concentration of fabrication and ancillary manufacturing, appointing additional dealers and service partners in locations that are currently served from distant branches, and enhancing the capability of existing dealers through product and service training. By expanding and upgrading our domestic network, we aim to reduce response times for enquiries and service requests, improve availability of spares and technical support and increase visibility of our products and solutions across regional markets.

Entry into export markets

We plan to explore export opportunities in selected neighbouring and emerging markets, building on our indigenous design and manufacturing capabilities. Our present export footprint includes Cameroon and Uganda, which account for 0.55% of our Revenue in FY 2024-25. Our initial focus is on South Asia, Africa and the Middle East, where industrial requirements for cutting and welding equipment are comparable to Indian conditions in terms of material ranges, power infrastructure and cost sensitivity. In these markets, we intend to offer configurations that balance affordability and reliability for small and medium enterprises, while meeting applicable standards. Over the medium term, we also plan to address opportunities in more developed markets where automation and robotics play a greater role in fabrication and welding processes, by positioning our automation-ready and advanced systems as part of integrated solutions. Our approach includes engaging with distributors and integrators in target countries, participating in trade fairs and industry events and gradually building references and installed base to support further sales.

Enhancement of after-sales service and lifecycle support

We recognise that after-sales service is an important factor for customers investing in capital equipment and plan to strengthen our after-sales and lifecycle support capabilities as a distinct strategic focus. Our implemented measures include increasing the number of field service engineers and regional technicians, introducing structured preventive maintenance plans and annual maintenance contracts for installed machines, using inhouse developed digital tools for service call logging, status tracking and basic remote support. Through these measures, we plan transition to a dedicated platform to further enhance efficiency and responsiveness.

Operational efficiency, capacity planning and cost optimisation

We aim to improve operational efficiency across our fabrication, assembly, testing and site activities while managing capacity and cost in line with our order book and product mix. Our focus areas include reducing lead times, lowering rework, improving material yield, and planning capacity additions in a phased manner. We use data from our ERP system, production records, quality reports and service feedback to identify bottlenecks, prioritise improvement actions and monitor the impact of changes on throughput and cost.

In fabrication and assembly, we are working on streamlining workflows, standardising job routing and improving planning of material issues and job card closures. We intend to reduce idle time and unplanned changeovers by grouping jobs with similar processes and thickness ranges, and by aligning production schedules with dispatch and site readiness. We also plan to reinforce process discipline through checklists, stage-wise approvals and clearer accountability for each operation.

Material utilization and rework are critical drivers of our cost structure. Insights from quality control and service teams on recurring defects are used to refine work instructions, update training modules, and strengthen inspection protocols. These measures aim to reduce rework hours, scrap, and reprocessing, thereby improving overall yield and stabilizing costs.

Capacity planning is aligned with the order book and the expected mix of standard and customised orders. We review capacity utilisation of critical processes and equipment and plan additions or rearrangements where utilisation approaches levels that could affect delivery performance. This includes decisions on additional fabrication bays, fixtures, jigs or testing capability. We also coordinate with vendors supplying key components and sub-assemblies to align their capacity and lead times with our production plans.

PRODUCTS AND SERVICES PORTFOLIO

We primarily cater to the following product and services verticals:

A. PRODUCTS

1. Machines (without Automation)

1.1 Manual Plasma Cutting Machines

These machines are used for cutting metals such as mild steel, stainless steel, aluminium, copper and brass. They use a plasma arc to melt and blow away metal and are suitable for sheet, plate and structural cutting in shops and on sites.

Key Advantages:

High cutting speed compared to oxy-fuel methods.

Ability to cut a wide range of conductive metals.

Compact and portable for field applications.

Smooth edge quality, reducing the need for secondary finishing.

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. Inverter-Type Manual Plasma Cutters – portable plasma power sources across different current ratings, used with hand torches and basic guides.	General fabrication and maintenance cutting of sheets, plates and small structures in workshops and sites across fabrication, construction, automotive repair and general engineering.	
b. Thyristor / Diode-Type Manual Plasma Cutters – rugged, heavier-duty units designed for higher duty cycles and thicker materials.	Cutting thicker plates and sections in heavier fabrication shops and industrial maintenance departments where long cutting cycles are common.	
c. HyCUT Series (Chopper-Technology Plasma Sources) – high-efficiency sources usable both for manual cutting and as power units for CNC machines.	Manual cutting of plates; suitable for workshop applications and on site work, and as a common power platforms feeding CNC cutting systems in mixed manual/automatic environments.	

1.2 Manual Welding Machines

Welding Machines are essential equipment used to join two or more pieces of metal by applying heat, pressure or both, to fuse them into a single, strong joint. Depending on the welding process such as MIG (Metal Inert Gas), TIG (Tungsten Inert Gas), MMA (Manual Metal Arc) or SAW (Submerged Arc Welding), these machines enable precise, durable, and efficient metal joining for a wide range of applications.

Key Advantages:

High strength and durability of welded joints.

Adaptability to various metals and thicknesses.

Availability in different types for specialized applications.

Portability in certain models for field work.

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. Arc / MMA Welding Machines – transformer or inverter power sources	Workshop and field welding of frames, brackets, structural members and general	

for stick welding across a range of material thicknesses.	components in fabrication, construction and repair work.	
b. MIG/MAG Welding Machines – power sources for gas-shielded welding of mild steel and stainless steel in continuous wire mode.	Fabrication of structures, enclosures, frames and automotive or machinery parts where higher deposition rates and cleaner welds are required. Used for wide range of metals, including mild steel, stainless steel, carbon steel, aluminium and their alloys.	
c. TIG Welding Machines – power sources for non-consumable electrode welding of steels, stainless steels and thin materials.	Welding of thinner sections, stainless and non-ferrous components, precision parts and joints requiring better control and finish.	
d. SAW Welding Power Sources – power units and rectifiers for submerged arc welding of heavy sections.	High-deposition welding of beams, girders, pressure parts and thick plates in heavy engineering, structural fabrication and process equipment.	

2. Machines (with Automation)

2.1 CNC Plate Profile Cutting Systems (Plasma / Oxyfuel)

CNC plate profile cutting machines cut plates into shapes and profiles according to programmed paths using plasma, oxyfuel or a combination of both.

Key Advantages:

High precision and repeatability in complex profiles.

Automated operation reduces manual intervention and errors.

Capability to cut thick and large metal plates efficiently.

Flexibility to handle multiple cutting processes (plasma/oxy-fuel).

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. CUB Series – gantry-type CNC plate profile cutters configured with plasma and/or oxyfuel torches on standard cutting tables.	Automated cutting of structural components, base plates and profiles for heavy engineering, construction equipment, shipbuilding, structural steel fabrication and machinery manufacturing in batch and project work.	

b. CantiCUB Series – cantilever-type CNC plate cutters with plasma and/or oxyfuel, suited to smaller floor space.	CNC cutting of plates and parts in compact fabrication shops and service centres where space is constrained but repeated profiles are required.	
c. PANTHER Series – heavier-duty gantry CNC plate cutting systems supporting multi-torch plasma/oxyfuel configurations.	High-throughput cutting of large plates and multiple profiles for shipbuilding, heavy structures and machinery where productivity and multi-torch operation are important.	
d. Plate Systems with HyCUT Sources – CNC plate profile cutters powered by HyCUT plasma sources common with manual units.	Plate cutting in shops that use HyCUT-based manual and CNC systems, enabling common spares and process settings for fabrication and project work.	

2.2 CNC Pipe Profile Cutting Systems (Plasma / Oxyfuel)

CNC pipe profile cutting systems cut pipes and tubular sections into programmed shapes, bevels, holes and intersections using plasma or oxyfuel.

Key Advantages:

High precision in complex multi-axis cuts.

Reduced manual layout work and preparation time.

Capability to process a wide range of pipe diameters and materials.

Improved weld-fit quality, reducing downstream rework.

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. PUMA Series – 3-Axis Pipe Profile Cutters – systems for straight and angled cuts and simple bevels on pipes.	Preparation of pipes for structural and process applications in construction, fabrication and general engineering where standard cuts and joints are required.	
b. PUMA Series – 5-Axis Pipe Profile Cutters – multi-axis systems capable of complex bevels, intersections and hole patterns.	Cutting of saddles, mitres, intersections and bevels on pipes for oil and gas, offshore structures, shipbuilding and pressure vessels requiring complex joint preparation.	
c. Plate-Plus-Pipe Combinations (PUMA / PANUMA Type) – systems integrating plate and pipe cutting on a common gantry/platform.	Combined cutting of plates and pipes in shops where both flat and tubular components are processed and where floor space or investment favours a single integrated system.	

2.3 Laser Cutting Systems

Laser cutting systems are CNC machines that use a focused laser beam to cut metal sheets and plates with fine detail and limited heat-affected zones.

Key Advantages:

High cutting accuracy with smooth, burr-free edges.

Ability to process complex shapes and fine details.

Minimal heat-affected zones, preserving material properties.

High-speed cutting with low material wastage.

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. Laser Cutting System Range – Standard Bed Machines – CNC laser cutters in common bed sizes and power levels.	Precision cutting of sheet metal components, profiles and patterns for automotive, general engineering, electrical enclosures, signage and architectural fabrication.	
b. Laser Cutting System Range – Large Bed / Higher Power Machines – laser cutters for larger formats and thicker materials.	Cutting of Metal Plates of Larger sizes & higher thicknesses having high precision requirements and application industries of Heavy Engineering including Construction, Defence, Oil & Gas, Infrastructure etc.	 

2.4 Laser Welding Systems

Laser welding systems use a concentrated laser beam to join components with narrow, deep welds and low distortion.

Key Advantages:

High welding speed with consistent quality.

Minimal heat-affected zone, reducing distortion.

Ability to weld dissimilar metals and complex joints.

Suitable for automation and integration into production lines.

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. Laser Welding System — laser welding workstations with motion axes and safety enclosures. They may also have customer-specific fixtures and motion for particular parts	Welding of small and medium-sized components in automotive, electronics and precision engineering where narrow welds and low distortion are needed.	

2.5 Welding Automation Systems & Combined Solutions

Welding automation systems are mechanised or robotic setups that perform welding with limited manual intervention. Combined systems may integrate preparation and welding on the same platform.

Key Advantages:

Consistent weld quality across large production runs.

Increased productivity and reduced cycle time.

Ability to handle complex or hazardous welding tasks safely.

Lower operational costs through reduced rework and waste.

The products offered in this category, along with their end usage is given in the table below:

Products	End Usage	Pictorial Representation
a. Pipe-to-flange / Pipe-to-Cap Welding Stations – automated welding setups for joining flanges or end caps to pipes.	Production of flanged and capped pipes for piping systems, manifolds and process lines in oil and gas, chemical and mechanical industries.	
b. Membrane Panel and Tube-to-Tube Welding Systems – automation cells for repeated seam welding on boiler and panel assemblies.	Fabrication of boiler panels, heat exchanger panels and similar multi-tube assemblies in power, process and boiler manufacturing.	
c. Curved Pipe and Sphere Welding Systems – specialised welding setups for curved and spherical components.	Welding of curved pipe spools, spherical components and complex shapes in process equipment, pressure vessels and specialised mechanical assemblies.	
d. H- beam Welding & Straightening	For Production line manufacturing of I/H beams of various sizes and thickness. Automatic MIG/ SAW Welding of Web & Thickness and Post Welding Straightening of Flanges. Applications include PEB industries, Girder manufacturing, Heavy Steel Structures like Bridges etc.	

B. SERVICES

1. Customisation & Retrofit

1.1 Customised Machines and Fixtures

Customisation involves adapting standard machines with specific table sizes, additional axes, special fixtures, torch arrangements or process options to match customer parts and layouts.

The following services are provided under this category:

Brief Description of Service	End Usage
a. Custom Table and Gantry Configurations – non-standard bed sizes, travel lengths and gantry arrangements.	Projects where existing pits, handling systems or floor layouts require machines to be built to specific dimensions or travel ranges in fabrication and process shops.
b. Special Fixtures and Torch Arrangements – jigs, clamps and multi-torch setups tailored to specific parts or assemblies.	Holding and processing non-standard sections, assemblies and weldments in projects where repeatability and correct positioning are important.

1.2 Retrofit and Upgrade Packages

Retrofit work upgrades existing machines with new controls, drives, power sources or process options to extend life and align capabilities with current requirements.

The following services are provided under this category:

Brief Description of Service	End Usage
a. Control and Drive Retrofits – replacement of legacy CNC, drives and panels with modern controls.	Extending the life and improving the usability of older CNC cutting or welding machines in shops where mechanical structures remain serviceable.
b. Power Source Upgrades – upgrading older plasma sources to newer inverter or HyCUT units, or adding new processes.	Enhancing cutting or welding performance and process options on existing machines without full replacement in fabrication and maintenance environments.
c. Process Add-Ons (Bevel Heads, Pipe Modules, Extraction, Water Tables) – additional hardware fitted to existing machines.	Enabling bevel cutting, pipe cutting, improved fume control or water-bed operation on existing plate and pipe cutting installations to meet new project or regulatory requirements.

2. Installation & Commissioning

Services required to bring machines into operation at the customer site, verify performance and hand over for production.

The following services are provided under this category:

Brief Description of Service	End Usage
a. Installation and Start-Up Services – erection, alignment, utility connection, calibration and trial operation.	Bringing manual, CNC, laser and automation systems into production at customer sites with verified performance on sample parts and operators familiarised with basic operation.

3. Lifecycle Maintenance & Add-on Services

Ongoing services that support reliable operation beyond warranty, often provided under structured plans.

The following services are provided under this category:

Brief Description of Service	End Usage
a. Preventive Maintenance and AMCs – structured periodic service visits under annual or multi-year contracts.	Reducing unplanned breakdowns and stabilising performance for installed machines in fabrication, construction, automotive and engineering sectors.
b. Refresher and application training – follow-up training modules for operators and maintenance teams.	Updating skills and reinforcing correct operating and maintenance practices for users of plasma cutting, welding, CNC and automation systems.

4. Upgradation, Retrofit Support & Spares

Support for upgrades, retrofits and supply of spares and consumables across the installed base.

The following services are provided under this category:

Brief Description of Service	End Usage
a. Spares and Consumables Supply – torches, consumables, cables, sensors, drives and other critical items.	Maintaining uptime of installed machines by ensuring availability of replacement parts and consumables across the installed base.
b. On-Site Retrofit and Upgrade Support – field execution of control, drive or power-source upgrades and related changes.	Implementing planned upgrades and retrofits on installed machines at customer premises to extend service life and add capabilities with limited disruption to operations.

OUR MANUFACTURING FACILITIES

We have two manufacturing facilities located at Vasai, both are situated within the Gaodevi Industrial Estate. The first unit was established at Gala No. 6,7,8 & 1st floor 106,107,108, Gaodevi Industrial Estate, Sativali, Vasai (E) (**Unit-I**) and the second unit was added in Gala No. 105, First floor, Nirav No. 2, Gaodevi Industrial Estate, Sativali, Vasai (E) (**Unit-II**).

List of Machinery

The major machinery in the two factories consists of the following*:

S.No	Name of Machine	Make	Specification	Qty
1	Lathe Machine	Bimpex Accura	Used for turning, facing, threading, drilling, boring, knurling, taper turning, and parting operations.	4
2	Capstan Machine	Panchal Eng. Works	Capstan Machine (also called a Turret Lathe) is a type of lathe used for mass production of small to medium-sized workpieces, especially where repetitive operations are required. It has a turret tool post that allows multiple cutting tools to be mounted and used in sequence, improving efficiency.	1
3	Small Capstan Machine	Orient	Used for small precision parts such as fasteners, bushings, pins, and fittings	1
4	Drill Machine	BOSCH	Drill Machine is a versatile tool used to create round holes or enlarge existing holes in metal, wood, or other materials by means of a rotating drill bit.	7
5	Hand Drill Machine	BOSCH	Drill Machine is a versatile tool used to create round holes or enlarge existing holes in metal, wood, or other materials by means of a rotating drill bit.	4
6	Grinder Machine	BOSCH	Grinder Machine is a power tool used for material removal, finishing, and shaping of metal or other hard materials by means of an abrasive wheel.	8
7	Hand Press Machine	KPT Industries Ltd	Hand Press Machine is a manually operated machine used to apply pressure on workpieces for shaping, cutting, or assembling operations	1
8	Welding Machine	Technocrats Plasma Sys Pvt Ltd	Welding Machine is a device used to join two or more metal pieces by applying heat, pressure, or both, causing the metals to fuse together	6
9	Laser Welding Machine	IndoForeign Technologies	Laser Welding Machine uses a concentrated laser beam to melt and fuse metals or thermoplastics with high precision. It is widely used in industries where accuracy, speed, and minimal distortion are required.	1
10	Press Machine	Jay Shakati	Press Machine is a mechanical or hydraulic device used to apply a controlled force on a workpiece to shape, cut, or assemble it. It is widely used in metalworking, fabrication,	1
11	Hand Cutter Machine	Chandan	Hand Cutter Machine is a manually operated or semi-automatic machine used to cut materials into desired shapes and sizes. It is widely used in workshops, fabrication units, and small-scale industries for precise cutting operations	1
12	Cutting Grinder	KPT Industries Ltd	Cutting Grinder is a handheld or machine-mounted tool that uses a rotating abrasive disc to cut, grind, or shape metal and other hard materials. It is commonly used in workshops, fabrication units, and construction sites.	1
13	Compressor	Atlas Copco India Private Limited	Compressor is a mechanical device that increases the pressure of air or gas and stores it for use in various applications. Compressed air is widely used as a power source for tools, machinery, and industrial processes.	2
14	Material Cutter	BOSCH	Material Cutter is a machine or tool used to cut various materials into required shapes, sizes, or lengths. It can be manual, semi-automatic, or fully automatic depending on the application.	1

S.No	Name of Machine	Make	Specification	Qty
15	Wooden Cutter	BOSCH	Wooden Cutter is a machine or tool used to cut, shape, or carve wood into desired sizes and forms. It can be manual, electric, or CNC-operated depending on the scale and precision required.	1
16	Heatsink Cutter Machine	BOSCH	Heatsink Cutter Machine is a specialized machine used to cut, shape, and size heatsinks made of aluminum or copper for electronic and electrical applications	1
17	Hydraulic Machine (Hyder)	Locpal make	Hydraulic Machine uses hydraulic pressure generated by a fluid to perform mechanical work such as pressing, lifting, bending, or cutting	1
18	Backlit Cutter Machine	Electrex	Backlit Cutter Machine is a specialized cutting device used primarily for cutting, trimming, or shaping materials that require precision visibility	1
19	DSO	Gwinstek	Digital Storage Oscilloscope (DSO) is an electronic instrument used to visualize, measure, and analyze electrical signals over time. It converts analog signals into digital form for storage, display, and detailed analysis.	2
20	Tesing Jig	Technocrats Plasma Sys Pvt Ltd	Testing Jig is a specialized fixture or tool used to hold, support, and test components or assemblies under controlled conditions. It ensures accuracy, repeatability, and safety during testing.	4
21	HeaterCoil Winding Machine	Technocrats Plasma Sys Pvt Ltd	Heater Coil Winding Machine is a specialized machine used to wind metal wires into coils for use in electric heaters, resistors, or heating elements. It ensures precision, uniformity, and consistent electrical properties of the coils.	1
22	Ferruling Machine	P-Tauch	Ferruling Machine is used to crimp or attach ferrules (small metal or plastic sleeves) onto the ends of wires, cables, or tubes. This ensures secure connections and prevents fraying, especially in electrical, electronic, and mechanical applications	1

* As certified by Chartered Engineer, Garg and Associates by way of their certificate dated December 28, 2025.

Capacity Utilization

Our Company manufactures a wide range of cutting, welding and automation solutions with significant variation in specifications, design and customization, and also undertakes on-site automation activities at customer premises. Given the large number of permutations across product types, process routes and machine-wise operations, the facility functions in a job-order, largely manual and non-assembly-line environment, making it impractical to determine capacity through a single standardized engineering formula applicable to continuous production lines. Accordingly, the Chartered Engineer assessed capacity and utilisation through a work study and machine-centric approach. The product range was first rationalised into major categories to reflect differences in process sequences while avoiding excessive complexity from individual variants. Key process steps were mapped against general-purpose equipment used (such as lathe, drill, press, grinders, welding sets and related tools). Actual cycle times, manpower deployment, shift patterns, practical machine availability and bottlenecks were evaluated, and model-wise man-hours and machine-hours across stages such as cutting, machining, welding, assembly, testing and finishing were consolidated (including weighted averages where multiple variants share resources) to derive achievable capacity and compute utilisation against actual output.

The capacity utilization for period ending June 30, 2025 and last three financial years is provided as below:

Financial Year	Product Mix	Period of Utilization in Months	Average Installed Capacity for 12 Months	Average Installed Capacity Pro Rata Basis	Average Production	Utilization (%)

OUR CUSTOMERS

Our Company operates on a business-to-business (B2B) model and supplies cutting, welding and automation equipment and solutions to fabrication shops, OEMs and industrial customers. We engage with customers for both stand-alone machines and engineered systems, and in many cases support them through layout inputs, configuration selection and on-site implementation.

We supply our machines and systems to customers in heavy fabrication and engineering, automotive and auto component manufacturing, infrastructure and construction equipment, shipbuilding, steel service centres and process industries. Our client base covers both large companies and MSMEs, which use our equipment for new capacity, modernisation of existing lines and incremental automation in their cutting and welding operations.

Over time, a significant part of our business has come from repeat orders placed by existing customers as they expand capacity, upgrade equipment or add automation. These repeat engagements reflect familiarity with our products and processes and our ability to support customers through documentation, installation and commissioning assistance, and after-sales service and spares.

The contribution of repeat orders vs new customers for period ending June 30, 2025 and last three Financial Years FY 2024-25, 2023-24 and 2022-23 are presented in the following table:

(₹ in Thousands)

Total Revenue	3,06,824	4,93,568	60,623	44,559

As certified by Peer Reviewed Auditor of our Company i.e., M/s. Bhasin Hota & Co., Chartered Accountants by way of their certificate dated December 30, 2025.

Our customers are located across 23 states and 2 countries and are engaged in both greenfield and brownfield projects. Traceable documentation, installation and service support help sustain these relationships and contribute to repeat business.

BUSINESS MODEL

1. Project Intake and Planning:

Brief Description of the steps is provided below:

Enquiry and RFQ – Receipt of customer enquiry or RFQ for plasma cutting machines, welding machines, CNC systems, laser systems or automation solutions and basic review of scope and timelines.

Application study – Assessment of material, thickness range, part geometry, duty cycle, layout and utilities to identify the appropriate product family and configuration.

Solution and proposal – Preparation of the technical solution, layout / GA and commercial offer describing scope of supply, options and expected delivery period.

Order finalisation – Discussions with the customer to freeze specifications and responsibilities, followed by order confirmation and internal registration of the project.

Project plan – Preparation of a high-level plan covering design release, procurement, production, testing and dispatch milestones for the order.

2. Design and Procurement:

Brief Description of the steps is provided below:

GA and assembly drawings – Creation of general arrangement and assembly drawings for machine bases, tables, gantries, pipe fixtures, housings and control panels.

BOM finalisation – Preparation and approval of the bill of materials, identifying in-house parts and bought-out components such as power sources, torches, CNC/PLC systems and drives.

Procurement planning – Scheduling of purchases and deciding make-versus-buy and vendor selection in line with delivery commitments and internal capacity.

Purchase orders and logistics – Issue of purchase orders to approved suppliers and coordination of inbound logistics so that components reach the plant as per plan.

Material receipt and IQC – Receipt, verification and booking of materials into ERP, followed by incoming quality checks

(IQC) and storage with proper identification.

3. Manufacturing Process:

Brief Description of the steps is provided below:

Material issue – Issue of structural parts, machined components, electrical items and electronic assemblies to production against job cards and drawings.

Mechanical assembly – Assembly of machine frames, cutting tables, gantries, pipe fixtures and motion hardware such as rails, racks, pinions and rotary axes.

Electrical and control assembly – Assembly and wiring of electrical panels, CNC/PLC cabinets and control desks, including drives, I/O modules, HMIs and safety circuits.

Power source and torch integration – Installation and connection of plasma or laser power sources, gas consoles, torches, cable management and sensor packages.

Motion setup and alignment – Power-on checks, homing, alignment and parameter setting for all axes to achieve specified travels, speeds and repeatability.

In-process checks – Interim functional and safety checks on motion, cutting or welding functions to confirm readiness for full factory testing.

4. Final Testing and Dispatch:

Brief Description of the steps is provided below:

Full machine testing – Execution of complete test cycles on the assembled machine, including motion tests and cutting or welding trials as per the test plan.

Sign-off – Review of results, correction of observations if any and formal sign-off after testing by the internal quality team (and customer, where applicable).

Documentation and manuals – Preparation and compilation of test reports, inspection records, operation and maintenance manuals, wiring diagrams and as-built documents.

Cleaning and packing – Final cleaning, fitting of transport locks and protective covers, and packing of machines, panels and accessories in suitable crates or cartons.

Dispatch coordination – Preparation of dispatch documents and coordination with logistics partners and the customer for shipment and delivery to site.

5. Installation, Commissioning and After-Sales Support

Brief Description of the steps is provided below:

Site readiness – Coordination with the customer to confirm civil, power, air, gas and handling arrangements required for installation.

Installation and hook-up – Supervision of unloading, placement, alignment and connection of machines, panels and utilities at the customer site.

Commissioning trials – Start-up of the system, CNC/PLC set-up and trial cutting or welding on customer parts, followed by fine-tuning of parameters.

Training and handover – Familiarisation of operators and maintenance staff with controls, routine checks and safety, and formal handover of the machine with commissioning reports.

Ongoing service and spares – Post-installation support through service visits, preventive maintenance, retrofit projects and supply of spares and consumables to the installed base.

TECHNOLOGY USED IN MANUFACTURING

In our business, technology is embedded across the build cycle of our plasma cutting machines, welding equipment, CNC systems and automation solutions. Machine concepts are converted into detailed models and drawings using digital design tools, which form the basis for part manufacture, assembly and wiring. As machines move through production, CNC equipment, measuring instruments, programming tools and electronic test benches are used to assemble motion systems, integrate power sources and configure controls. At each stage, checks are carried out and recorded so that key components, operations and test results are linked to a specific machine. This helps us monitor progress, trace issues back to their source and deliver equipment that is ready for installation and operation at site.

The main stages where we use different technologies are:

- a. **Design and engineering** – Preparation of layouts, structures and assemblies using 2D/3D CAD software, and release of drawings and data for manufacture and assembly.
- b. **Planning and procurement** – Use of ERP and planning tools to generate bills of materials, schedule jobs, raise purchase orders and track material availability.
- c. **Production and assembly** – Use of CNC and conventional machines, jigs and fixtures, electrical and electronic test equipment and control programming tools during mechanical assembly, panel building and system integration.
- d. **Testing and quality control** – Use of measuring devices, motion tests, electrical safety checks and cutting/welding trials, with results captured against standard test plans and checklists.
- e. **Documentation, packing and dispatch** – Compilation of test reports, manuals and as-built records in standard formats, and use of system-generated labels, packing lists and dispatch documents for each machine.
- f. **Installation and field support** – Use of structured checklists, backed-up parameters and service records during installation, commissioning and after-sales visits, so that performance and interventions can be tracked over the life of the equipment.

INFORMATION TECHNOLOGY

We view information technology as a key enabler for coordination, efficiency and control across our business. We use an ERP

platform for integrated management of supply chain, production planning, inventory, procurement and financial accounting, so that material movements, job status and order progress can be viewed and updated in a single system. Customer relationship management (CRM) tools are used alongside the ERP to track enquiries, offers, orders and service interactions over the life of the machine.

For engineering and design, we use 3D Experience SolidWorks and AutoCAD for 2D and 3D modelling and for detailing our machines and assemblies. Our accounting records are maintained on Tally. These applications, together with our ERP and CRM, are intended to support consistent design data, accurate financial and inventory records, and better coordination between design, manufacturing, sales and service functions.

INVENTORY MANAGEMENT

We manage inventories of both materials and finished machines through a defined process that is linked to our production planning and ERP systems. Raw materials such as electronic parts, mechanical components, gas control units, sheet metal items and sub-assemblies are planned against bills of materials for specific jobs. When these materials arrive, they are checked for quality, entered into the ERP through goods receipt entries and placed in earmarked storage locations with bin identification and, where applicable, barcoding to support traceability. Stock levels are tracked on the system for consumption, minimum stock and re-order needs, and we generally follow a First-In, First-Out approach to minimise ageing and the risk of items becoming obsolete.

Finished products, including plasma cutting machines, CNC profile cutting systems, welding machines and automation equipment, are moved into finished goods stock only after completion of testing and final quality checks. Each machine is assigned a unique serial number, stored in designated finished goods areas and linked in the ERP to production completion, sales orders and dispatch plans so that movements can be coordinated between production, sales and logistics. Periodic physical stock counts are carried out and reconciled with system records, and inventory balances and valuation are reviewed under our internal control procedures and as part of external audit in line with applicable accounting requirements.

QUALITY CONTROL AND TESTING

We treat quality as part of the build process rather than as a final inspection activity. At every stage of making our plasma cutting machines, welding machines, CNC systems, laser systems and automation equipment, we run checks that link back to drawings, bills of materials and test plans. During assembly, our teams verify fitment, motion, wiring and controls so that problems are caught while the machine is still easy to correct. Before dispatch, each machine is run through structured performance tests, including functional checks and cutting or welding trials, and key electrical and mechanical components are checked for safe and stable operation.

Every machine carries a unique serial number, and we retain records for its configuration, test results and later service visits, which helps us trace behaviour in the field and feed learning back into design and sourcing. Our procedures are aligned with relevant Indian industrial standards and are updated using feedback from commissioning and service teams. Health and safety aspects, such as electrical safety, guarding and interlocks, are built into both the product and the way it is tested and documented.

Main quality checkpoints:

LOGISTICS

On the procurement side, we source control panels, torches, mechanical assemblies and other components from vendors across India and selected overseas suppliers. Materials are moved to our manufacturing facilities primarily by road through organised surface transport under the supervision of our procurement and logistics teams. Vendors are instructed to use appropriate packaging, handling instructions and identification labels, and for sensitive or high-value electronic components we arrange special packing and insured transportation. Materials are unloaded, inspected, and manually entered into the ERP system using supporting documents such as invoices, e-way bills, and delivery challans to ensure full traceability from receipt to production.

For finished products, once machines and systems are manufactured, tested and cleared by quality control, they are packed in wooden crates or foam-protected cartons depending on size and configuration. We arrange door-to-door transportation through established logistics partners or dedicated transporters based on customer location and shipment volume. Domestic deliveries are primarily by road, while export consignments are shipped by air or sea in coordination with freight forwarders and clearing agents. Our logistics team coordinates with customers, transporters and internal functions for dispatch planning and documentation, including invoices, e-way bills and transport challans. For projects that require on-site installation and commissioning, finished goods are dispatched along with the necessary tools and consumables, and shipment movement is tracked until delivery. We maintain documentation and traceability for all inward and outward movements to support smooth operations and timely supplies to customers in India and in selected international markets.

BRAND BUILDING AND MARKETING

Our marketing and brand-building approach is structured around the types of customers we serve rather than a single, uniform model. Large OEMs and major fabrication houses are handled as key accounts with more intensive technical and project engagement. SME and MSME customers are reached mainly through our regional dealer and service network, with simpler decision cycles and standard product packages. Alongside these, we run cross-segment activities that support visibility of the brand, generate enquiries and reinforce our installed-base relationships across all customer groups.

Large and Key-Account Customers

- Direct coverage - in-house sales team
- Solution-led proposals
- Factory / site demonstrations
- Training for O&M teams

SME / MSME and Regional Customers

- Authorised dealers, service partner network
- Catalogues
- Regional fairs, open houses and demos
- Service, spares and AMC's for repeat orders

Cross-Segment Brand and Lead Generation

- National industry exhibitions and events
- Company website, digital brochures
- Regular feedback and relationship management

COLLABORATIONS

We develop our products mainly through in-house engineering, which allows us to control quality, cost and timelines. Our teams design plasma cutting machines, welding equipment, CNC systems and automation solutions internally and benchmark these platforms against global technology standards. Where it is beneficial for performance or maintainability, we integrate selected high-performance components such as controls, drives and torches from established international and domestic vendors. This combination of in-house design with sourced sub-systems is intended to balance innovation, reliability and cost competitiveness.

We do not have any foreign technical collaboration at present. However, we have entered into technology transfer arrangements with Indian government research institutions for specific products. In FY 2025 we signed an incubation-route technology transfer agreement with AIC RRCAT Pi-Hub Foundation at the Raja Ramanna Centre for Advanced Technology (RRCAT), Indore, for a 1 kW monolithic single mode Yb-doped continuous-wave fibre laser for material processing applications, under which we are licensed to develop and manufacture fibre laser power sources based on RRCAT technology.

We have also executed a technology transfer agreement with Bhabha Atomic Research Centre (BARC), Mumbai, for air plasma gasifiers and incinerators, under which we plan to develop and manufacture equipment based on BARC designs. These collaborations are intended to expand our product portfolio into higher-end laser and plasma technologies while leveraging the research capabilities of national laboratories.

Key terms of the RRCAT Technology Transfer Agreement

1. **Technology:** licence to use RRCAT know-how for a 1 kW single mode Yb-doped fibre laser for material processing applications.
2. **Route and tenure:** technology transferred through an incubation programme with AIC RRCAT Pi-Hub Foundation for an initial period of two years, with scope for extension by mutual consent.
3. **Licence nature:** non-exclusive and non-transferable right to manufacture products based on the transferred technology in accordance with a Technology Transfer Document.
4. **Support from AIC RRCAT Pi-Hub:** provision of technical know-how, documentation and training, access to facilities as specified, and mentoring during the development and scale-up phase.
5. **Obligations of the Company:** deployment of qualified personnel, development and testing of products as per agreed specifications, maintenance of records and periodic progress reporting, adherence to safety and confidentiality requirements, and payment of a one-time technology fee and applicable taxes.
6. **Intellectual property and marking:** ownership of the underlying technology remains with RRCAT and AIC RRCAT Pi-Hub; products based on the technology are to carry specified acknowledgements and markings, and any publications or further IP are to follow the arrangements set out in the agreement.

Key terms of the BARC Technology Transfer Agreement

1. **Technology:** licence to use technology to manufacture in India and/or sell abroad the product 'Air Plasma Incinerator'.

2. **Route and tenure:** technology transferred in form of documents, drawings, literature to manufacture 'Air Plasma Incinerator' for an period of seven years. Agreement to be renewed for a period of not more than 5 (five) years at a time as may be mutually agreed with renewal charges as mentioned in the Technology Transfer Agreement.
3. **Licence nature:** non-exclusive and non-transferable right to manufacture products based on the transferred technology in accordance with a Technology Transfer Agreement.
4. **Support from BARC:** On site consultancy by BARC not exceeding 10 man days with maximum 2 man days training in BARC for mutual number of personnel deputed by the licensee.
5. **Obligations of the Company:** manufacturing product in accordance with specifications listed in technology document, adherence to safety and confidentiality requirements, offer for sale within 12 months, no copies to be made, no changes in product without approval from BARC, Logo of BARC on package, disclosure of exact locations of manufacturing, payment of a one-time technology fee with royalty and applicable taxes.
6. **Intellectual property and marking:** ownership of the underlying technology remains with BARC Pi-Hub; products based on the technology are to carry specified acknowledgements and markings, and any publications or further IP are to follow the arrangements set out in the agreement.

COMPETITION

We operate in a competitive landscape that includes both domestic manufacturers and global players. Competition is shaped by continuous technological innovation, operational excellence, regulatory compliance and strategic market presence, with equipment increasingly expected to withstand Indian operating conditions (including power variability, heat, dust and operator variability) while meeting global standards for domestic and export markets. Differentiation is driven by adoption of advanced technologies such as inverter-based power sources, CNC and PLC automation, robotic welding cells and AI-driven quality monitoring, supported by strong vendor networks for critical raw materials. Competitive positioning is also influenced by compliance with certifications such as CE and ISO 9001:2015 and other applicable international standards, robust aftermarket networks, and pricing strategies aided by government incentives and wider distribution reach.

HEALTH AND SAFETY

We apply defined health and safety practices at our manufacturing locations and in the way our machines are designed and used. Within the plant, work on electrical panels, high-temperature processes and moving assemblies is governed by written operating procedures. Employees are briefed on the use of personal protective equipment, safe material handling and fire safety, and refresher sessions are conducted for technical and shop-floor personnel at regular intervals. Routine inspections are carried out to check housekeeping, equipment condition and compliance with applicable statutory and industry requirements, and observations are closed through corrective actions.

Product safety is treated as part of the design process. Our machines are provided with operator guards, emergency stops, fault and status indication and earthing provisions in line with relevant safety norms. These aspects are verified during testing and commissioning, and are covered in the operating and maintenance instructions supplied with the equipment.

HUMAN RESOURCES

As of November 30, 2025, we had an employee base of 34 employees. The following table sets forth a breakdown of our employees by function as on November 30, 2025:

BUSINESS AND/OR KEY INDUSTRY AND/OR TRADE RELATED LAWS AND REGULATIONS

The Factories Act, 1948 (the “Factories Act”)

The Factories Act, 1948, as amended, defines a “factory” to cover any premises which employs 10 or more workers on any day of the preceding 12 months and in which a manufacturing process is carried on with the aid of power or any premises where at least 20 workers are employed, and where a manufacturing process is carried on without the aid of power. Each state government has enacted rules in respect of the prior submission of plans and their approval for the establishment of factories and registration/licensing thereof. The Factories Act provides for imposition of fines and imprisonment of the manager and occupier of the factory in case of any contravention of the provisions of the Factories Act.

Industrial (Development and Regulation) Act, 1951 (The "Industrial Act")

The Industrial (Development and Regulation) Act, 1951 has been liberalized under the New Industrial Policy dated July 24, 1991, and all industrial undertakings are exempt from licensing except for certain industries such as distillation and brewing of alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defence equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking, which is exempt from licensing, is required to file an Industrial Entrepreneurs Memorandum ("IEM") with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

Remission of Duties and Taxes on Exported Products Scheme (the "RoDTEP Scheme")

The Scheme for Remission of Duties and Taxes on Exported Products (RoDTEP Scheme), acts as the successor to the Merchandise Exports from India Scheme. Certain taxes/duties/levies which are outside the scope of Goods and Service Tax and are not refunded for exports, such as, value added tax on fuel used in transportation, mandi tax, duty on electricity used during manufacturing etc. are reimbursed under the RoDTEP Scheme

Duty Drawback Scheme, 2020 (the "Duty Drawback Scheme")

The duty drawback scheme is a facility available to exporters. Under this scheme, an exporter of goods is entitled to a refund of the customs duties, central excise duty and integrated goods and services tax (IGST) paid on the inputs used in the products exported by him. The scheme seeks to neutralize the duty impact on exported goods by providing relief on the customs and central excise duties incurred on the inputs used in the manufacture of the exported products. The Customs and Central Excise Duties Drawback Rules, 2017, as amended, also outline the procedure to be followed by the customs authorities for the purpose of granting duty drawback (for both types of duties paid) during the processing of export documentation.

Central Electricity Authority (CEA) Regulations (the "CEA Regulations")

The Central Electricity Authority (CEA) is a statutory body constituted under Section 70 of the Electricity Act, 2003. It functions under the Ministry of Power, Government of India, and is primarily responsible for advising the Central Government on matters relating to the National Electricity Policy, technical standards, and the development of the electricity sector.

The CEA Regulation, by virtue of powers conferred under the Electricity Act, 2003, the CEA has framed various regulations that govern the technical and operational standards for generation, transmission, and distribution of electricity. These regulations are binding on all licensees, generating companies, and other entities engaged in electricity-related activities.

Public Liability Insurance Act, 1991 ("Public Liability Act") and the Public Liability Insurance Rules, 1991 (the "PLI Rules")

The Public Liability Act, as amended, imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such substances. A list of 'hazardous substances' covered by the legislation has been enumerated by the Government by way of a notification under the EPA. The owner or handler is also required to take out an insurance policy that insures against liability under the legislation. The PLI Rules made under the Public Liability Act mandate that the employer has to contribute towards the Environmental Relief Fund a sum equal to the premium payable to the insurer on the policies taken.

The Environment Protection Act, 1986 and The Environment (Protection) Rules, 1986

The Environmental Protection Act, 1986 is an "umbrella" legislation designed to provide a framework for coordination of the activities of various Central and State authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures such as plants, micro-organisms and property. Further, the Ministry of Environment and Forests

looks into Environment Impact Assessment. The Ministry receives proposals for expansion, modernization and setting up of projects and the impact which such projects would have on the environment which is assessed by the Ministry in detail before granting clearances for such proposed projects.

National Environmental Policy, 2006 (the “National Environmental Policy”)

This National Environmental Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 (“Hazardous Wastes Rules”)

The Hazardous Wastes Rules impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes in a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and destruction of hazardous waste is required to obtain an authorization from the relevant state PCB for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste.

The Air (Prevention and Control of Pollution) Act, 1981 (the “Air Act”)

The Air (Prevention and Control of Pollution) Act, 1981 has been enacted to provide for the prevention, control and abatement of air pollution. Pursuant to the provisions of the Air Act, any person, establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant State Pollution Control Board prior to establishing or operating such industrial plant. No person operating any industrial plant in any air pollution control area is permitted to discharge the emission of any air pollutant in excess of the standards laid down by the State Pollution Control Board.

The Water (Prevention and Control of pollution) Act, 1974 (the “Water Act”)

The Water Act aims to prevent and control water pollution as well as restore water quality by establishing and empowering the Central Pollution Control Board and the State Pollution Control Boards. Under the Water Act, any person establishing any industry, operation or process, any treatment or disposal system, use of any new or altered outlet for the discharge of sewage or new discharge of sewage, must obtain the consent of the relevant State Pollution Control Board, who is empowered to establish standards and conditions that are required to be complied with.

National Green Tribunal (NGT) Act, 2010

National Green Tribunal (NGT) Act, 2010 has jurisdiction over cases related to environmental protection and pollution control, including disputes or violations concerning the establishment and operation of Effluent Treatment and Recycling plants. The NGT can issue orders and directives to ensure compliance with environmental laws and regulations.

The Legal Metrology Act, 2009 (“Legal Metrology Act”)

The Legal Metrology Act, 2009, which came into effect on 1 April 2011, consolidates laws relating to weights and measures in India to ensure uniform standards, fair trade practices, and consumer protection. The Act mandates that all goods sold by weight, measure, or number must conform to prescribed metric standards and prohibits misleading declarations. It requires manufacturers, packers, and importers of packaged commodities to register and comply with the Legal Metrology (Packaged Commodities) Rules, 2011.

The Bureau of Indian Standards Act, 2016 (the “BIS Act”)

The BIS Act was notified on March 22, 2016 and came into effect from October 12, 2017. The BIS Act establishes the Bureau of Indian Standards (BIS) as the National Standards Body of India. It has broadened BIS's ambit and allows the Central Government to make it mandatory for certain notified goods, articles, processes etc. to carry standard marks.

The Bureau of Indian Standards Rules, 2018 (the “Bureau of Indian Standards Rules”)

The Bureau of Indian Standards Rules, 2018, as amended, have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IV A of the said rules relating to registration of the articles notified by the Central Government, and in supersession of the Bureau of Indian Standards Rules, 2017 except in relation to things done or omitted to be done before such supersession. Under the Bureau of Indian Standards Rules, the bureau is required to establish Indian standards in relation to any goods, article, process, system or service and shall reaffirm, amend, revise or withdraw Indian standards so established as may be necessary

The Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act) was enacted to provide a comprehensive legal framework for the promotion, development, and regulation of MSMEs in India, recognizing their critical role in employment generation, industrial output, and exports. The Act defines micro, small, and medium enterprises based on investment in plant and machinery or equipment and turnover, with revised criteria notified in 2020 to reflect current business realities. It establishes Micro and Small Enterprises Facilitation Councils (MSEFCs) to resolve disputes relating to delayed payments, mandating that buyers must pay MSMEs within 45 days, failing which compound interest is payable. Present requirements under the Act include mandatory Udyam Registration through the government's online portal, adherence to updated classification norms, and compliance with payment provisions to safeguard MSMEs from financial stress. Registered enterprises are eligible for various benefits such as priority lending, subsidies, credit guarantee schemes, and access to government initiatives like ATUFS and PLI. In essence, the MSMED Act, 2006 continues to serve as a cornerstone of India's MSME ecosystem, ensuring timely payments, legal protection, and access to developmental schemes, thereby enabling small enterprises to remain competitive and resilient in the evolving economic landscape.

LAWS RELATING TO SPECIFIC STATE WHERE ESTABLISHMENT IS SITUATED

The Maharashtra Factories Rules, 1963 (the “Maharashtra Factories Rule”)

The Maharashtra Factories Rules, framed under the Factories Act, 1948, govern the working conditions, health, safety, and welfare of workers employed in factories within the State of Maharashtra. These Rules are applicable to all premises that qualify as “factories” under Section 2(m) of the Factories Act, 1948. The Rules prescribe detailed provisions relating to factory registration and licensing, maintenance of health and hygiene, safety measures, working hours, employment of women and young persons, and reporting and inspection requirements. Compliance with these Rules is monitored by the Directorate of Industrial Safety and Health (DISH), Maharashtra. Our Company, to the extent applicable, is required to comply with the provisions of the Maharashtra Factories Rules, 1963, for its manufacturing facilities located within the state.

The Maharashtra Shops and Establishments (Regulation of Employment and Conditions of Service) Act, 2017 (the “Maharashtra Shops and Establishments Act”)

The Maharashtra Shops and Establishments Act was enacted to regulate employment conditions in shops, commercial establishments, and service industries within the state. It came into effect on 23 March 2018, replacing the earlier 1948 legislation. The Act applies to establishments employing 10 or more workers, though certain provisions extend to smaller units as well. Its primary objective is to balance worker welfare with ease of doing business, ensuring fair working conditions while simplifying compliance for employers.

Key provisions include mandatory registration of establishments, regulation of working hours, overtime, and weekly holidays, and requirements for leave, wages, and record keeping. The Act prescribes standards for health, safety, and welfare, such as drinking water, first aid, sanitation facilities, and canteens in larger establishments. Employers must issue identity cards to workers, maintain prescribed registers, and comply with rules on overtime wages and spread over of working hours.

The law also empowers inspectors (called “Facilitators”) to oversee compliance and provides penalties for violations. Importantly, the 2017 Act introduced reforms to reduce compliance burdens, including online registration and self certification, thereby promoting transparency and efficiency.

The Maharashtra Fire Prevention and Life Safety Measures Act, 2006(the “Maharashtra Fire Act”)

According to the Maharashtra Fire Prevention and Life Safety Measures Act, 2006, any person intending to construct a building exceeding fifteen meters in height for business or commercial purposes must apply for a Fire No Objection Certificate (Fire NoC) to the Chief Fire Officer. The form has to be duly authorised before submission along with the relevant building plans to the sanctioned authority which is the Local Municipal Corporation under the state law.

Stamp Act in various states (the “Stamp Act”)

The purpose of the Stamp Act was to streamline and simplify transactions of immovable properties and securities by the State Government. The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule IA of the Stamp Act. Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the states. Therefore, the State Government of Maharashtra, is empowered to prescribe or alter the stamp duty as per their need.

Professions, Trade, Callings and Employments Act in various states

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of Maharashtra, is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the income of individuals, profits of business or gains of vocations. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such persons before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such persons and employer has to obtain the registration from the assessing authority in the prescribed manner.

Municipal Corporation Acts Municipal Councils Act of the jurisdictions in the states in which the company has its operations.

Trade Licenses are given by the Local Municipal Corporations / Councils in whose jurisdiction a business activity is sought to be commenced. Trade Licenses help in monitoring and regulation of businesses to prevent violations of laws and maintain public order: to check that the company is not working or running beyond the permitted scope of work, to determine that the business is not running or working in violation of any law, to control the activities of the business so that it cannot cause any nuisance to the general public and to ensure compliance with the law and order.

TAX RELATED LEGISLATIONS

Income Tax Act, 1961(the ‘IT Act’)

The IT Act is applicable to every Company, whether domestic or foreign whose income is taxable under the provisions of the IT Act or Rules made thereunder depending upon its Residential Status and Type of Income involved. The IT Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every Company which is assessed to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its returns by October 31st of each assessment year.

Income Tax Act, 2025(the “IT 2025 Act”)

Income Tax Act 2025 gets President's assent; will be effective from 1st April 2026. The Income Tax Act, 2025, has been published in the Official Gazette after it received the President's assent. It will come into effect from 1st April 2026. The Act applies to all companies, whether domestic or foreign, whose income is taxable under its provisions, depending on their residential status and the nature of income. It provides for the taxation of residents on their global income, and of non-residents on income that is received, accrued, or arises in India, or is deemed to do so.

The Goods and Services Tax Act, 2017 (the “GST Act”)

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

Customs Act, 1962

The Customs Act, 1962 regulates the imposition and collection of duties on goods imported into or exported from India, and provides a legal framework for customs clearance, assessments, and enforcement. Pursuant to amendments introduced via the Finance Bill, 2025, the Act now prescribes a two-year time limit (extendable by one year) for finalizing provisional assessments under Section 18(1B). A new Section 18A facilitates voluntary revision of customs entries post-clearance, subject to conditions, with excess duty paid being deemed as a refund claim under Section 27. The refund limitation period has been clarified to one year from the date of duty payment. Additionally, the Settlement Commission has been phased out and replaced with an Interim Board to adjudicate pending matters under Chapter XIV. These amendments aim to improve regulatory efficiency, streamline dispute resolution, and align customs administration with global best practices.

EMPLOYMENT AND LABOUR LAWS

Contract Labour (Regulation and Abolition) Act, 1970

The Contract Labour (Regulation and Abolition) Act, 1970 requires establishments that employ or have employed on any day in the preceding twelve months, 20 or more workers as contract labour to be registered. The Act requires the principal employer of an establishment to which the Contract Labour Act applies to make an application for registration of the establishment to employ contract labour in the establishment. A Contractor to whom the Contract Labour Act applies is required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. The Contract Labour Act imposes certain obligations on the contractor including the establishment of canteens, rest rooms, washing facilities, first aid facilities and provision of drinking water and payment of wages. In the event that the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time.

Maternity Benefit Act, 1961

The Act provides for leave and right to payment of maternity benefits to women employees in case of confinement or miscarriage etc. The Act is applicable to every establishment which is a factory, mine or plantation including any such establishment belonging to government and to every establishment of equestrian, acrobatic and other performances, to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a state, in which 10 or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the state government may, with the approval of the Central Government, after giving at least two months' notice shall apply any of the provisions of this Act to establishments or class of establishments, industrial, commercial, agricultural or otherwise.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (the “Act”)

In order to curb the rise in sexual harassment of women at workplace, this Act was enacted for prevention and redressal of complaints and for matters connected therewith or incidental thereto. The terms ‘sexual harassment’ and ‘workplace’ are both defined in the Act. Every employer should constitute an “Internal Complaints Committee” and every officer and member of the Committee shall hold office for a period of not exceeding three years from the date of nomination. Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organising awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Child Labour (Prohibition and Regulation) Act, 1986 (the “CLPR Act”)

The CLPR Act seeks to prohibit the engagement of children in certain occupations and to regulate the conditions of work of children in certain other occupations. Part B of the Schedule to the CLPR Act strictly prohibits employment of children in cloth printing, dyeing and weaving processes and cotton ginning and processing and production of hosiery goods.

EMPLOYMENT AND LABOUR LAWS CODIFICATION

The Code on Wages, 2019 (the “Wages Code”)

The Code received the assent of the President of India on August 8, 2019. The provisions of the Code shall come into effect from the date notified in the Official Gazette by the Central Government. This code will replace the four existing ancient laws namely (i) the Payment of Wages Act, 1936, (ii) the Minimum Wages Act, 1948, (iii) the Payment of Bonus Act, 1965, and (iv) the Equal Remuneration Act, 1976. This code will apply to all employees and allows the Central Government to set a minimum statutory wage.

The Wages Code extends to the whole of India and regulates minimum wages, floor wages, payment of wages, permissible deductions, bonus and equal remuneration. It introduces a harmonised definition of “wages”, prohibits discrimination on grounds of gender in matters of wages and recruitment for the same work or work of a similar nature, and confers a statutory right to minimum wages for all employees, supported by a national floor wage below which State minimum wages cannot fall. The Wages Code also provides for advisory boards, an Inspector-cum-Facilitator based compliance regime, maintenance of prescribed registers and issuance of wage slips, and offences and penalties for non-compliance.

The Occupational Safety, Health and Working Conditions Code, 2020 (the “OSHWC Code”)

The OSHWC Code is a central legislation enacted to consolidate and amend the laws regulating the occupational safety, health and working conditions of persons employed in an establishment; it received the assent of the President of India on September 28, 2020 and, pursuant to a notification issued by the Ministry of Labour and Employment, has been brought into force with effect from November 21, 2025 as part of the implementation of the four Labour Codes rationalising 29 existing central labour laws. The OSHWC Code replaces and subsumes 13 central enactments relating to safety, health and working conditions, including, among others, the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979, the Mines Act, 1952, the Plantations Labour Act, 1951, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996, the Motor Transport Workers Act, 1961, the Beedi and Cigar Workers (Conditions of Employment) Act, 1966 and laws governing dock workers, working journalists, cine-workers and sales promotion employees, subject to repeal-and-savings provisions that preserve existing rules and notifications to the extent they are not inconsistent with the Code.

The OSHWC Code applies, inter alia, to establishments employing 10 or more workers and to all mines and docks, as well as to specified categories such as factories, building and other construction works, plantations, motor transport undertakings, audio-visual production units and newspaper establishments, and requires eligible establishments to obtain registration (with deemed migration of existing registrations), comply with notified occupational safety and health standards, provide a safe working environment and prescribed welfare facilities, conduct periodic medical examinations including free annual health check-ups for specified employees, issue letters of appointment to all employees, and report certain accidents, dangerous occurrences and notified occupational diseases. It also contains specific provisions on working hours, leave and overtime, engagement and

conditions of contract labour and inter-State migrant workers, and employment of women (including in night shifts and in all types of work subject to consent and prescribed safeguards), and establishes an Inspector-cum-Facilitator and advisory board framework for enforcement and standard-setting.

The OSHWC Code also provides for registration of applicable establishments, maintenance of safe and healthy working environment and welfare facilities, engagement and treatment of contract labour and inter-State migrant workers, employment of women, and maintenance of prescribed registers, records and returns and timely reporting of accidents, dangerous occurrences and occupational diseases.

Industrial Relations Code, 2020 (the “IR Code”)

The IR Code is a central legislation enacted to consolidate and amend the laws relating to trade unions, conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes; it received the assent of the President of India on September 28, 2020 and, pursuant to notifications issued by the Ministry of Labour and Employment, has been brought into force with effect from November 21, 2025 as part of the implementation of the four Labour Codes rationalising 29 existing central labour laws.

The IR Code consolidates and replaces three key enactments, namely (i) the Industrial Disputes Act, 1947, (ii) the Trade Unions Act, 1926, and (iii) the Industrial Employment (Standing Orders) Act, 1946. It extends to the whole of India and, among other matters, provides a unified framework for (i) registration, governance and recognition of trade unions, including recognition of a negotiating union or negotiating council in industrial establishments having multiple unions; (ii) constitution of bi-partite forums such as Works Committees and Grievance Redressal Committees in establishments above prescribed thresholds; (iii) certification, modification and deemed adoption of standing orders in industrial establishments employing 300 or more workers, aligned with central model standing orders; and (iv) mechanisms for conciliation, voluntary arbitration and adjudication of industrial disputes by Industrial Tribunals and the National Industrial Tribunal.

The IR Code also introduces provisions on fixed term employment with parity of wages and benefits vis-à-vis permanent workers and gratuity eligibility after one year, prescribes conditions and procedures for strikes and lock-outs, and revises the regime governing lay-off, retrenchment and closure in certain industrial establishments, including a higher statutory threshold (currently 300 workers, with power for States to increase this limit) for prior government approval for lay-off, retrenchment and closure, while defining “worker” and “employee” broadly to cover a wider segment of the workforce and prohibiting unfair labour practices.

Code on Social Security, 2020 (the “Social Security Code”)

The Social Security Code is a central legislation enacted to modernise and consolidate the laws relating to social security with the objective of extending social security coverage to employees and workers in the organised, unorganised, gig and platform sectors across India; it received the assent of the President of India on September 28, 2020 and, pursuant to a notification issued by the Ministry of Labour and Employment under Section 1(3), has been brought into force with effect from November 21, 2025 as part of the implementation of the four Labour Codes rationalising 29 existing central labour laws.

The Social Security Code consolidates and replaces nine central enactments, including the Employees’ Compensation Act, 1923, the Employees’ State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Cine Workers Welfare Fund Act, 1981, the Building and Other Construction Workers Welfare Cess Act, 1996 and the Unorganised Workers’ Social Security Act, 2008. Among other matters, it provides the framework for social security schemes relating to provident fund, pension and deposit-linked insurance, employees’ state insurance, maternity benefits, gratuity, employee compensation and welfare of building and other construction workers, as well as social security schemes for unorganised workers, gig workers and platform workers, and establishes or continues social security organisations such as the Central Board of Trustees of the Employees’ Provident Fund, the Employees’ State Insurance Corporation, the National and State Social Security Boards for unorganised workers and State Building and Other Construction Workers’ Welfare Boards.

The Social Security Code also contemplates electronic registration of establishments, technology-enabled record-keeping and benefit delivery, and empowers the Central and State Governments to extend the application of EPF, ESIC and other schemes to additional classes of establishments and workers.

The Social Security Code and the rules and schemes framed thereunder, provides for to registration of eligible establishments, enrolment of employees under the Employees' Provident Fund and Employees' State Insurance schemes, payment of employer and employee contributions, provision of statutory gratuity, maternity and employee compensation benefits, facilitation of social security for eligible contract, unorganised, gig or platform workers engaged in its operations, and maintenance of prescribed records and returns, and any non-compliance may result in interest, penalties and other enforcement action.

INTELLECTUAL PROPERTY LEGISLATIONS

Trade Marks Act, 1999 ("TM Act")

The Trademarks Act, 1999 provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

Copyright Act, 1957 ("Copyright Act")

The Copyright Act, 1957, along with the Copyright Rules, 1958, (collectively, "Copyright Laws") governs copyrights subsisting in original literary, dramatic, musical or artistic works, cinematograph films and sound recordings, including computer programmes, tables and compilations including computer databases. Computer programme constitutes a literary work under Indian law and is afforded copyright protection and the owner of such computer programme becomes entitled to protect his works against unauthorized use and misappropriation of the copyrighted work or a substantial part thereof. Any act of this nature entitles the copyright owner to obtain relief from a court of law including injunction, damages and accounts of profits. Further, copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work and once registered, copyright protection remains valid until expiry of sixty years from the demise of the author. Reproduction of a copyrighted computer programme for sale or hire or trade exhibit in public or distribution or commercial rental, offer for sale or commercial rental, issuing copy(ies) of the computer programme or making an adaptation of the work without consent of the copyright owner amounts to infringement of the copyright. However, the Copyright Act prescribes certain fair use exceptions which permit certain acts, which would otherwise be considered copyright infringement.

The Patents Act, 1970 (the "Patents Act")

The Patents Act, 1970 ("Patents Act") governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognize product patents as well as process

patents. In addition to the broad requirement that an invention satisfy the requirements of novelty, utility and nonobviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. Section 39 of the Patents Act also prohibits any person resident in India from applying for a patent for an invention outside India without making an application for a patent for the same invention in India. The term of a patent granted under the Patents Act pursuant to Section 53 is for a period of twenty years from the date of filing of the application for the patent. A patent shall cease to have effect if the renewal fee is not paid within the period prescribed for the payment of such renewal fee. While the Patents Act prohibits patentability of a 'computer programme' as such, computer programmes in combination with novel hardware could be considered patentable depending on the substance of the invention and applicable provisions of the Patents Act. Computer programmes on their own are excluded from patent protection and are protected as a literary work under the Copyright Laws. In terms of the Patent Act, the patentee holds the exclusive right to prevent third parties from the using, offering for sale, selling or importing for such purposes, the patented product or product obtained directly by a process patented in India.

The Designs Act, 2000 (the "Design Act")

The Designs Act, 2000, regulates the protection of industrial designs in India, aiming to safeguard the unique visual appearance of products. It provides legal rights to creators of new and original designs, allowing them to prevent others from using, copying, or reproducing their designs without permission. The Act outlines the process for design registration, which includes examination

and approval, and stipulates the duration of protection, typically ten years, renewable for an additional five years. It also details remedies for infringement and promotes innovation by ensuring designers can secure exclusive rights to their creative works and designs.

FOREIGN TRADE REGULATIONS

Foreign Trade (Development and Regulation) Act, 1992 (The ‘FTDRA’)

The FTDRA is the main legislation concerning foreign trade in India. The FTDRA, read along with the Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. It authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given wide powers to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The FTDRA read with the Foreign Trade Policy, 2023, prohibits anybody from undertaking any import or export except under an importer-exporter code (“IEC”) number granted by the Director General of Foreign Trade. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. The IEC shall be valid until it is cancelled by the issuing authority. An IEC number allotted to an applicant is valid for all its branches, divisions, units and factories. Failure to obtain the IEC number shall attract a penalty under the FTDRA.

Foreign Exchange Management Act, 1999 & Rules thereunder

Foreign investment in India is governed primarily by the provisions of the FEMA, and the rules, regulations and notifications thereunder, as issued by the RBI from time to time and the FEMA Rules and the Consolidated FDI Policy. In terms of the Consolidated FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which the foreign investment is sought to be made. In terms of the Consolidated FDI Policy, the work of granting government approval for foreign investment under the Consolidated FDI Policy and FEMA has now been entrusted to the concerned administrative ministries/departments.

The Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017 as amended in 2019, provide that the total holding by any individual NRI, on a repatriation basis, shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed five percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

Foreign Direct Investment

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2020 (“FDI Policy 2020”), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular. The Reserve Bank of India (“RBI”) also issues Master Directions Foreign Investment in India and updates the same from time to time. Presently, FDI in India is being governed by Master Directions on Foreign Investment No. RBI/FED/2017-18/60 FED Master Direction No. 11/2017-18 dated January 4, 2018, as updated from time to time by RBI. In terms of the Master Directions, an Indian company may issue fresh shares to people resident outside India (who are eligible to make investments in India, for which eligibility criteria are prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Directions. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including the filing of Form FC-GPR.

Foreign Trade Policy 2023:

India's Foreign Trade Policy (FTP) 2023–2028, announced on 1 April 2023, is the present framework guiding the country's exports and imports. Unlike earlier fixed-term policies, it adopts a dynamic and flexible approach, allowing continuous updates to respond to global trade developments. The policy aims to boost India's exports to USD 2 trillion by 2030, strengthen supply chains, and promote employment. Administered by the Directorate General of Foreign Trade (DGFT), it emphasizes ease of doing business through paperless approvals, online applications, and automated systems, thereby reducing transaction costs and improving efficiency. The FTP shifts focus from direct incentives to remission-based schemes such as RoDTEP and RoSCTL, ensuring WTO compliance while supporting exporters. It also highlights emerging sectors like e-commerce exports, technical textiles, green products, and sunrise industries, while promoting the concept of districts as export hubs to encourage local products and MSMEs to access global markets. Special initiatives under the policy include reforms in Special Economic Zones (SEZs), support for PM MITRA textile parks, and targeted measures for high-potential industries. In essence, the current FTP represents a shift from incentive-driven to facilitation-driven trade policy, aligning India's export ecosystem with global standards while promoting sustainability, inclusivity, and resilience.

Ownership restrictions of FIIs

Under the Foreign Exchange Management Act (FEMA), 1999, Foreign Institutional Investors (FIIs)—now subsumed under the category of Foreign Portfolio Investors (FPIs)—are permitted to invest in Indian securities subject to certain ownership restrictions designed to regulate foreign capital inflows and protect domestic interests. FEMA, along with regulations issued by the Reserve Bank of India (RBI) and the Securities and Exchange Board of India (SEBI), stipulates that a single FPI cannot hold more than 10% of the paid-up capital of an Indian company, while the aggregate limit for all FPIs together is generally capped at 24% of the paid-up capital, though companies may raise this limit up to the sectoral cap prescribed under the Foreign Direct Investment (FDI) policy with shareholder approval. These restrictions apply to equity shares, convertible debentures, and warrants, ensuring that foreign portfolio investment remains diversified and does not lead to controlling stakes. FEMA also requires FIIs/FPIs to register with SEBI, comply with sector-specific caps, and adhere to reporting and disclosure norms. In sensitive sectors such as defense, insurance, and media, stricter limits are imposed to safeguard national interests. Thus, FEMA provides a structured framework that balances the need for foreign capital with the protection of domestic ownership and regulatory oversight in India's financial markets.

CORPORATE AND COMMERCIAL LAWS

The Companies Act, 2013

The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law lays down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

Competition Act, 2002

The Competition Act, 2002 came into effect on June 1, 2011 and has been enacted to “prohibit anti- competitive agreements, abuse of dominant positions by enterprises” and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The Act prohibits Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India.

The Arbitration and Conciliation Act, 1996

This act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation.

Sale of Goods Act, 1930 (the “Sale of Goods Act”)

The Sale of Goods Act governs contracts relating to sale of goods in India. The contracts for sale of goods are subject to the general principles of the law relating to contracts. A contract of sale may be an absolute one or based on certain conditions. The Sale of Goods Act contains provisions in relation to the essential aspects of such contracts, including the transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract and the conditions and warranties implied under a contract for sale of goods.

Municipality Laws

State governments are empowered to endow municipalities with such powers and authority as may be necessary to enable them to perform functions in relation to permitting the carrying on of trade and operations. Accordingly, State governments have enacted laws authorizing municipalities to regulate use of premises, including regulations for issuance of a trade license to operate, along with prescribing penalties for non-compliance.

Subsequently, name of the company was changed to Technocrats Plasma Systems Pvt Ltd pursuant to change of name dated 16/09/2021 under Companies Act 2013 by Registrar of Companies, Maharashtra with Corporate Identification Number U74999MH1994PTC082603.

The Company is engaged in the business of:

- 1) To manufacture, develop, buy, sell, deal, import & export equipment's & systems based on Plasma Technology such as Plasma metal cutting, Plasma ceramic spraying, coating, Plasma welding & Plasma furnaces, All Types of Welding Machines & Welding Automation Including Robotic Machines etc & other high-tech products for all types of industries.
- 2) To carry on the business of buying, selling, reselling, importing, exporting, transporting, storing, developing, promoting, marketing or supplying, trading, dealing in any manner whatsoever in all type of goods on retail as well as on wholesale basis in India or elsewhere.

2. SIGNIFICANT ACCOUNTING POLICIES

2.01 BASIS OF ACCOUNTING AND PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Accounting policies not specifically referred to otherwise are consistent and in consonance with generally accepted accounting principles in India.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has determined its operating cycle as twelve months for the purpose of current – non-current classification of assets and liabilities.

2.02 USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialize.

2.03 PROPERTY, PLANT & EQUIPMENT AND INTANGIBLE ASSETS

(i) Property, Plant & Equipment

All Property, Plant & Equipment are recorded at cost including taxes, duties, freight and other incidental expenses incurred in relation to their acquisition and bringing the asset to its intended use.

(ii) Intangible Assets

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any.

2.04 DEPRECIATION / AMORTISATION

Depreciation on fixed assets is calculated on a Straight Line value method using the rates arrived at based on the useful lives estimated by the management, or those prescribed under the Schedule II to the Companies Act, 2013. Individual assets cost of which doesn't exceed Rs. 5,000/- each are depreciated in full in the year of purchase.

Intangible assets including internally developed intangible assets are amortized over the year for which the company expects the benefits to accrue. Intangible assets are amortized on straight line method basis over 10 years in pursuance of provisions of AS-26.

2.05 INVENTORIES

Inventories comprises of Raw materials and Work-in-Progress.

2.06 IMPAIRMENT OF ASSETS

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting periods is reversed if there has been a change in the estimate of the recoverable value.

2.07 INVESTMENTS:

Non-current investments are carried at cost less any other-than-temporary diminution in value, determined on the specific identification basis.

Profit or loss on sale of investments is determined as the difference between the sale price and carrying value of investment, determined individually for each investment. Cost of investments sold is arrived using average method.

2.08 FOREIGN CURRENCY TRANSLATIONS

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognized in Profit & Loss Account in the year in which it arises.

2.09 BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognized in Statement of Profit and Loss in the period in which they are incurred.

2.10 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

- i) Provisions are recognized in terms of Accounting Standard 29- "Provisions, Contingent Liabilities and Contingent Assets issued by The Institute of Chartered Accountants of India (ICAI), when there is a present legal or statutory obligation as a result of past events where it is probable that there will be outflow of resources to settle the obligation and when a reliable estimate of the amount of the obligation can be made.
- ii) Contingent Liabilities are recognized only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or where reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.
- iii) Contingent Liabilities are disclosed by way of notes.
- iv) Contingent assets are neither recognized nor disclosed in the financial statements.

2.11 REVENUE RECOGNITION

The Company follows Percentage of completion method of accounting. As per this method, revenue is recognized in Statement of Profit & Loss in proportion to the actual cost incurred as against the total estimated cost of projects under execution with the Company on transfer of significant risk & rewards to the buyer.

Determination of revenues under the percentage of completion method necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the percentages of completion, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognized in the financial statements for the period in which such changes are determined.

2.12 OTHER INCOME

Interest Income on fixed deposit is recognized on time proportion basis. Other Income is accounted for when right to receive such income is established.

2.13 TAXES ON INCOME

Income taxes are accounted for in accordance with Accounting Standard (AS-22) – "Accounting for taxes on income", notified under Companies (Accounting Standard) Rules, 2021. Income tax comprises of both current and deferred tax.

Current tax is measured on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a deferred tax asset or deferred tax liability. They are measured using substantially enacted tax rates and tax regulations as of the Balance Sheet date.

Deferred tax assets arising mainly on account of brought forward losses and unabsorbed depreciation under tax laws, are recognized, only if there is virtual certainty of its realization, supported by convincing evidence. Deferred tax assets on account of other timing differences are recognized only to the extent there is a reasonable certainty of its realization.

Minimum Alternative Tax (MAT) credit is recognized as an assets in accordance with the recommendation contained in the Guidance note issued by the Institute of Chartered Accountants of India. The said assets is created by way of credit to the Statement of Profit and Loss and shown as MAT credit entitlement . The Company review the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

2.14 CASH AND BANK BALANCES

Cash and cash equivalents comprises Cash-in-hand, Current Accounts, Fixed Deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Other Bank Balances are short-term balance (with original maturity is more than three months but less than twelve months).

2.15 EARNINGS PER SHARE

Basic earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity share outstanding during the year. Diluted earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

2.16 EMPLOYEE BENEFITS

Defined Contribution Plan:

Contributions payable to the recognized provident fund, which is a defined contribution scheme, are charged to the statement of profit and loss.

Defined Benefit Plan:

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service without any monetary limit. Vesting occurs upon completion of five years of service. Provision for gratuity has been made in the books as per actuarial valuation done as at the end of the year.

2.17 SEGMENT REPORTING

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under “unallocated revenue / expenses / assets / liabilities”.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations for the period ended June 30, 2025 and for the financial years ended on 2025, 2024 and 2023 is based on, and should be read in conjunction with, our Restated Financial Statements, including the schedules, notes and significant accounting policies thereto, included in the chapter titled “Restated Financial Statements” beginning on page 291 of this Draft Red Herring Prospectus. Our Restated Financial Statements have been derived from our audited financial statements and restated in accordance with the SEBI ICDR Regulations and the ICAI Guidance Note.

You should read the following discussion of our financial condition and results of operations together with our restated financial statements included in this Draft Red Herring Prospectus. You should also read the section titled “Risk Factors” beginning on page 36 of this Draft Red Herring Prospectus, which discusses a number of factors, risks and contingencies that could affect our financial condition and results of operations. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal year are to the twelve-month period ended March 31 of that year.

In this section, unless the context otherwise requires, any reference to “we”, “us” or “our” refers to Technocrats Plasma Systems Limited, our Company. Unless otherwise indicated, financial information included herein are based on our “Restated Financial Statements” for the period ended June 30, 2025 and for the financial years ended on 2025, 2024 and 2023 included in this Draft Red Herring Prospectus beginning on page 291 of this Draft Red Herring Prospectus.

Note: Statement in the Management Discussion and Analysis Report describing our objectives, outlook, estimates, expectations or prediction may be “Forward Looking Statements” within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to our operations include, among others, economic conditions affecting demand/supply and price conditions in domestic and overseas market in which we operate, changes in Government Regulations, Tax Laws and other Statutes and incidental factors.

BUSINESS OVERVIEW

Our Company, Technocrats Plasma Systems Limited, is an engineering-led manufacturer of plasma cutting machines, welding equipment and customised automation systems for metal fabrication and related industries in India. Our products are used by customers across multiple sectors, including automotive, construction, shipbuilding, heavy engineering and general manufacturing.

Our product portfolio includes manual and CNC-controlled plate and pipe cutting systems for various material thicknesses and profiles, welding equipment for MIG, TIG, ARC, SAW and laser processes, and automation solutions for cutting and welding lines. Our activities encompass understanding customer requirements, preparing system configurations, detailed engineering, fabrication and assembly of equipment, testing, and supply of machines and systems. In addition to supplying equipment, we provide technical consultancy on process selection and layout, site engineering support and digital and cloud-based fabrication support services. We also support customers through installation and commissioning assistance, operator familiarisation, after-sales service and supply of spares and consumables over the life of the equipment.

Since our incorporation, we have been engaged in introducing plasma cutting machines and inverter-based technology machines manufactured in India and in implementing CNC plasma cutting and welding automation systems for metal fabrication applications. We have developed CNC metal plate profile cutting systems and CNC metal pipe profile cutting machines for applications involving complex shapes and joint preparations, as well as a 1000-ampere plasma power source for cutting higher-thickness metal plates. Building on these platforms, our current product development is focused on laser cutting and welding solutions and on enhancing the automation readiness of our systems, enabling customers to adopt higher levels of process control and integration in line with their fabrication requirements.

We categorise our offerings into the following product and service verticals:

1. **Machines (without automation)** - Standalone plasma cutting and welding machines operated directly by the user. These includes manual plasma cutters (inverter, thyristor/diode, Hybrid technology) and MMA, MIG/MAG, TIG and SAW welding power sources for workshop and field use.
2. **Machines (with automation)** - CNC and automated cutting and welding systems including CNC plate and pipe profile cutters (plasma/oxyfuel), laser cutting and welding systems, and welding automation or combined cutting and welding cells.
3. **Customisation and Retrofit** - Tailored configurations and upgrades for new and existing machines, including custom tables and fixtures, control and drive retrofits, power source upgrades and process add-ons.
4. **Services** - Lifecycle support for supplied equipment, including installation and commissioning, preventive maintenance and annual maintenance contracts (AMCs), training, and spares and retrofit support.

Notes:

1. Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Statements.
2. Cost of goods sold is calculated as Cost of Material Consumed + Changes in inventories of Finished Goods + Other Direct Expense. Cost of goods sold as % of revenue from operations means Cost of goods sold divided by Revenue from Operations.
3. EBITDA is calculated as Profit before tax + Depreciation + Finance Cost - Other Income.
4. EBITDA Margin is calculated as EBITDA divided by Revenue from Operations.
5. EBIT is calculated as Profit before tax + Finance Cost - Other Income.
6. PAT Margin is calculated as PAT for the period/year divided by Total Income.
7. Return on Capital Employed is ratio of EBIT and Capital Employed.
8. Net worth/ Shareholder's equity means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account.
9. Capital Employed is calculated as Net worth + Long Term Borrowings + Short Term Borrowings.
10. Return on Equity is ratio of Profit after Tax and Average Shareholder's equity
11. Debt to Equity Ratio is ratio of Total Debt and Total Shareholder's equity

SIGNIFICANT DEVELOPMENTS AFTER JUNE 30, 2025

In the opinion of the Board of Directors of our Company, since the date of the stub period in this Draft Red Herring Prospectus, there have not arisen any circumstance that materially or adversely affect or are likely to affect the profitability of our Company or the value of its assets or its ability to pay its material liabilities within the next twelve months. However, following material events have occurred after the last audited period:

Following material events have occurred after the last audited period:

1. Pursuant to a resolution passed by our Board July 25, 2025 and our Shareholders on August 09, 2025, our Company has increased the authorised share capital from existing Rs. 2,00,00,000/- (Rupees Two Crores only) divided into 20,00,000(Twenty Lakh) Equity Shares of Rs. 10/- each (Rupee Ten only) to Rs. 20,00,00,000/- (Rupees Twenty Crores only) divided into 2,00,00,000 (Two Crores) Equity Shares of Rs. 10/- each (Rupee Ten only).

2. Pursuant to a resolution passed by our Board July 25, 2025 and our Shareholders on August 09, 2025, our Company has Bonus shares of Rs. 11,04,00,000/- (Rupees Eleven Crore Four Lakhs only) divided into 1,10,40,000 (One Crore Ten Lakhs Forty Thousand) Equity Shares of Rs. 10/- each (Rupee Ten only).

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our business is subject to various risks and uncertainties, including those discussed in the section titled “*Risk Factors*” on page 36 beginning of this Draft Red Herring Prospectus.

1. Disruptions to the supply, or increases in price of raw materials and finished products

Our manufacturing operations are dependent on the timely availability of various raw materials, components and consumables, including steel and metal parts, electrical and electronic components, CNC controllers, motion control systems, power sources, and plasma cutting and welding consumables. A significant portion of these inputs is either commodity-linked or sourced from limited or specialised suppliers. The prices and availability of such inputs are subject to volatility due to factors beyond our control, including global and domestic supply-demand conditions, commodity price fluctuations, changes in import duties and trade policies, transportation and logistics costs, geopolitical developments, regulatory actions, foreign exchange fluctuations and supply chain disruptions.

Any sustained increase in raw material prices or disruption in the supply of such inputs may increase our manufacturing and procurement costs. While we may seek to pass on such increases to customers through pricing revisions, there can be no assurance that we will be able to do so fully or in a timely manner, particularly in a competitive market environment, under fixed-price arrangements, or where customers delay or resist price revisions. Any inability to effectively manage, mitigate or recover such increased input costs could adversely affect our margins, profitability and cash flows.

Our Company’s cost of raw material consumed constituted 93.27% of revenues from operations for the period ended June 30, 2025 and 89.97%, 38.19% and 30.65% for Fiscal 2025, Fiscal 2024 and Fiscal 2023, respectively. Given the significant proportion of raw material costs in our cost structure, particularly in recent periods, any adverse movement in raw material prices or supply disruptions, if not adequately mitigated, could have a material adverse effect on our business, results of operations, financial condition and cash flows.

2. Concentration of business operations in the State of Maharashtra

Currently, our manufacturing operations are located in the State of Maharashtra. This geographic concentration exposes us to region-specific risks including changes in local laws and regulations, state-level policy decisions, economic or demographic shifts, labour availability and costs, infrastructure constraints, natural calamities and regional competitive pressures. Any adverse developments in Maharashtra may materially impact our business prospects, financial condition and results of operations.

3. Our business is dependent on our manufacturing facility and the loss of or shutdown of operations of any of these facilities could adversely affect our business

Our manufacturing facility in Maharashtra is subject to various operating risks, such as shutdowns due to the breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, adequate utilisation rates, obsolescence of equipment, labour disputes, strikes, lockouts, industrial accidents, disruption by extremist groups, or any other reason, and the need to comply with the directives and regulations of the Government of India (“GoI”) and relevant state government authorities. Our operations involve a significant degree of integration, and our results of operations are dependent on the successful operation of each facility. Although we take precautions to minimize the risk of any significant operational

problems at our facilities, our business, financial condition, results of operations and prospects may be adversely affected by any disruption of operations at our facility.

4. *Competition*

The markets for plasma cutting machines, welding equipment and industrial automation systems are highly competitive and fragmented, with the presence of domestic manufacturers, international brands and unorganised players. Competition is based on factors such as pricing, technology, product performance, reliability, delivery timelines, after-sales service and brand reputation.

Increased competition may result in pricing pressures, reduced profit margins, loss of customers or market share, or the inability to secure new orders. Any failure to compete effectively may materially and adversely affect our business, results of operations and financial condition.

5. *Dependence on the knowledge and expertise of our Promoters, Directors, KMPs and SMPs*

We depend on the management skills and guidance of our Promoter for development of business strategies, monitoring their successful implementation and meeting future challenges. Further, we also significantly depend on the expertise, experience and continued efforts of our Key Managerial Personnel and Senior Management. Our future performance will depend largely on our ability to retain the continued service of our management team. Our operations require skilled engineers, technicians and software professionals for product design, manufacturing, automation integration, installation and after-sales service. The availability and retention of such skilled manpower is critical to our ability to execute orders efficiently and maintain product quality.

Any shortage of skilled personnel, increase in attrition rates or inability to attract and retain qualified employees on competitive terms may adversely affect our operational efficiency, product quality, customer satisfaction and growth prospects.

If one or more of our Key Managerial Personnel or Senior Management are unable or unwilling to continue in his or her present position, it could be difficult for us to find a suitable or timely replacement and our business, financial condition and results of operations could be adversely affected.

6. *Lapses in precision, accuracy or quality control in our products may lead to customer dissatisfaction, product rejections, reputational damage, or financial losses*

Our customers require our products, including plasma cutting machines, welding equipment and automation systems to meet precise technical specifications, performance parameters, quality standards, and applicable regulatory and safety requirements. Any lapse in design accuracy, manufacturing precision, quality control processes, testing procedures or adherence to applicable standards may result in defects, product failures, rejections, warranty claims, or the need for rework or replacements.

Such lapses may lead to customer dissatisfaction, loss of existing or prospective orders, contractual disputes, increased costs, reputational damage and financial losses. In addition, defects in our products may expose us to product liability claims, penalties or regulatory action, which could further adversely affect our business, results of operations, financial condition and cash flows. For further details, see the sections entitled “*Risk Factors*” and “*Business Overview*” on pages 36 and 208 in this Draft Red Herring Prospectus.

7. *Technological advancements and risk of product obsolescence*

The plasma cutting and welding equipment industry is characterised by rapid technological advancements, including developments in automation, digital controls, energy efficiency, software integration and precision engineering. Our ability to remain competitive depends on continuous investment in research and development and timely adoption of new technologies.

Failure to anticipate or respond effectively to technological changes or evolving customer requirements may result in our products becoming less competitive or obsolete, adversely affecting demand for our products, market share and profitability.

8. *Working capital intensity and customer credit risk*

Our business is working-capital intensive, requiring significant investment in inventory, work-in-progress and receivables, particularly for customised and long-cycle projects. Delays in customer payments, deterioration in customer creditworthiness or increases in receivable and inventory holding periods may strain our liquidity position.

Any inadequacy in working capital availability may adversely affect our ability to procure materials, execute orders in a timely manner and pursue growth opportunities, thereby impacting our financial condition and results of operations.

SIGNIFICANT ACCOUNTING POLICIES

For Significant accounting policies please refer Significant Accounting Policies, under “Restated Financial Statements” on page 291 of this Draft Red Herring Prospectus.

MAIN COMPONENTS OF OUR INCOME AND EXPENDITURE

Revenue

Revenue from Operations

Revenue from operations is derived from our product and service verticals comprising (i) Machines (without automation), (ii) Machines (with automation), (iii) Customisation and Retrofit services and (iv) other services.

Other Income

Other income primarily comprises interest income, dividend income, discounts and rebates, statutory receipts pertaining to earlier years, exchange fluctuation gain (net) and sundry balances written back (net).

Expenses

Expenses primarily comprises cost of materials consumed, changes in inventories of work in progress, employee benefits expenses, finance costs, depreciation and amortization expenses and other expenses.

Cost of material consumed

Cost of material consumed includes the value of inventory of raw materials and accessories at the beginning of the period, together with the purchases made during the period net of the value of inventory at the end of period.

Changes in inventories of Work-in-Progress

Changes in inventories of work in progress goods represent the expenses attributable to the increase or decrease in inventory levels of work in progress during the relevant period.

Employee benefits expense

Employee benefits expense comprises director remuneration, salary and incentives including bonus and gratuity, contribution to provident funds and other employee benefit funds and staff welfare expenses.

Finance costs

Finance costs comprise interest on working capital facilities, term loans, unsecured loans and bank charges related to financing arrangement.

Depreciation and Amortisation

Depreciation and amortisation expense comprises depreciation on building, plant and machinery, office equipment, vehicles, furniture and fixtures, electric installation and computers.

Other expenses

Other expenses primarily comprise manufacturing expenses such as power and fuel, rates and taxes, insurance, transportation and freight charges, labour charges, service contract charges and other manufacturing related expense. These also includes administrative and selling expense such as legal and professional expense, advertisement and sales promotion expense, travelling and conveyance expenses, remuneration to auditor and other miscellaneous expenses.

Tax expense

Tax expense or credit for the period represents the tax payable on the current period's taxable income based on the applicable income tax rate adjusted for changes in deferred tax assets and liabilities arising from temporary differences.

RESULTS OF OPERATIONS

The following discussion on the results of operations should be read in conjunction with the Restated Financial Statements of the Company for the period/year ended June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023:

Total Income increased by 678.28% from ₹ 63,527 in the financial year ended March 31, 2024, to ₹ 4,94,417 in the financial year ended March 31, 2025. This increase was primarily attributable to a substantial rise in revenue from operations.

Revenue from operations

Revenue from operations increased by 714.16% from ₹ 60,623 in the financial year ended March 31, 2024, to ₹ 4,93,568 in the financial year ended March 31, 2025. This significant increase was primarily attributable to a fundamental change in the Company's execution and delivery model, supported by expansion of service offerings and improved execution efficiency, which together enabled the Company to undertake larger and more complex projects.

The key factors contributing to the increase in revenue from operations are as set out below:

1. **Shift to On-Site Manufacturing and Services:** - During the financial year 2025, due to space constraints at the Company's manufacturing facilities, the Company adopted an on-site manufacturing and assembly model for large and customized machinery, whereby fabrication, assembly, installation and commissioning activities were carried out at

customer locations.

As a result, on-site manufacturing and related services accounted for approximately 86% of revenue from operations in the financial year ended March 31, 2025 compared to 100% in-house manufacturing in the financial year ended March 31, 2024. This change materially expanded the scale and value of projects executed during the year.

2. **Introduction of Customization & Retrofit Services:** - During the financial year 2025, the Company introduced customization and retrofit services to address customer requirements for equipment modification, automation upgrades and performance enhancement of existing machinery. These services contributed approximately 3.00% of revenue from operations during the financial year ended March 31, 2025 compared to nil contribution in the financial year ended March 31, 2024, and enabled the Company to monetise its engineering capabilities beyond new machine sales.
3. **Expansion of Installation & Maintenance Services:** - The Company expanded its installation, commissioning, lifecycle maintenance, add-on upgrades and related offerings during the financial year ended March 31, 2025. These services contributed approximately 24.00% of revenue from operations compared to approximately 15.00% in the financial year ended March 31, 2024.

The increased contribution was primarily due to:

- higher volume of on-site projects requiring integrated installation and commissioning, and
- increased demand for post-installation support and upgrades associated with customised and automation-enabled machinery.

Further, the bundling of equipment sales with installation, commissioning and lifecycle services contributed to the overall increase in revenue from operations.

Other Income

Other Income decreased by 70.77% from ₹ 2,904 in the financial year ended March 31, 2024 to ₹ 849 in the financial year ended March 31, 2025.

Other Income in the financial year ended March 31, 2025, primarily comprises interest income, dividend income, interest on income tax refund, discounts and rebates and sundry balances written back. In contrast, other income in the previous year included higher amounts of statutory receipts relating to earlier years and sundry balances written back, which were non-recurring in nature.

Expenses

Total expenses increased by 651.48% from ₹ 55,468 in financial year ended March 31, 2024 to ₹ 4,16,829 in financial year ended March 31, 2025. The increase was primarily attributable to a higher cost of materials consumed, increased scale of operations and expansion of service activities.

Cost of materials consumed

Cost of materials consumed increased from ₹ 23,152 in the financial year ended March 31, 2024 to ₹ 4,44,082 in the financial year ended March 31, 2025. As a percentage of total income, cost of materials consumed increased to 89.82% in the financial year ended March 31, 2025 from 36.45% in the financial year ended March 31, 2024.

This increase was primarily attributable to the Company's operational transition towards on-site manufacturing and assembly of large and customized machinery, undertaken due to space constraints at the Company's manufacturing facility along with the related installation and execution services. Under this model, a substantially higher portion of components, sub assemblies and execution related services was procured from third party vendors.

This change accounted for approximately 77.00% of total cost of material consumed during the financial year ended March 31, 2025, whereas in the previous years, the Company undertook 100.00% of its manufacturing activities in-house, which was comparatively more cost-efficient. Consequently, the adoption of on-site operations, together with increased reliance on externally sourced materials and services, resulted in a notable increase in cost of materials consumed during the financial year ended March 31, 2025.

Changes in inventories of Work-in-Progress

Changes in inventories of work-in-progress were negative ₹89,879 in financial year ended March 31, 2025, as compared to negative ₹ 4,441 in financial year ended March 31, 2024, reflecting higher execution and conversion of work-in-progress into revenue.

Employee Benefits Expense

Employee Benefits Expense increased by 34.61% from ₹ 12,818 in financial year ended March 31, 2024 to ₹ 17,255 in financial year ended March 31, 2025. However, as a percentage to total income, employee benefits expenses decreased to 3.49% in financial year ended March 31, 2025, from 20.18% in financial year ended March 31, 2024, reflecting scale efficiencies and improved operating leverage..

Finance Costs

Finance costs increased by 20.47% from ₹ 6,621 in the financial year ended March 31, 2024 to ₹ 7,976 in the financial year ended March 31, 2025. As a percentage of total income, finance costs decreased to 1.61% in the financial year ended March 31, 2025 from 10.42% in the financial year ended March 31, 2024, primarily due to higher revenue base and improved working capital utilisation..

Depreciation and Amortization Expense

Depreciation and Amortization expense increased from ₹ 1,208 in the financial year ended March 31, 2024 to ₹ 1,210 in the financial year ended March 31, 2025. As a percentage of total income, depreciation and amortization expense decreased to 0.24% in the financial year ended March 31, 2025, from 1.90% in the financial year ended March 31, 2024.

Other Expenses

Other expenses increased by 124.64% from ₹ 16,108 in the financial year ended March 31, 2024, to ₹ 36,185 in the financial year ended March 31, 2025. As a percentage of total income, other expenses accounted for 7.32% in the financial year ended March 31, 2025 as compared to 25.36% in the financial year ended March 31, 2024.

The year-on-year increase in other expenses in absolute terms was primarily attributable to higher manufacturing related and execution-linked costs arising from the significant expansion in the Company's scale of operations and its transition towards on site manufacturing and execution of large, customised machinery. These included increased expenses relating to rates and taxes,

insurance, carriage inward, repairs and maintenance of plant and machinery, and outsourced service contracts required for project execution at customer locations.

Other expenses also increased due to higher administrative and operational overheads, including legal and professional charges, bank and transaction-related charges, and travelling and conveyance expenses, driven by increased project activity, customer coordination and execution intensity during the year. In addition, certain expenses such as penalty for late delivery, CSR expenses and sundry balances written off (net), which were not incurred in the previous year, contributed to the increase in other expenses during the financial year ended March 31, 2025.

The increase in other expenses was partially offset by a reduction in certain cost heads, including labour charges, consumables, brokerage and commission, advertising and sales promotion expenses, remuneration to auditors, printing and stationery expenses and MSME interest, reflecting changes in the Company's operating model and cost rationalisation measures implemented during the year.

Profit Before Taxes (PBT)

The PBT margin increased to 15.69% in the financial year ended March 31, 2025 from 12.69% in the financial year ended March 31, 2024. This improvement in profitability was primarily attributable to change in the Company's delivery and service offerings and increased contribution from on-site execution and service-led revenues, as well as overall operational efficiencies achieved during the year. These factors resulted in favorable movement in the overall cost structure including a reduction in employee benefits expenses and finance costs and other operating expenses as a percentage of total income.

The improvement in PBT margin was partially offset by an increase in cost of material consumed and changes in inventories of work-in-progress, driven by the shift towards on-site manufacturing and execution of large customised projects.

Profit After Taxes (PAT)

The PAT margin decreased to 16.40% in the financial year ended March 31, 2025 from 34.71% in the financial year ended March 31, 2024. The decline in PAT margin was primarily attributable to a higher tax expense during the financial year ended March 31, 2025.

In financial year ended March 31, 2024, the Company had substantial brought-forward losses, resulting in substantial tax benefits and lower effective tax rate. During the financial year ended March 31, 2025, with the sharp increase in revenue, improved PBT margins and sustained operating profitability, such accumulated losses were fully utilised, leading to the cessation of the earlier tax shield and a return to a more normalized tax charge. As a result, despite higher absolute profits and improved operating efficiency, the PAT margin moderated during the year.

Accordingly, the decline in PAT margin does not reflect deterioration in operational performance, but is primarily driven by tax normalisation following the utilisation of brought-forward losses, in the context of significantly higher revenue and scale of operations.

Total Income

Total Income increased by 41.78%, from ₹ 44,807 in the financial year ended March 31, 2023, to ₹ 63,527 in the financial year ended March 31, 2024. This increase was primarily attributable to due to higher revenue from operations supported by a significant increase in other income during the year.

Revenue from operations

Revenue from operations increased by 36.05% from ₹ 44,559 in the financial year ended March 31, 2023, to ₹ 60,623 in the financial year ended March 31, 2024. The increase was primarily driven by growth in business volumes and improved execution of customer orders during the year.

Other Income

Other Income increased from ₹248 in the financial year ended March 31, 2023, to ₹ 2,904 in the financial year ended March 31, 2024. The increase was primarily attributable to non-recurring items, including statutory receipts relating to earlier years and higher sundry balances written back, in addition to interest income. Accordingly, the increase in other income during the year was not reflective of core operating performance

Expenses

Total expenses increased by 26.57% from ₹ 43,827 in the financial year ended March 31, 2023 to ₹ 55,468 in the financial year ended March 31, 2024. The increase in total expenses was primarily attributable to higher cost of materials consumed and higher operating expenses, partially offset by a favorable change in the inventories of work-in-progress.

Cost of materials consumed

Cost of materials consumed increased by 69.51% from ₹ 13,658 in the financial year ended March 31, 2023 to ₹ 23,152 in the financial year ended March 31, 2024. As a percentage of total income, cost of materials consumed increased to 36.45% in the financial year ended March 31, 2024, from 30.48% in the financial year ended March 31, 2023. The increase was primarily attributable to higher production and execution volumes during the year.

Changes in inventories of Work-in-Progress

Changes in inventories of work-in-progress were negative ₹4,441 in the financial year ended March 31, 2024, as compared to ₹310 in the financial year ended March 31, 2023. This reflects higher conversion of work-in-progress into revenue, consistent with increased execution activity during the year.

Employee Benefits Expense

Employee Benefits Expense increased by 8.76% from ₹ 11,786 in financial year ended March 31, 2023 to ₹ 12,818 in financial year ended March 31, 2024. However, as a percentage of total income, employee benefits expenses decreased to 20.18% in financial year ended March 31, 2024, from 26.30% in financial year ended March 31, 2023 reflecting improved operating leverage with revenue growth.

Finance Costs

Finance costs increased by 15.39% from ₹ 5,738 in the financial year ended March 31, 2023 to ₹ 6,621 in the financial year ended March 31, 2024. As a percentage of total income, finance costs decreased to 10.42% in the financial year ended March 31, 2024 from 12.81% in the financial year ended March 31, 2023, reflecting improved revenue scale and better utilisation of financing facilities.

Depreciation and Amortisation Expense

Depreciation and Amortization expense decreased marginally from ₹ 1,262 in the financial year ended March 31, 2023 to ₹ 1,208 in the financial year ended March 31, 2024. As a percentage of total income, depreciation and amortization expense decreased to 1.90% in the financial year ended March 31, 2024 from 2.82% in the financial year ended March 31, 2023 indicating stable asset base and improved revenue absorption.

Other Expenses

Other expenses increased by 45.46% from ₹ 11,074 in the financial year ended March 31, 2023, to ₹ 16,108 in the financial year ended March 31, 2024. As a percentage of total income, other expenses accounted for 25.36% in the financial year ended March 31, 2024 as compared to 24.71% in the financial year ended March 31, 2023.

The year-on-year increase was primarily attributable to higher manufacturing-related expenses, including labour charges, repairs to plant and machinery, service contract charges and consumable stores and materials, driven by increased production and operational activity during the year.

Additionally, administrative and selling expenses, such as legal and professional charges, travelling and conveyance expenses, remuneration to auditors, brokerage and commission, vehicle expenses and security expenses, also contributed to the increase, reflecting higher business and project execution activities, including on-site deployment.

The increase in other expenses was partially offset by reductions in bank charges, liquidated damages and miscellaneous expenses during the year.

Profit Before Taxes (PBT)

The PBT margin increased to 12.69% in the financial year ended March 31, 2024 from 2.19% in the financial year ended March 31, 2023. The improvement in profitability was primarily attributable to higher revenue from operations, operational efficiencies and enhanced operating leverage, which together resulted in a reduction in employee benefits expenses, finance cost and depreciation expense.

Profit After Taxes (PAT)

The PAT margin increased to 34.71% in the financial year ended March 31, 2024 from 33.70% in the financial year ended March 31, 2023. The marginal increase in profitability was primarily due to decrease in tax expense during FY 2024. In the previous year, the Company had substantial brought-forward losses from earlier periods, which provided significant tax benefits. These accumulated losses were applied against taxable profits, resulting in a lower effective tax liability.

Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss related to adverse changes in market prices, including interest rates. In the normal course of business, we are exposed to certain market risks including interest rate risk, liquidity risk and credit risk. We aim to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on our financial performance. However, there can be no assurance that such measures will fully mitigate the impact of adverse market movements.

Interest rate risk

Interest rate risk arises from changes in prevailing market interest rates, which may affect the fair value of fixed-rate financial instruments and the cash flows of variable-rate financial instruments. The Company's operations are funded, to a certain extent, through interest-bearing borrowings and, accordingly, the Company is exposed to interest rate risk. Fluctuations in market interest rates may impact the finance costs of borrowings that carry variable rates of interest. The Company monitors its interest rate exposure on an ongoing basis and seeks to manage such risk by maintaining an appropriate mix of borrowings and by negotiating competitive interest rates. However, there can be no assurance that future movements in interest rates will not adversely affect the Company's financial condition or results of operations.

Liquidity risk

Liquidity risk is the risk that our Company may encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk is managed by us through effective fund management of the Company's short, medium and long-term funding and liquidity management requirements. Our Company employee prudent liquidity risk management practices by maintaining adequate reserves, banking facilities and other committed borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The Company's objective is to ensure sufficient liquidity at all times to meet its operational requirements and financial obligations.

Credit Risk

Credit risk is the risk of financial loss to our Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. It primarily arises from our Company's trade and other receivables, cash and cash equivalents and other bank balances. To manage this, we periodically assesses financial creditworthiness of customers, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of accounts receivable. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount. However, there can be no assurance that our counterparties may not default on their obligations, which may adversely affect our business and financial condition and cash flow.

Trade and other receivables from customers

Credit risk with respect to trade and other receivables is managed through credit approvals, establishing credit limits and monitoring the creditworthiness of customers to whom the Company grants credit terms in the normal course of business. Our Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates.

Cash and cash equivalents

The cash and cash equivalents are held with bank that have good credit ratings and financial institution counterparties with good market standing.

I. Competitive conditions

We expect competition in our business to intensify from existing and potential competitors. We face competition from both organized and unorganized players in the market. We believe that our expertise, quality offerings and distinguished experience will be key to overcoming competition posed by such players. We believe that the principal factors affecting competition in our business include client relationships, reputation, and the quality and pricing of our products.

J. Related Party Transactions

We have entered into transactions with certain related parties, including directors, chief financial officer, company secretary and group entities. In particular, we have engaged in various transactions with these parties in relation to, amongst others, remuneration, commission, rent expense, loans, other advances, Sale & purchase of product, etc.

For further information relating to our related party transactions see '*Financial Information*' on page 291 of this Draft Red Herring Prospectus.

SECTION VII – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as stated in this section, as on the date of this Draft Red Herring Prospectus, there are no outstanding: (i) criminal proceedings; (ii) actions by statutory or regulatory authorities; (iii) claims relating to direct and indirect taxes; (iv) disciplinary actions including penalties imposed by SEBI or stock exchanges against the Promoters in the last five financial years, including outstanding action; or (v) details of any other pending material litigation (as defined below); involving our Company, its Directors and Promoters (collectively, the “**Relevant Parties**”) (vi) all criminal proceedings and actions taken by regulatory authorities and statutory authorities against such key managerial personnel and senior management of our Company.*

As per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time, all other pending civil litigations shall be classified as ‘material’ based on the lower of the threshold criteria mentioned below –

(a) 2 (two) percent of turnover, as per the latest annual restated financial statements ; or

(b) 2 (two) percent of net worth, as per the latest annual restated financial statements, except in case the arithmetic value of the net worth is negative ; or

(c) 5 (five) percent of the average of absolute value of profit or loss after tax, as per the last three annual restated consolidated financial statements ;

Accordingly, our Board, in its meeting held on November 14, 2025 considering that all pending litigation/arbitration proceedings, including any litigation involving the Relevant Parties other than criminal proceedings, actions by regulatory authorities and statutory authorities, disciplinary action including penalty imposed by SEBI or stock exchange against the promoters in the last five financial years including any outstanding action, and tax matters (direct or indirect), would be considered "Material Litigation" if

- (i) the aggregate monetary amount of claim by or against the Company, its Directors and/or Promoters (individually or in aggregate) in any such pending litigation / arbitration proceeding is in excess of 5% of the Profit After Tax as per the last audited financial statements of the Company, and*
- (ii) in the event monetary liability is not quantifiable, such pending proceeding shall be considered material if the outcome of any such pending proceedings may have a material bearing on the business, operations, performance, prospects or reputation of the Company.*

For the purposes of determining material litigations) involving our Directors, our Board shall consider all outstanding litigation involving each Director and it believes that if any such litigation has an adverse outcome and therefore, would materially and adversely affect the reputation, operations or financial position of our Company, it shall be considered as material litigation and accordingly, each of our directors shall identify and provide information relating to such outstanding litigation involving themselves.

All terms defined in a particular litigation disclosure pertain to that litigation only. Unless stated to the contrary, the information provided below is as of the date of this Draft Red Herring Prospectus.

A Criminal Complaint numbering 4300515/2022 was filed by Shri Bhupendra Arun Singh (hereinafter referred as the 'Complainant') against the director-promoter of the Company, Shri Arun Kumar (hereinafter referred as the 'Accused' or 'Mr. Kumar') under Section 138 of the Negotiable Instruments Act, 1881 before the Metropolitan Magistrate (MM), Borivali, Mumbai on April 25, 2022. As per the Complaint, the Complainant, who runs "Sai Sagar Veg. Restaurant" in Mumbai, advanced a loan of Rs.15.00 Lakh to the Accused between 2013-2014 through RTGS transfers of Rs. 5.00 Lakh, Rs. 8.00 Lakh and a cash payment of Rs. 2.00 Lakh. The Accused acknowledged receipt of the loan through signed confirmations dated October 11, 2013, October 30, 2013, and June 15, 2014, promising repayment within three years along with compensation from business profits. Upon expiry of the agreed period, Mr. Kumar issued a Cheque No. 668514 of Rs. 5.00 Lakh dated December 20, 2021, and the same was dishonoured on March 14, 2022, for "*Payment Stopped by drawer*".

The Complainant issued a demand notice dated March 22, 2022, through his advocate, which was returned with remark "Refused by the addressee". The Complainant initiated proceedings against the dishonoured cheque no. 668514 before the Hon'ble Metropolitan Magistrate Court (MM), Borivali, Mumbai. 1. **Two Appeals were filed for Fy 2010-11 before the Joint Commissioner of Sales Tax (App) V, the first appeal numbered JC/APP-5/VAT-182/2020-21, under the State VAT laws, filed on June 11, 2020, by the Company against an assessment order dated April 26, 2019, in which total assessed tax (including interest and penalty) was Rs. 48.81 Lakhs, pursuant to which a tax demand of approximately Rs. 18.46 lakhs and interest u/s 30(3) of Rs. 25.46 Lakhs, Penalty u/s 29(3) of Rs. 4.84 Lakhs and Penalty u/s 29(7) of Rs. 0.05 Lakhs has been raised. For admission of the appeal, a pre-deposit of 10% of the disputed demand, amounting to approximately Rs. 1.85 lakhs, is required. The said assessment order was passed following a remand of an earlier assessment order dated June 4, 2016, against which the Company had deposited Rs. 2.00 lakhs. The Company has taken the position that the earlier deposit adequately satisfies the pre-deposit requirement for the present appeal, which is currently pending before the appellate authority.*

Second appeal numbered and JC/APP-5/CST-182/2020-21, under the Central Sales Tax Act, 1956 was filed on March 15, 2021 by the Company against the assessment orders dated April 30, 2019 for AY 2010-11. Under the Assessment order, by the Deputy Commissioner of Sales Tax, Mumbai, on a best judgment basis, wherein tax, interest, and penalty were levied, inter alia, on account of non-grant of benefit of C Forms. The aggregate demand outstanding pursuant to the said order is approximately ₹124.66 lakhs. Aggrieved by the said assessment order, the Company has filed an appeal before the appropriate appellate authority. The total for adjudication is amount for the VAT and CST matter is Rs. 173.47 Lakhs. The matter remains pending before the appellate authority for adjudication.

STOCK MARKET DATA FOR THE EQUITY SHARES

As the Issue is the initial public offering of the Equity Shares, the Equity Shares are not listed on any stock exchange as on the date of this Prospectus, and accordingly, no stock market data is available for the Equity Shares.

MECHANISM FOR REDRESSAL OF INVESTOR GRIEVANCES

The Registrar Agreement provides for retention of records with the Registrar to the Issue for a minimum period of eight years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, in order to enable the investors to approach the Registrar to the Issue for redressal of their grievances. The Registrar to the Issue shall obtain the required information from the Self Certified Syndicate Banks (“SCSBs”) for addressing any clarifications or grievances of application supported by blocked amount (“ASBA”) Bidders.

Bidders can contact the Company Secretary and Compliance Officer, the BRLM and/or the Registrar to the Issue in case of any pre-Issue or post-Issue related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Issue related queries and for redressal of complaints, Bidders may also write to the BRLM, in the manner provided below.

All Issue related grievances, other than of Anchor Investors, may be addressed to the Registrar to the Issue with a copy to the relevant Designated Intermediary, with whom the Bid cum Application Form was submitted giving full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder’s DP ID, Client ID, Unified Payments Interface Identity (“UPI ID”), Permanent Account Number (“PAN”), address of Bidder, number of the Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), date of Bid cum Application Form and the name and address of the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove.

For Issue-related grievances, investors may contact the BRLM, details of which are given in “**General Information – Book Running Lead Manager**” on page 87.

All Issue-related grievances of the Anchor Investors may be addressed to the Registrar to the Issue, giving full details such as the name of the sole or first bidder, Anchor Investor Application Form number, Bidders’ DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the BRLM where the Anchor Investor Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid / Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in its sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Pursuant to the SEBI master circular for Issue of Capital and Disclosure Requirements bearing reference number SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 (“**SEBI ICDR Master Circular**”) and the circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 (“**March 2021 Circular**”), SEBI has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism inter alia in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds in cases of partial allotment/non-allotment within prescribed timelines and procedures.

In terms of SEBI ICDR Master Circular issued by the SEBI, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, in terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

Separately, pursuant to the circular March 2021 Circular, the following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount; and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and 2. ₹100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted/ partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the BRLM shall be liable to compensate the investor ₹100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

All grievances relating to Bids submitted with Registered Brokers, may be addressed to the Stock Exchanges, with a copy to the Registrar to the Issue.

DISPOSAL OF INVESTOR GRIEVANCE BY OUR COMPANY

Further, the Board has constituted a Stakeholders’ Relationship Committee, which is responsible for redressal of grievances of the security holders of our Company. For more information, see “**Management**” beginning on page 258 of this DRHP. The Company has not received any investor grievances during the 3 (three) years preceding the date of this Draft Red Herring Prospectus and as on date, there are no investor complaints pending.

STATUS OF INVESTOR COMPLAINTS

We confirm that we have not received any investor complaint during the three years preceding the date of this Draft Red Herring Prospectus and hence there are no pending investor complaints as on the date of this Draft Red Herring Prospectus.

EXEMPTIONS FROM COMPLYING WITH ANY PROVISIONS OF SECURITIES LAWS, IF ANY, GRANTED BY SEBI

Exemption application dated November 14, 2025 filed with SEBI for seeking exemption under Regulation 300(1)(c) of the SEBI ICDR Regulations, from (a) classifying and disclosing Geeta Singh and any entities she may be interested in, as “Promoter Group” in this Draft Red Herring Prospectus; (b) not disclosing information, confirmations and undertakings with respect to Geeta Singh and any entities she may be interested in, as per Regulation 2(1)(pp)(iv) of the SEBI ICDR Regulations, in this Draft Red Herring Prospectus.

SECTION VIII – ISSUE RELATED INFORMATION

TERMS OF THE ISSUE

The Equity Shares being Allotted pursuant to this Issue shall be subject to the provisions of the Companies Act, 2013, SEBI ICDR Regulations, SEBI Listing Regulations, SCRA, SCRR, our Memorandum of Association and Articles of Association, the terms of the Draft Red Herring Prospectus, the Red Herring Prospectus, the Prospectus, the Abridged Prospectus, Application Form, any Revision Form, the CAN/Allotment Advice and other terms and conditions as may be incorporated in the Allotment Advice and other documents/certificates that may be executed in respect of the Issue. The Equity Shares shall also be subject to laws as applicable, guidelines, rules, notifications and regulations relating to the issue of capital and listing and trading of securities issued from time to time by SEBI, the Government of India, the FIPB, the Stock Exchange, the RBI, RoC and/or other authorities, as in force on the date of the Issue and to the extent applicable or such other conditions as may be prescribed by SEBI, the RBI, the Government of India, the FIPB, the Stock Exchange, the RoC and any other authorities while granting their approval for the Issue.

Please note that, in terms of Regulation 256 of the SEBI ICDR Regulations read with SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015, all the investors applying in a public ISSUE shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, (together, the “UPI Circular”) in relation to clarifications on streamlining the process of public Issue of equity shares and convertibles it has proposed to introduce an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. Currently, for application by Individual Investors through Designated Intermediaries, the existing process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds is discontinued and Individual Investors submitting their Application Forms through Designated Intermediaries (other than SCSBs) can only use the UPI mechanism with existing timeline of T+6 days until March 31, 2020 (“UPI Phase II”). Further SEBI through its circular no SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 has decided to continue with the Phase II of the UPI ASBA till further notice. However, due to the outbreak of COVID19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, vide SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, Phase III has been notified, and accordingly the revised timeline of T+3 days (i.e., the time duration from public Issue closure to listing of be 3 Working Days) has been made applicable in two phases i.e., (i) voluntary for all public issues opening on or after September 1, 2023; and (ii) mandatory on or after December 1, 2023 (“UPI Phase III”). Accordingly, the Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI Circular no. SEBI/HO/CFD/P/CIR/2022/75 dated May 30, 2022 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances.

Further, vide the said circular, Registrar to the Issue and Depository Participants have also been authorized to collect the Application forms. Investors may visit the official website of the concerned stock exchange for any information on operationalization of this facility of form collection by the Registrar to the Issue and Depository Participants as and when the same is made available.

Where 2 (two) or more persons are registered as the holders of the Equity Shares, they shall be deemed to hold the same as joint with benefits of survivorship.

NOMINATION FACILITY TO BIDDERS

In accordance with Section 72(1) & 72(2) of the Companies Act, 2013, the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72(3) of the Companies Act, 2013, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in accordance with Section 72(4) of the Companies Act, 2013, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Articles of Association of the Company, any Person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such a transfer of Equity Shares, as the deceased holder could have made.

Further, the Board of Directors may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board of Directors may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Applicant would prevail. If the Applicant wants to change the nomination, they are requested to inform their respective Depository Participant.

WITHDRAWAL OF THE ISSUE

In accordance with the SEBI ICDR Regulations, our Company, in consultation with Book Running Lead Manager, reserves the right not to proceed with this Issue at any time after the Issue Opening Date, but before our Board meeting for Allotment without assigning reasons thereof.

If our Company in consultation with BRLM withdraws the Issue after the Issue Closing Date, we will give reason thereof within two days by way of a public notice which shall be published in the same newspapers where the pre-Issue and price band advertisements were published.

Further, the Stock Exchanges shall be informed promptly in this regard and the Book Running Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the Bank Accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification.

In case our Company withdraws the Issue after the Issue Closing Date and subsequently decides to undertake a public offering of Equity Shares, our Company will file a fresh Issue Document with the Stock Exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is also subject to obtaining the final RoC approval of the Red Herring Prospectus after it is filed with the RoC and the final Listing and Trading Approval of the Stock Exchange, which the Company shall apply for after Allotment. In terms of the SEBI ICDR Regulations, Applicants shall not be allowed to withdraw their Application after the Issue Closing Date.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Issue Closing Date for cancelled/withdrawn/deleted ASBA Forms, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher from the date on

which the request for cancellation/withdrawal/deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/partially allotted Bids, exceeding two Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher for the entire duration of delay exceeding two Working Days from the Bid/Issue Closing Date by the SCSB responsible for causing such delay in unblocking. The BRLM shall, in its sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. The Bidder shall be compensated in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/22 dated February 15, 2018, SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 read with Master Circular no. SEBI/HO/CFD/PoD-1/P/CIR/2024/0154 dated November 11, 2024, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within three Working days of the Bid / Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid / Issue Period by our Company, or any delays in receiving the final listing and trading approval from the Stock Exchange and delay in respect of final certificates from SCSBs. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

SEBI is in the process of streamlining and reducing the post Issue timeline for initial public offerings and has through its circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, reduced the time period for listing of shares in public Issue from existing 6 days to 3 days. The revised timeline of T+3 days shall be made applicable in two phases i.e., voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Please note that we may need to make appropriate changes in the Red Herring Prospectus and Prospectus depending upon the prevailing date of this Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the Issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will be required to submit reports of compliance with listing timelines and activities prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Any circulars or notifications from SEBI after the date of the Draft Red Herring Prospectus may result in changes to the listing timelines. Further, the Offer Procedure is subject to change to any revised SEBI circulars to this effect.

* Bidding for all Categories on the last day shall close at 4:00 PM. UPI mandate end time shall be at 5.00 pm on Bid/Issue Closing Date.

Downward Modification and cancellation shall not be applicable to any of the category of bidders.

Applications and any revision to the same shall be accepted only between 10.00 a.m. and 5.00 p.m. (IST) during the Issue Period. On the Issue Closing Date, the Applications and any revision to the same shall be accepted between 10.00 a.m. and 4.00 p.m. (IST) or such extended time as permitted by the Stock Exchanges, in case of Applications by Individual Applicants after taking into account the total number of applications received up to the closure of timings and reported by the Book Running Lead Manager to the Stock Exchange. It is clarified that Applications not uploaded on the electronic system would be rejected. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Applications on the Issue Closing Date, the Applicants are advised to submit their Applications one day prior to the Issue Closing Date and, in any case, no later than 1.00 p.m. (IST) on the Issue Closing Date. All times mentioned in this Draft Red Herring Prospectus are Indian Standard Times. Applicants are cautioned that in the event a large number of Applications are received on the Issue Closing Date, as is typically experienced in public issues, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for allocation under the Issue. Applications will be accepted only on Working Days. Neither our Company nor the Book Running Lead Manager are liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise or blocking of application amount by the SCSBS on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/Issue Closing Date by obtaining the same from the Stock Exchange. The SCSB's shall unblock such applications by the closing hours of the Working Day.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid/ Issue Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the bidding (Issue) period disclosed in the Draft Red Herring Prospectus (in case of a book built Issue) or the Issue period disclosed in the Prospectus (in case of a fixed price issue), for a minimum period of one working day, subject to the Bid/ Issue Period not exceeding 10 working days.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid / Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding two Working Days from the Bid / Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The Book Running

Lead Manager shall, in its sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Separately, the following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensated on period
Delayed unblock for cancelled / withdrawn/deleted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	Instantly revoke the blocked funds other than the original application amount and ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount and ₹ 100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non- Allotted/ partially Allotted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalization of the Basis of Allotment till the date of actual Unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the BRLM shall be liable to compensate the investor ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

In accordance with the SEBI ICDR Regulations, all categories of investors are not allowed to withdraw or lower the size of their applications (in terms of the quantity of the Equity Shares or the Applications Amount) at any stage.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or the electronic Application Form, for a particular Applicant, the details as per the file received from the Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSB or the member of the Syndicate for rectified data.

Our Company, in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/Issue Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares. In case of any revision to the Price Band, the Bid/ Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/ Issue Period not exceeding a total of 10 (ten) Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM and the terminal of the Syndicate Member, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

MINIMUM SUBSCRIPTION AND UNDERWRITING

In accordance with Regulation 260 (1) of ICDR Regulations, this Issue is 100% underwritten, so this Issue is not restricted to any minimum subscription level. Further, in accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall not be less than ₹ 2,00,000 (Rupees Two Lakh) per application

As per Section 39 of the Companies Act, 2013 if the “stated minimum amount” has not been subscribed and the sum payable on Application is not received within a period of 30 days from the date of Red Herring Prospectus, the Application Amount has to be returned within such period as may be prescribed.

In terms of Regulation 272(2) of SEBI ICDR Regulations, in case the Company fails to obtain listing or trading permission from the stock exchanges where the specified securities are proposed to be listed, it shall refund through verifiable means the entire monies received within four days of receipt of intimation from stock exchange(s) rejecting the application for listing of specified securities, and if any such money is not repaid within four days after the Issuer becomes liable to repay it, the issuer and every director of the company who is an officer in default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at the rate of fifteen per cent per annum.

Further, in accordance with Regulation 268 of the SEBI ICDR Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will be allotted will not be less than 200 (Two Hundred). In case the minimum number of prospective allottees is less than Two Hundred (200), no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked as per SEBI ICDR Regulations and SEBI Circulars

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

ARRANGEMENT FOR DISPOSAL OF ODD LOTS

The trading of the Equity Shares will happen in the minimum contract size of [●] shares in terms of the SEBI Circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, in terms of Regulation 261(5) of the SEBI ICDR Regulations, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the SME platform of BSE.

NEW FINANCIAL INSTRUMENTS

No new financial instruments such as deep discount bonds, debentures with warrants, secured premium notes etc. are being issued by our Company through this Issue.

MIGRATION TO MAIN BOARD

SEBI vide Circular Nos. CIR/MRD/DSA/17/2010 dated May 18, 2010, has stipulated the requirements for migration from SME platform to main board. As per the provisions of the Chapter IX of the SEBI ICDR Regulations, our Company may migrate to the main board of BSE from the SME Exchange on a later date subject to the following:

As per Regulation 280(2) of the SEBI ICDR Regulations read with SEBI ICDR (Amendment) Regulations, 2015, where the post- Offer paid up capital of the Company listed on the BSE SME is likely to increase beyond twenty-five crore rupees by virtue of any further issue of capital by the Company by way of rights issue, preferential issue, bonus issue etc. the Company shall migrate its equity shares listed on a SME Platform to the Main Board and seek listing of the equity shares proposed to be issued on the Main Board subject to the fulfilment of the eligibility criteria for listing of equity shares laid down by the Main Board:

Provided that no further issue of capital shall be made unless –

However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Issue, subject to applicable laws.

Phased Implementation of UPI For Bids by Individual Bidders as per the UPI Circulars

SEBI has issued UPI Circulars in relation to streamlining the process of public Issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by Individual Investors through intermediaries with the objective to reduce the time duration from public Issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a) **Phase I:** This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, an Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum

Application Form with any of the intermediaries and use his / her UPI ID for the purpose of blocking funds. The time duration from public Issue closure to listing continued to be six Working Days.

- b) **Phase II:** This phase was applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular bearing number SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, pursuant to SEBI circular number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, this phase was extended till further notice. Under this phase, submission of the ASBA Form without UPI by Individual Bidders through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public Issue closure to listing continued to be six Working Days (T+6) during this phase.
- c) **Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public Issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make applications using UPI. Our Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Individual Bidders using the UPI.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public Issues where the application amount is up to ₹ 5,00,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- a syndicate member
- a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) ("broker")
- a depository participant ("DP") (whose name is mentioned on the website of the stock exchange as eligible for this activity)
- a registrar to the issue and shares transfer agent ("RTA") (whose name is mentioned on the website of the stock exchange as eligible for this activity)

Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation in compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>.

*Excluding Electronic Bid cum Application Form

**Bid cum Application Forms for Anchor Investors will be made available at the office of the Book Running Lead Manager. Electronic Bid cum Application forms will also be available for download on the website of and BSE (www.bseindia.com).

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. For ASBA Forms (other than UPI Bidders) Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchange shall validate the electronic bids with the records of the CDP for DP ID / Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchange. Stock Exchange shall allow modification of either DP ID / Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis through API integration to enable the Sponsor Bank(s) to initiate UPI Mandate Request to the UPI Bidders, for blocking of funds. The Sponsor Bank(s) shall initiate a request for blocking of funds through NPCI to the UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank accounts. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Bank(s), NPCI or

the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions / investor complaints to the Sponsor Bank(s) and the issuer bank. The Sponsor Bank(s) and the Bankers to the Issue shall provide the audit trail to the BRLM for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts for mandate block and unblock including details specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“Cut- Off Time”). Accordingly, UPI Bidders should accept UPI Mandate Requests for blocking of funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Bank(s) will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank(s) will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLMs in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank(s) and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

The Sponsor Bank(s) shall host a web portal for intermediaries (closed user group) from the date of Bid / Issue Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks / unblocks, performance of apps and UPI handles, down-time / network latency (if any) across intermediaries and any such processes having an impact / bearing on the Issue Bidding process. The processing fees for applications made by the UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such SCSBs provide a written confirmation in compliance with the SEBI RTA Master Circular, in a format prescribed by SEBI or applicable law.

As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. For Individual Bidders

The Application must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, so as to ensure that the Application Price payable by the Bidder is greater than ₹ 2,00,000. In case of revision of Applications, the Individual Bidders have to ensure that the Application Price is minimum of 2 lots with value of above ₹ 2,00,000.

2. For Other than Individual Bidders (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds ₹ 2,00,000 and in multiples of [●] Equity Shares thereafter. An application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application Size is more than 2 lots and Application Amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company, in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised all editions of [●] (a widely circulated English National Daily Newspaper), all editions of [●] (a widely circulated Hindi National Daily Newspaper) and all editions of the Regional daily newspaper in Maharashtra (Marathi being the

regional language of Maharashtra where our Registered Office is located), each with wide circulation at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

- a) The Bid / Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period may be extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be published in all editions of [●] (a widely circulated English National Daily Newspaper), all editions of [●] (a widely circulated Hindi National Daily Newspaper) and a Regional daily newspaper in Maharashtra (Marathi also being the regional language of Maharashtra where our Registered Office is located) each with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.
- b) During the Bid/ Issue Period, Individual Bidders, should approach the BRLM or their authorized agents to register their Bids. The BRLM shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Issue Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.
- c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Issue Period i.e. one working day prior to the Bid/ Issue Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “Escrow Mechanism - Terms of payment and payment into the Escrow Accounts” in the section “Issue Procedure” beginning on page 370 of this Draft Red Herring Prospectus
- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.

- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a) Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/Issue Period, in accordance with the SEBI ICDR Regulations, provided that (i) the Cap Price will be less than or equal to 120% of the Floor Price, (ii) the Cap Price will be at least 105% of the Floor Price, and (iii) the Floor Price will not be less than the face value of the Equity Shares. Subject to compliance with the foregoing, the Floor Price may move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.
- b) Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price.
- d) The price of the specified securities issued to an anchor investor shall not be lower than the price issued to other applicants.

PARTICIPATION BY ASSOCIATES /AFFILIATES OF BRLM AND THE SYNDICATE MEMBERS

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Issue in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Issue, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

11. The BRLM, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the BRLM) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the BRLM and made available as part of the records of the BRLM for inspection by SEBI.
12. Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.
13. Anchor Investors are not permitted to Bid in the Issue through the ASBA process.

BIDS BY HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: "Name of sole or first Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta". Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

No Mutual Fund scheme shall invest more than 10.00% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10.00% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10.00% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and eligible NRI Bidders bidding on a non- repatriation basis by using Resident Forms should authorize their SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

In accordance with the Consolidated FDI Policy, the total holding by any individual NRI, on a repatriation or non- repatriation basis, shall not exceed 5.00% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5.00% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together, on a repatriation or non- repatriation basis, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10.00% may be raised to 24.00% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs applying on a repatriation basis are advised to use the Bid cum Application Form meant for non-residents (Blue in colour).

Eligible NRIs applying on non-repatriation basis are advised to use the Bid cum Application Form for residents. (White in colour).

For details of restrictions on investment by NRIs, see "Restrictions on Foreign Ownership of Indian Securities" on page 410 of this DRHP.

BIDS BY FPI INCLUDING FII'S

In terms of applicable FEMA NDI Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI (including its Bidder group (which means multiple entities registered as foreign portfolio Bidders and directly or indirectly, having common ownership of more than 50% or common control) shall be below 10% of our post Issue Equity Share capital. In case the total holding of an FPI or Bidder group increase beyond 10% of the total paid-up Equity Share capital of our Company, the total investment made by the FPI or Bidder group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the Bidder will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100% under the automatic route). In terms of the FEMA NDI Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents (Blue in colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for Issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only if it complies with the following conditions:

- i. such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- ii. such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;
- iii. such offshore derivative instruments are issued after compliance with 'know your client' norms; and
- iv. such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (a) to (d)); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids and are liable to be rejected:

- FPIs which utilise the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Bidders and Designated Depository Participants which were issued in November 2019 to facilitate implementation of SEBI FPI Regulations (such structure "MIM Structure") provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs;
- Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments;
- Sub funds or separate class of Bidders with segregated portfolio who obtain separate FPI registration;
- FPI registrations granted at investment strategy level / sub fund level where a collective investment scheme or fund has multiple investment strategies / sub-funds with identifiable differences and managed by a single investment manager.

- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related Bidders registered as Category I FPIs; and
- Entities registered as collective investment schemes having multiple share classes.

Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bid using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected. Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid.

The Bids belonging to any of the above mentioned seven structures and having the same PAN may be collated and identified as a single Bid in the bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

FPIs must ensure that any Bid by a single FPI and/ or a Bidder group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the “FPI Group”) shall be below 10% of the total paid-up Equity Share capital of our Company. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs applying through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Issue Equity Share capital shall be liable to be rejected.

Participation of FPIs in the Issue shall be subject to the FEMA NDI Rules.

There is no reservation for Eligible NRI Bidders, AIFs and FPIs. All Bidders will be treated on the same basis with the other categories for the purpose of allocation.

BIDS BY SEBI-REGISTERED AIFs, VCFS AND FVCIs

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one Investee Company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one Investee Company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Issue, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

The Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid-up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid-up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see “Key Industrial Regulations” beginning on page 239.

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars issued by the SEBI dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such accounts shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such accounts for such applications.

BIDS BY SYSTEMICALLY IMPORTANT NBFCS

In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) the last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

Systemically Important NBFCs participating in the Issue shall comply with all applicable regulations, directions, guidelines and circulars issued by the RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Applicants have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. ASBA Applicants are advised to make their independent investigations and to ensure that the ASBA Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes. For details on designated branches of SCSB collecting the Application Form, please refer to the above-mentioned SEBI link.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Issue are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- a. Equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- b. The entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- c. The industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

*The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of ₹ 25,000,000 lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of ₹ 5,000,000 lakhs or more but less than ₹ 25,000,000 lakhs.

Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of ₹ 2,500 lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

Accordingly, unblocking funds from the ASBA Account shall only be done by the Registrar to the Issue by giving necessary instructions to the Self-Certified Syndicate Bank (SCSB) on the Designated Date in case of non-allotment, technical rejection, or partial allotment

Price Discovery and Allocation

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Issue Price and the Anchor Investor Issue Price.

- b) The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. The unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
- e) In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
- f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the Book Running Lead Manager, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price are valid Bids and are considered for allocation in the respective categories.

PRE-ISSUE AND PRICE BAND ADVERTISEMENT

Subject to Section 30 of the Companies Act 2013, our Company shall, after registering the Red Herring Prospectus with the ROC, publish a pre-Issue and price band advertisement, in the form prescribed by the SEBI Regulations, in (i) English National Newspaper; (ii) Hindi National Newspaper and (iii) Regional daily newspaper, each with wide circulation. In the pre-Issue and price band advertisement, we shall state the Bid Opening Date and the Bid/ Issue Closing Date and the floor price or price band along with necessary details subject to regulation 250 of SEBI ICRD Regulations. This advertisement, subject to the provisions of section 30 of the Companies Act, 2013, shall be in the format prescribed in Part A of Schedule X of the SEBI Regulations.

SIGNING OF THE UNDERWRITING AGREEMENT AND THE ROC FILING

Our Company shall enter into an Underwriting Agreement after finalization of Issue Price.

After signing of the Underwriting Agreement, an updated Red Herring Prospectus will be filed with the RoC in accordance with applicable law, which then would be termed as the 'Prospectus'. The Prospectus will contain details of the Issue Price, Issue size, and underwriting arrangements and will be complete in all material respects.

ADVERTISEMENT REGARDING ISSUE PRICE AND PROSPECTUS:

Our Company will issue a statutory advertisement after the filing of the Prospectus with the RoC. This advertisement, in addition to the information that has to be set out in the statutory advertisement, shall indicate the final derived Issue Price. Any material updates between the date of the Red Herring Prospectus and the date of Prospectus will be included in such statutory advertisement.

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

1. On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
2. RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
3. Third party confirmation of applications to be completed by SCSBs on T+1 day.
4. RTA prepares the list of final rejections and circulates the rejections list with Book Running Lead Manager/ Company for their review/ comments.
5. Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
6. The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
7. The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- a) Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then the system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lots of the category and these applications will be allotted the shares in that category.

- b) In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- c) In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- d) On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advise the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the BSE SME. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

For applications where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:

1. Each successful applicant shall be allotted [●] equity shares; and
2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.

- a) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.
- b) The above proportionate allotment of shares in an Issue that is oversubscribed shall be subject to the reservation for Individual Applicants as described below:
 1. As the Individual Investor category is entitled to more than fifty percent on a proportional basis, the Individual Investors shall be allocated that higher percentage.
 2. The balance net Issue of shares to the public shall be made available for allotment to:
 - a. Individual applicants other than retails Individual Investors and
 - b. Other investors, including Corporate Bodies/ Institutions irrespective of the number of shares applied for.

The unsubscribed portion of the Net Issue to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

Individual Investor' means an investor who applies for shares of value of minimum two lots of value of at least ₹ 2,00,000.00. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE SME.

The Executive Director / Managing Director of BSE SME – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI ICDR Regulations.

a. For Individual Bidders

Bids received from the Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Bidders will be made at the Issue Price.

b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

c) In the event that the Issue Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.

- d) In the event the Issue Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

- e) Basis of Allotment for QIBs (other than Anchor Investors) and NIIs in case of Over Subscribed Issue:

In the event of the Issue being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the BSE SME (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b. The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- c. For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted [●] equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d. If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- e. If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 has prescribed the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment.

The Government of India has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT (formerly Department of Industrial Policy & Promotion) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the “FDI Circular”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, GoI, earlier known as Department of Industrial Policy and Promotion (“DPIIT”) issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2) / 2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “FDI Policy”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

The FDI Policy will be valid until the DPIIT issues an updated circular. Under the current FDI Policy, 100% foreign direct investment is permitted in the manufacturing sector, under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

As per the FDI Policy, FDI up to 100% of the paid-up share capital of the Company is permitted in companies engaged in the manufacturing sector under the automatic route. For details of the aggregate limit for investments by NRIs and FPIs in our Company, see “*Issue Procedure - Bids by Eligible NRIs and Bids by FPIs*” beginning from page 370. CAPITAL

5. The Authorized Share Capital of the Company shall be such amount as may be mentioned in Clause 5 of Memorandum of Association of the Company from time to time, with power to the Board, subject to applicable statutory provisions, to re-classify, sub-divide, consolidate or increase and with power from time to time, to issue any share of the original capital or any new capital with and subject to any preferential, qualified or special rights, privileges or conditions as may be thought fit and upon the sub-division of shares to apportion the right to participate in any manner as between the shares resulting from such sub-division.
6. The Company may in General Meeting or by Postal Ballot, from time to time, by Ordinary Resolution increase its capital by the creation of new shares, which may be classified or unclassified at the time of issue in one or more classes and of such amount or amounts as may be deemed expedient. Subject to the provisions of the Act, any shares of the original or increased capital shall be issued upon such terms and conditions and with such rights and privileges annexed thereto, as the General Meeting or by Postal Ballot resolving upon the creation thereof, shall direct, and if no direction be given, as the Board shall determine and in particular, such shares may be issued with a preferential or qualified right to dividends, and in the distribution of assets of the Company, and with a right of voting at General Meetings or by Postal Ballot of the Company in conformity with Section 47 of the Act. Whenever the capital of the Company has been increased under the provisions of this Article, the Directors shall comply with the provisions of Section 64 of the Act.
7. Except so far as otherwise provided by the conditions of issue or by these Articles, any capital raised by the creation of new Shares shall be considered as part of the existing capital and shall be subject to the provisions herein contained, with reference to the payment of calls and instalments, forfeiture, lien, surrender, transfer and transmission, voting and otherwise.
8. The Board shall have the power to issue a part of authorized capital by way of differential voting Shares at price(s) premium, dividends, eligibility, volume, quantum, proportion, and other terms and conditions as they deem fit, subject however to provisions of law, rules, regulations, notifications and enforceable guidelines for the time being in force.
9. Subject to the provisions of the Act and these Articles, the Company shall have the power to issue preference shares, either at premium or at par which are, or at the option of the Company are, a) liable to be redeemed and the resolution authorizing such issue shall prescribe the manner, terms and conditions of redemption or b) to be converted into equity shares on such terms and in such manner as the company before the issue of such shares may, determine.
10. The holder of Preference Shares shall have a right to vote only on Resolutions, which directly affect the rights attached to his Preference Shares.
11. In case of issue of redeemable preference shares in accordance with these Articles, the following provisions shall take effect:
 - a) No such Shares shall be redeemed except out of profits of which would otherwise be available for dividend or out of proceeds of a fresh issue of shares made for the purpose of the redemption;
 - b) No such Shares shall be redeemed unless they are fully paid;
 - c) Subject to section 55(2)(d)(i) of the Act, the premium, if any payable on redemption shall have been provided for out of the profits of the Company or out of the Company's security premium account, before the Shares are redeemed;
 - d) Where any such Shares are redeemed otherwise then out of the proceeds of a fresh issue, there shall out of profits which would otherwise have been available for dividend, be transferred to a reserve fund, to be called "the Capital Redemption Reserve Account", a sum equal to the nominal amount of the Shares redeemed, and the provisions of the Act relating to the reduction of the share capital of the Company shall, except as provided in Section 55 of the Act apply as if the Capital Redemption Reserve Account were paid-up share capital of the Company; and
 - e) Subject to the provisions of Section 55 of the Act, the redemption of preference shares hereunder may be effected in accordance with the terms and conditions of their issue and in the absence of any specific terms and

conditions in that behalf, in such manner as the Directors may think fit. The reduction of Preference Shares under the provisions by the Company shall not be taken as reducing the amount of its Authorized Share Capital.

12. The Company may (subject to the provisions of sections 52, 66 and other applicable provisions, if any, of the Act or any other section as notified) from time to time by Special Resolution reduce - (a) the share capital; (b) any capital redemption reserve account; or (c) any security premium account

In any manner for the time being, authorized by law and in particular capital may be paid off on the footing that it may be called up again or otherwise. This Article is not to derogate from any power the Company would have if it were omitted.

13. Any debentures, debenture-stock may be issued at a discount, premium or otherwise and may be issued on condition that they shall be convertible into shares of any denomination and with any privileges and conditions as to redemption, surrender, drawing, allotment of shares, attending (but not voting) at the General Meeting, the appointment of Directors and otherwise. Debentures with the right to conversion into or allotment of shares shall be issued only with the consent of the Company in the General Meeting by a Special Resolution.
14. The Company may exercise the powers of issuing sweat equity shares conferred by Section 54 of the Act of a class of shares already issued subject to such conditions as may be specified in the Act and Rules framed thereunder.
15. The Company may provide share-based benefits including but not limited to Stock Options, Stock Appreciation Rights, or any other co-investment share plan and other forms of share-based compensations to Employees including its Directors other than independent directors and such other persons as the rules may allow, under any scheme, subject to the provisions of the Act, the Rules made thereunder and any other law for the time being in force, by whatever name called.
16. Notwithstanding anything contained in these Articles but subject to and in full compliance of the requirements of sections 68 to 70 (both inclusive) and any other applicable provision of the Act and Rules made thereunder, provisions of any re-enactment thereof and any rules and regulations that may be prescribed by the Central Government, the Securities and Exchange Board of India (SEBI) or any other appropriate authority in this regard, the Company may with the authority of the Board or the members in General Meeting, as may be required / and contemplated by Section 68 of the Act, at any time and from time to time, authorize buy-back of any part of the share capital of the Company fully paid-up on that date.
17. Subject to the provisions of Section 61 of the Act, the Company in general meeting may, from time to time, sub-divide or consolidate all or any of the share capital into shares of larger amount than its existing share or sub-divide its shares, or any of them into shares of smaller amount than is fixed by the Memorandum; subject nevertheless, to the provisions of clause (d) of sub-section (1) of Section 61; Subject as aforesaid the Company in general meeting may also cancel shares which have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.
18. Subject to compliance with applicable provision of the Act and Rules framed thereunder and other applicable laws, the Company shall have power to issue depository receipts and other permissible securities in any foreign country and to seek listing thereof on any foreign stock exchange(s).
19. Subject to compliance with applicable provisions of the Act and Rules framed thereunder, the Company shall have power to issue any kind of securities or kinds of share capital as permitted to be issued under the Act and rules framed thereunder.
20. The Company may issue warrants subject to compliance with the provisions of the Act, the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 or any statutory modifications or re-enactment thereof and other applicable laws.

MODIFICATION OF CLASS RIGHTS

21. If at any time the share capital, by reason of the issue of Preference Shares or otherwise is divided into different classes of shares, all or any of the rights privileges attached to any class (unless otherwise provided by the terms of issue of the shares of the class) may, subject to the provisions of Section 48 of the Act and whether or not the Company is being wound-up, be varied, modified or dealt, with the consent in writing of the holders of not less than three-fourths of the issued shares of that class or with the sanction of a Special Resolution passed at a separate general meeting of the holders of the shares of that class. The provisions of these Articles relating to general meetings shall mutatis mutandis apply to every such separate class of meeting.

Provided that if variation by one class of shareholders affects the rights of any other class of shareholders, the consent of three-fourths of such other class of shareholders shall also be obtained and the provisions of this Article shall apply to such variation.

22. The rights conferred upon the holders of the Shares including Preference Share, if any, of any class issued with preferred or other rights or privileges shall, unless otherwise expressly provided by the terms of the issue of shares of that class, be deemed not to be modified, commuted, affected, abrogated, dealt with or varied by the creation or issue of further shares ranking pari-passu therewith.

23. Subject to the provisions of the Act and these Articles, the shares in the capital of the Company shall be under the control of the Board who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may from time to time think fit. The Board will have the authority to disallow the right to renounce right shares.

Provided that except with the sanction of the General Meeting, No option or right to call of shall be given to any person by the board.

25. The Company may issue securities in any manner whatsoever including by way of a preferential offer / private placement, to any persons whether or not those persons include the persons referred to in clause (a) or clause (b) of sub-section (1) of section 62 subject to compliance with section 42 and / or 62 of the Act and rules framed thereunder as amended from time to time.

26. The Board or the Company, as the case may be, may by way of rights issue or preferential offer or private placement or any other manner, subject to and in accordance with Act and the Rules, issue further shares to; (a) persons who, at the date of the offer, are holders of equity shares of the Company. Such offer shall, unless disallowed by the Board, be deemed to include a right exercisable by the person concerned to renounce the shares offered to him or any of them in favor of other person or; (b) employees under the employees' stock option or; (c) any person whether or not those persons include the persons referred to in clause (a) or clause (b) above;

27. The provisions of these Articles relating to share capital and variation of rights thereon shall mutatis mutandis apply to Debentures and other securities of the Company, as applicable.

28. The Board shall comply with such Rules or Regulations or Requirements of any stock exchange or the Rules made under Securities Contract (Regulations) Act, 1956 or any other Act or Rules applicable for the purpose of these Articles.

Provided that any restriction, condition or prohibition required to be included in the Articles of Association pursuant to any such Rules, Regulations or Requirements of any stock exchange or the Rules made under Securities Contract (Regulations) Act, 1956 or any other Act and which are not incorporated in these Articles shall be deemed have effect as if such restriction, condition or prohibition are expressly provided by or under these Articles.

29. The shares in the capital shall be numbered progressively according to their several denominations, and except in the manner hereinbefore mentioned no share shall be sub-divided. Every forfeited or surrendered share shall continue to bear the number by which the same was originally distinguished.

30. An application signed by or on behalf of an applicant for shares in the Company, followed by an allotment of any shares therein, shall be an acceptance of shares within the meaning of these Articles, and every person who thus or otherwise accepts any shares and whose name is on the Register shall for the purposes of these Articles, be a Member.

31. The money (if any) which the Board shall on the allotment of any shares being made by them, require or direct to be paid by way of deposit, call or otherwise, in respect of any shares allotted by them, shall immediately on the inscription of the name of the allottee in the Register of Members as the name of the holder of such shares, become a debt due to and recoverable by the Company from the allottee thereof, and shall be paid by him accordingly.

32. Every Member, or his heirs, executors, administrators, or legal representatives, shall pay to the Company the portion of the Capital represented by his share or shares which may, for the time being, remain unpaid thereon, in such amounts at such time or times, and in such manner as the Board shall, from time to time in accordance with the Company's regulations, require on date fixed for the payment thereof.

33. Shares may be registered in the name of individual, any limited company or other corporate body but not in the name of a firm, an insolvent person or a person of unsound mind.
34. The Board shall observe the restrictions as regards allotment of securities to the public, and as regards return on allotments contained in Section 39 of the Act.

DEMATERIALISATION AND CERTIFICATES

35. Subject to the provisions of the Act and Rules made thereunder the Company shall offer its members facility to hold securities issued by it in dematerialized form and will offer the Securities for subscription in dematerialized form pursuant to the Depositories Act, 1996 and the rules framed thereunder, if any, and the register and index of beneficial owners maintained by the relevant Depository under section 11 of the Depositories Act, 1996, shall be deemed to be the corresponding register and index maintained by the Company.

Notwithstanding anything contained herein, the Company shall be entitled to treat the person whose names appear in the register of members as a holder of any share or whose names appear as beneficial owners of shares in the records of the Depository, as the absolute owner thereof and accordingly shall not (except as ordered by a Court of competent jurisdiction or as required by law) be bound to recognise any benami trust or equity or equitable contingent or other claim to or interest in such share on the part of any other person whether or not it shall have express or implied notice thereof.

36. Unless otherwise permitted under the Act or the Depositories Act, 1996, The Company shall offer and allot, and every person subscribing to securities offered by the Company shall hold, the securities in dematerialised form with a Depository. The Company shall intimate such Depository the details of allotment of the security, and on receipt of the information, the Depository shall enter in the records the name of the allottee as the beneficial owner of the security. Such a person who is a beneficial owner of the securities can at any time opt out of a Depository, if permitted by the law, in respect of any security in the manner provided by the Depositories Act, 1996, and the Company shall, in the manner and within the time prescribed issue to the beneficial owner the required Certificates of Securities.
37. All securities held by a depository shall be dematerialized and be in fungible form. Nothing contained in Sections 89 and 90 and such other applicable provisions of the Act shall apply to a Depository in respect of the securities held by it on behalf of the beneficial owners.
38. (a) Notwithstanding anything to the contrary contained in the Act or these Articles, a Depository shall be deemed to be the registered owner for the purpose of effecting transfer of ownership of securities on behalf of the beneficial owner. (b) Save and otherwise provided above, the Depository as the registered owner of the securities shall not have any voting rights or any other rights in respect of the securities held by it. (c) Every person holding securities of the Company and whose name is entered as the beneficial owner in the records of the Depository shall be deemed to be a member of the Company. The beneficial owner of securities shall be entitled to all rights and benefits and be subject to all liabilities in respect of the securities held by a Depository on behalf of the beneficial owner.
39. Notwithstanding anything contained in these Articles, where securities issued by the Company are dealt with by a Depository, the Company shall intimate the details thereof to the Depository immediately on allotment of such securities.
40. Nothing contained in Section 45 of the Act or these Articles regarding the necessity of having distinctive numbers for securities issued by the Company, shall apply to securities held with a Depository.
41. a) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after allotment or within one month from the date of receipt by the Company of the application for the registration of transfer or transmission or within such other period as the conditions of issue shall provide – (i) one certificate for all his shares without payment of any charges; or (ii) several certificates, each for one or more of his shares, upon payment of Rs. 50 for every certificate or such charges as may be fixed by the Board for each certificate after the first. The charges can be waived off by the Company.
b) Every certificate of shares shall be either under the seal of the company or will be authenticated by (1) two Directors or persons acting on behalf of the Directors under a duly registered Power of Attorney and (2) the Secretary or some other person appointed by the Board for the purpose; a Director may sign a share certificate by affixing signature thereon by means of any machine, equipment or other mechanical means such as engraving in metal or lithography but not by means of rubber stamp and shall specify the number and distinctive numbers of shares in respect of which it is issued and amount paid-up thereon.
c) Any two or more joint allottees of shares shall, for the purpose of this Article, be treated as a single member, and the certificate of any shares which may be the subject of joint ownership, may be delivered to anyone of such joint

owners on behalf of all of them. For any further certificate the Board shall be entitled, but shall not be bound, to prescribe a charge not exceeding Rupees Fifty. The Company shall comply with the provisions of Section 46 of the Act.

42. Every certificate shall have distinctive number and shall be issued under the Seal, if any, and shall specify the shares to which it relates and the amount paid-up thereon and shall be in such form as may be prescribed and approved by the Board.
43. a) If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new Certificate may be issued in lieu thereof.
- b) If any certificate lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deems adequate and on payment of out of pocket expenses incurred by the company in investigating the evidence produced, being given, then only with the prior consent of the Board, a duplicate Certificate in lieu thereof shall be given to the party entitled to such lost or destroyed Certificate.
- c) Every Certificate shall be issued in such manner as prescribed under the Act or Rules framed thereunder or under other applicable laws applicable from time to time.
- d) Every Certificate under the Article shall be issued without payment of fees if the Directors so decide, or on payment of such fees (not exceeding Rupees Fifty for each certificate) as the Directors shall prescribe.
- e) The particulars of every renewed or duplicate share certificate issued shall be entered forthwith in a Register of Renewed and Duplicate Share Certificates maintained in prescribed format indicating against the name(s) of the person(s) to whom the certificate is issued, the number and date of issue of the share certificate in lieu of which the new certificate is issued, and the necessary changes indicated in the Register of Members by suitable cross-references in the "Remarks" column.
- f) Register shall be kept at the registered office of the company or at such other place where the Register of Members is kept or at other offices of the Company or at the office of Share Transfer Agent of the Company and it shall be preserved permanently and shall be kept in the custody of the company secretary of the company or any other person authorized by the Board for the purpose.
- g) All entries made in the Register of Renewed and Duplicate Share Certificates shall be authenticated by the company secretary or such other person as may be authorised by the Board for the purposes of sealing and signing the share certificate
- h) Provided that notwithstanding what is stated above the Directors shall comply with such Rules or Regulation or requirements of any Stock Exchange or the Rules made under the Act or the rules made under Securities Contracts (Regulation) Act, 1956, or any other Act, or rules applicable in this behalf.
- i) The provisions of this Article shall mutatis mutandis apply to debentures of the Company.
44. If any share stands in the names of two or more persons, the person first named in the Register shall as regard receipts of dividends or bonus or service of notices and all or any other matter connected with the Company except voting at meetings, and the transfer of the shares, be deemed sole holder thereof but the joint-holders of a share shall be severally as well as jointly liable for the payment of all calls and other payments due in respect of such share and for all incidentals thereof according to these articles and the terms of issue.
45. The Company shall not be bound to register more than three persons as the joint holders of any share.
46. Except as ordered by a Court of competent jurisdiction or as by law required, the Company shall not be bound to recognize (even when having notice thereof) any equitable, contingent, future or partial interest in any share or any interest in any fractional part of a share, or (except only as is by these Articles otherwise expressly provided or by law otherwise provided) any right in respect of a share other than an absolute right thereto, in accordance with these Articles, in the person from time to time registered as the holder thereof but the Board shall be at liberty at its sole discretion to register any share in the joint names of any two or more persons or the survivor or survivors of them.
47. Company shall not give whether directly or indirectly, by means of a loan, guarantee, the provision of security or otherwise, any financial assistance for or in connection with the purchase or subscription of any shares in the Company or in its holding Company, save as provided by Section 67 of the Act.
48. If by the conditions of allotment of any share the whole or part of the amount or issue price thereof shall be payable by instalment, every such instalment shall when due be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative.
49. If and whenever as a result of issue of new or further shares or any consolidation or sub-division of shares or

otherwise, any shares held by members become fractional shares, all such fractional entitlement shall, unless otherwise determined or approved the Board or shareholders of the Company, be consolidated into whole shares and be allotted to such person, persons or entities as may be nominated by the Board as trustee for sale thereof in open market through SEBI registered share broker at such price as may be approved by such Trustee(s) in this regard and the net proceeds of such sale shall be distributed to the persons entitled thereto in proportion to their respective fractional entitlement.

50. The Company shall, to the extent applicable, observe the provisions of Sections 89 and 90 of the Act and of other applicable laws dealing with beneficial interest in shares.

UNDERWRITING AND BROKERAGE

51. Subject to the provisions of Section 40(6) of the Act, the Company may at any time pay a commission to any person in consideration of his subscribing or agreeing to subscribe (whether absolutely or conditionally) for any securities in the Company, or procuring, or agreeing to procure subscriptions (whether absolutely or conditionally) for any securities in the Company but so that the commission shall not exceed the maximum rates laid down by the Act and the Rules made in that regard. Such commission may be satisfied by payment of cash or by allotment of fully or partly paid shares or partly in one way and partly in the other.
52. The Company may pay on any issue of securities such brokerage as may be reasonable and lawful.

CALLS

53. a) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board.
- b) A call may be made payable by installments.
- c) The option or right to call of shares shall not be given to any person except with the sanction of the Issuer in general meetings.
54. A call may be revoked or postponed at the discretion of the Board.
55. Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.
56. A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorizing such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.
57. Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.
58. The joint-holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
59. The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no member shall be entitled to such extension save as a matter of grace and favour.
60. If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding ten percent per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.
61. a) If by the terms of issue of any share or otherwise any amount is made payable at any fixed time (whether on account of the nominal value of the share or by way of premium) every such amount or installment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or installment accordingly.
- b) In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and

expenses, forfeiture or otherwise, shall apply mutatis mutandis as if such sum had become payable by virtue of a call duly made and notified.

62. On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, was on the Register of Members as the holder, on or subsequent to the date at which the money sought to be recovered is alleged to have become due, of the shares in respect of which such money is sought to be recovered; that such money is due pursuant to the terms on which the share was issued; that the resolution making the call was duly recorded in the minute book; and that notice of such call was duly given to the Member or his representatives sued in pursuance of these Articles; and it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board meeting at which any call was made nor that the meeting at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.
63. Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.
64. a) The Board may, if it thinks fit, receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the moneys so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at such rate as the member paying the sum in advance and the Board agree upon. The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' notice in writing; provided that moneys paid in advance of calls on shares may carry interest but shall not confer a right to dividend or to participate in profits.
- b) No Member paying any such sum in advance shall be entitled to voting rights in respect of the moneys so paid by him until the same would but for such payment become presently payable. The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.

LIEN

65. a) The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends, onuses or interest from time to time declared in respect of such shares/ debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. (b) The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.
66. a) For the purpose of enforcing such lien the Board may sell the shares subject thereto in such manner as they think fit but no sale shall be made unless a sum in respect of which the lien exists is presently payable and until notice in writing of the intention to sell shall have been served on such Member, his executors or administrators or his committee or other legal representatives as the case may be and default shall have been made by him or them in the payment of the sum payable as aforesaid for seven days after the date of such notice. (b) To give effect to any such sale the Board may authorize some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. (c) Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.
67. The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.

FORFEITURE AND SURRENDER OF SHARES

68. If any Member fails to pay the whole or any part of any call or instalment or any moneys due in respect of any shares

either by way of principal or interest on or before the day appointed for the payment of the same or any such extension thereof, the Directors may, at any time thereafter, during such time as the call or instalment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment.

69. a) The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid.
- b) The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or installment is payable will be liable to be forfeited.
70. If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.
71. When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or to make any such entry as aforesaid. Provided that option or right to call of forfeited shares shall not be given to any person.
72. Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.
73. Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, installments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate not exceeding two per cent per annum more than the bank lending rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so.
74. The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.
75. A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these Articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.
76. The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares.
77. Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new certificate or certificates in respect of the said shares to the person or persons entitled thereto.
78. In the meantime, and until any share so forfeited shall be sold, re-allotted or otherwise dealt with as aforesaid, the forfeiture thereof may at the discretion and by a resolution of the Board, be remitted or annulled as a matter of grace and favour but not as of right, upon such terms and conditions as they think fit.
79. Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been

entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.

80. The Directors may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Directors may think fit.

TRANSFER AND TRANSMISSION OF SHARES

81. In the case of transfer and transmission of shares or other marketable securities where the Company has not issued any certificates and where such shares or securities are being held in any electronic and fungible form in a Depository, the provisions of the Depositories Act, 1996 shall apply.

82. Every holder of securities of the Company who intends to transfer such securities shall get such securities dematerialised before the transfer;

Provided that, except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed by the Company unless the securities are held in the dematerialized form with a depository.

83. Nothing contained in Section 56 of the Act or these Articles shall apply to transfer of securities issued by the Company, affected by a transferor and transferee both of whom are entered as beneficial owners in the records of a Depository.

84. A transfer of a security in the Company of a deceased member thereof made by his legal representative shall, although the legal representative is not himself a member, be as valid as if he had been a member at the time of the execution to the instrument of transfer.

85. Subject to the provisions of Section 58 of the Act and Section 22A of the Securities Contracts (Regulation) Act, 1956, the Board may, at its own absolute and uncontrolled discretion and after assigning the reason for same, decline to register or acknowledge any transfer of shares, whether fully paid or not (notwithstanding that the proposed transferee be already a member), send to the transferee and the transferor notice of the refusal to register such transfer provided that registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except a lien on shares.

86. If the Company refuses to register the transfer of any share or transmission of any right therein, the Company shall within 30 days from the date on which the instrument of transfer or intimation of transmission was lodged with the Company, send notice of refusal to the transferee and transferor or to the person giving intimation of the transmission, as the case may be, and there upon the provisions of Section 56 of the Act or any statutory modification thereof for the time being in force shall apply.

87. There shall be paid to the Company, in respect of the transfer or transmission of any number of shares to the same party such fee, if any as the Directors may require. Provided that the Board shall have the power to dispense with the payment of this fee either generally or in any particular case.

88. The Board of Directors shall have power, on giving not less than seven days previous notice in accordance with section 91 and Rules made thereunder, to close the Register of Members and/or the Register of debentures holders and/or other security holders at such time or times and for such period or periods, not exceeding thirty days at a time, and not exceeding in the aggregate forty-five days in each year as it may seem expedient to the Board:

Nothing contained in this Article shall be deemed to restrict the Board to fix a record date in substitution of, or in addition to, the closure of Register of Members or debenture holder or other security holders as may be permissible under the provisions of the Act and other applicable laws.

89. In the case of the death of any one or more of the persons named in the Register of Members as the joint-holders of any share, the survivor or survivors shall be the only persons recognised by the Company as having any title to or interest in such share (b) Nothing in clause (a) above shall release the estate of the deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.

90. Before recognizing any executor or administrator or legal representative, the Board may require him to obtain a Grant of Probate or Letters Administration or other legal representation as the case may be, from some competent court in India. Provided nevertheless that in any case where the Board in its absolute discretion thinks fit, it shall be lawful for the Board to dispense with the production of Probate or letter of Administration or such other legal representation upon such terms as to indemnity or otherwise, as the Board in its absolute discretion, may consider adequate.

91. The Executors or Administrators of a deceased Member or holders of a Succession Certificate or the Legal Representatives in respect of the Shares of a deceased Member (not being one of two or more joint holders) shall be the only persons recognized by the Company as having any title to the Shares registered in the name of such Members, and the Company shall not be bound to recognize such Executors or Administrators or holders of Succession Certificate or the Legal Representative unless such Executors or Administrators or Legal Representative shall have first obtained Probate or Letters of Administration or Succession Certificate, as the case may be from a duly constituted Court in the Union of India provided that in any case where the Board of Directors in its absolute discretion thinks fit, the Board upon such terms as to indemnity or otherwise as the Directors may deem proper dispense with production of Probate or Letters of Administration or Succession Certificate and register Shares standing in the name of a deceased Member, as a Member. However, provisions of this Article are subject to Section 72 of the Act.
92. Subject to the provisions of the Act and these Articles, any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy, insolvency of any member or by any lawful means other than by a transfer in accordance with these Articles, may, with the consent of the Directors (which they shall not be under any obligation to give) upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of his title as the Director shall require either be registered as member in respect of such shares or elect to have some person nominated by him and approved by the Directors registered as Member in respect of such shares; provided nevertheless that if such person shall elect to have his nominee registered he shall testify his election by executing in favour of his nominee an instrument of transfer in accordance with the provisions as prescribed under Act and Rules, and, until he does so, he shall not be freed from any liability in respect of such shares. This clause is hereinafter referred to as the 'Transmission Clause'.
93. Subject to the provisions of the Act and these Articles, the Directors shall have the same right to refuse or suspend register a person entitled by the transmission to any shares or his nominee as if he were the transferee named in an ordinary transfer presented for registration.
94. Every transmission of a share shall be verified in such manner as the Directors may require and the Company may refuse to register any such transmission until the same be so verified or until or unless an indemnity be given to the Company with regard to such registration which the Directors at their discretion shall consider sufficient, provided nevertheless that there shall not be any obligation on the Company or the Directors to accept any indemnity.
95. The Company shall incur no liability or responsibility whatsoever in consequence of its registering or giving effect to any transfer of shares made, or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register or Members) to the prejudice of persons having or claiming any equitable right, title or interest to or in the same shares notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer, and may have entered such notice or referred thereto in any book of the Company and the Company shall not be bound or require to regard or attend or give effect to any notice which may be given to them of any equitable right, title or interest, or be under any liability whatsoever for refusing or neglecting so to do though it may have been entered or referred to in some book of the Company but the Company shall nevertheless be at liberty to regard and attend to any such notice and give effect thereto, if the Directors shall so think fit.
96. In the case of any share registered in any register maintained outside India the instrument of transfer shall be in a form recognized by the law of the place where the register is maintained but subject thereto shall be as near to the form prescribed in as prescribed under the relevant Rules hereof as circumstances permit.
97. No transfer shall be made to any minor, insolvent or person of unsound mind unless represented by a guardian.

NOMINATION

98. a) Notwithstanding anything contained in these Articles, every holder of securities of the Company may, at any time, nominate a person in whom his/her securities shall vest in the event of his/her death and the provisions of Section 72 of the Act, shall apply in respect of such nomination.
- b) No person shall be recognized by the Company as a nominee unless an intimation of the appointment of the said person as nominee has been given to the Company during the lifetime of the holder(s) of the securities of the Company in the manner specified under Section 72 of the Act, read with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014.
- c) The Company shall not be in any way responsible for transferring the securities consequent upon such nomination.
- d) If the holder(s) of the securities survive(s) nominee, then the nomination made by the holder(s) shall be of no effect and shall automatically stand revoked.

99. A nominee, upon production of such evidence as may be required by the Board and subject as hereinafter provided, elect, either-
- a) to be registered himself as holder of the security, as the case may be; or
 - b) to make such transfer of the security, as the case may be, as the deceased security holder, could have made;
 - c) if the nominee elects to be registered as holder of the security, himself, he shall deliver or send to the Company, a notice in writing signed by him stating that he so elects and such notice shall be accompanied with the death certificate of the deceased security holder;
 - d) a nominee shall be entitled to the same dividends and other advantages to which he would be entitled to, if he were the registered holder of the security except that he shall not, before being registered as a member in respect of his security, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company.

Provided further that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share or debenture, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable or rights accruing in respect of the share or debenture, until the requirements of the notice have been complied with.

CONVERSION OF SHARES INTO STOCK

100. The Company may, by ordinary resolution in General Meeting. (a) convert any fully paid-up shares into stock; and (b) re-convert any stock into fully paid-up shares of any denomination.
101. The holders of stock may transfer the same or any part thereof in the same manner as and subject to the same regulation under which the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit, provided that, the Board may, from time to time, fix the minimum amount of stock transferable so however that such minimum shall not exceed the nominal amount of the shares from which the stock arose.
102. The holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, participation in profits, voting at meetings of the Company, and other matters, as if they hold the shares for which the stock arose but no such privilege or advantage shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.
103. Such of the regulations of the Company (other than those relating to share warrants), as are applicable to paid-up share shall apply to stock and the words "share" and "shareholders" in those regulations shall include "stock" and "stockholders" respectively.

COPIES OF MEMORANDUM AND ARTICLES TO BE SENT TO MEMBERS

104. A copy of the Memorandum and Articles of Association of the Company and of any other document referred to in Section 17 of the Act shall be sent by the Company to a Member at his request on payment of Rs. 100 or such reasonable sum for each copy as the Directors may, from time to time, decide. The fees can be waived off by the Company.

BORROWING POWERS

105. Subject to the provisions of the Act and these Articles, the Board may, from time to time at its discretion, by a resolution passed at a meeting of the Board generally raise or borrow money by way of deposits, loans, overdrafts, cash creditor by issue of bonds, debentures or debenture-stock (perpetual or otherwise) or in any other manner, or from any person, firm, company, co-operative society, any body corporate, bank, institution, whether incorporated in India or abroad, Government or any authority or any other body for the purpose of the Company and may secure the payment of any sums of money so received, raised or borrowed; provided that the total amount borrowed by the Company (apart from temporary loans obtained from the Company's Bankers in the ordinary course of business) shall not without the consent of the Company in General Meeting exceed the aggregate of the paid up capital of the Company and its free reserves (that is to say reserves not set apart for any specified purpose) and securities premium account. Nevertheless, no lender or other person dealing with the Company shall be concerned to see or inquire whether this limit is observed.
106. Subject to the provisions of the Act and these Articles, any bonds, debentures, debenture-stock or any other securities may be issued at a discount, premium or otherwise and with any special privileges and conditions as to redemption,

surrender, allotment of shares, appointment of Directors or otherwise; provided that debentures with the right to allotment of or conversion into shares shall not be issued except with the sanction of the Company in General Meeting.

107. Subject to the provisions of these Articles the payment and/or repayment of moneys borrowed or raised as aforesaid or any moneys owing otherwise or debts due from the Company may be secured in such manner and upon such terms and conditions in all respects, as the Board may think fit by a resolution passed at a meeting of the Directors, and in particular by mortgage, charter, lien or any other security upon all or any of the assets or property (both present and future) or the undertaking of the Company including its uncalled capital for the time being, or by a guarantee by any Director, Government or third party, and the bonds, debentures and debenture stocks and other securities may be made assignable, free from equities between the Company and the person to whom the same may be issued and also by a similar mortgage, charge or lien to secure and guarantee, the performance by the Company or any other person or company of any obligation undertaken by the Company or any person or Company as the case may be.
108. Any bonds, debentures, debenture-stock, Global Depository Receipts or their securities issued or to be issued by the Company shall be under the control of the Board who may issue them upon such terms and conditions, and in such manner and for such consideration as they shall consider being for the benefit of the Company.
109. If any uncalled capital of the Company is included in or charged by any mortgage or other security the Directors shall subject to the provisions of the Act and these Articles make calls on the members in respect of such uncalled capital in trust for the person in whose favour such mortgage or security is executed.
110. Subject to the provisions of the Act and these Articles, if the Directors or any of them or any other person shall incur or be about to incur any liability whether as principal or surety for the payment of any sum primarily due from the Company, the Directors may execute or cause to be executed any mortgage, charge or security over or affecting the whole or any part of the assets of the Company by way of indemnity to secure the Directors or person so becoming liable as aforesaid from any loss in respect of such liability.
111. The Board shall cause a proper Register to be kept in accordance with the provisions of Section 85 of the Act of all mortgages, debentures and charges specifically affecting the property of the Company.
112. (a) The Company shall, if at any time it issues debentures, keep a Register and Index of Debenture holders in accordance with Section 88 of the Act. (b) The Company shall have the power to keep in any State or Country outside India a branch Register of Debenture holders resident in that State or country.
113. The Directors shall arrange to maintain at the Registered office of the Company a Register of Directors, Key Managerial Personnel, containing the particulars and in the form prescribed by Section 170 of the Act. It shall be the duty of every Director and other persons regarding whom particulars have to be maintained in such Registers to disclose to the Company any matters relating to himself as may be necessary to comply with the provisions of the said sections.

The Directors shall cause to be kept at the Registered Office or such other place(s) as permissible under the Act - (a) a Register in accordance with Section 170 and (b) a Register of Contracts or arrangements of which they are interested, containing the particulars required by Section 189 of the Act. The Registers can be maintained in electronic form subject to the provisions of the Act.
114. The provisions contained in these Articles relating to inspection and taking copies shall be mutatis mutandis be applicable to the registers specified in this Article.

MEETINGS OF MEMBERS / GENERAL MEETINGS

115. All the General Meetings of the Company other than Annual General Meetings shall be called Extra-ordinary General Meeting.
116. The Company shall in each financial year hold a General Meeting as its Annual General Meeting in addition to any other meetings in that year. The Annual General Meeting shall be held within a period of six months, from the date of closing of the financial year; provided that not more than fifteen months shall elapse between the date of one Annual General Meeting and that of the next. Nothing contained in the foregoing provisions shall be taken as affecting the right conferred on the Registrar under the provisions of Section 96 (1) of the Act to extend the time within which any Annual General Meeting may be held. Every Annual General Meeting shall be called during business hours on any day that is not a National Holiday and shall be held at the Registered Office of the Company or at some other place within the city, town or village where the Registered Office of the Company is situated and the Notices calling the Meeting shall specify it as the Annual General Meeting. Every Member of the Company shall be entitled to attend either in person or by proxy or by other authority including by resolution of the Board of

the Company or by power of attorney and the Auditor of the Company shall have the right to attend and to be heard at any General Meeting which he attends on any part of the business which concerns him as Auditor. At every Annual General Meeting of the Company there shall be laid on the table the Directors' Report and Financial Statements, Auditors' Report (if not already incorporated in the Financial Statements), the Proxy Register with proxies and the Register of Directors' shareholding which latter Register shall remain open and accessible during the continuance of the Meeting.

117. (a) The Directors may, whenever they think fit, convene an Extra-Ordinary General Meeting and they shall on requisition of Member or Members holding in the aggregate not less than one-tenth of such of the paid-up capital of the Company as at the date of deposit of the requisition carry the voting rights and in compliance with Section 100 of the Act, forthwith proceed to convene Extra-Ordinary General Meeting. (b) If at any time there are not within India sufficient Directors capable of acting to form a quorum, or if the number of Directors be reduced in number to less than the minimum number of Directors prescribed by these Articles and the continuing Directors fail or neglect to increase the number of Directors to that number or to convene a General Meeting, any Director or any two or more Members of the Company holding not less than one-tenth of the total paid up share capital of the Company may call for an Extra-Ordinary General Meeting in the same manner as nearly as possible as that in which meeting may be called by the Directors.
118. Any valid requisition so made by Members must state the object or objects of the meeting proposed to be called and must be signed by the requisitionists and be deposited at the Registered Office; provided that such requisition may consist of several documents in like form, each signed by one or more requisitionists.
119. Upon the receipt of any such requisition, the Board shall forthwith call an Extraordinary General Meeting, and if they do not proceed within twenty-one days from the date of the requisition being deposited at the Registered Office, to cause a meeting to be called for a day not later than forty-five days from the date of deposit of the requisition, meeting may be called and held by the requisitionists themselves within a period of three months from the date of the requisition.
120. Giving not less than clear twenty-one days' notice (either in writing or electronic mode) of every General Meeting, Annual or Extraordinary, specifying the place, date, day, hour, and the general nature of the business to be transacted thereat, shall be given in the manner hereinafter provided, to such persons, as given under Act, entitled to receive notice from the Company. A General Meeting may be called after giving shorter notice if consent is given in writing or by electronic mode a) in case of Annual General Meeting, by not less than ninety five percent of the members entitled to vote at such meeting and b) in case of any other General Meeting, by majority in number of members entitled to vote and who represent not less than ninety-five per cent. of such part of the paid-up share capital of the company as gives a right to vote at the meeting. In the case of an Annual General Meeting, if any business other than (i) the consideration of financial statements and the reports of the Board of Directors and auditors, (ii) the declaration of dividend, (iii) the appointment of Directors in place of those retiring, (iv) the appointment of, and fixing of the remuneration of, the Auditors is to be transacted, there shall be annexed to the notice of the Meeting a statement setting out all material facts concerning each such item of business, including in particular the nature or concern (financial or otherwise) and extent of the interest, if any, therein of every Director, Manager, Key Managerial Personnel, and their relatives (if any). Where any item of business consists of the approval of any document the time and place where the document can be inspected shall be specified in the statement aforesaid.
121. The accidental omission to give any such notice as aforesaid to any member, or other person to whom it should be given or the non-receipt thereof, shall not invalidate any resolution passed at any such Meeting.
122. No General Meeting, Annual or Extraordinary shall be competent to enter upon, discuss or transfer any business which has not been mentioned in the notice or notices upon which it was convened.
123. No business shall be transacted at any General Meeting, unless the requisite quorum is present at the time when the meeting proceeds to business. The quorum for a general meeting shall be the presence in person of such number of members as specified in Section 103 of the Act. A body corporate being a Member shall be deemed to be personally present if represented in accordance with Section 113 of the Act.
124. If, at the expiration of half an hour from the time appointed for the Meeting a quorum of Members is not be present, the Meeting, if convened by or upon the requisition of Members, shall be dissolved, but in any other case it shall stand adjourned to the same day in the next week or if that day is a public holiday until the next succeeding day which is not a public holiday, at the same time and place or to such other day and at such other time and place as the Board may determine; and if at such adjourned Meeting a quorum of Members is not present at the expiration of half an hour from the time appointed for the Meeting, those Members who are present shall be a quorum, and may, transact the business for which the Meeting was called.

125. The Chairperson of the Board shall be entitled to take the chair at every General Meeting, whether Annual or Extraordinary. If there be no such Chairperson, or if at any Meeting the Chairperson is not present within fifteen minutes of the time appointed for holding such Meeting or is unwilling to act as a Chairperson, then the Directors present shall elect one of them as Chairperson of the meeting, and if no Director be present or if all the Directors present decline to take the chair, then the Members present shall elect one of their number to be Chairperson.
126. No business, except the election of a Chairperson, shall be discussed at any General Meeting whilst the Chair is vacant.
127. (a) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place. (b) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. (c) When a meeting is adjourned sine die or for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting. (d) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.
128. In the case of an equality of votes the Chairperson shall on a poll (if any) and e-voting, have casting vote in addition to the vote or votes to which he may be entitled as a Member.
129. Unless a Poll is demanded or voting is carried out electronically, a declaration by the Chairperson that a resolution has, on a show of hands, been carried or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the books containing the minutes of the proceedings of the Company shall be conclusive evidence of the said fact, without proof of the number or proportion of the votes recorded in favour of or against such resolution.
130. The Board may in its absolute discretion, on giving not less than 7 (seven) clear days' notice in accordance with these Articles, postpone or cancel any meeting of members except a meeting called pursuant to members' requisition.
131. If a poll is demanded as aforesaid the same shall be taken in such manner as prescribed under the Act.
132. Any poll duly demanded on the election of Chairperson of the meeting or any question of adjournment shall be taken at the meeting forthwith.
133. The demand for a poll except on the question of the election of the Chairperson and of an adjournment shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.
134. The Board, and the persons authorized by it, shall have the right to take and/or make suitable arrangements for ensuring the safety of any meeting – whether a general meeting or a meeting of any class of Security, or of the persons attending the same, and for the orderly conduct of such meeting, and notwithstanding anything contained in these Articles, any action, taken pursuant to this Article in good faith shall be final and the right to attend and participate in such meeting shall be subject to the decision taken pursuant to this Article.
135. Pursuant to the applicable provisions of Companies Act, 2013 read with rules made thereunder and other applicable laws, rules & regulations the Company may provide e-Voting facility to Members.

VOTES OF MEMBERS

136. No Member shall be entitled to vote either personally or by proxy at any General Meeting or Meeting of a class of shareholders either upon a show of hands, upon a poll or electronically, or be reckoned in a quorum in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid or in regard to which the Company has exercised, any right or lien.
137. Subject to the provision of these Articles and without prejudice to any special privileges, or restrictions as to voting for the time being attached to any class of shares for the time being forming part of the capital of the company, every Member, not disqualified by the last preceding Article shall be entitled to be present, and to speak and to vote at such meeting, and on a show of hands every member present in person shall have one vote and upon a poll (including voting by electronic means) the voting right of every Member present in person or by proxy shall be in proportion to his share of the paid-up equity share capital of the Company, Provided, however, if any preference shareholder is present at any meeting of the Company, save as provided in sub-section (2) of Section 47 of the Act, he shall have a right to vote only on resolution placed before the meeting which directly affect the rights attached to his preference shares.
138. A Member of unsound mind, or in respect of whom an order has been made by any Court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll by his committee or other legal guardian: and any such committee or guardian may, on a poll, vote by proxy; if any Member be minor, the vote in respect of his share shall

be by his guardian, or any one of his guardians if more than one, to be selected in case of dispute by the Chairperson of the Meeting.

139. On a poll taken at a meeting of the Company a member entitled to more than one vote or his proxy or other person entitled to vote for him, as the case may be, need not, if he votes, use all his votes or cast in the same way all the votes he uses.
140. Where a poll is to be taken, the Chairperson of the meeting shall appoint such number of Scrutiniser(s) who need not be members of the Company, to scrutinize the poll process, votes casted by poll and to report thereon to him subject to provisions of Act for the time being in force. The Chairperson shall have power, at any time before the result of the Poll is declared to remove a scrutinizer from office and to fill vacancies in the office of scrutinizer arising from such removal or from any other cause.
141. Notwithstanding anything contained in the provisions of the Act and the Rules made there under, the Company may, and in the case of resolutions relating to such business other than the Ordinary business as may be prescribed by such authorities from time to time, declare to be conducted only by postal ballot, shall, get any such business/ resolutions passed by means of postal ballot, instead of transacting the business in the General Meeting of the Company.
- Provided that any item of business required to be transacted by means of postal ballot, may be transacted at a general meeting by providing facility to members to vote by electronic means under section 108, in the manner provided in that section.
142. A member may exercise his vote on resolutions proposed to be considered at a general meeting by electronic means in accordance with section 108 of the Act and shall vote only once.
143. a) If there be joint registered holders of any share any one of such persons may vote at any Meeting either personally or by proxy in respect of such shares, as if he were solely entitled thereto.
- b) If more than one of such joint holders be present at any Meeting either personally or by proxy, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders. If more than one of the said persons remain present than the senior shall alone be entitled to speak and to vote in respect of such shares, but the other or others of the joint holders shall be entitled to be present at the meeting. Several executors or administrators of a deceased Member in whose name share stands shall for the purpose of these Articles be deemed joint holders thereof.
- c) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.
144. Votes may be given either personally or by attorney or by proxy or in case of a company, by a representative duly Authorized by way of Board Resolution as mentioned in these Articles.
145. At any General Meeting, a resolution put to vote of the meeting shall, unless a poll is demanded under Section 109, or if the voting is carried out electronically, be decided on a show of hands. Such voting in a general meeting or by postal ballot shall also include electronic voting in a General Meeting or Postal Ballot as permitted by applicable laws from time to time.
146. A body corporate (whether a company within the meaning of the Act or not) may, if it is member or creditor of the Company (including being a holder of debentures or any other Securities) authorize such person by resolution of its Board of Directors, as it thinks fit, in accordance with the provisions of Section 113 of the Act to act as its representative at any Meeting of the members or creditors of the Company or debentures holders of the Company. A person authorized by resolution as aforesaid shall be entitled to exercise the same rights and powers (including the right to vote by proxy) on behalf of the body corporate as if it were an individual member, creditor or holder of debentures of the Company.
147. (a) A member paying the whole or a part of the amount remaining unpaid on any share held by him although no part of that amount has been called up, shall not be entitled to any voting rights in respect of the moneys paid until the same would, but for this payment, become presently payable. (b) A member is not prohibited from exercising his voting rights on the ground that he has not held his shares or interest in the Company for any specified period preceding the date on which the vote was taken.
148. Any person entitled under Article 92 (transmission clause) to transfer any share may vote at any General Meeting in respect thereof in the same manner as if he were the registered holder of such shares, provided that at least forty-eight hours before the time of holding the meeting or adjourned meeting, as the case may be at which he proposes to vote, he shall satisfy the Directors of his right to transfer such shares and give such indemnity (if any) as the Directors may require or the directors shall have previously admitted his right to vote at such meeting in respect thereof.

149. No Member shall be entitled to vote on a show of hands through Proxy unless such member is present personally or by attorney or is a body corporate present by a representative duly Authorized under the provisions of the Act in which case such members, attorney or representative may vote on a show of hands as if he were a Member of the Company. In the case of a Body Corporate the production at the meeting of a copy of such resolution duly signed by a Director or Secretary of such Body Corporate and certified by him as being a true copy of the resolution shall be accepted by the Company as sufficient evidence of the authority of the appointment.
150. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarized copy of that power or authority, shall be deposited at the registered office of the Company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
151. An instrument appointing a proxy shall be in the form as prescribed in the Rules made under section 105.
152. A vote given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the Member, or revocation of the proxy or of any power of attorney which such proxy signed, or the transfer of the share in respect of which the vote is given, provided that no intimation in writing of the death or insanity, revocation or transfer shall have been received at the office before the meeting or adjourned meeting at which the proxy is used.
153. An instrument of proxy may appoint a proxy either for the purpose of a particular meeting specified in the instrument and every adjournment thereof or every meeting of the Company or every meeting to be held before a date not being later than twelve months from the date of the instrument specified in the instrument and every adjournment of every such meeting.
154. No objection shall be made to the validity of any vote, except at the Meeting or poll at which such vote shall be tendered, and every vote, whether given personally or by proxy, not disallowed at such Meeting or poll shall be deemed valid for all purposes of such Meeting or poll whatsoever.
155. The Chairperson of any Meeting shall be the sole judge of the validity of every vote tendered at such Meeting. The Chairperson present at the taking of a poll shall be the sole judge of the validity of every vote tendered at such poll.
156. a) Every company shall cause minutes of the proceedings of every general meeting of any class of shareholders or creditors, and every resolution passed by postal ballot to be prepared and signed in such manner as may be prescribed and kept within thirty days of the conclusion of every such meeting concerned, or passing of resolution by postal ballot in books kept for that purpose with their pages consecutively numbered.
- b) The minutes of each meeting shall contain a fair and correct summary of the proceedings thereat.
- c) Each page of every such book shall be initialed or signed and the last page of the record of proceedings of each meeting or each report in such books shall be dated and signed by the Chairperson of the same meeting within the aforesaid period of thirty days or in the event of the death or inability of that Chairperson within that period, by a director duly authorised by the Board for the purpose. In case of every resolution passed by postal ballot, by the Chairperson of the Board within the aforesaid period of thirty days or in the event of there being no Chairperson of the Board or the death or inability of that Chairperson within that period, by a director duly authorized by the Board for the purpose.
- d) In no case shall the minutes of proceedings of a meeting be attached to any such book as aforesaid by pasting or otherwise.
- e) All appointments made at any of the meetings aforesaid shall be included in the minutes of the meeting.
- f) Nothing herein contained shall require or be deemed to require the inclusion in any such minutes of any matter which in the opinion of the Chairperson of the meeting. (i) is or could reasonably be regarded as, defamatory of any person, or (ii) is irrelevant or immaterial to the proceedings, or (iii) is detrimental to the interests of the Company The Chairperson of the meeting shall exercise an absolute discretion in regard to the inclusion or non-inclusion of any matter in the minutes on the aforesaid grounds.
- g) Any such minutes shall be evidence of the proceedings recorded therein.
- h) The book containing the minutes of proceedings of General Meetings or resolutions passed by Postal Ballot shall be kept at the office of the Company and shall be open to inspection by any member during business hours, for such periods not being less in the aggregate than two hours on all working days except Saturdays, Sunday and Public Holidays.

DIRECTORS

157. Until otherwise determined by a General Meeting of the Company and subject to the provisions of Section 149 of the Act, the number of Directors (including Debenture and Alternate Directors) shall not be less than three and not more than fifteen. Provided that a company may appoint more than fifteen directors after passing a special resolution.
158. The First Directors of the Company are:
1. Arun Kumar
 2. Sudhir Kumar
159. The Board shall arrange to maintain at the office of the Company, a Register in the Form prescribed under the Act, containing the particulars of the Directors and Key Managerial Personnel. It shall be the duty of every Director and other persons regarding whom particulars have to be maintained in such Registers to disclose to the Company any matters relating to himself as may be necessary to comply with the provisions of the Act.
160. A Director of the Company shall not be bound to hold any Qualification Shares in the Company.
161. a) Whenever the Company enters into a contract with any Government, Central, State or Local, any bank or financial institution or any person or persons (hereinafter referred to as "the appointer") for borrowing any money or for providing any guarantee or security or for technical collaboration or assistance or for under- writing, the Directors shall have, subject to the provisions of the Act and notwithstanding anything to the contrary contained in these Articles, the power to agree that such appointer, to appoint by a notice in writing addressed to the Company, one or more persons as a Director or Directors of the Company for such period and upon such conditions as may be mentioned in the agreement. Any Director so appointed is herein referred to as a Nominee Director.
- b. The Nominee Director/s so appointed shall not be required to hold any qualification shares in the Company nor shall be liable to retire by rotation. The Board of Directors of the Company shall have no power to remove from office the Nominee Director/s so appointed. The said Nominee Director/s shall be entitled to the same rights and privileges including receiving of notices, copies of the minutes, sitting fees, etc. as any other Director of the Company is entitled.
- c. If the Nominee Director/s is an officer of any of the financial institution the sitting fees in relation to such nominee Directors shall accrue to such financial institution and the same accordingly be paid by the Company to them. The Financial Institution shall be entitled to depute observer to attend the meetings of the Board, or any other Committee constituted by the Board.
- d. The Nominee Director/s shall, notwithstanding anything to the contrary contained in these Articles, be at liberty to disclose any information obtained by him/them to the Financial Institution appointing him/them as such Director/s.
162. If it is provided by the Trust Deed, securing or otherwise, in connection with any issue of debentures of the Company, that a trustee appointed under the Trust Deed shall have power to appoint a Director of the Company, then in the case of any and every such issue of debentures, the person or persons having such power may exercise such power from time to time and appoint a Director accordingly. Any Director so appointed is herein referred to as a Debenture Director. A Debenture Director may be removed from office at any time by the trustee in whom for the time being is vested the power under which he was appointed, and another Director may be appointed in his place. A debenture Director shall not be liable to retire by rotation. A debenture Director shall not be bound to hold any qualification shares.
163. The Directors shall appoint one women director as per the requirements of section 149 of the Act.
164. The Board may appoint an Alternate Director to act for a director (hereinafter called "The Original Director") during his absence for a period of not less than three months from India. An Alternate Director appointed under this Article shall not hold office for period longer than that permissible to the Original Director in whose place he has been appointed and shall vacate office if and when the Original Director returns to India. If the term of office of the Original Director is determined before he so returns to India, any provision in the Act or in these Articles for the automatic re-appointment of retiring Director in default of another appointment shall apply to the Original Director and not to the Alternate Director.
165. Subject to the provisions of the Act, the Board shall have power at any time and from time to time to appoint any other person to be an Additional Director but so that the total number of Directors shall not at any time exceed the maximum fixed under these Articles. Any such Additional Director shall hold office only up to the date of the next Annual General Meeting but shall be eligible for appointment by the Company as a Director at that Meeting subject to the provisions of the Act.
166. Subject to the provisions of the Act, the Board shall have power at any time and from time to time to appoint a Director, whose appointment shall be subsequently approved by members in the immediate next general meeting, if the office of any director appointed by the company in general meeting is vacated before his term of office expires

in the normal course, who shall hold office only up to the date up to which the Director in whose place he is appointed would have held office if it had not been vacated by him.

167. The Company shall appoint such number of Independent Directors as it may deem fit, for a term specified in the resolution appointing him. An Independent Director may be appointed to hold office for a term of up to five consecutive years on the Board of the Company and shall be eligible for re-appointment on passing of Special Resolution and such other compliances as may be required in this regard. No Independent Director shall hold office for more than two consecutive terms. The provisions relating to retirement of directors by rotation shall not be applicable to appointment of Independent Directors.
168. The Company, subject to the provisions of the Act, shall have the power to determine the Directors whose period of office shall be liable to determination by retirement of Directors by rotation or not.
169. Until otherwise determined by the Company in General Meeting, each Director other than the Managing/Whole-time Director (unless otherwise specifically provided for) shall be entitled to sitting fees not exceeding a sum prescribed in the Act (as may be amended from time to time) for attending meetings of the Board provided that Independent Directors and Women Directors, the sitting fee shall not be less than the sitting fee payable to other directors.
170. The Board of Directors may subject to the limitations provided in the Act allow and pay to any Director who attends a meeting at a place other than his usual place of residence for the purpose of attending a meeting, such sum as the Board may consider fair, compensation for travelling, hotel and other incidental expenses properly incurred by him, in addition to his fee for attending such meeting as above specified.
171. Any one or more of the Directors shall be paid such additional remuneration as may be fixed by the Directors for services rendered by him or them and any one or more of the Directors shall be paid further remuneration if any as the Company in General Meeting or the Board of Directors, as the case may be, shall from time to time determine. Such remuneration and/or additional remuneration may be paid by way of salary or commission on net profits or turnover or by participation in profits or by way of perquisites or in any other manner or by any or all of those modes.

If any director, being willing shall be called upon to perform extra services, or to make any special exertion for any of the purposes of the Company, the Company in General Meeting or the Board of Directors shall, subject as aforesaid, remunerate such Director or where there is more than one such Director all or such of them together either by a fixed sum or by a percentage of profits or in any other manner as may be determined by the Directors and such remuneration may be either in addition to or in substitution for the remuneration above provided.
172. The office of a Director shall be deemed to be vacated in accordance with Section 167 of the Act.
173. The Company may by an ordinary resolution remove any Director (not being a Director appointed by the Tribunal in pursuance of Section 242 of the Act) in accordance with the provisions of Section 169 of the Act. A Director so removed shall not be re-appointed a Director by the Board of Directors.
174. Subject to the provisions of Section 168 of the Act a Director may at any time resign from his office upon giving notice in writing to the Company of his intention so to do, and thereupon his office shall be vacated.

PROCEEDING OF THE BOARD OF DIRECTORS

175. (a) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings as it thinks fit. (b) The Chairperson or any one Director with the previous consent of the Chairperson may, or the Company Secretary on the direction of the Chairperson shall, at any time, summon a meeting of the Board.
176. The Board of Directors shall be entitled to hold its meeting through video conferencing or other permitted means, and in conducting the Board meetings through such video conferencing or other permitted means the procedures and the precautions as laid down in the relevant Rules shall be adhered to. With regard to every meeting conducted through video conferencing or other permitted means, the scheduled venue of the meetings shall be deemed to be in India, for the purpose of specifying the place of the said meeting and for all recordings of the proceedings at the meeting.
177. Subject to provisions of Section 173(3) of the Act, notice of not less than seven days of every meeting of the Board of Directors of the Company shall be given in writing to every Director at his address registered with the company and shall be sent by hand delivery or by post or through electronic means. The meeting of the Board may be called at a shorter notice to transact urgent business subject to the condition that at least one Independent Director of the Company shall be present at the meeting. In the event, any Independent Director is not present at the meeting called at shorter notice, the decision taken at such meeting shall be circulated to all the directors and shall be final only on

ratification thereof by at least one Independent Director.

178. The quorum for a meeting of the Board shall, unless otherwise provided under the Act or other applicable laws such as, including but not limited to Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, be one-third of its total strength (any fraction contained in that one third being rounded off as one), or two directors whichever is higher and the directors participating by video conferencing or by other permitted means shall also counted for the purposes of this Article. Provided that where at any time the number of interested Directors exceeds or is equal to two-thirds of the total strength, the number of the remaining Directors, that is to say, the number of the Directors who are not interested, being not less than two, shall be the quorum during such time. Explanation: The expressions “interested Director” shall have the meanings given in Section 184(2) of the said Act and the expression “total strength” shall have the meaning as given in Section 174 of the Act.
179. (a) The Directors may from time to time elect from among their members a Chairperson of the Board and determine the period for which he is to hold office. If at any meeting of the Board, the Chairperson is not present within fifteen minutes after the time appointed for holding the same, the Directors present may choose one of the Directors then present to preside at the meeting. (b) Subject to Section 203 of the Act and rules made there under and other applicable laws, one person can act as the Chairperson as well as the Managing Director or Whole-time Director or Chief Executive Officer at the same time.
180. (a) The Board shall be entitled to appoint any person who has rendered significant or distinguished services to the Company or to the industry to which the Company's business relates or in the public field, as the Chairman Emeritus of the Company. (b) The Chairman Emeritus shall hold office until he resigns his office or a special resolution to that effect is passed by the members in a general meeting. (c) The Chairman Emeritus may attend any meetings of the Board or Committee thereof but shall not have any right to vote and shall not be deemed to be a party to any decision of the Board or Committee thereof. (d) The Chairman Emeritus shall not be deemed to be a director for any purposes of the Act or any other statute or rules made there under or these Articles including for the purpose of determining the maximum number of Directors which the Company can appoint. (e) The Board may decide to make any payment in any manner for any services rendered by the Chairman Emeritus to the Company. (f) If at any time the Chairman Emeritus is appointed as a Director of the Company, he may, at his discretion, retain the title of the Chairman Emeritus.”
181. Questions arising at any meeting of the Board of Directors shall be decided by a majority of votes and in the case of an equality of votes, the Chairperson will have a second or casting vote.
182. The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the company, but for no other purpose.
183. Subject to the provisions of the Act, the Board may delegate any of their powers to a Committee consisting of such member or members of its body as it thinks fit, and it may from time to time revoke and discharge any such committee either wholly or in part and either as to person, or purposes, but every Committee so formed shall in the exercise of the powers so delegated conform to any regulations that may from time to time be imposed on it by the Board. All acts done by any such Committee in conformity with such regulations and in fulfilment of the purposes of their appointment but not otherwise, shall have the like force and effect as if done by the Board.
184. The Meetings and proceedings of any such Committee of the Board consisting of two or more members shall be governed by the provisions herein contained for regulating the meetings and proceedings of the Directors so far as the same are applicable thereto and are not superseded by any regulations made by the Directors under the last preceding Article.
185. (a) A committee may elect a chairperson of its meetings. (b) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within fifteen minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.
186. (a) A committee may meet and adjourn as it thinks fit. (b) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.
187. The Company may take and maintain any insurance as the Board may think fit on behalf of its directors (present and former), other employees and the Key Managerial Personnel, for insurers to directly meet all claims, losses, expenses, fines, penalties or such other levies, or for indemnifying any or all of them against any such liability for any acts in relation to the Company for which they may be liable.

224. Subject to the provisions of the Act, no Director, Managing Director or other officer of the Company shall be liable for the acts, receipts, neglects or defaults of any other Directors or Officer, or for joining in any receipt or other act for conformity, or for any loss or expense happening to the Company through insufficiency or deficiency of title to any property acquired by order of the Directors for or on behalf of the Company or for the insufficiency or deficiency of any security in or upon which any of the moneys of the Company shall be invested, or for any loss or damage arising from the bankruptcy, insolvency or tortuous act of any person, company or corporation, with whom any moneys, securities or effects shall be entrusted or deposited, or for any loss occasioned by any error of judgment or oversight on his part, or for any other loss or damage or misfortune whatever which shall happen in the execution of the duties of his office or in relation thereto, unless the same happens through his own dishonesty.

An Independent Director, and a Non-executive Director, not being a Promoter or a Key Managerial Personnel, shall be liable only in respect of acts of omission or commission, by the Company which had occurred with his knowledge, attributable through Board processes, and with his consent or connivance or where he has not acted diligently.

SECRECY

225. Every Director, Manager, Auditor, Treasurer, Trustee, Member of a Committee, Officer, Servant, Agent, Accountant or other person employed in the business of the company shall, if so required by the Directors, before entering upon his duties, sign a declaration pleading himself to observe strict secrecy respecting all transactions and affairs of the Company with the customers and the state of the accounts with individuals and in matters relating thereto, and shall by such declaration pledge himself not to reveal any of the matter which may come to his knowledge in the discharge of his duties except when required so to do by the Directors or by any meeting or by a Court of Law and except so far as may be necessary in order to comply with any of the provisions in these presents contained.
226. No member or other person (other than a Director) shall be entitled to enter the property of the Company or to inspect or examine the Company's premises or properties or the books of accounts of the Company without the permission of the Board of Directors of the Company for the time being or to require discovery of or any information in respect of any detail of the Company's trading or any matter which is or may be in the nature of trade secret, mystery of trade or secret process or of any matter whatsoever which may relate to the conduct of the business of the Company and which in the opinion of the Board it will be inexpedient in the interest of the Company to disclose or to communicate.

INSPECTION AND EXTRACT OF DOCUMENTS

227. Subject to provisions of the Act and other applicable laws and of these Articles, the Company may allow the inspection of documents, register and returns maintained under the Act to members, creditors and such other persons as are permitted subject to such restrictions as the Board may prescribe and also furnish extract of documents, registers and returns to such persons as are permitted to obtain the same on payment of such fees as may be decided by Board which shall, in no case, exceed the limits prescribed under the Act.
